NOTE A - DESCRIPTION OF PLAN

The following description of the Memorial Health System of East Texas ("Company") 403(b) Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General. Effective January 1, 1995, the Company elected to begin the above-mentioned Plan. The Plan is a defined contribution Plan covering all of the Company's employees who work full time and PRN employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions. Participants may elect to contribute a percentage of their compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other types of retirement Plans (rollovers) subject to special rules. The Company matches from 25% to 50%, based upon years of service, of the Participant's contributions, up to a maximum of 6% of compensation, as defined. The Plan does not call for matching payments to PRN or Option-Pay employees. The Company is also authorized to make discretionary contributions to the Plan. Contributions are subject to certain limitations. See item 9 on the next page.

3. Participant Accounts. Each participant's account is credited with the participant's contribution and the Company's contribution. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of participation in the Plan. A participant is 100 percent vested after three years of full time service.

5. Investment Options. Participants have the option of investing their contributions among one or all of the available mutual funds and one unallocated fixed group annuity contract. Participants may transfer some or all of the balances out of any fund into one or any combination of the other funds. Participants may change their election options at any time during the year.

6. Participant Notes Receivable. Participants may borrow a minimum of $1,000 up to a maximum equal to 50 percent of their nonforfeitable account balance from their fund accounts up to $50,000. Loan terms range from 1-5 years. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with that charged by local commercial banks for similar loans. Principal and interest is paid ratably through monthly payroll deductions.

7. Payment of Benefits. On termination of service due to death, disability or retirement, a participant will receive an amount equal to the value of the participant's vested interest in his or her account. Distributions will be either in a lump sum, partial lump sum, installment or in the form of an annuity.

8. Forfeited Accounts. If a participant terminates service prior to becoming fully vested, the unvested portion of employer contributions and earnings is forfeited. The forfeited amount will be utilized by the Plan to offset plan expenses and employer contributions.

NOTE A - DESCRIPTION OF PLAN - CONTINUED

A summary of activity in the forfeiture account for the periods presented is as follows:

Balance December 31, 2013	$	32

9. Recent Amendments. The Plan was amended December 17, 2013 to begin automatic enrollment upon eligibility for those employees of the plan sponsor hired on or after January 1, 2014, and to begin automatic deferral rate increases of 1% (unless otherwise elected by participant) per year effective January 1, 2014, up to a maximum of 6%.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in all material respects.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of the investments indicates the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they went to initiate permitted transactions under the terms of the plan. The plan administrator believes that the fair value of the group annuity contract approximates contract value as the crediting interest rate for the contract is deemed to be comparable to current yields of similar investments with comparable durations.

NOTE B - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded when paid since accrued but unpaid interest is not considered significant. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document, therefore no allowance for credit losses is recorded.

Subsequent Events

Management has evaluated subsequent events through September 14, 2016, the date the financial statements were available to be issued.

NOTE C - ACCOUNTING CHANGES AND ERROR CORRECTIONS

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is only required measure for fully benefit- responsive investment contracts. Management has been accounting for its investment in the Lincoln Stable Value as a fully benefit-responsive investment contract. This change has no effect on the net assets available for plan benefits. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early.

NOTE D - FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D - FAIR VALUE MEASUREMENT - CONTINUED

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities, Level 1 measurements, and the lowest priority to measurements involving significant unobservable inputs, Level 3 measurements. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value; Level 3 inputs were only used when Level 1 or Level 2 inputs were not available. The three levels of the fair value hierarchy are as follows:

- ***Level 1*** inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. Investments whose values are based on quoted market prices in active markets, and whose values are therefore classified as Level 1 prices, include active listed equities. Investments in underlying mutual funds are valued at their Net Asset Value (NAV) daily and are classified as Level 1 prices.

- ***Level 2*** inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

- ***Level 3*** inputs are unobservable inputs for the asset or liability. Investments whose values are classified as Level 3 prices have significant unobservable inputs, as they may trade infrequently or not at all. When observable prices are not available for these securities, the Funds use one or more valuation techniques for which sufficient and reliable data is available.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

1. Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

2. Stable Value Fund - A stable value fund that is composed primarily of fully benefit-responsive contracts that is valued at the contract value (Note E).

The value presented on this table is intended to permit reconciliation of this table to the total investments presented on the statement of net assets available for benefits.

NOTE E - GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY

The Plan invests in an unallocated fixed group annuity contract referred to in these financial statements as the Lincoln Stable Value Fund. The sponsor of the contract is Lincoln National Life Insurance Company (Lincoln). Lincoln maintains the contributions in a general account and is therefore backed by the general assets of Lincoln National Life Insurance Company. The account is credited with earnings on the underlying investments and charged for participant withdrawals. This traditional investment contract is included in the financial statements at contract value as reported to the Plan by Lincoln. As the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value if the withdrawal is in accordance with the contract provisions. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The plan administrator believes that the fair value of the group annuity contract approximates contract value as the crediting interest rate for the contract is deemed to be comparable to current yields of similar investments with comparable durations.

There are no reserves against contract value for credit risk of the contact issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Lincoln. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan (c) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974, or (d) certain events causing a decline in workforce by more than 20%. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring. The group annuity contract also has certain restrictions on and methods of withdrawal.

The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:		
Based on actual earnings	1.75%	1.75%
Based on interest rate credited to participants	1.75%	1.75%

NOTE F - PLAN ADMINISTRATION

Certain administrative costs are paid for by the Plan sponsor and not reimbursed by the Plan. These include employee and other overhead expenses.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE H - INVESTMENTS AND RELATED TRANSACTIONS CERTIFIED BY TRUSTEE

The corporate trustee of the plan was Lincoln Financial Group Trust Company, Inc. and Wilmington Trust as of December 31, 2015 and 2014, respectively. Total investment assets as of December 31, 2015 and 2014 were $44,342,085 and $45,566,967, respectively, according to the trustee. Total investment assets as well as all related transactions and income (net appreciation in fair value of investments and interest and dividends) of the Plan were certified as complete and accurate by the trustee.

NOTE I - TAX STATUS

The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan is subject to routine audits by the Internal Revenue Service; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE J - TERMINATED PARTICIPANTS

As of December 31, 2015, the Plan held accounts of participants who have terminated employment with plan sponsor but who have not yet withdrawn their funds totaling approximately $8.3 million.

NOTE K - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the statement of net assets available for benefits.

NOTE L - PARTY-IN-INTEREST

The Plan invests in a fund managed by Lincoln Financial. Lincoln Financial Group is the Third Party Administrator. As such, transactions related to this investments qualify as party-in-interest transactions. The investment is considered an exception to the Prohibited Transaction Rules of ERISA.

The Plan makes loans available to participants on a nondiscriminatory basis. Since plan participants are employees of the plan sponsor, they are considered parties-in-interest. Loans to plan participants are considered an exception to the Prohibited Transaction Rules of ERISA, since the loans are adequately secured, bear a reasonable interest rate and do not exceed certain limits.
