BONNE BELL, INC.
401(k) SAVINGS PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Bonne Bell, Inc. 401(k) Savings Plan and Trust (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

The plan sponsor is Bonne Bell, LLC (the "Company"). The Plan is a defined contribution plan covering all eligible hourly and salaried employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is governed by a Board of Trustees comprised of several key executives of the Company. The assets of the Plan are maintained, and transactions therein are executed, by Wells Fargo Bank, N.A., the Plan's trustee.

Participation

Any full time employee is eligible to participate in the Plan on the first day of the first payroll period following the completion of thirty days of employment. Part time employees must work one year and have 1,000 hours of service in order to participate. Participants are automatically enrolled with a 1% deferral percentage after they meet the eligibility requirements unless they submit an election to not participate or participate at a different deferral percentage.

Participant Accounts and Contributions

Each participant's account is credited with the participant's contribution, the Company's matching and/or profit sharing contributions, net investment income earned on the account balances and forfeitures of terminated participants' non-vested account balances, as applicable. Plan participants may contribute 1% to 70% of gross compensation up to the maximum amount allowed, which will not cause the Plan to violate any of its provisions or any limits imposed by the Internal Revenue Code (IRC). The Company's discretionary matching contribution for 2015 and 2014 was 50% of the participant's contribution up to 6% of compensation for all participants. Participants are also eligible for discretionary Company profit sharing contributions. Profit sharing contributions made in 2015 and 2014 were \$86,275 and \$102,375, respectively.

Rollover Contributions

Distributions from another qualified plan may be transferred into the Plan.

Investment Options

Participants may direct the manner in which their contributions are to be allocated among the investment options available under the Plan. The Company contributions are allocated based upon the participant investment elections. All Plan investments are participant-directed.

Plan Expenses

The Plan pays trustee and investment management fees to Wells Fargo Bank, N.A, the trustee of the plan, and therefore these transactions qualify as party-in-interest. Fees paid by the Plan for the trustee and investment fees amounted to approximately \$91,000 and \$102,000 for the years ended December 31, 2015 and 2014, respectively.

Party-in-Interest Transactions

The Plan also participates in a revenue sharing arrangement whereby the Plan receives funds to pay certain administrative expenses. These funds totaled approximately \$68,000 and \$80,000 for the years ended December 31, 2015 and 2014, respectively. These amounts are included in net investment gain on the statements of changes in net assets available for benefits.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are 100% vested in Company contributions and any earnings thereon after three years of service.

Forfeitures

Forfeitures shall be used to restore any previously forfeited amounts of a re-employed participant and to correct any errors in allocations of contributions, forfeitures, or earnings. Any remaining forfeitures are used to reduce Company matching contributions. Forfeitures of approximately \$9,100 and \$11,700 were used during 2015 and 2014, respectively. Unallocated forfeitures were approximately \$11,300 and \$6,500 as of December 31, 2015 and 2014, respectively.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their account balance. Loan terms range from 1 to 5 years or may exceed 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the current prime rate plus 1% at the time of issuance. The interest rate on loans outstanding at December 31, 2015 was 4.25%.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefit Payments

Upon termination of service, death, or financial hardship, a participant's vested balance may be distributed in accordance with the provisions of the Plan. In addition, participants who have attained normal retirement age, as defined by the Plan, may elect to withdraw balances from their accounts while still employed.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participant accounts shall become fully vested.

Partial Plan Termination

In February 2015, certain product lines of the Company were sold. Due to this sale, certain participants were terminated causing a partial plan termination. The unvested portion of the terminated participants' accounts became fully vested as a result.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Financial Statements

The financial statements are prepared on the accrual basis of accounting.

Investments

Investments in securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the year, or in such cases where only bid and asked prices are available on the last business day of the year, the mean between these prices is used for valuation purposes. Purchases and sales of securities are reflected on the trade dates. Gains and losses on sales of securities are based on the actual cost of securities. Dividend income is recorded on the ex-dividend date. Interest from other investments is recorded as earned.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in investments in the collective trust fund that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient not being categorized in the fair value hierarchy.

In July 2015, the Financing Accounting Standards Board issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Part III is not applicable to this Plan.

Plan Benefits and Expenses

Benefits and expenses are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The trustee has certified to the completeness and accuracy of the amounts reported as investments, notes receivable from participants, net investment gain and interest on the Plan's financial statements and the accompanying supplemental schedule of assets (held at end of year). Certain plan investments are units of funds managed by the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

4. FAIR VALUE MEASUREMENTS

Accounting Standard Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	--

Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
---------	---

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the net asset value of shares held by the plan at year end.

Common Collective Trust: Valued at the net asset value, exclusive of the adjustment to contract value. The use of net asset value as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments or significant restrictions on redemptions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
December 31, 2015				
Mutual Funds	\$ <u>11,331,069</u>	\$ <u>-</u>	\$ <u>-</u>	\$ 11,331,069

				\$ <u>13,041,378</u>

Mutual Funds	\$ <u>15,027,037</u>	\$ <u>-</u>	\$ <u>-</u>	\$ 15,027,037
Measured at net asset value				<u>1,937,853</u>
				\$ <u>16,964,890</u>

5. INCOME TAX STATUS

The Plan obtained its latest determination letter on April 27, 2012, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter, however, the Plan sponsor believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

In accordance with ASU 2015-12, the Plan's interest in a collective trust is to be shown at fair value. Therefore, the fund no longer needs an adjustment from fair value to contract value. The effects of the change will be recorded on the Form 5500 in the current year.

In order for the Plan to satisfy the non-discrimination tests required under Section 401(k) of the IRC, certain participants were entitled to refunds of contributions made and earnings on those contributions totaling \$0 and \$3,364 at December 31, 2015 and 2014, respectively. These refunds have been recorded as a liability in the accompanying financial statements, but are reflected on the Form 5500 when paid. In addition, the Form 5500 is prepared on the cash basis and the financial statements are prepared on the accrual basis.

Contribution receivables have been recorded on the financial statements, but not on the Form 5500. The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	<u>2015</u>	<u>2014</u>

Plan participants may contribute 1% to 70% of gross compensation up to the maximum amount allowed, which will not cause the Plan to violate any of its provisions or any limits imposed by the Internal Revenue Code (IRC). The Company's discretionary matching contribution for 2015 and 2014 was 50% of the participant's contribution up to 6% of compensation for all participants. Participants are also eligible for discretionary Company profit sharing contributions. Profit sharing contributions made in 2015 and 2014 were \$86,275 and \$102,375, respectively.

Rollover Contributions

Distributions from another qualified plan may be transferred into the Plan.

Investment Options

Participants may direct the manner in which their contributions are to be allocated among the investment options available under the Plan. The Company contributions are allocated based upon the participant investment elections. All Plan investments are participant-directed.

Plan Expenses

The Plan pays trustee and investment management fees to Wells Fargo Bank, N.A, the trustee of the plan, and therefore these transactions qualify as party-in-interest. Fees paid by the Plan for the trustee and investment fees amounted to approximately \$91,000 and \$102,000 for the years ended December 31, 2015 and 2014, respectively.

Party-in-Interest Transactions

The Plan also participates in a revenue sharing arrangement whereby the Plan receives funds to pay certain administrative expenses. These funds totaled approximately \$68,000 and \$80,000 for the years ended December 31, 2015 and 2014, respectively. Any remaining forfeitures are used to reduce Company matching contributions. Forfeitures of approximately \$9,100 and \$11,700 were used during 2015 and 2014, respectively. Unallocated forfeitures were approximately \$11,300 and \$6,500 as of December 31, 2015 and 2014, respectively.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their account balance. Loan terms range from 1 to 5 years or may exceed 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the current prime rate plus 1% at the time of issuance. The interest rate on loans outstanding at December 31, 2015 was 4.25%.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefit Payments

Upon termination of service, death, or financial hardship, a participant's vested balance may be distributed in accordance with the provisions of the Plan. In addition, participants who have attained normal retirement age, as defined by the Plan, may elect to withdraw balances from their accounts while still employed.

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participant accounts shall become fully vested.

Partial Plan Termination

In February 2015, certain product lines of the Company were sold. Due to this sale, certain participants were terminated causing a partial plan termination. The unvested portion of the terminated participants' accounts became fully vested as a result.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Financial Statements

The financial statements are prepared on the accrual basis of accounting.

Investments

Investments in securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the year, or in such cases where only bid and asked prices are available on the last business day of the year, the mean between these prices is used for valuation purposes. Purchases and sales of securities are reflected on the trade dates. Gains and losses on sales of securities are based on the actual cost of securities. Dividend income is recorded on the ex-dividend date. Interest from other investments is recorded as earned.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in investments in the collective trust fund that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient not being categorized in the fair value hierarchy.

In July 2015, the Financing Accounting Standards Board issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Part III is not applicable to this Plan.

Plan Benefits and Expenses

Benefits and expenses are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The trustee has certified to the completeness and accuracy of the amounts reported as investments, notes receivable from participants, net investment gain and interest on the Plan's financial statements and the accompanying supplemental schedule of assets (held at end of year). Certain plan investments are units of funds managed by the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

4. FAIR VALUE MEASUREMENTS

Accounting Standard Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	--

Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
---------	---

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the net asset value of shares held by the plan at year end.

Common Collective Trust: Valued at the net asset value, exclusive of the adjustment to contract value. The use of net asset value as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments or significant restrictions on redemptions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
December 31, 2015				
Mutual Funds	\$ <u>11,331,069</u>	\$ <u>-</u>	\$ <u>-</u>	\$ 11,331,069

				\$ <u>13,041,378</u>

Measured at net asset value				<u>1,937,853</u>
				\$ <u>16,964,890</u>

5. INCOME TAX STATUS

The Plan obtained its latest determination letter on April 27, 2012, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter, however, the Plan sponsor believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

In accordance with ASU 2015-12, the Plan's interest in a collective trust is to be shown at fair value. Therefore, the fund no longer needs an adjustment from fair value to contract value. The effects of the change will be recorded on the Form 5500 in the current year.

In order for the Plan to satisfy the non-discrimination tests required under Section 401(k) of the IRC, certain participants were entitled to refunds of contributions made and earnings on those contributions totaling \$0 and \$3,364 at December 31, 2015 and 2014, respectively. These refunds have been recorded as a liability in the accompanying financial statements, but are reflected on the Form 5500 when paid. In addition, the Form 5500 is prepared on the cash basis and the financial statements are prepared on the accrual basis.

Contribution receivables have been recorded on the financial statements, but not on the Form 5500. The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	<u>2015</u>	<u>2014</u>

7. SUBSEQUENT EVENTS

Plan Management evaluated subsequent events through September 16, 2016, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

BONNE BELL, INC.
401(k) SAVINGS PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Bonne Bell, Inc. 401(k) Savings Plan and Trust (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

The plan sponsor is Bonne Bell, LLC (the "Company"). The Plan is a defined contribution plan covering all eligible hourly and salaried employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is governed by a Board of Trustees comprised of several key executives of the Company. The assets of the Plan are maintained, and transactions therein are executed, by Wells Fargo Bank, N.A., the Plan's trustee.

Participation

Any full time employee is eligible to participate in the Plan on the first day of the first payroll period following the completion of thirty days of employment. Part time employees must work one year and have 1,000 hours of service in order to participate. Participants are automatically enrolled with a 1% deferral percentage after they meet the eligibility requirements unless they submit an election to not participate or participate at a different deferral percentage.

Participant Accounts and Contributions

Each participant's account is credited with the participant's contribution, the Company's matching and/or profit sharing contributions, net investment income earned on the account balances and forfeitures of terminated participants' non-vested account balances, as applicable. Plan participants may contribute 1% to 70% of gross compensation up to the maximum amount allowed, which will not cause the Plan to violate any of its provisions or any limits imposed by the Internal Revenue Code (IRC). The Company's discretionary matching contribution for 2015 and 2014 was 50% of the participant's contribution up to 6% of compensation for all participants. Participants are also eligible for discretionary Company profit sharing contributions. Profit sharing contributions made in 2015 and 2014 were \$86,275 and \$102,375, respectively.

Rollover Contributions

Distributions from another qualified plan may be transferred into the Plan.

Investment Options

Participants may direct the manner in which their contributions are to be allocated among the investment options available under the Plan. The Company contributions are allocated based upon the participant investment elections. All Plan investments are participant-directed.

Plan Expenses

The Plan pays trustee and investment management fees to Wells Fargo Bank, N.A, the trustee of the plan, and therefore these transactions qualify as party-in-interest. Fees paid by the Plan for the trustee and investment fees amounted to approximately \$91,000 and \$102,000 for the years ended December 31, 2015 and 2014, respectively.

Party-in-Interest Transactions

The Plan also participates in a revenue sharing arrangement whereby the Plan receives funds to pay certain administrative expenses. These funds totaled approximately \$68,000 and \$80,000 for the years ended December 31, 2015 and 2014, respectively. These amounts are included in net investment gain on the statements of changes in net assets available for benefits.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are 100% vested in Company contributions and any earnings thereon after three years of service.

Forfeitures

Forfeitures shall be used to restore any previously forfeited amounts of a re-employed participant and to correct any errors in allocations of contributions, forfeitures, or earnings. Any remaining forfeitures are used to reduce Company matching contributions. Forfeitures of approximately \$9,100 and \$11,700 were used during 2015 and 2014, respectively. Unallocated forfeitures were approximately \$11,300 and \$6,500 as of December 31, 2015 and 2014, respectively.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their account balance. Loan terms range from 1 to 5 years or may exceed 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the current prime rate plus 1% at the time of issuance. The interest rate on loans outstanding at December 31, 2015 was 4.25%.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefit Payments

Upon termination of service, death, or financial hardship, a participant's vested balance may be distributed in accordance with the provisions of the Plan. In addition, participants who have attained normal retirement age, as defined by the Plan, may elect to withdraw balances from their accounts while still employed.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participant accounts shall become fully vested.

Partial Plan Termination

In February 2015, certain product lines of the Company were sold. Due to this sale, certain participants were terminated causing a partial plan termination. The unvested portion of the terminated participants' accounts became fully vested as a result.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Financial Statements

The financial statements are prepared on the accrual basis of accounting.

Investments

Investments in securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the year, or in such cases where only bid and asked prices are available on the last business day of the year, the mean between these prices is used for valuation purposes. Purchases and sales of securities are reflected on the trade dates. Gains and losses on sales of securities are based on the actual cost of securities. Dividend income is recorded on the ex-dividend date. Interest from other investments is recorded as earned.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in investments in the collective trust fund that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient not being categorized in the fair value hierarchy.

In July 2015, the Financing Accounting Standards Board issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Part III is not applicable to this Plan.

Plan Benefits and Expenses

Benefits and expenses are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The trustee has certified to the completeness and accuracy of the amounts reported as investments, notes receivable from participants, net investment gain and interest on the Plan's financial statements and the accompanying supplemental schedule of assets (held at end of year). Certain plan investments are units of funds managed by the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

4. FAIR VALUE MEASUREMENTS

Accounting Standard Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	--

Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
---------	---

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the net asset value of shares held by the plan at year end.

Common Collective Trust: Valued at the net asset value, exclusive of the adjustment to contract value. The use of net asset value as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments or significant restrictions on redemptions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Measured at net asset value				<u>1,937,853</u>
				\$ <u>16,964,890</u>

5. INCOME TAX STATUS

The Plan obtained its latest determination letter on April 27, 2012, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter, however, the Plan sponsor believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

In accordance with ASU 2015-12, the Plan's interest in a collective trust is to be shown at fair value. Therefore, the fund no longer needs an adjustment from fair value to contract value. The effects of the change will be recorded on the Form 5500 in the current year.

In order for the Plan to satisfy the non-discrimination tests required under Section 401(k) of the IRC, certain participants were entitled to refunds of contributions made and earnings on those contributions totaling \$0 and \$3,364 at December 31, 2015 and 2014, respectively. These refunds have been recorded as a liability in the accompanying financial statements, but are reflected on the Form 5500 when paid. In addition, the Form 5500 is prepared on the cash basis and the financial statements are prepared on the accrual basis.

Contribution receivables have been recorded on the financial statements, but not on the Form 5500. The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	<u>2015</u>	<u>2014</u>
