General

The Plan is a defined contribution plan established to provide retirement benefits for full-time employees of Brayton Point Energy, LLC whose employment is governed by a collective bargaining agreement. The sponsor of the Plan is Brayton Point Energy, LLC. (the “Company”). The Dynegy Inc. Benefit Plans Committee serves as the “Plan Administrator” for the Plan. The Plan qualifies under Section 401(a) of the Internal Revenue Code of 1986, as amended (the “Code”) and is a trustee, defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

On August 21, 2014, the Company signed a stock purchase agreement to be acquired by Dynegy Resource II, LLC, a wholly owned subsidiary of Dynegy Inc. (Dynegy). The sale of the Company to Dynegy was finalized on April 1, 2015.

Contributions

Participants may contribute up to 20% of their compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may designate all or a portion of their deferrals as Roth contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollovers).

The Company makes a matching contribution equal to 100% of each participant’s elective deferral contribution up to a maximum of 5% of eligible compensation. In addition, the Company may make additional profit-sharing contributions at the discretion of the Board of Directors. The discretionary profit-sharing contribution was 5% of each participant’s eligible compensation for the year ended December 31, 2015. All contributions are subject to certain limitations imposed by the Plan and the Internal Revenue Code (the Code).

Investment of Funds

The Plan offers a variety of investment options. Each participant has the right upon enrollment to select, from among the available investment options under the Plan, the fund(s) into which the participant’s before-tax, after-tax and rollover contributions (and the earnings allocable thereto) will be invested. A participant may change the allocation of such participant contributions made to the selected funds or transfer amounts among investment funds in accordance with the procedures established by the Plan Administrator. If a participant does not make investment elections, the contributions will be invested in the default investment fund selected by the Plan Administrator for the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company contributions, and allocations of plan earnings. Participant accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations of Company contributions, investment income and administrative expenses are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Vesting

Participants are immediately vested in their deferral, rollover and Company matching and profit-sharing contributions, including the earnings on those amounts.

Loans to Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. Loan terms range from one to five years, except for loans to purchase a primary residence, which may be offered over a term of up to thirty years. The loans are secured by the balance in the participants' accounts and bear interest at a rate commensurate with local prevailing rates, as determined by the plan administrator. The notes currently bear interest at rates ranging from 4.25% to 6%. Participants may only have one loan outstanding at any given time. Generally, principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon retirement, disability, death or termination of employment, the participant shall become entitled to the total value of his or her vested account. Distributions will be paid in a lump sum or in installments over a number of years, based upon election of the participant or the Plan, as defined in the Plan. If a participant terminates employment for any reason and his or her vested account balance does not exceed \$1,000, the plan administrator may distribute such amount in a lump-sum payment to the participant without consent of the participant. If the participant's balance is between \$1,000 and \$5,000, the plan administrator may roll the amount into an individual retirement account on behalf of the participant without the consent of the participant.

The Plan also provides for in-service withdrawals by participants who have attained the age of 59½. Upon financial hardship, a participant is entitled to the value of his or her deferral accounts, but not the earnings thereon, which is payable immediately in a lump-sum distribution.

Plan Termination

Subject to certain limitations, the right to amend, modify or terminate the Plan is reserved by the Company. In the event the Plan is terminated, the assets of the trust fund will be liquidated and each participant will be entitled to receive the entire amount of his or her account.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying Plan financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of fair value measurements.

Benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan corresponding to the fully benefit-responsive investment contracts because it represents the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if material (Note 6). The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Income

Net appreciation (depreciation) of investments is comprised of realized and unrealized gains and losses. Realized gains or losses represent the difference between proceeds received upon sale and the average cost of the investment. Unrealized gains or losses are the differences between market value and cost of investments retained in the Plan (at the financial statement date).

The Trustee records dividend income as of the ex-dividend date and accrues interest income as earned.

FOR THE YEAR ENDED DECEMBER 31, 2015

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from these estimates.

Distribution of Benefits

Benefits to participants are recorded when paid.

Risks and Uncertainties

The Plan provides for various investment options in money market and mutual funds. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and those changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Administration

Vanguard Fiduciary Trust Company has replaced Chernoff Diamond, Co. LLC and Charles Schwab Bank as both the recordkeeper and trustee respectively for the Plan since May 18, 2015.

New Accounting Standards

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2015-07). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification (ASC) 820. ASU 2015-07 is effective for the Plan retrospectively for the year beginning after December 15, 2015 with early adoption permitted. Plan management is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, "(Part I) *Fully Benefit-Responsive Investment Contracts*, (Part II) *Plan Investment Disclosures*, (Part III) *Measurement Date*

Practical Expedient” (ASU 2015-12). ASU 2015-12 (i) requires a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (ii) requires an employee benefit plan to disaggregate its investments only by general type and eliminates the requirement to disaggregate by nature, characteristics and risks of the investment, eliminates the requirement to disclose the net appreciation or depreciation in fair value of investments by general type, eliminates the requirement to disclose individual investments with a value equal to or greater than 5% of net assets available for benefits, and eliminates the requirement to disclose the fair value information about significant investment strategies for an investment in a fund that files an annual report on Form 5500 as a direct filing entity when that investment is measured using the net asset value per share practical expedient, and (iii) allows a plan with a fiscal year end that does not end at the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early application permitted. An entity is required to apply the amendments retrospectively for all statements presented except for Part III which requires a prospective application. Plan management is currently evaluating the impact of the pending adoption of ASU 2015-12 on the Plan’s financial statements.

Management’s Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2015, through September 19, 2016, for inclusion in the financial statements and footnotes.

3. INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 17, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan has not been amended since receiving the determination letter. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Prior to July 17, 2015, Plan had adopted a nonstandardized prototype plan that received a favorable opinion letter from IRS that it was in compliance with the applicable requirements of the Code.

US GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan management believes it is no longer subject to income tax examinations for years prior to 2012.

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan has an interest in a collective investment trust that invests primarily in a pool of investment contracts issued by insurance companies and commercial banks and in contracts that are backed by high quality bonds, bond trusts and bond mutual funds that are selected by the Trustee.

As described in Note 2 above, because these contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fully benefit-responsive investment contracts. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Occurrence of certain events outside the Plan's normal operations such as partial or complete legal termination of the Plan may limit the ability of the Plan to transact at contract value with the issuer. In general, the issuer may terminate the contract and settle at other than contract value if there is a change in the qualification status of a participant, employer, or plan; a breach of material obligations under the contract and misrepresentation by the contract holder; or failure of the underlying portfolio to conform to the pre-established investment guidelines. The Employer does not believe that the occurrences of such events are probable.

The average yield earned by the collective investment trust for the year ended December 31, 2015 was 2.29% and the average yield earned to reflect the actual interest rate credited to participants for the year ended December 31, 2015 was 1.92%.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. As of December 31, 2015, the contract value of the Plan's interest in the collective investment trust was \$61,732 as compared to its fair value of \$62,778. No adjustment has been made to the Statement of Net Assets Available for Benefits to reflect contract value as the investment's fair value approximates its contract value.

6. FAIR VALUE MEASUREMENTS

The FASB establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

BRAYTON POINT ENERGY, LLC 401(k) PLAN FOR BARGAINING EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Unobservable inputs, including valuations based on pricing models, discounted cash flow methodologies or similar techniques where at least one significant model assumption or inputs is unobservable. Unobservable inputs are used to the extent that observable inputs are not available and reflect the Plan's own assumptions about the assumptions the market participants would use in pricing the assets or liabilities. Unobservable inputs are based on the best information available in the circumstances, which might include the Plan's own data.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Collective investment trust: Valued at net asset value ("NAV") using audited financial statements of the collective trust.

Mutual funds: Valued at closing NAV reported on the active market on which mutual funds are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. NAV per Share

In accordance with FASB ASU No. 2009-12, Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), the Plan expanded its disclosure to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share or its equivalent for which the fair value is not readily determinable as of December 31, 2015. For the Plan, such assets include investments in common collective trust funds.

The following table for December 31, 2015 sets forth a summary of the Plan's investments with a reported NAV.

Fair Value Estimated Using NAV per Share December 31, 2015					
	Fair Value *	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Collective Investment Trust (a)	\$ 61,732	None	Daily	None	1 Day

- (a) The investment objective of this fund is to seek stable returns comparable to those of short-term fixed income securities by investing in a combination of synthetic contracts (backed primarily by Vanguard bond trust funds), traditional insurance, and bank contracts. The average maturity range of the trust is 2–4 years. Because it invests in contracts designed to preserve a stable net asset value, the trust generates income without the price volatility associated with traditional short-term credit instruments. The trust maintains a strict credit policy, investing with issuers rated A- and higher, and investing in funds that are rated investment grade or higher. A dedicated team of analysts regularly assesses the financial health of each contract issuer.

8. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain plan investments are shares of mutual funds managed by affiliates of Vanguard Fiduciary Trust Company. Vanguard is a trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. During the year the Plan held investments managed by Charles Schwab Bank, the former Plan's trustee. These previous transaction also qualified as party-in-interest transactions. Investment and administrative expenses paid by the Plan to Charles Schwab Bank and Vanguard or their affiliates totaled \$3,816 for the year ended December 31, 2015. Certain employees of the Company who participate in the Plan perform administrative services to the Plan at no cost to the Plan. Notes receivable from participants are also party-in-interest transactions.
