INDEPENDENT AUDITOR'S REPORT

To the Retirement Plan Committee for the
DFA of California Retirement Plan
Sacramento, California

Report on the Financial Statements

We have audited the accompanying financial statements of the DFA of California Retirement Plan (the Plan), which comprise the statements of net assets available for benefits and statements of accumulated plan benefits as of June 30, 2015 and 2014, and the related statements of changes in net assets available for benefits and statements of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Financial Statements

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion on the Financial Statements

In our opinion, the financial statements referred to above, of the DFA of California Retirement Plan as of June 30, 2015 and 2014, and for the years then ended, present fairly in all material respects, the net assets available for benefits and accumulated plan benefits of the Plan as of June 30, 2015 and 2014, and the changes in net assets available for benefits and in accumulated plan benefits for the years ended June 30, 2015 and 2014, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit of the plan's financial statements as of and for the years ended June 30, 2015 and 2014, was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, as listed in the table of contents, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF THE PLAN

The following description of the DFA of California Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The Plan's official name is the Retirement Plan for Hourly and Salaried Employees of DFA of California. However, the Plan is commonly referred to as the DFA of California Retirement Plan.

The Plan is a noncontributory defined benefit plan covering salaried employees of DFA of California (the Association) who have one year of continuous service, as defined, and hourly employees who have accumulated at least 1,000 hours of service in any plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Continuance of the Plan is subject to the discretion of the Association's Board of Directors.

Vesting:

Salaried – Participants who were members of a prior plan become 100% vested after five years of service and age 40. Effective July 1, 1989, participants become 100% vested after five years of service.

Hourly – Participants become 100% vested after five years of vesting credit, as defined.

Benefits:

Salaried – Beginning at normal retirement age (62), employees are entitled to annual pension benefits equal to 2-1/2% of final monthly average earnings (as defined) multiplied by years of credited service up to 20 years plus an additional 1% of final monthly average earnings multiplied by years of credited service in excess of 20 years to a maximum total allowable credit of 30 years. There are also certain cost of living adjustments provided for in the Plan.

The normal benefit for unmarried participants is an annuity payable for the life of the employee. For married participants, the normal benefit is a reduced amount, actuarially determined, payable for the life of the employee with 50% of the reduced amount payable to the employee's spouse for life following the death of the employee. Optional benefits include a Social Security Adjustment Option and 100% and 50% joint and survivor annuities.

The Plan permits early retirement from age 52 to 62. Benefits earned are based on a formula applied under the normal retirement benefit formula reduced to the date of retirement.

Hourly – Beginning at normal retirement age (62), hourly employees will receive $13 per month for each year of benefit credit earned, as defined, after July 1, 1993, and $11 per month for each year of benefit credit earned, as defined, between January 1, 1983 and June 30, 1993, and $7 per month for each year of benefit credit earned between July 1, 1976 and December 31, 1982, plus any other benefit earned under the prior Plan.

The Plan permits early retirement from age 52 to 62. The participant has the election to choose a deferred benefit, which will be equal to the normal retirement benefit, or an immediate benefit payment that will be reduced based on a formula. The Plan also provides certain cost-of-living adjustments and disability benefits.

The normal form of benefit for unmarried employees is an annuity payable for life (with certain modifications if the employee was a participant in the prior Plan). For married employees, the normal benefit will be a reduced amount from that provided to an unmarried employee, payable for the life of the employee with 50% of this reduced amount payable to the employee's spouse for life following the death of the employee.

Termination of the Plan:

In the event of termination of the Plan, funds will be distributed among the participants and beneficiaries on a priority basis, as prescribed by ERISA and its related regulations. Generally, assets will be allocated in the following priority:

- to match mandatory contributions by employees,
- to participants who retired at least three years prior to Plan termination,
- to provide benefits guaranteed by Pension Benefit Guaranty Corporation (PBGC),
- for other vested benefits,
- for other benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

On October 1, 2004, the Plan was amended effective November 30, 2004, to freeze participation and benefit accruals. This means that employees who are not already eligible and participating in the Plan shall not be eligible to become a participant in the plan on or after December 1, 2004, including former participants. A freeze to benefit accruals indicates that no benefits shall accrue under the Plan with respect to compensation paid to any participant on or after December 1, 2004, and no benefits shall accrue under the Plan with respect to service credited to any participant on or after December 1, 2004.

Assets – The Plan's assets are held and managed by the following financial institutions: Aetna Life Insurance Company; Metropolitan Life Insurance Company; and The Vanguard Group. Investments are comprised of immediate participation guaranteed contracts, deposit administration contracts, pooled separate accounts and mutual funds.

Costs of administration – The Plan and Association share all management costs. For June 30, 2015 and 2014, these costs were $15,161 and $16,030, respectively, for the Plan, all relating to trustee and record-keeping fees. The Association pays all audit and actuarial fees. For 2015 and 2014, these costs were $56,898 and $35,847, respectively.

2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Plan are prepared under accounting principles generally accepted in the United States of America. The following summarizes the more significant accounting policies of the Plan:

Investments – Investments in pooled separate accounts and mutual funds are valued at current market value as measured by quoted market prices where appropriate. Investments in guaranteed contracts and deposit administration contracts are valued at contract value which approximates fair value. The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains (losses) and the unrealized appreciation (depreciation) on those investments. Income from investments is recorded when earned.

Contributions – The Association will make contributions to the Plan in such amounts as are sufficient to fund the Plan's benefits as determined by the Plan's actuary. Additional employer contributions are made when approved by the Association's Board of Directors.

Basis of accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Actuarial methods, assumptions and computations – The projected Unit Credit Method is used when making actuarial determinations.

Accumulated Plan benefits are future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the services employees have rendered. Accumulated Plan benefits include benefits expected to be paid to terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. Benefits payable under all circumstances are included, to the extent they are deemed attributable to employee services rendered, to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary and that is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The present value of accumulated Plan benefits increases as the time at which payments begin draws closer. This increase is reported in the statement of changes in accumulated Plan benefits as attributable to a decrease in the discount period.

At June 30, 2015, both the statements of accumulated Plan benefits and the statements of changes in accumulated Plan benefits have been prepared as of the beginning of the Plan year as allowed by professional standards.

The significant actuarial assumptions used in the actuarial valuation as of June 30, 2015, are as follows:

The economic assumptions were based on a long-term inflation expectation of 2.0% per year. Investments were expected to yield a real return of 7.5% annually. An investment return of 7.5% net of expenses was used under the actuarial cost method. Retirement age assumed used a graded scale beginning at age 55 and ending at age 65. The Static Mortality Table for Small Plans was used to calculate mortality.

Estimates – The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reported period. Actual results could differ from those estimates.

Risks and Uncertainties - The plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Payments of benefits – Benefit payments to participants are recorded upon distribution.

Funding policy – The Association's funding policy is to fund at a level of at least equal to the ERISA minimum funding requirement each year. The Association's contributions have generally exceeded the minimum funding requirements of ERISA. The yield (interest, dividends, and net realized and unrealized gains and losses) on the investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan.

Subsequent events have been evaluated through March 30, 2016, the date the financial statements were available to be issued. Management concluded that no material subsequent events have occurred since June 30, 2015, that require recognition or disclosure in such financial statements.

3. FAIR VALUE MEASUREMENTS

Fair value is a market-based measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information might be available. For other assets and liabilities, observable market transactions and market information might not be available. However, the objective of a fair value measurement in both cases is the same; to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions (that is, an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability).

In order to increase consistency and comparability in fair value measurements, a fair value hierarchy that prioritizes observable and unobservable inputs is used to measure fair value into three broad levels, as follows:

Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.
Level 2	Inputs other than quoted prices in active markets that are observable either directly or indirectly.
Level 3	Unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

Investments in pooled separate accounts: Valued based on the market value of the account's underlying investments. The net asset value is not a publicly-quoted price in an active market.

Mutual funds: Valued at the net asset value of shares held by the plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2015:

Investment type	Level 1	Level 2	Total
Mutual funds:			
Large Blend	$ 4,488,664		$ 4,488,664
Intermediate-Term Bond	2,479,924		2,479,924
Short-Term Bond	1,485,819		1,485,819
Foreign Large Blend	815,418		815,418
Subtotal:	9,269,825		9,269,825
Investments in pooled separate accounts		$ 96,537	96,537
Total assets at fair value	$ 9,269,825	$ 96,537	$ 9,366,362

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2014:

Investment type	Level 1	Level 2	Total
Mutual funds:			
Large Blend	$ 5,458,769		$ 5,458,769
Intermediate-Term Bond	1,742,373		1,742,373
Short-Term Bond	1,119,716		1,119,716
Foreign Large Blend	854,722		854,722
Subtotal:	9,175,580		9,175,580
Investments in pooled separate accounts		$ 100,617	100,617
Total assets at fair value	$ 9,175,580	$ 100,617	$ 9,276,197

The Plan's mutual funds are classified within Level 1 of the fair value hierarchy because they are measured by pricing on publicly traded markets with reasonable levels of price transparency. The Plan's investments in pooled separate accounts are classified as Level 2 of the fair value hierarchy because they are valued using alternative pricing methods using observable information inputs.

5. INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets at June 30:

	2015	2014
The Vanguard Group:		
Total Stock Market Index Fund, Admiral Shares	$ 4,488,664	$ 5,458,769
Total Bond Market Index Fund, Admiral Shares	2,479,924	1,742,373
Short-Term Bond Index Fund, Admiral Shares	1,485,819	1,119,716
Total International Stock Index Fund, Admiral Shares	815,418	854,722

6. TAX STATUS

The trust established under the Plan to hold the Plan's assets is qualified pursuant to section 401(b) of the Internal Revenue Code as a tax-exempt organization. The Plan obtained its latest determination letter on June 24, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan has applied the accounting principles related to accounting for uncertainty in income taxes and has determined that there is no material impact on the financial statements. With some exceptions, the Plan is no longer subject to U.S. federal and state income tax examinations by tax authorities for years prior to June 30, 2011.
