Note 1 - Description of Plan

The Taconic Biosciences, Inc. (Company) 401(k) Profit Sharing Plan and Trust (Plan) was established effective January 1, 1976.

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution profit sharing plan with a 401(k) feature covering all eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan assets are held by State Street Bank and Trust Company, the Trustee of the Plan. Company contributions, participant elective deferrals, and participant accounts are managed by Transamerica Retirement Solutions, the Recordkeeper of the Plan. Plan Trustees are responsible for oversight of the Plan and for determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Effective January 1, 2014, the Plan was amended: to allow for after-tax Roth deferrals by eligible participants; to increase the default contribution rate for automatic enrollment from 3% to 4%; and to change the allocation priority for forfeitures. Effective September 8, 2014, the Plan name was amended to Taconic Biosciences, Inc. 401(k) Profit Sharing Plan and Trust.

Effective January 1, 2015, the Plan was restated to reflect the provisions of the Pension Protection Act of 2006 and to permit participant directed investments for all contributions made to the Plan.

b. Contributions

Each year, participants may contribute a percentage or a fixed dollar amount of their pre-tax annual compensation to the Plan. In addition, starting in 2014, participants may contribute after-tax Roth deferral contributions to the Plan. Contributions are subject to certain limitations as defined by the Plan and the Internal Revenue Code (IRC). The maximum participant deferral was $18,000 and $17,500 for the years ended December 31, 2015 and 2014, respectively. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute rollover amounts representing distributions from other qualified plans. The Plan includes an auto enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Deferral rates for automatically enrolled participants were set at 4% for both of the years ended December 31, 2015 and 2014.

Under the safe harbor election, the Company matches a portion of eligible employee contributions. The safe harbor match is equal to 100% of the first 4% of a participant's eligible compensation. A safe harbor matching contribution is a minimum contribution made by the Company that allows the Plan to be exempt from 401(k) non-discrimination tests. The Company's safe harbor matching contribution was approximately $892,000 and $1,001,000 for the years ended December 31, 2015 and 2014, respectively.

Note 1 - Description of Plan - Continued

b. Contributions - Continued

Additional matching contributions and profit sharing contributions may be contributed at the discretion of the Board of Directors. There were no additional discretionary matching or profit sharing contributions for the years ended December 31, 2015 and 2014.

During 2015, participants directed the investment of their contributions, as well as the Company's safe harbor, discretionary matching contributions, and discretionary profit sharing contributions into the various investment options offered by the Plan. Prior to 2015, the Company's discretionary profit sharing contributions were invested in various funds as directed by the Plan's Trustees.

c. Plan Eligibility

Employees are eligible to participate in the Plan with respect to elective deferral contributions once they complete three months of service and have attained twenty-one years of age. To participate in the Company's safe harbor match, discretionary match, and profit sharing contributions, employees must have one year of service. Participants must have 1,000 hours of service and be employed on the last day of the Plan year to share in the Company's profit sharing contributions.

d. Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's safe harbor matching contribution and an allocation of: (a) the Company's discretionary matching and profit sharing contributions, if any (b) forfeitures, if any (c) the Plan's investment earnings (losses), net of investment expenses, and (d) administrative expenses paid by the Plan. Allocations are based on participant compensation, account balances, or specific participant transactions as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are vested immediately in their contributions and the Company's safe harbor matching contributions, plus actual earnings thereon.

Vesting in the Company's discretionary matching and profit sharing contributions is based on years of continuous service. A participant is 100% vested upon: (1) disability; (2) death; (3) normal retirement at age 65; or (4) termination of the Plan. A participant shall have a vested and nonforfeitable interest in his or her discretionary matching and profit sharing amounts determined by the number of years of credited service as follows:

Years of Service	Vesting %
0-1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Note 1 - Description of Plan - Continued

f. Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, or 50% of their vested account balance. Participant notes are secured by the balance in the participants' accounts and bear interest at the rate of 4.25%, as determined by the Plan sponsor. Principal and interest are paid ratably through regular payroll deductions. In general, loans must be repaid within five years; however, if the loan is used to purchase a principal residence, the repayment period may be set for a term of up to ten years.

g. Payment of Benefits

On death, disability, retirement, or termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account or annual installments as defined by the Plan document. The Plan also allows hardship distributions up to the participant's vested salary deferral account balance; and in-service distributions upon attaining the age of 59½.

h. Forfeited Accounts

Forfeitures represent the nonvested portion of terminated participants' account. Forfeitures may be used to: restore a participant's account upon rehire, reduce the employer's discretionary matching and profit sharing contributions; pay Plan administrative expenses; and add to the employer's profit sharing contribution. Forfeitures allocated to participants' accounts totaled approximately $125,000 and $60,000 for the years ended December 31, 2015 and 2014, respectively. Forfeitures used to pay administrative expenses totaled approximately $15,000 and $20,000 for the years ended December 31, 2015 and 2014, respectively. Unallocated forfeitures totaled approximately $6,000 and $118,000 at December 31, 2015 and 2014, respectively.

i. Newly Adopted Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. This ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also limits certain disclosures to investments for which the entity has elected to measure the fair value using the practical expedient. This ASU requires retrospective application and is effective for nonpublic business entities for fiscal years beginning after December 15, 2016; however, early adoption is permitted. The Plan has adopted this ASU effective January 1, 2015.

In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) - (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force).* This ASU simplifies several aspects of plan accounting. This ASU requires retrospective application and is effective for nonpublic business entities for fiscal years beginning after December 15, 2015; however, early adoption is permitted. The Plan has adopted this ASU effective January 1, 2015.

Note 2 - Summary of Significant Accounting Policies

a. Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for defined contribution plans.

b. Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

d. Participant Notes Receivable

Notes receivable from participants are stated at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on an accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Loans treated as benefit payments totaled approximately $235,000 and $119,000 for the years ended December 31, 2015 and 2014, respectively.

e. Payment of Benefits

Benefits are recorded when paid.

f. Administrative Expenses

Administrative fees of the Plan are paid by the Plan and the Company. Fees related to the administration of participant notes receivable and distributions are charged directly to the participant's account and are included in administrative expenses. Recordkeeping fees paid by the Plan are allocated proportionately to participants based on the value of their account balances. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

g. Subsequent Events

The Plan has evaluated subsequent events for potential recognition or disclosure through September 16, 2016, the date the financial statements were available to be issued.

Note 3 - Information Certified and Provided by Plan Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee of the Plan as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule:

Note 5 - Investments and Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3).

The following three levels of inputs may be used to measure fair value:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trust Funds: Valued based on the NAV of units of a bank collective trust. The NAV, as provided by the fund's Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Plan transactions (issuances and redemptions) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require twelve months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Investments and Fair Value Measurements - Continued

The following tables set forth by level within the fair value hierarchy, the major categories of the Plan's assets measured at fair value:

Note 6 - Related Party and Party-in-Interest Transactions

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation for such functions from the Plan. There were no administrative expenses paid by the Company for both of the years ended December 31, 2015 and 2014.

Certain investment options are managed by the Recordkeeper and Trustee of the Plan.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

Note 8 - Tax Status

The Internal Revenue Service (IRS) has issued an opinion letter that the Volume Submitter Profit Sharing Plan offered by Transamerica Retirement Solutions and adopted by the Plan on January 1, 2015, constitutes a qualified plan under Section 401(a) of the Internal Revenue Code (IRC) and is, therefore, exempt from federal income taxes under the provisions of Section 501(a). The Plan has received an opinion letter dated March 31, 2014 from the IRS as to the Plan's qualified status. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain tax position that more-likely-than-not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
