INDEPENDENT AUDITORS' REPORT

To the Sponsor of the Pepsi-Cola Newburgh Bottling Co., Inc. 401(k) Profit Sharing Plan
for Employees of Pepsi-Cola of the Hudson Valley and Pepsi-Cola Bristol Facilities

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pepsi-Cola Newburgh Bottling Co., Inc. 401(k) Profit Sharing Plan for Employees of Pepsi-Cola of the Hudson Valley and Pepsi-Cola Bristol Facilities, which comprise the statements of net assets available for plan benefits as of December 31, 2015 and 2014 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2015 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with U. S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with U. S. generally accepted auditing standards. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Bank of America, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of and for the year ended December 31, 2015 that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedules

The supplemental schedule of assets (held at end of year) appearing on page 16 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the 2015 and 2014 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PEPSI-COLA NEWBURGH BOTTLING CO., INC. 401(K) PROFIT SHARING PLAN FOR EMPLOYEES OF PEPSI-COLA OF THE HUDSON VALLEY AND PEPSI-COLA BRISTOL FACILITIES

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015

Note 1. Description of the Plan

The following description of Pepsi-Cola Newburgh Bottling Co., Inc. 401(k) Profit Sharing Plan for Employees of Pepsi-Cola of the Hudson Valley and Pepsi-Cola Bristol Facilities (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan established for the benefit of the full-time employees of Pepsi-Cola Newburgh Bottling Co., Inc. (the "Sponsor"). The Plan and the trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (the "IRC") and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees of the Sponsor who are full-time, at least 21 years of age and who have completed three months of service are eligible to contribute to the Plan but they are not eligible to receive the profit sharing feature until their second calendar year of employment and 1,000 hours of service.

Participant Accounts

Each participant's account is credited with the participant's contribution, employer matching contribution, an allocation of the Sponsor's profit sharing contribution, and Plan earnings. Each participant's account is reduced by withdrawals, losses on investments, forfeitures, and plan administrative expenses. Allocation of Plan earnings (losses) is based upon the relationship of a participant's account to the accounts of all participants in each investment fund. Allocation of the Sponsor's contribution is based upon the ratio each participant's compensation bears to the total compensation of all participants. The investment of each participant's trust fund is directed by the participant from the options available under the Plan.

Contributions

Each year, participants may make salary deferral contributions in an percentage from 1% to 100% or dollar amount of qualified pre-tax annual compensation, as defined by the Plan. For each calendar year that the Sponsor meets its profit goals, it will make a profit sharing contribution to the Plan. The total profit sharing contribution will be an amount determined and authorized annually by the Sponsor's board of directors. Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain limitations.

Note 1. Description of the Plan (continued)

Contributions (continued)

The Sponsor will also make a contribution to the Plan, known as a 401(k) matching contribution, on behalf of those participants who have made salary deferral contributions. The matching contribution will be an amount equal to the employee contribution up to a maximum of 3% of eligible employee compensation, subject to the maximum amount imposed by the Internal Revenue Service (the "IRS").

Payment of Benefits

Upon termination of service due to death, disability or early or normal retirement, a participant will automatically become 100% vested in his or her account balance. For termination of service for other reasons, a participant will receive the value of the vested interest in his or her account.

Participants' Investment Options

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Sponsor. Participants may change their investment options at any time throughout the year.

Vesting

Participants are immediately vested in their voluntary contributions adjusted for actual earnings (losses) thereon. Participants become 20% vested after two years of service and continue to vest at the rate of 20% for each successive year of service until 100% vested in the Sponsor matching and profit sharing contributions made on their behalf.

Forfeitures

At December 31, 2015 and 2014, forfeitured non vested accounts totaled $102,079 and $169,610, respectively. These amounts will be used first to reduce the Plan's administrative expenses. Any remaining forfeitures shall be utilized to reduce employer matching and discretionary contributions. During the year ended December 31, 2015, $200,000 of forfeited amounts reduced employer contributions as permitted by the plan.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at fixed rate commensurate with local prevailing rates as determined by the Trustee (at the time the loan is entered into), ranging from 3.25% - 4.25% for the year ended December 31, 2015. Principal and interest are paid ratably through weekly payroll deductions. Delinquent loans are treated as distributions based on terms of the Plan Agreement.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 4 for a discussion of fair value measurements).

Investment contracts held by the Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of the Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment in the common collective trust as well as assets available for benefits present the fair value of the investment in the common collective trust as well as the adjustment of the investment in the common collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned and dividend income is accrued on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains (losses) on investments bought and sold as held during the year.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Note 2. Summary of Significant Accounting Policies (continued)

Administrative Expenses

The expenses necessary to administer the Plan can be paid by the Plan and allocated proportionately to each participant. In addition, participants are charged services fees for any loan and distribution transactions they request and certain investment related expenses have been offset with net investment income and are not readily determinable.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

The Sponsor is aware of two recently issued pronouncements.

FASB ASU 2015-07 issued in May 2015, *Fair Value Measurement (Topic 820): Disclosures in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)* which exempts investments measured using the net asset value practical expedient from categorization within the fair value hierarchy. This guidance is effective for nonpublic entities for fiscal years beginning after December 15, 2016.

FASB ASU 2015-12 issued in July 2015, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* The standard simplifies reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures. This guidance is effective for fiscal years beginning after December 15, 2015.

Note 3. Investments (unaudited) (continued)

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as those held during the year) appreciated (depreciated) in value as follows:

Mutual funds	$ (1,039,641)
Common collective trust	34,563
	$ (1,005,078)

Note 4. Fair Value of Investments

The framework established by the Financial Accounting Standards Board (FASB) for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Such inputs include quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in methodologies used at December 31, 2015 and 2014:

Mutual Funds: Shares of registered investment companies (mutual funds) are reported at fair value based on the quoted price of the fund, which represents the net asset value ("NAV") of the shares held by the fund at year-end.

Common Collective Trust ("CCT"): This investment is a public investment vehicle based on the calculated net asset value (NAV). The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Note 4. Fair Value of Investments (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Note 5. Investments in a Common Collective Trust

During 2015 and 2014, the Plan invested in a common collective trust (CCT), the Morley Stable Value Fund, with Gartmore Morley. The stable value fund invests in underlying assets, typically fixed income securities or bond funds and enters into liquidity agreements, commonly referred to as wrap contracts, issued by insurance companies and other financial institutions for a fee. Investments in the CCT are presented at contract value, which represents invested principal plus accrued interest thereon. The contracts are nontransferable but provide for benefit responsible withdrawals and participant transfers at contract value.

	2015	2014
Common collective trust, contract value	$ 3,081,253	$ 3,034,153
Adjustment from contract value to fair value for fully benefit - responsive investment contract	6,764	28,312
Common collective trust, fair value	$ 3,088,017	$ 3,062,465

An issuer can terminate an investment contract upon the event of default by the contract holder, advisor or trustee if the issuer determines in its reasonable discretion, such event has had, or is likely to have , a material adverse effect on the issuer's interest with respect to the contract. Such events may include, but are not limited to, management of the portfolio is not in accordance with investment guidelines, any representation or warranty made by the contact holder becomes untrue in an material way, or the fund is terminated or ceases to qualify as a group trust.

The gross crediting rate formula is negotiated in the wrap contact of the underlying investment held by Gartmore Morley, with the requirement that interest rates may not be less than zero percent. Crediting rates reflect the amortization of the realized and unrealized gains and losses in the underlying portfolio over the duration of the portfolio and, in consequent, may not reflect the actual returns achieved in the portfolio. From time to time the crediting rate may be significantly greater or less than the current market interest rates. A number of factors can influence future crediting rates, which may include, but are not limited to: portfolio cash flows, underlying portfolio performance, current market interest rates for reinvestment and change in credit ratings.

During the year ended December 31, 2015, the average yield earned by the Plan was 1.13 percent and the average credited to participants was 1.64 percent.

During the year ended December 31, 2014 the average yield earned by the Plan was .89 percent and the average credited to participants was 1.41 percent.

Note 6. Fair Value of Investments in Certain Entities that Calculate Net Asset Value per Share

The following table sets forth the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2015 and 2014:

	2015			
Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common Collective Trust *(a)*	$ 3,088,017	-	Daily	None

	2014			
Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common Collective Trust *(a)*	$ 3,062,465	-	Daily	None

(a) This category includes a stable value collective fund whose objective is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology and the careful and prudent assumptions of investment risk providing for preservation of capital, stability and predictability of returns, liquidity to pay Plan benefits and high credit quality. The fund seeks to achieve this objective by investing in conventional, synthetic and separate account investment contracts (collectively, "contracts") issued by life insurance companies, banks and other financial institutions.

Characteristics of these contracts allow for their principal value to remain stable regardless of the volatility of the financial markets. For liquidity purposes, the fund may have all or a portion of its assets invested in high-quality money market instruments, investment companies and a collective investment trust that meet the investment objectives. Investments in this category can be redeemed daily at the current NAV per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the NAV per share of the underlying investments.

Note 7. Information Certified by the Trustee

The Plan has elected the method of annual compliance reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The assets of the Plan are held by the trustee. Based on information provided and certified by the trustees, there are no fixed income obligations, leases, or debt instruments in default or deemed uncollectible, as defined by ERISA, for the years ended December 31, 2015 and 2014.

Note 7. Information Certified by the Trustee (continued)

The trustees have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

As of December 31:	2015	2014
Investments, at fair value:		
Mutual funds	$ 19,667,130	$ 19,059,518
Common collective trust (contract value)	3,081,253	3,034,153
	$ 22,748,383	$ 22,093,671
Cash	$ 17,747	$ 301
Notes receivable from participants	$ 869,644	$ 925,418

For the Year Ended December 31, 2015

Net depreciation in fair value of investments	$ (1,005,078)
Dividend income	863,267
Interest income on notes receivable from participants	28,807

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 9. Tax Status

The Plan obtained its latest advisory opinion letter on March 31, 2014 in which the IRS stated that the basic Plan document, as then designed, was in compliance with the applicable requirements of the IRC. The Plan is required to operate in conformity with the applicable provisions of the IRC to maintain its tax-qualified status. The Plan has been amended since receiving the opinion letter. However, the Sponsor believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Note 9. Tax Status (continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the Department of Labor. The Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Furthermore, there are no tax related interest or penalties included in the financial statements presented.

Note 10. Parties-in-Interest

As of December 31, 2015 and 2014, there were transactions involving the investment of Plan assets in investment funds maintained by the trustees, which qualify as party-in-interest transactions.

In addition, certain participants borrowed from the Plan. As of December 31, 2015 and 2014, the outstanding notes of the Plan participants were $869,644 and $925,418, respectively. Participants are a party-in-interest to the Plan and these loans and the related interest income were exempt party-in-interest transactions pursuant to Section 408(b)(1) of ERISA.

Note 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks, and domestic and global market conditions. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could significantly affect participants' account balances and the amounts reported in the December 31, 2015 Statement of Net Assets Available for Benefits. The Plan is exposed to credit loss in the event of non-performance by the companies with who guaranteed investment contracts are placed. However, the Sponsor does not anticipate non-performance by these companies and believes that the risk to Plan assets from credit loss is not material due to the diversified nature of the assets held.

Note 12. Subsequent Events

Plan management has evaluated subsequent events through August 19, 2016 which is the date these financial statements were available to be issued.

INDEPENDENT AUDITORS' REPORT

To the Sponsor of the Pepsi-Cola Newburgh Bottling Co., Inc. 401(k) Profit Sharing Plan
for Employees of Pepsi-Cola of the Hudson Valley and Pepsi-Cola Bristol Facilities

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pepsi-Cola Newburgh Bottling Co., Inc. 401(k) Profit Sharing Plan for Employees of Pepsi-Cola of the Hudson Valley and Pepsi-Cola Bristol Facilities, which comprise the statements of net assets available for plan benefits as of December 31, 2015 and 2014 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2015 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with U. S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with U. S. generally accepted auditing standards. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Bank of America, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of and for the year ended December 31, 2015 that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedules

The supplemental schedule of assets (held at end of year) appearing on page 16 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the 2015 and 2014 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015

Note 1. Description of the Plan

The following description of Pepsi-Cola Newburgh Bottling Co., Inc. 401(k) Profit Sharing Plan for Employees of Pepsi-Cola of the Hudson Valley and Pepsi-Cola Bristol Facilities (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan established for the benefit of the full-time employees of Pepsi-Cola Newburgh Bottling Co., Inc. (the "Sponsor"). The Plan and the trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (the "IRC") and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees of the Sponsor who are full-time, at least 21 years of age and who have completed three months of service are eligible to contribute to the Plan but they are not eligible to receive the profit sharing feature until their second calendar year of employment and 1,000 hours of service.

Participant Accounts

Each participant's account is credited with the participant's contribution, employer matching contribution, an allocation of the Sponsor's profit sharing contribution, and Plan earnings. Each participant's account is reduced by withdrawals, losses on investments, forfeitures, and plan administrative expenses. Allocation of Plan earnings (losses) is based upon the relationship of a participant's account to the accounts of all participants in each investment fund. Allocation of the Sponsor's contribution is based upon the ratio each participant's compensation bears to the total compensation of all participants. The investment of each participant's trust fund is directed by the participant from the options available under the Plan.

Contributions

Each year, participants may make salary deferral contributions in an percentage from 1% to 100% or dollar amount of qualified pre-tax annual compensation, as defined by the Plan. For each calendar year that the Sponsor meets its profit goals, it will make a profit sharing contribution to the Plan. The total profit sharing contribution will be an amount determined and authorized annually by the Sponsor's board of directors. Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain limitations.

Note 1. Description of the Plan (continued)

Contributions (continued)

The Sponsor will also make a contribution to the Plan, known as a 401(k) matching contribution, on behalf of those participants who have made salary deferral contributions. The matching contribution will be an amount equal to the employee contribution up to a maximum of 3% of eligible employee compensation, subject to the maximum amount imposed by the Internal Revenue Service (the "IRS").

Payment of Benefits

Upon termination of service due to death, disability or early or normal retirement, a participant will automatically become 100% vested in his or her account balance. For termination of service for other reasons, a participant will receive the value of the vested interest in his or her account.

Participants' Investment Options

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Sponsor. Participants may change their investment options at any time throughout the year.

Vesting

Participants are immediately vested in their voluntary contributions adjusted for actual earnings (losses) thereon. Participants become 20% vested after two years of service and continue to vest at the rate of 20% for each successive year of service until 100% vested in the Sponsor matching and profit sharing contributions made on their behalf.

Forfeitures

At December 31, 2015 and 2014, forfeitured non vested accounts totaled $102,079 and $169,610, respectively. These amounts will be used first to reduce the Plan's administrative expenses. Any remaining forfeitures shall be utilized to reduce employer matching and discretionary contributions. During the year ended December 31, 2015, $200,000 of forfeited amounts reduced employer contributions as permitted by the plan.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at fixed rate commensurate with local prevailing rates as determined by the Trustee (at the time the loan is entered into), ranging from 3.25% - 4.25% for the year ended December 31, 2015. Principal and interest are paid ratably through weekly payroll deductions. Delinquent loans are treated as distributions based on terms of the Plan Agreement.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 4 for a discussion of fair value measurements).

Investment contracts held by the Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of the Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment in the common collective trust as well as assets available for benefits present the fair value of the investment in the common collective trust as well as the adjustment of the investment in the common collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned and dividend income is accrued on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains (losses) on investments bought and sold as held during the year.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Note 2. Summary of Significant Accounting Policies (continued)

Administrative Expenses

The expenses necessary to administer the Plan can be paid by the Plan and allocated proportionately to each participant. In addition, participants are charged services fees for any loan and distribution transactions they request and certain investment related expenses have been offset with net investment income and are not readily determinable.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

The Sponsor is aware of two recently issued pronouncements.

FASB ASU 2015-07 issued in May 2015, *Fair Value Measurement (Topic 820): Disclosures in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)* which exempts investments measured using the net asset value practical expedient from categorization within the fair value hierarchy. This guidance is effective for nonpublic entities for fiscal years beginning after December 15, 2016.

FASB ASU 2015-12 issued in July 2015, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* The standard simplifies reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures. This guidance is effective for fiscal years beginning after December 15, 2015.

Note 3. Investments (unaudited)

The following presents investments at December 31, 2015 and 2014 that represent 5% or more of the Plan's net assets:

Pioneer Bond Fund	1,677,713	-

(a) Fund shown at contract value

Note 3. Investments (unaudited) (continued)

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as those held during the year) appreciated (depreciated) in value as follows:

Mutual funds	$ (1,039,641)
Common collective trust	34,563
	$ (1,005,078)

Note 4. Fair Value of Investments

The framework established by the Financial Accounting Standards Board (FASB) for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Such inputs include quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in methodologies used at December 31, 2015 and 2014:

Mutual Funds: Shares of registered investment companies (mutual funds) are reported at fair value based on the quoted price of the fund, which represents the net asset value ("NAV") of the shares held by the fund at year-end.

Common Collective Trust ("CCT"): This investment is a public investment vehicle based on the calculated net asset value (NAV). The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Note 4. Fair Value of Investments (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Note 5. Investments in a Common Collective Trust

During 2015 and 2014, the Plan invested in a common collective trust (CCT), the Morley Stable Value Fund, with Gartmore Morley. The stable value fund invests in underlying assets, typically fixed income securities or bond funds and enters into liquidity agreements, commonly referred to as wrap contracts, issued by insurance companies and other financial institutions for a fee. Investments in the CCT are presented at contract value, which represents invested principal plus accrued interest thereon. The contracts are nontransferable but provide for benefit responsible withdrawals and participant transfers at contract value.

	2015	2014
Common collective trust, contract value	$ 3,081,253	$ 3,034,153
Adjustment from contract value to fair value for fully benefit - responsive investment contract	6,764	28,312
Common collective trust, fair value	$ 3,088,017	$ 3,062,465

An issuer can terminate an investment contract upon the event of default by the contract holder, advisor or trustee if the issuer determines in its reasonable discretion, such event has had, or is likely to have , a material adverse effect on the issuer's interest with respect to the contract. Such events may include, but are not limited to, management of the portfolio is not in accordance with investment guidelines, any representation or warranty made by the contact holder becomes untrue in an material way, or the fund is terminated or ceases to qualify as a group trust.

The gross crediting rate formula is negotiated in the wrap contact of the underlying investment held by Gartmore Morley, with the requirement that interest rates may not be less than zero percent. Crediting rates reflect the amortization of the realized and unrealized gains and losses in the underlying portfolio over the duration of the portfolio and, in consequent, may not reflect the actual returns achieved in the portfolio. From time to time the crediting rate may be significantly greater or less than the current market interest rates. A number of factors can influence future crediting rates, which may include, but are not limited to: portfolio cash flows, underlying portfolio performance, current market interest rates for reinvestment and change in credit ratings.

During the year ended December 31, 2015, the average yield earned by the Plan was 1.13 percent and the average credited to participants was 1.64 percent.

During the year ended December 31, 2014 the average yield earned by the Plan was .89 percent and the average credited to participants was 1.41 percent.

Note 6. Fair Value of Investments in Certain Entities that Calculate Net Asset Value per Share

The following table sets forth the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2015 and 2014:

	2015			
Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common Collective Trust *(a)*	$ 3,088,017	-	Daily	None

	2014			
Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common Collective Trust *(a)*	$ 3,062,465	-	Daily	None

(a) This category includes a stable value collective fund whose objective is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology and the careful and prudent assumptions of investment risk providing for preservation of capital, stability and predictability of returns, liquidity to pay Plan benefits and high credit quality. The fund seeks to achieve this objective by investing in conventional, synthetic and separate account investment contracts (collectively, "contracts") issued by life insurance companies, banks and other financial institutions.

Characteristics of these contracts allow for their principal value to remain stable regardless of the volatility of the financial markets. For liquidity purposes, the fund may have all or a portion of its assets invested in high-quality money market instruments, investment companies and a collective investment trust that meet the investment objectives. Investments in this category can be redeemed daily at the current NAV per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the NAV per share of the underlying investments.

Note 7. Information Certified by the Trustee

The Plan has elected the method of annual compliance reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The assets of the Plan are held by the trustee. Based on information provided and certified by the trustees, there are no fixed income obligations, leases, or debt instruments in default or deemed uncollectible, as defined by ERISA, for the years ended December 31, 2015 and 2014.

Note 7. Information Certified by the Trustee (continued)

The trustees have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

As of December 31:	2015	2014
Investments, at fair value:		
Mutual funds	$ 19,667,130	$ 19,059,518
Common collective trust (contract value)	3,081,253	3,034,153
	$ 22,748,383	$ 22,093,671
Cash	$ 17,747	$ 301
Notes receivable from participants	$ 869,644	$ 925,418

For the Year Ended December 31, 2015

Net depreciation in fair value of investments	$ (1,005,078)
Dividend income	863,267
Interest income on notes receivable from participants	28,807

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 9. Tax Status

The Plan obtained its latest advisory opinion letter on March 31, 2014 in which the IRS stated that the basic Plan document, as then designed, was in compliance with the applicable requirements of the IRC. The Plan is required to operate in conformity with the applicable provisions of the IRC to maintain its tax-qualified status. The Plan has been amended since receiving the opinion letter. However, the Sponsor believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Note 9. Tax Status (continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the Department of Labor. The Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Furthermore, there are no tax related interest or penalties included in the financial statements presented.

Note 10. Parties-in-Interest

As of December 31, 2015 and 2014, there were transactions involving the investment of Plan assets in investment funds maintained by the trustees, which qualify as party-in-interest transactions.

In addition, certain participants borrowed from the Plan. As of December 31, 2015 and 2014, the outstanding notes of the Plan participants were $869,644 and $925,418, respectively. Participants are a party-in-interest to the Plan and these loans and the related interest income were exempt party-in-interest transactions pursuant to Section 408(b)(1) of ERISA.

Note 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks, and domestic and global market conditions. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could significantly affect participants' account balances and the amounts reported in the December 31, 2015 Statement of Net Assets Available for Benefits. The Plan is exposed to credit loss in the event of non-performance by the companies with who guaranteed investment contracts are placed. However, the Sponsor does not anticipate non-performance by these companies and believes that the risk to Plan assets from credit loss is not material due to the diversified nature of the assets held.

Note 12. Subsequent Events

Plan management has evaluated subsequent events through August 19, 2016 which is the date these financial statements were available to be issued.

INDEPENDENT AUDITORS' REPORT

To the Sponsor of the Pepsi-Cola Newburgh Bottling Co., Inc. 401(k) Profit Sharing Plan
for Employees of Pepsi-Cola of the Hudson Valley and Pepsi-Cola Bristol Facilities

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pepsi-Cola Newburgh Bottling Co., Inc. 401(k) Profit Sharing Plan for Employees of Pepsi-Cola of the Hudson Valley and Pepsi-Cola Bristol Facilities, which comprise the statements of net assets available for plan benefits as of December 31, 2015 and 2014 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2015 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with U. S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with U. S. generally accepted auditing standards. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Bank of America, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of and for the year ended December 31, 2015 that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedules

The supplemental schedule of assets (held at end of year) appearing on page 16 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the 2015 and 2014 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015

Note 1. Description of the Plan

The following description of Pepsi-Cola Newburgh Bottling Co., Inc. 401(k) Profit Sharing Plan for Employees of Pepsi-Cola of the Hudson Valley and Pepsi-Cola Bristol Facilities (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan established for the benefit of the full-time employees of Pepsi-Cola Newburgh Bottling Co., Inc. (the "Sponsor"). The Plan and the trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (the "IRC") and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees of the Sponsor who are full-time, at least 21 years of age and who have completed three months of service are eligible to contribute to the Plan but they are not eligible to receive the profit sharing feature until their second calendar year of employment and 1,000 hours of service.

Participant Accounts

Each participant's account is credited with the participant's contribution, employer matching contribution, an allocation of the Sponsor's profit sharing contribution, and Plan earnings. Each participant's account is reduced by withdrawals, losses on investments, forfeitures, and plan administrative expenses. Allocation of Plan earnings (losses) is based upon the relationship of a participant's account to the accounts of all participants in each investment fund. Allocation of the Sponsor's contribution is based upon the ratio each participant's compensation bears to the total compensation of all participants. The investment of each participant's trust fund is directed by the participant from the options available under the Plan.

Contributions

Each year, participants may make salary deferral contributions in an percentage from 1% to 100% or dollar amount of qualified pre-tax annual compensation, as defined by the Plan. For each calendar year that the Sponsor meets its profit goals, it will make a profit sharing contribution to the Plan. The total profit sharing contribution will be an amount determined and authorized annually by the Sponsor's board of directors. Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain limitations.

Note 1. Description of the Plan (continued)

Contributions (continued)

The Sponsor will also make a contribution to the Plan, known as a 401(k) matching contribution, on behalf of those participants who have made salary deferral contributions. The matching contribution will be an amount equal to the employee contribution up to a maximum of 3% of eligible employee compensation, subject to the maximum amount imposed by the Internal Revenue Service (the "IRS").

Payment of Benefits

Upon termination of service due to death, disability or early or normal retirement, a participant will automatically become 100% vested in his or her account balance. For termination of service for other reasons, a participant will receive the value of the vested interest in his or her account.

Participants' Investment Options

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Sponsor. Participants may change their investment options at any time throughout the year.

Vesting

Participants are immediately vested in their voluntary contributions adjusted for actual earnings (losses) thereon. Participants become 20% vested after two years of service and continue to vest at the rate of 20% for each successive year of service until 100% vested in the Sponsor matching and profit sharing contributions made on their behalf.

Forfeitures

At December 31, 2015 and 2014, forfeitured non vested accounts totaled $102,079 and $169,610, respectively. These amounts will be used first to reduce the Plan's administrative expenses. Any remaining forfeitures shall be utilized to reduce employer matching and discretionary contributions. During the year ended December 31, 2015, $200,000 of forfeited amounts reduced employer contributions as permitted by the plan.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at fixed rate commensurate with local prevailing rates as determined by the Trustee (at the time the loan is entered into), ranging from 3.25% - 4.25% for the year ended December 31, 2015. Principal and interest are paid ratably through weekly payroll deductions. Delinquent loans are treated as distributions based on terms of the Plan Agreement.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 4 for a discussion of fair value measurements).

Investment contracts held by the Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of the Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment in the common collective trust as well as assets available for benefits present the fair value of the investment in the common collective trust as well as the adjustment of the investment in the common collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned and dividend income is accrued on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains (losses) on investments bought and sold as held during the year.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Note 2. Summary of Significant Accounting Policies (continued)

Administrative Expenses

The expenses necessary to administer the Plan can be paid by the Plan and allocated proportionately to each participant. In addition, participants are charged services fees for any loan and distribution transactions they request and certain investment related expenses have been offset with net investment income and are not readily determinable.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

The Sponsor is aware of two recently issued pronouncements.

FASB ASU 2015-07 issued in May 2015, *Fair Value Measurement (Topic 820): Disclosures in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)* which exempts investments measured using the net asset value practical expedient from categorization within the fair value hierarchy. This guidance is effective for nonpublic entities for fiscal years beginning after December 15, 2016.

FASB ASU 2015-12 issued in July 2015, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* The standard simplifies reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures. This guidance is effective for fiscal years beginning after December 15, 2015.

Note 3. Investments (unaudited)

The following presents investments at December 31, 2015 and 2014 that represent 5% or more of the Plan's net assets:

PIMCO Total Return Fund	-	1,194,767
Pioneer Bond Fund	1,677,713	-

(a) Fund shown at contract value

Note 3. Investments (unaudited) (continued)

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as those held during the year) appreciated (depreciated) in value as follows:

Mutual funds	$ (1,039,641)
Common collective trust	34,563
	$ (1,005,078)

Note 4. Fair Value of Investments

The framework established by the Financial Accounting Standards Board (FASB) for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Such inputs include quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in methodologies used at December 31, 2015 and 2014:

Mutual Funds: Shares of registered investment companies (mutual funds) are reported at fair value based on the quoted price of the fund, which represents the net asset value ("NAV") of the shares held by the fund at year-end.

Common Collective Trust ("CCT"): This investment is a public investment vehicle based on the calculated net asset value (NAV). The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Note 4. Fair Value of Investments (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Note 5. Investments in a Common Collective Trust

During 2015 and 2014, the Plan invested in a common collective trust (CCT), the Morley Stable Value Fund, with Gartmore Morley. The stable value fund invests in underlying assets, typically fixed income securities or bond funds and enters into liquidity agreements, commonly referred to as wrap contracts, issued by insurance companies and other financial institutions for a fee. Investments in the CCT are presented at contract value, which represents invested principal plus accrued interest thereon. The contracts are nontransferable but provide for benefit responsible withdrawals and participant transfers at contract value.

	2015	2014
Common collective trust, contract value	$ 3,081,253	$ 3,034,153
Adjustment from contract value to fair value for fully benefit - responsive investment contract	6,764	28,312
Common collective trust, fair value	$ 3,088,017	$ 3,062,465

An issuer can terminate an investment contract upon the event of default by the contract holder, advisor or trustee if the issuer determines in its reasonable discretion, such event has had, or is likely to have , a material adverse effect on the issuer's interest with respect to the contract. Such events may include, but are not limited to, management of the portfolio is not in accordance with investment guidelines, any representation or warranty made by the contact holder becomes untrue in an material way, or the fund is terminated or ceases to qualify as a group trust.

The gross crediting rate formula is negotiated in the wrap contact of the underlying investment held by Gartmore Morley, with the requirement that interest rates may not be less than zero percent. Crediting rates reflect the amortization of the realized and unrealized gains and losses in the underlying portfolio over the duration of the portfolio and, in consequent, may not reflect the actual returns achieved in the portfolio. From time to time the crediting rate may be significantly greater or less than the current market interest rates. A number of factors can influence future crediting rates, which may include, but are not limited to: portfolio cash flows, underlying portfolio performance, current market interest rates for reinvestment and change in credit ratings.

During the year ended December 31, 2015, the average yield earned by the Plan was 1.13 percent and the average credited to participants was 1.64 percent.

During the year ended December 31, 2014 the average yield earned by the Plan was .89 percent and the average credited to participants was 1.41 percent.

Note 6. Fair Value of Investments in Certain Entities that Calculate Net Asset Value per Share

The following table sets forth the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2015 and 2014:

	2015			
Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common Collective Trust *(a)*	$ 3,088,017	-	Daily	None

	2014			
Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common Collective Trust *(a)*	$ 3,062,465	-	Daily	None

(a) This category includes a stable value collective fund whose objective is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology and the careful and prudent assumptions of investment risk providing for preservation of capital, stability and predictability of returns, liquidity to pay Plan benefits and high credit quality. The fund seeks to achieve this objective by investing in conventional, synthetic and separate account investment contracts (collectively, "contracts") issued by life insurance companies, banks and other financial institutions.

Characteristics of these contracts allow for their principal value to remain stable regardless of the volatility of the financial markets. For liquidity purposes, the fund may have all or a portion of its assets invested in high-quality money market instruments, investment companies and a collective investment trust that meet the investment objectives. Investments in this category can be redeemed daily at the current NAV per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the NAV per share of the underlying investments.

Note 7. Information Certified by the Trustee

The Plan has elected the method of annual compliance reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The assets of the Plan are held by the trustee. Based on information provided and certified by the trustees, there are no fixed income obligations, leases, or debt instruments in default or deemed uncollectible, as defined by ERISA, for the years ended December 31, 2015 and 2014.

Note 7. Information Certified by the Trustee (continued)

The trustees have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

As of December 31:	2015	2014
Investments, at fair value:		
Mutual funds	$ 19,667,130	$ 19,059,518

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 9. Tax Status

The Plan obtained its latest advisory opinion letter on March 31, 2014 in which the IRS stated that the basic Plan document, as then designed, was in compliance with the applicable requirements of the IRC. The Plan is required to operate in conformity with the applicable provisions of the IRC to maintain its tax-qualified status. The Plan has been amended since receiving the opinion letter. However, the Sponsor believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Note 9. Tax Status (continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the Department of Labor. The Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Furthermore, there are no tax related interest or penalties included in the financial statements presented.

Note 10. Parties-in-Interest

As of December 31, 2015 and 2014, there were transactions involving the investment of Plan assets in investment funds maintained by the trustees, which qualify as party-in-interest transactions.

In addition, certain participants borrowed from the Plan. As of December 31, 2015 and 2014, the outstanding notes of the Plan participants were $869,644 and $925,418, respectively. Participants are a party-in-interest to the Plan and these loans and the related interest income were exempt party-in-interest transactions pursuant to Section 408(b)(1) of ERISA.

Note 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks, and domestic and global market conditions. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could significantly affect participants' account balances and the amounts reported in the December 31, 2015 Statement of Net Assets Available for Benefits. The Plan is exposed to credit loss in the event of non-performance by the companies with who guaranteed investment contracts are placed. However, the Sponsor does not anticipate non-performance by these companies and believes that the risk to Plan assets from credit loss is not material due to the diversified nature of the assets held.

Note 12. Subsequent Events

Plan management has evaluated subsequent events through August 19, 2016 which is the date these financial statements were available to be issued.
