Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Central Cadillac Limited Employees' Profit Sharing Retirement Plan and Trust, which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note B, which was certified by The Principal Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2015 and 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of delinquent participant contributions and assets held at the end of the year are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Central Cadillac Limited
Employees' Profit Sharing Retirement Plan and Trust
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

NOTE A – DESCRIPTION OF PLAN

The following description of the Central Cadillac Limited Employees' Profit Sharing Retirement Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, which provides retirement and disability benefits to substantially all hourly and salaried employees of Central Cadillac Limited who have completed at least 30 days of service. The Plan includes a 401(k) provision for all eligible employees. The Principal Trust Company ("Principal") is the trustee to the Plan. The Plan was amended effective April 1, 2015. Accordingly, the description of the Plan is representative of this amendment.

Funding

The Plan is funded by participant contributions. Each eligible participant may elect to have up to 50% of his or her pre-tax salary contributed to the Plan subject to certain dollar limitations established by the Internal Revenue Service Code Section 402(g). Roth elective deferrals, in which current income tax is paid on the deferral contribution, are also permitted. The Company may elect to make discretionary matching contributions to the Plan. All investments are participant directed.

Participant's Accounts

A separate account is maintained for each participant to record the appropriate amount of contributions, forfeitures and net investment income.

Plan forfeitures are allocated to each active participant's account based upon the percentage of an individual's compensation to total compensation, as defined by the Plan document. Any voluntary contribution by an eligible participant is allocated to the participant's account in accordance with their investment elections and is fully vested.

Realized gains and losses on investment transactions and unrealized appreciation or depreciation of total fund assets are allocated to participants based upon the ratio of the participant's beginning account balance to the total aggregate participants balance adjusted for forfeitures and withdrawals.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$-0- and \$470, respectively. These accounts were allocated to each active participant's account based upon the percentage of the individual's compensation to total compensation, or utilized to offset employer matching contributions, as defined by the plan document.

Payments of Benefits

Benefits are payable in an amount equal to the value of the participant's vested interest in his or her account, either in a lump-sum payment or in a direct rollover to an IRA or other employer plan.

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum of equal to the lesser of 50% of the vested balance of their account or \$50,000, reduced by any outstanding loan balance. The receivables are secured by the balance in the participant's account and must bear interest at the prime rate plus 2%. During 2015 and 2014, all of the notes had fixed rates of 5.25% for the term of the note. Principal and interest may be paid through payroll deductions or by check.

NOTE A – DESCRIPTION OF PLAN (continued)

Vesting

In the event of termination of employment other than for normal retirement, death or disability, the participant shall have a vested right in the entire current value of the participant's voluntary contributions, and in part or all of the participant's share of the current value of the Company contributions from the Companies determined as follows:

<u>Years of Vested Service</u>	<u>Percentage</u>
Less than two	0%
Two but less than three	20%
Three but less than four	40%
Four but less than five	60%
Five but less than six	80%
Six or more	100%

Plan Administration

The Plan is administered by an Administrative Committee appointed by the Boards of Directors of the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of Employee Retirement Income Security Act of 1974 ("ERISA"). Upon termination of the Plan, the accounts of each participant shall become fully vested and may be distributed immediately in whole or in part on direction of the Administrative Committee.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Adoption of New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)" ("ASU 2015-07"), which removes the requirement to present certain investments for which the practical expedient is used to measure fair value at net asset value within the fair value hierarchy table. Instead, an entity would be required to include those investments as a reconciling item so that the total fair value amount of investments in the disclosure is consistent with the fair value investment balance on the statement of net assets available for benefits. The Plan elected to early adopt ASU 2015-07 as of December 31, 2015, as permitted, and has applied ASU 2015-07 retrospectively as required.

In July 2015, the FASB issued ASU No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965); (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient," ("ASU 2015-12"), which simplifies the required disclosures related to employee benefit plans. Part I eliminates the requirement to measure and disclose the fair value of fully benefit-responsive contracts; contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirement to disclose individual investments which comprise 5% or more of total net assets

available for benefits, as well as the net appreciation or depreciation of fair values by type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Furthermore, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015 with early adoption permitted. The Plan elected to early-adopt ASU 2015-12, and has applied the provisions retrospectively. The adoption of ASU 2015-12 has resulted in the reclassification of \$13,321 related to the adjustment from fair value to contract value for a fully benefit-responsive common collective trust fund within its Statement of Net Assets Available for Benefits as of December 31, 2014. Certain disclosures that are no longer required were removed, including historical disclosure of individual investments which comprise 5% or more of total net assets available for benefits and the net appreciation or depreciation of fair value by type.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Pooled separate accounts represent contributions invested in pools of domestic and international common stocks, high-quality short-term debt securities, real estate, private market bonds and mortgages, and high-yield fixed-income securities which are slightly below investment grade, all of which are valued at fair value

Certification

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2015 and 2014 and net change in investment income and expenses for the years ended December 31, 2015 and 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan's trustee.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Accounting standards require that participant loans be classified as notes receivable from participants in the accompanying financial statements; however, the Department of Labor requires these to be classified as investments on the Form 5500 and on the schedule of assets (held at end of year).

NOTE B – SIGNIFICANT ACCOUNTING POLICIES (continued)

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Central Cadillac Limited (the Company) absorbs the cost of administrative expenses, except for the Trustee's and other legal and professional fees, which are paid from the Plan.

NOTE C – INVESTMENT CONTRACTS

Union Bond and Trust Company Principal Stable Value Fund

During 2014, the Plan invested in the Union Bond and Trust Company Principal Stable Value Fund (the "Stable Value Fund"), which is a common/collective investment trust. The objective of the Stable Value Fund is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology and conservative investment risk. At December 31, 2015 the Plan's investment in the Stable Value Fund had a fair value of \$1,197,843 and contract value of \$1,194,695. At December 31, 2014 the Plan's investment in the Stable Value Fund had a fair value of \$1,266,810 and contract value of \$1,253,489. The Stable Value Fund invests in guaranteed investment contracts ("GICs") and conventional, synthetic and separate account investment contracts (collectively "contracts") issued by life insurance companies, banks and other financial institutions. Characteristics of these contracts allow for their principal value to remain stable regardless of the volatility of the financial markets.

At December 31, 2015 and 2014, all investment contracts held by the Fund were deemed fully benefit-responsive within the meaning of ASC 946-210. Contract value represents invested principal plus accrued interest thereon. As described in Note B, because the Stable Value Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Stable Value Fund. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

GIC contracts are typically issued with a fixed crediting rate and a fixed maturity date that does not change over the life of the contract. Synthetic contracts typically reset on a monthly or quarterly basis as negotiated with the wrap issuer and do not have a final stated maturity date. The synthetic investment contracts in this Stable Value Fund are predominately reset on a monthly basis based on a formula agreed upon with the issuer with a one-month look back for the portfolio statistics. The synthetic investment contracts issuer guarantees a minimum 0% crediting rate although a wrap does not absorb any loss for credit defaults in an underlying portfolio.

Market value events may limit the ability of the Stable Value Fund to transact at contract value with the issuer. Such events may include, but are not limited to: amendment or change of administration of the Stable Value Fund, merger or consolidation of investors, group terminations or layoffs, implementation of an early retirement program, termination or partial termination of the Stable Value Fund, failure to meet certain tax qualifications, participant communication that is designed to influence participants not to invest in the Stable Value Fund, transfers to competing options without meeting the equity wash provisions of the Stable Value Fund, and plan sponsor withdrawals without the appropriate notice to the Stable Value Fund and/or issuer.

In the normal course of business, such events or conditions would not limit the ability of the Stable Value Fund to transact at contract value with the participants in the Stable Value Fund. The Fund is managed to maintain a

NOTE C – INVESTMENT CONTRACTS (continued)

certain amount of liquidity to provide for the day-to-day liquidity needs of participants as well as the occasional market value event.

An issuer can terminate an investment contract upon the event of default by the contract holder, advisor or trustee if the issuer determines such an event has had, or is likely to have, a material adverse effect on the issuer's interest with respect to the contract.

NOTE D – FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities. Level 1 assets primarily include exchange traded equity securities, mutual funds and U.S. Treasury bonds. Prices are obtained from readily available sources for market transactions involving identical assets and liabilities.

Fair values for Level 2 inputs are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly.

Observable inputs include quoted market prices in active markets for similar assets, quoted prices in markets that are not active for identical or similar assets and other market observable inputs such as interest rate, credit spread and foreign currency exchange rates observable in the marketplace or derived from market transactions. Level 2 assets primarily includes fixed maturity securities (including public and private bonds), equity securities, over-the-counter derivatives, group annuity contracts, pooled separate accounts and other investments. These fair values are generally obtained from third-party pricing services or determined through the use of valuation models or methodologies, including matrix pricing, using substantially all observable inputs. Prices are validated through an investment analyst review process including direct interaction with external sources, recent trade activity or through use of internal models.

Level 3 fair values are based on at least one significant unobservable input for the asset. Level 3 securities contain unobservable market inputs and as a result considerable judgment may be used in determining the fair values. Level 3 assets include certain fixed maturity securities, private equity securities, participant loans and complex derivatives. These fair values are generally obtained through the use of valuation models or methodologies using significant unobservable inputs or broker quotes. In circumstances where broker quotes are used to value an instrument, a nonbinding quote is generally received. Broker quotes are validated through an investment analyst review process, including direct interaction with external sources, through the use of internal models or other relevant information.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

NOTE D – FAIR VALUE MEASUREMENTS (continued)

Pooled separate accounts: Net asset value (NAV) of each of the separate accounts is calculated in a manner consistent with U.S. GAAP for investment companies and is determinative of their fair value and represents the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. The fair value of the underlying mutual funds or stock is used to determine the NAV of the separate account, which is not publicly quoted. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying securities is based on quoted prices of similar assets and used to determine the NAV of the separate account. One separate account invests in real estate, for which the fair value of the underlying real estate is based on unobservable inputs and used to determine the NAV of the separate account. The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates and discount rates. In addition, each property is appraised annually by an independent appraiser.

Common/collective fund: Valued based on the fair value of the common/collective trust fund's underlying investments as based on information reported by the investment advisor using the audited financial statements or daily reported NAV of the common/collective trust fund at year-end. This fund contains synthetic investment contracts that comprise underlying investment and contractual components which have observable level 1 or level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with GAAP, investments measured at net asset value as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the following tables are intended to permit reconciliation to the amounts presented in the Statements of Net Assets Available for Benefits.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

NOTE E – TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2014, indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE F – RISKS AND UNCERTAINTIES

The Plan provides various investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE G – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Principal Financial Group. The Principal Trust Company is a member of Principal Financial Group, therefore these transactions qualify as party-in-interest transactions. In addition, the Plan allows participants to borrow against their account balances. These transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$2,645 and \$2,530 for the years ended December 31, 2015 and 2014, respectively.
