InterDesign, Inc. Profit Sharing Plan

Notes to Financial Statements (Modified Cash Basis)

Note 1. Description of Plan

The following description of the InterDesign, Inc. Profit Sharing Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is sponsored and administered by InterDesign, Inc. (the Company) and is governed by the plan agreement. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan is a defined contribution plan covering all regular full-time, non-union, U.S employees of the Company. To be eligible to participate in the 401(k) contribution, employer safe harbor contributions and employer discretionary profit sharing contribution portion of the Plan, participants must be twenty-one or older and have completed one-year of service with the Company. One year of service is defined as having completed 1,000 hours within a twelve-month period.

Contributions: Each year, participants may contribute up to the maximum percentage of pretax annual compensation, as defined by the Plan and as allowable under the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who attained age 50 before the end of the Plan year were eligible to contribute additional catch-up contributions, as allowable under the IRC. In addition, the Company contributes a non-elective safe harbor contribution of 3% of participants' eligible compensation to the account of each eligible participant. The Company also offers an additional profit sharing contribution that may be contributed at the discretion of the Company's board of directors. For the periods ending December 31, 2015 and 2014, profit sharing contributions totaled approximately \$976,000 and \$925,000, respectively. The discretionary profit sharing contribution is invested in a portfolio of investments directed by the Company (non-participant directed).

Funding policy: The Company's funding policy for the safe harbor contribution is to make the contributions concurrently with the employee's portion of the 401(k) contributions to the Plan. The profit sharing contributions are made to the Plan on an annual basis based on management's discretion.

Participants' accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, any additional profit sharing contribution and (b) Plan earnings and is charged with an allocation of administrative expenses, if any are paid by the Plan. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants immediately vest in their contributions as well as the Company's safe harbor non-elective contributions, plus actual earnings thereon. Vesting in the Company's profit sharing contribution is based on years of service without incurring a break in service as defined in the plan agreement in accordance with the following schedule:

<u>Years of Service</u>	<u>Vesting</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

InterDesign, Inc. Profit Sharing Plan

Notes to Financial Statements (Modified Cash Basis)

Note 1. Description of Plan (Continued)

Payment of benefits: Participants are entitled to receive a lump-sum amount equal to the value of their vested account balance upon termination or separation of service.

Forfeited accounts: Forfeitures of nonvested Company contributions are used to reduce employer contributions. Forfeitures amounting to approximately \$17,000 and \$11,000 for the years ended December 31, 2015 and 2014, respectively, were used to reduce employer contributions. As of December 31, 2015 and 2014 there were approximately \$45,000 and \$16,000, respectively, of forfeited nonvested accounts.

Plan termination: Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. In the event of termination of the Plan, participants will become 100% vested in their accounts.

Note 2. Significant of Accounting Policies

Basis of accounting: The Plan's records are kept on the modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the modified cash basis of accounting, income is recognized when cash is received, benefits are recognized when paid and investments are recorded at fair value, except the guaranteed insurance contract, which is recorded at contract value due to it being fully benefit responsive.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Administrative expenses: The Plan provides that administrative expenses of the Plan are to be paid by the Plan or by the Company, at the Company's discretion.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sale of securities are recorded on a trade-date basis. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits. Actual results could differ from those estimates.

Benefit payments: Benefits are recorded when paid.

Risks and uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

InterDesign, Inc. Profit Sharing Plan

Notes to Financial Statements (Modified Cash Basis)

Note 2. Significant of Accounting Policies (Continued)

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through September 6 2016, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Voya Institutional Trust Company

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014 and for the years then ended, included throughout the Plan's financial statements and supplemental schedules that were prepared by or derived from information provided by the trustee and furnished to the plan administrator. This summary reflects the amendments in Part II of Accounting Standards Update (ASU) 2015-12 that was originally adopted by the Plan for the year ended December 31, 2014. The plan administrator has obtained certifications from the trustee that information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

	2015	2014
Participant directed:		
Pooled separate accounts	\$ 9,176,773	\$ 8,772,439
Non-participant directed:		
Pooled separate accounts	7,526,047	7,083,586

Voya Fixed Account	5,770,265	5,403,855
	<u>\$ 7,836,900</u>	<u>\$ 7,011,205</u>

The trustee also certified to the completeness and accuracy of net (depreciation) appreciation in the fair value of the investments of \$(98,860) and \$1,378,407 and interest and dividends of \$182,432 and \$160,156 related to the aforementioned investments for the years ended December 31, 2015 and 2014, respectively.

InterDesign, Inc. Profit Sharing Plan

Notes to Financial Statements (Modified Cash Basis)

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no significant changes in the methodology used at December 31, 2015 and 2014.

Pooled separate accounts: Valued at the total of the net asset value (NAV) of shares of mutual funds and cash held by the account at year-end. The Plan's interests in the pooled separate accounts are valued based on the information reported by the investment advisor.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

InterDesign, Inc. Profit Sharing Plan

Notes to Financial Statements (Modified Cash Basis)

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31:

		2015			
		Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	\$	-	\$ -	\$ -	\$ -
Investments measured at net asset value ^(a)					16,702,820
Investments at fair value	\$	-	\$ -	\$ -	\$ 16,702,820
		2014			
		Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	\$	-	\$ -	\$ -	\$ -
Investments measured at net asset value ^(a)					15,856,025
Investments at fair value	\$	-	\$ -	\$ -	\$ 15,856,025

- ^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

For the years ended December 31, 2015 and 2014, there were no transfers in or out of Level 1, 2, or 3.

⁽¹⁾ This category includes investments whose objective is to either seek substantial dividend income as well as long-term growth of capital or provide an investment return matching the return of the S&P 500 index. Typically these funds invest primarily in stocks of companies similar in size to those in the S&P 500 index.

⁽²⁾ This category's investment objective is to seek long-term capital appreciation. The funds may invest in domestic equity securities with growth potential and/or companies within the range of the market capitalization of the Russell Midcap Value index.

⁽³⁾ Investments in this category seek capital appreciation by investing in either growth or value stocks issued by companies with small-sized market capitalization believed to be undervalued in the marketplace or possess above average potential.

⁽⁴⁾ The pooled separate accounts in this category primarily invest at least 80% of assets in equity and debt securities of issuers from Europe and developing market countries.

- (5) The investment option invests primarily in intermediate-term, fixed-income investments such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and United States government and agency-backed securities. The fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in a diversified portfolio of fixed-income instruments of varying maturities, represented by forwards or derivatives such as options, futures contracts, or swap agreements, at the time of each purchase. It invests in securities denominated in foreign currencies and in securities of foreign issuers, including securities tied to emerging market countries.
- (6) The pooled separate accounts in this category primarily seek a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund." It invests primarily in underlying Voya Investments funds, domestic and foreign equity, real asset and alternative investments, and fixed-income funds according to an asset allocation strategy designed for investors having a retirement investment goal close to the year in the fund's name.

Note 6. Guaranteed Investment Contracts with Insurance Company

The Plan entered into a traditional investment contract with Voya Retirement Insurance and Annuity Company, an affiliate of Voya Institutional Trust Company. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if there were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the traditional investment contract at December 31, 2015 and 2014 was \$7,836,900 and \$7,011,205, respectively.

Note 6. Guaranteed Investment Contracts with Insurance Company (Continued)

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.05%. Such interest rates are reviewed on a quarterly basis for resetting. The contract does permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
2. Premature termination of the contract
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures of spin-offs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer.

Note 7. Related Party Transactions

The Plan invests in various pooled separate accounts and a guaranteed investment contract managed by Voya Retirement Insurance and Annuity Company (Voya), an affiliate of Voya Institutional Trust Company. Voya is the trustee of the Plan, therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Voya amounted to \$1,700 and \$1,300 for the years ended December 31, 2015 and 2014, respectively.

Note 8. Tax Status

Effective January 1, 2015, the Plan adopted a non-standardized form of a prototype plan sponsored by Voya Retirement Insurance and Annuity Company. The prototype plan has obtained a favorable opinion letter dated September 1, 2014 from the Internal Revenue Service as to the prototype plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Prohibited Transactions

During the years ended December 31, 2015 and 2014, the plan sponsor failed to deposit \$48,638 and \$26,796, respectively, of participant deferrals within the required time frame as prescribed by the United States Department of Labor (DOL). The DOL considers the late deposits to be prohibited non-exempt transactions. The plan sponsor remitted lost earnings on March 10, 2015 for the late deposits as indicated on the Schedule of Delinquent Contributions.

Note 10. Reconciliation of Financial Statements to Form 5500

Note receivables from participants are reported on the Form 5500 as participant loans and are considered to be plan investments while in the Plan's financial statements they are classified as receivables from participants.
