Report on the Financial Statements

We have audited the accompanying financial statements of JB&A, Inc. Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015 in accordance with accounting principles generally accepted in the United States of America.

Other Matter - Supplemental Schedule

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

JB&A, Inc. Employee Stock Ownership Plan

Notes to the Financial Statements

1. Description of the Plan

The following description of the JB&A, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document and any amendments thereto for a more complete description of the Plan's provisions.

General

JB&A, Inc. (the Company) established the Plan effective January 1, 2001 as a stock bonus plan and an employee stock ownership plan (ESOP). The Plan was designed to comply with Sections 401(a) and 4975(e)(7) and the regulations under the Internal Revenue Code of 1986, as amended (the Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by a Trustee appointed by the Company's Board of Directors.

On May 31, 2011, JB&A, Inc. sold its net assets and rights and interest to all its contracts to a third party entity. The Company continues to exist, as a separate legal entity, but all Company employees were terminated as of this date. Following the sale, the Plan Trustees froze the activities of the Plan and no contributions and no new participants were added to the Plan after that date.

All of the Plan's shares of the JB&A common stock were redeemed by the Company as of the effective date of the sale and the ESOP feature of the Plan ceased to exist. The Plan will operate as a profit sharing plan until Board of Directors' approval for termination. The Plan remains subject to the applicable provisions of ERISA.

Cash Equivalents

The Company considers all highly-liquid instruments with original maturities of three months or less to be cash equivalents.

Eligibility

Because the Plan was frozen, no new participants were added to the Plan after May 31, 2011. Prior to May 31, 2011, each employee of the Company who was at least 21 years of age and completed at least 1,000 hours of service within a 12-consecutive-month eligibility computation period was eligible to participate in the Plan.

Payments of Benefits

Prior to May 31, 2011, distributions from the Plan were made only upon a participant's retirement, disability, death (in which case payment shall be made to his or her beneficiary), or termination of employment with the Company. Due to the sale, all participants on record as of May 31, 2011 will receive a distribution equal to their fully vested equity balance as of this date. Distributions are made in the form of cash.

Termination of the Plan

Although management has not expressed any intent to do so through the report date, the Company and/or the Plan Trustees reserve the right to terminate the Plan at any time upon

JB&A, Inc. Employee Stock Ownership Plan

Notes to the Financial Statements

approval by the Board of Directors, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code.

Forfeitures

Prior to May 31, 2011, forfeitures of ESOP contributions were reallocated to remaining participant accounts as part of the annual allocation as of the last valuation date of the Plan year in which the forfeiture occurs. Any portion of the final balance in a participant's account which was not vested was forfeited. If an employee's participation in the Plan was subsequently reinstated, and there had not been a five-year break in service, his or her account was restored with the previously forfeited share. As a result of the sale, all unvested accounts became fully vested as of May 31, 2011. For the years ended December 31, 2015 and 2014, the Plan generated and reallocated no forfeitures. There is no forfeiture balance outstanding at December 31, 2015 and 2014.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Prior to May 31, 2011, each participant's account was credited as of the last day of each Plan year with an allocation of shares of the Company's common stock, cash and cash equivalents, and certificates of deposit released by the Trustee from the unallocated account, forfeitures of terminated participants' non-vested accounts, and Plan interest and dividends. Only those participants who were eligible employees of the Company as of the last day of the Plan year received an allocation. Allocations are based on participant compensation or account balances, as defined. Each participant's account was also reduced for any distributions made or received by the participant.

On May 31, 2011, the shares previously owned by the Plan were redeemed by the Company. Participant accounts continue to be allocated with the proportional share in gains and losses from the Plan's investments and reduced by the distributions received.

Vesting

As a result of the sale, all actively employed participants or those that were terminated within five years before May 31, 2011 became 100% vested in their accounts. Prior to May 31, 2011, the allocated shares of the Company's stock and other benefits vested either after one year of continuous service, or ratably over five-years, depending on the timing of when the participant became eligible to participate in the Plan. In addition, a participant became fully vested upon early retirement at age 60, disability, or death.

Voting Rights

Prior to the sale, the Trustees were entitled to exercise voting rights for all shares under the trust except for sale, merger and acquisition, consolidation, recapitalization, reclassification, liquidation, and dissolution.

JB&A, Inc. Employee Stock Ownership Plan

Notes to the Financial Statements

Put Option

Prior to May 31, 2011, the Plan included a put option which required the Company to buy any shares of its stock distributed to participants for which there is no market. The Company could pay for the purchase with interest over a period of five years, with certain adjustments, as defined by the Plan.

As of May 31, 2011, all the shares previously owned or allotted to the Plan were redeemed by the Company.

Diversification

Prior to the sale, diversification was offered to participants who were at least age 55 and had completed at least ten years of participation in the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from estimated amounts.

Cash and Cash Equivalents

The Plan considers all highly liquid instruments with original maturities of three months or less to be cash equivalents.

Certificate of Deposit

The Plan's certificate of deposit is carried at cost, which approximates fair market value.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at measurement date. See Note 3 for further information related to fair value measurements.

Purchases and sales of securities are recognized principally on a trade-date basis. Interest income is recorded on the accrual basis. Interest is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

JB&A, Inc. Employee Stock Ownership Plan

Notes to the Financial Statements

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Recently Adopted Authoritative Guidance

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early. Other than the elimination of the abovementioned information in the disclosures to the financial statements, the adoption of this guidance did not have a material effect on the Plan's financial statements.

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. For employee benefit plans, ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. The Plan has elected to early adopt ASU 2015-07, and the adoption of this guidance did not have a material effect on the Plan's financial statements.

Reclassifications

Certain items in the statements of net assets available for benefits as of December 31, 2014 have been reclassified, with no effect on net assets available for benefits, to be consistent with the classifications adopted as of December 31, 2015.

JB&A, Inc. Employee Stock Ownership Plan

Notes to the Financial Statements

3. Fair Value Measurements

Accounting Standards Codification (ASC) 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value and maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring the use of observable inputs when available. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Certificates of deposit: Valued based on a yield-based matrix system to arrive at fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value measurement at the reporting date.

Notes to the Financial Statements

4. Tax Status

The Plan has obtained a favorable tax determination letter from the Internal Revenue Service (IRS) dated February 13, 2002. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

5. Administration of Plan Assets

The Plan's assets are held by the Trustee of the Plan.

Certain administrative functions are performed by officers or employees of the Company. The Trustee does not receive compensation from the Plan. Administrative expenses are generally paid directly by the Company or the Plan, as defined.

6. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Subsequent Events

The Plan Administrator has evaluated subsequent events through June 30, 2016, the date the financial statements were available to be issued. The Plan Administrator is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
