1. Description of Plan

The following description of the Slomin's, Inc. 401(k) Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a "salary reduction" or 401(k) retirement savings plan covering all full-time non-union employees of Slomin's, Inc. (the "Company") who attained the age of twenty-one. In addition, the Plan is covering all part time non-union employees of the Company who attained the age of twenty-one and have completed at least 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

In 2015, participants may contribute up to a maximum of $18,000 of pre-tax or after-tax annual compensation, as defined in the Plan. In 2014, participants may contribute up to a maximum of $17,500 of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions of up to $6,000 and $5,000 in 2015 and 2014, respectively. The Plan provides for discretionary matching employer contributions at the option of the Company's management. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution, (b) an allocation of Plan earnings, and (c) the Employer's discretionary matching contribution. Allocation of earnings is based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. A participant is 100% vested after three years of credited service in employer contributions to the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 5.00%, which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions. Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payment of Benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or payments under various installment options. The Plan also permits distributions to participants upon disability or death, or upon attaining the age of 59½ while still in service. Withdrawals from the Plan may also be made upon the circumstances of financial hardship.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Change in Accounting Policy
In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosure and Part III Measurement Date Practical Expedient. The three-part standard update is intended to simplify employee benefit plan reporting. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively and part III should be applied prospectively. The amendment was retrospectively applied to all periods presented. Part III is not applicable to the Plan.

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement – Disclosure for Investments in Certain Entities that calculate Net Asset Value Per Share (or its Equivalent), which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. Reporting entities will be required to disclose the amount investments measured at net asset value (or its equivalent) using the practical expedient to reconcile total investments in the fair value hierarchy to total investments measured at fair value. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016 and should be applied retrospectively, with early adoption permitted. Management has elected to early adopt ASU 2015-07. Accordingly, the amendment was retrospectively applied to all periods presented.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits
Benefits are recorded when paid.

Forfeitures
Forfeitures of terminated participants' non-vested balances are applied to reduce employer contributions. There were no forfeitures of this kind as of December 31, 2015 and 2014.

Risks and Uncertainties
The Plan's investments are concentrated in funds that invest in marketable securities. Such securities are subject to various risks that determine the value of the funds. Due to the level of risk associated with certain securities and the level of uncertainty related to changes in the value of these securities, it is at least

reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

3. Investment Information Certified by the Plan's Trustee

The following is a summary of the investment information regarding the Plan as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included in the Plan's financial statements and supplemental schedule, which was prepared or derived by Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

Information relating to investments and notes receivable from participants held by trustee as of December 31, 2015 and 2014 is as follows:

	2015	2014
Investments at fair value	$11,759,045	$11,710,904
Notes receivable from participants	216,979	226,618
	$11,976,024	$11,937,522

The following was also certified by the trustee for the year ended December 31, 2015:

Net depreciation in fair value of investments	$ (776,864)
Interest and dividends	$ 733,679

4. Fair Value Measurement

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the plan has the ability to access.

- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d)

inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds: Valued at quoted market prices at active markets which represent the net asset value of the shares of underlying investment securities held by the Plan at year-end.

- Stable value collective trust fund: Composed primarily of fully-benefit responsive investment contracts and is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate the fair value. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchase and sales) may occur daily. There are no participant redemption restrictions for these investments and the redemption notice period of 12 months is applicable only at the Plan level.

The following is a summary of the fair value measurement of the investments as of December 31, 2015 and 2014, as required by the financial accounting standards:

As of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 10,613,844	$ -	$ -	$ 10,613,844
	10,613,844	-	-	10,613,844
Stable value fund, measured at net asset value (a)	-	-	-	1,145,201
Total assets at fair value	$ 10,613,844	$ -	$ -	$ 11,759,045

As of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 11,710,904	$ -	$ -	$ 11,710,904
Total assets at fair value	$ 11,710,904	$ -	$ -	$ 11,710,904

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

5. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100% vested in their employer contributions.

6. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) Section 401 (a). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of both December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

7. Plan Administrative Expenses

The Company has paid certain administrative expenses of the Plan.

8. Party-In-Interest Transactions

Certain plan investments are shares of mutual funds managed by Fidelity. Fidelity is the administrative service provider and trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan made a direct payment to the third party administrator of $947 which was not covered by revenue sharing.

9. Investments Concentration

As of December 31, 2015 and 2014, two mutual funds and one mutual fund, respectively, represent over 10% of total investments.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation between the statement of net assets available for benefits per the accompanying financial statements and the Form 5500 as of December 31,:

	2015	2014
Net assets available for benefits per the financial statements	$ 11,976,024	$ 11,937,522
Adjustment from net asset value to fair value for stable value fund	10,963	-
Net assets available for benefits per Schedule H fo Form 5500	$ 11,986,987	$ 11,937,522

The following is a reconciliation of the statement of changes in net assets available for benefits for the year ended December 31, 2015 to the Form 5500:

	2015
Net increase per the financial statements	$ 38,502
Adjustment from net asset value to fair value for stable value fund	10,963
Net increase per the Form 5500	$ 49,465

11. Subsequent Events

The Plan has evaluated subsequent events through September 15, 2016, the date which the financial statements were available to be issued.
