The Charles River Laboratories, Inc. Savings/Plus Plan
Notes to Financial Statements

1. Description of the Plan

The following description of The Charles River Laboratories, Inc. Savings/Plus Plan (the “Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan and is funded through employee salary reduction contributions matched in part by supplemental employer contributions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Participation

All Regular employees of Charles River Laboratories, Inc. (the “Company”) are eligible to participate on the first day of the month following their date of hire, provided they are at least eighteen years of age. Upon satisfying these requirements, the employee will become eligible to participate in the Plan.

Administration

The Plan is administered by a committee appointed by the Company’s Board of Directors. The Trustee and recordkeeper of the Plan is Fidelity Management Trust Company and other affiliates of Fidelity Investments. Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation for such functions from the Plan.

Contributions

Each year, participants may contribute up to 60% of pre-tax eligible compensation or \$18,000, as defined by the Plan. The Company matches one-half of amounts deferred by the participant up to a maximum employer contribution of 3% of eligible compensation, which includes regular earnings, overtime, commissions and paid leave. The Plan has an auto-enrollment feature whereby new employees are automatically enrolled at a 3% deferral contribution, commencing generally six weeks after start of employment. Investment elections are defaulted to the age appropriate life cycle fund, which may be adjusted by the participant at any time. Participants may adjust their deferral percentage or opt out of the Plan by contacting the Trustee, Fidelity Management Trust Company.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and Company matching contributions. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Participant investments are self-directed across approved investments options, which have been selected by the plan administrator in accordance with the plan agreement.

Payment of Benefits

Upon termination of services, a participant whose vested account balance is less than \$5,000, cannot postpone distribution. In this case, the plan administrator, will direct the Trustee that any amount exceeding \$1,000 be distributed to an Individual Retirement Account (IRA) or Annuity for the participant’s benefit. If the vested account balance is less than \$1,000 the plan administrator will direct the Trustee to distribute it to the participant as a lump sum distribution without the participant’s consent. If the vested account is greater than \$5,000 the participant may electronically process a distribution through the third party administrator’s online portal or by contacting the third party administrator directly. The participant may also elect to leave the balance with the Plan in which case the plan administrator will direct the Trustee to begin participant disbursements no later than April 1 in the calendar year in which the participant turns 70 1/2.

Notes Receivable from Participants

Loans from the Plan are limited to a minimum amount of \$1,000 and a maximum amount equal to the lesser of one-half of the participant’s vested account balance, determined as of the valuation date immediately preceding the date of the loan, or \$50,000, less the excess of the highest outstanding loan balance for the prior twelve-month period over the loan balance of the participant on the date on which the loan is made. No participant is eligible for more than one loan at a time or a loan more frequently than once each plan year. Loans shall bear a reasonable rate of interest as determined by the plan administrator. The minimum interest rate charged to participants for the fiscal years ended December 31, 2015 and December 31, 2014 was equal to the prime rate plus 1%. The prime rate as of December 31, 2015 and December 31, 2014 was 3.50% and 3.25%, respectively. Loans outstanding bore interest rates from 4.25% to 9.25% as of December 31, 2015 and December 31, 2014. In addition, employees are charged a \$75 set-up fee for taking out a loan.

Each loan is secured by the participant’s account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Subsequent to May 5, 2008, all Company contributions are vested immediately. Certain contributions from predecessor employers are subject to cliff vesting as more fully described in the plan agreement.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Plan Withdrawals and Forfeited Accounts

As of December 31, 2015 and December 31, 2014, there were no amounts allocated to participants who have elected to withdraw from the Plan, but to whom disbursement of funds has not been made. During the years ended December 31, 2015 and December 31, 2014, \$2,219 and \$359, respectively, of forfeited account balances were used to reduce employer contributions.

Plan Expenses

Participant loan fees associated with notes receivable from participants are charged to the participant receiving the loan. Investment fees paid by the Plan are allocated to participant accounts. All other plan administration expenses are paid by the Company or by the Plan, at the discretion of the plan administrator. Plan administration expenses paid by the Company are excluded from these financial statements.

Transfers from Other Qualified Plans

Net transfers included \$9,079,025 of transfers from other qualified plans primarily related to participants who participated in qualified plans acquired and merged into the Plan during the fiscal year ended December 31, 2015.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-12 (ASU), Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part III is not applicable to the Plan. Part I eliminates the requirements to measure and provide related disclosures on the fair value of fully benefit-responsive investment contracts. Part I also eliminates the requirement to present an adjustment on the face of the financial statements to reconcile the fair value and contract value of fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early. The adoption did not impact the statement of net assets available for benefits. Management believes the adoption was not material to the financial statements taken as a whole.

In May, 2015, the FASB issued ASU 2015-07, "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)." ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using net asset value per share as a practical expedient. For nonpublic business entities, ASU 2015-07 is effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. The Plan has chosen not to early adopt ASU 2015-07.

Investment Valuation and Income Recognition

Investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent net asset value at year end. The Plan's interest in common collective trusts are valued at the net asset value of units held by the Plan at year end as reported by the Trustee. The common collective trust units are not traded on a securities exchange but are redeemable only by the issuer. Purchases and sales of investments are recorded on a trade date basis. Net appreciation includes the Plan's

The Charles River Laboratories, Inc. Savings/Plus Plan
Notes to Financial Statements

gains and losses on investments bought and sold as well as held during the year. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

As described in the Accounting Standards Codification (ASC) 946, "Financial Services-Investment Companies", investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for fully benefit responsive investment contracts because contract value is the amount participants receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits and statement of changes in the net assets available for benefits are prepared on the contract value basis. The investment in the Fidelity Managed Income Portfolio Fund, which is classified as a collective trust, is recorded at the net asset value of units held by the Plan at year end as reported by the Trustee.

Risk and Uncertainties

The Plan provides for any combination of numerous investment options. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the value of investments in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2015 and December 31, 2014. If a participant ceases to make loan payments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Subsequent Events

The Company evaluated subsequent events through September 8, 2016, the date these financial statements were available to be issued.

3. Fair Value Measurements

ASC 820, "Fair Value Measurements and Disclosures" (ASC 820) defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles, and enhances disclosures regarding fair value measurements. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) on the measurement date, in the principal or most advantageous market for the asset or liability, and in an orderly transaction between market participants.

ASC 820 establishes a valuation hierarchy for disclosure of the inputs to the valuations used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access. Level 2 inputs are quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, including interest rates, yield curves and credit risks, or inputs that are derived principally from or corroborated by observable market data through correlation. Level 3 inputs are unobservable inputs and significant to the fair value measurement. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

Valuation Techniques

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. In periods of market inactivity, the observability of prices and inputs may be reduced for certain instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or from Level 2 to Level 3. Transfers between fair value hierarchy levels, if any, are recognized at the end of the period. There were no transfers between levels of the fair value hierarchy during the year.

Descriptions of the valuation methodologies used for assets measured at fair value are as follows. There have been no change to the methodologies used at December 31, 2015 and December 31, 2014.

- Registered investment companies - Valued at the unadjusted quoted net asset value of shares held by the Plan at year end.

The Charles River Laboratories, Inc. Savings/Plus Plan
Notes to Financial Statements

- Collective trust - Valued at net unit value which is based on the market value of underlying investments held by the fund less its liabilities. The net unit value, as provided by the Trustee, is used as a practical expedient to estimate fair value. Participant transactions may occur daily. In unusual market conditions, in accordance with the governing documents of the collective trust, the Trustee may impose restrictions on the redemption of units.

Assets measured at fair value are summarized below:

(a) Fidelity Managed Income Portfolio is a stable value collective trust whose objective is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital.

(b) The American Century target date portfolios seek the highest total return consistent with its asset mix. Over time, the asset mix and weightings are adjusted to be more conservative. In general, as the target year approaches, the portfolio's allocation becomes more conservative by decreasing the allocation to stocks and increasing the allocation to bonds and money market instruments.

4. Financial Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR.2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan, Fidelity Management Trust Company, has certified to the plan administrator that the following information is complete and accurate as of December 31, 2015 and December 31, 2014 and for the year ended December 31, 2015. The information has been relied on by the plan administrator in preparation of the Plan's financial statements and related supplemental schedule in accordance with ERISA:

- (a) the cost and fair value of investment balances and notes receivable from participants, by fund and in the aggregate;
- (b) net appreciation (depreciation) in fair value of investments by fund and in the aggregate;
- (c) investment income, including interest and dividends received or accrued, by fund and in the aggregate;
- (d) accrued income earned by the Plan;
- (e) interest income on notes receivable from participants;
- (f) all investment purchase and sales activity; and
- (g) identity of issue, borrower, lessor or similar party, description of investment, investment cost and investment current value as presented in the accompanying Schedule of Assets (Held at End of Year).

5. Related Party and Party-In-Interest Transactions

Certain plan investments are shares of registered investment companies and collective trusts managed by FMR Corp., an affiliate of Fidelity Management Trust Company, the Trustee, and are considered party-in-interest transactions. Such investments represent 14% of net assets available for benefits as of December 31, 2015 and December 31, 2014, respectively. Notes receivable from participants qualify as party-in-interest transactions and represent 2% of net assets available for benefits as of December 31, 2015 and December 31, 2014.

The Company, in its role as the Plan Sponsor, is considered a related party to the Plan. As described in Note 1, the Plan or Company paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

6. Other Revenue

The Plan has a revenue credit agreement with the Trustee, whereby excess revenue, exceeding agreed-upon compensation, received by the Trustee from sponsors of some Plan investment options is paid to the Plan. The credit is invested in a Fidelity Retirement Money Market that earns interest. The revenue payments also qualify as party-in-interest transactions. For year ended December 31, 2015, \$142,223 of this credit was used to pay for service provider expenses incurred by the Plan. The remaining unallocated balance of \$118,958 in the account as of December 31, 2015 is included within the Investments, at fair value line item on the statements of net assets available for benefits.

7. Federal Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated December 5, 2001, as updated on March 31, 2008 and March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving its determination letter. The plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2015 and December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.
