Note 1. Plan Description

The following description of the First Federal Savings Bank Salary Savings 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of First Federal Savings Bank (Employer) who have reached age 21 and have completed one year of service with 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Funding policy: The Plan allows each participant to enter into a salary reduction agreement for each plan year. Participants may contribute up to the maximum percentages allowable, not to exceed limits defined in certain sections of the Internal Revenue Code. The Plan allows the Employer to make a discretionary matching contribution based on a percentage of the participant's salary reduction contribution. For the year ended December 31, 2015, the Employer matched 25 percent of each participant's salary reduction contribution up to 4 percent for a maximum amount equal to 1 percent of the participant's eligible compensation. The Plan also has a required Employer fixed safe harbor nonelective contribution equal to 4 percent of each participant's eligible compensation. Eligible participants may also contribute amounts representing distributions from other qualified plans in the form of a rollover contribution.

Participant accounts: Each participant's account is credited with the participant's contributions, the Employer's discretionary matching contributions, an allocation of the Employer's fixed safe harbor nonelective contribution, Plan earnings and forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account. The Plan allows each participant to choose their own investment mix for salary deferrals and Employer contributions based on various risk levels. If a participant does not designate any investment options, all contributions to their account will be deposited 50 percent into the Oakmark Equity & Income Fund and 50 percent into the T. Rowe Price Capital Appreciation Fund.

Vesting: Participants are immediately vested in their voluntary contributions and employer fixed safe harbor nonelective contributions plus actual earnings thereon. Vesting in the employer discretionary matching contributions and earnings thereon are based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Forfeitures: Forfeitures of terminated participants' nonvested employer portion of their accounts may be reallocated to all eligible participants, used to reduce employer matching contributions or used to pay plan expenses. Unallocated forfeitures included in net assets available for benefits were $1,293 and $2,757 as of December 31, 2015 and 2014, respectively. Forfeitures of $2,841 were used to reduce employer matching contributions during the year ended December 31, 2015.

Notes receivable from participants: The Plan allows eligible participants to borrow funds from the Plan. Under the terms of this provision, borrowings are subject to certain limitations, including a minimum borrowing of $1,000, a maximum borrowing of the lesser of $50,000 or 50 percent or the participant's vested account balance, and a maximum term of five years or a reasonable period of time for loans used to acquire a principal residence.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the exdividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. The amendments in this Update are effective for the Plan for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update for the 2015 plan year, and it was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this Update. The impact of adopting this Update is reflected in Note 4.

Note 2. Summary of Accounting Policies (Continued)

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by Part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part I and Part II of this Update for the 2015 plan year, and the amendments were retrospectively applied to December 31, 2014. Prior year disclosures in Notes 3 and 4 have been revised to reflect the retrospective application.

Subsequent events: The Plan Administrator has evaluated subsequent events through September 16, 2016, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by the Plan Trustee

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee, EMJAY Corporation (a Great-West Financial Company), and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2015	2014
Investments, at fair value:		
Mutual funds	$ 8,762,068	$ 9,851,247
Common collective trust fund	1,513,970	1,522,483
	$ 10,276,038	$ 11,373,730
Notes receivable from participants	$ 194,049	$ 221,652

	Year Ended December 31, 2015
Investment income (loss):	
Net (depreciation) in fair value of investments	$ (539,367)
Interest and dividends	493,803
	$ (45,564)
Interest on notes receivable from participants	$ 9,752

Note 4. Investments and Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued based on quoted market prices in the active markets on which they are traded.

Stable value collective trust fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Investments and Fair Value Measurements (Continued)

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value as of December 31, 2015 and 2014:

	Level 1	Level 2	Level 3	Total
		2015		
Investments, at fair value:				
Mutual funds	$ 8,762,068	$ -	$ -	$ 8,762,068
Investments measured at net asset value (a)				1,513,970
Total investments at fair value				$ 10,276,038
		2014		
Investments, at fair value:				
Mutual funds	$ 9,851,247	$ -	$ -	$ 9,851,247
Investments measured at net asset value (a)				1,522,483
Total investments at fair value				$ 11,373,730

(a) Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the balance sheet.

The following table sets forth additional disclosures of the Plan's investments presented using NAV per share (or its equivalent) practical expedient as of December 31, 2015 and 2014:

	Net Asset Value		Unfunded	Redemption	Redemption
	2015	2014	Commitment	Frequency	Notice Period
Stable value collective trust fund	$ 1,513,970	$ 1,522,483	$ -	Daily	None

Note 5. Risks and Uncertainties

The investments of the Plan are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near term could materially affect investment balances and the amounts reported in the financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 7. Income Tax Status

The Plan adopted a defined contribution prototype plan and trust sponsored by EMJAY Corporation. The prototype plan has received a letter from the Internal Revenue Service as to its qualified status. The prototype opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision of liability for income taxes has been included in the financial statements.
