Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Kodiak Gypsum 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 2014. The Plan is available to eligible employees age 18 years or older who have completed six months of service. Employees may enter the Plan on the first day of the month coinciding with or next following the date they satisfy the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Kodiak Gypsum Mountain States, LLC dba Jones Heartz Drywall Supply (the "Company") administers the Plan. American United Life Insurance Company ("AUL") serves as the Plan's third-party administrator, maintains the Plan's records, serves as trustee and custodian, and manages Plan assets. AUL offers Plan participants a variety of investment options through various mutual funds and a guaranteed interest contract. Individual accounts are invested in the various investment options at the direction of the participants.

In August 2014, the Company acquired the assets of AO, Inc. ("AO"). Participants in AO's existing 401(k) plan were given the option to receive a distribution of their account balances or rollover their balances into the Company's Plan. If elected, participant 401(k) balances were rolled over into the Plan on December 1, 2014.

On January 1, 2015, Gulf & Basco Acquisition, LLC ("Gulf & Basco"), a wholly owned subsidiary of the Company, terminated their 401(k) plan and all plan assets were transferred into the Plan.

On January 1, 2015, East Coast Building Materials, LLC d/b/a New England Building Supply ("NEBS"), a wholly owned subsidiary of the Company, terminated their 401(k) plan and all plan assets were transferred into the Plan.

On January 1, 2015, Barton Materials, LLC d/b/a Barton Supply ("Barton"), a wholly owned subsidiary of the Company, terminated their 401(k) plan and all plan assets were transferred into the Plan.

On July 1, 2015, Georgeco, Inc. and its subsidiaries d/b/a Barnsco ("Barnsco"), a wholly owned subsidiary of the Company, terminated their 401(k) plan and all plan assets were transferred into the Plan.

On July 2, 2015, the Company acquired the assets of Zarsky Acquisition, LLC d/b/a Zarsky Lumber Company ("Zarsky"). Participants in Zarsky's existing 401(k) plan were given the option to receive a distribution of their account balances or rollover their balances into the Company's Plan. If elected, participant 401(k) balances were rolled over into the Plan on July 1, 2015.

Effective July 1, 2015, the Plan was restated to adopt a prototype plan with AUL.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

General (continued)

Effective January 1, 2016, the Plan was amended to allow for a 1% annual escalation feature for employee deferrals.

Effective February 22, 2016, the Plan was amended to allow employees of Freedom Drywall Supply LLC to participate in the Plan.

Effective March 2016, Kodiak Gypsum 401(k) Plan changed its name to Kodiak BP 401(k) Plan.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted the United States of America ("GAAP").

Contributions

Participants may make before-tax contributions of up to 100% of their eligible annual compensation, not to exceed $18,000 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. Employees are eligible to defer on an after-tax basis through payroll deductions from eligible compensation as Roth 401(k) deductions. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company may contribute a discretionary matching contribution. During the year ended December 31, 2015, the Company elected to contribute a discretionary matching contribution equal to 25% per dollar of the employees' deferrals, up to 6% of each employee's eligible compensation, for the 2015 Plan year payable in 2016. The employee must be participating on the last day of the Plan year in order to receive the discretionary matching contribution. The discretionary matching contribution is funded in a one time payment following the Plan year. For the year ended December 31, 2015, the Company made discretionary employer contributions of $273,230. The Company may also contribute a non-elective discretionary profit sharing contribution, which is allocated based on the same ratio as each participant's eligible compensation to the total of such eligible compensation for all participants. The Company did not make employer non-elective discretionary profit sharing contributions for the year ended December 31, 2015.

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the employer's discretionary matching contribution, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 3	0%
3	100%

A participant's account becomes 100% vested upon death, attaining early or normal retirement age (the age of 55 or 65, respectively), retirement due to disability, or if the Plan is terminated.

Participant Loans Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the vested balances in the participants' accounts and bear interest at rates ranging from 3.25% to 8.25%, which are commensurate with local prevailing rates at loan origination as determined quarterly by the Plan administrator, and mature at various dates through July 2029. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at an amortized cost plus accrued interest.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant may receive a lump-sum payment in the amount equal to the participant's vested account balance within a reasonable period of time after termination of employment. Participants may not make withdrawals from their accounts prior to retirement at age 59½, except in the event of death, disability, termination of employment, or notice of hardship, without being subject to certain restrictions and penalties. Benefits are recorded as distributions to participants when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to pay Plan expenses, reduce employer contributions, or allocated to participants in the same manner as the employer's contribution. During the year ended December 31, 2015, the Plan used $518 of forfeitures to pay Plan expenses. The balance of this account at both December 31, 2015 and 2014 was $0.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in fully benefit-responsive investment contracts through a guaranteed interest contract. As required by GAAP, the statements of net assets available for benefits present the contract value of the investment in the guaranteed interest contract. The Plan has elected to early adopt Accounting Standards Update ("ASU") No. 2015-12, which requires fully benefit-responsive investment contracts to be measured, presented, and disclosed at contract value only.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks, Uncertainties, and Concentrations (continued)

At December 31, 2015, two investments accounted for 41% of total investments at fair value. At December 31, 2014, one investment accounted for 42% of total investments at fair value. There was no concentration of investment income for the years ended December 31, 2015 and 2014.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued ASU No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments apply to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendments are effective for all plan years beginning after December 15, 2015, with early adoption permitted. Entities should apply the amendments in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practicable expedient, upon adoption of ASU 2015-07, the fair value of these Plan assets will be removed from the fair value hierarchy in all periods presented in the Plan's financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

In July 2015, FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962),* and *Health and Welfare Benefit Plans (Topic 965): Part I - Fully Benefit-Responsive Investment Contracts, Part II - Plan Investment Disclosures, Part III - Measurement Date Practical Expedient*. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive investment contracts. Part II eliminates the current GAAP requirements for plans to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements (continued)

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end. The Plan elected to early adopt all three parts of this standard update for the year ended December 31, 2015 and adjusted the financial statement disclosures for all periods presented.

The adoption of these new accounting pronouncements did not have a material impact on the Plan's financial statements.

Note 2 - Certified Assets

AUL has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant loans at amortized cost as of December 31, 2015 and 2014 and the income earned or losses incurred on the investments for the year ended December 31, 2015, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis as of December 31, 2015.

Investments as of December 31, 2015 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 17,427,776	$ -	$ -	$ 17,427,776

Investments as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,474,795	$ -	$ -	$ 1,474,795

The valuation technique used to measure fair value of the mutual funds was quoted prices for identical assets that are directly observable in the marketplace as of the report date.

There were no changes to the valuation techniques used during the period.

Note 4 - Investment Contract

In 2015, the Plan entered into a benefit-responsive investment contract with AUL. AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the trustee. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was 1.00% for 2015. The crediting interest rate is based on a formula agreed upon with the issuer.

Note 5 - Income Taxes

The Plan uses a prototype Plan document and did not obtain a plan-specific determination letter, as it operates with the trustee's determination letter, which was issued on the basic Plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 8 - Related Party and Party-in-Interest Transactions

A Plan investment is a guaranteed interest contract which is managed by AUL, who served as the Plan trustee for the years ended December 31, 2015 and 2014. Transactions within this investment qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. In addition, the Plan provides for participant loans, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.

Note 9 - Reconciliation to Form 5500

Contributions receivable for financial reporting purposes differ from amounts shown on the Plan's Form 5500 for the years ended December 31, 2015 and 2014 due to the accrual of employer and participant contributions paid to the Plan subsequent to year-end.

Note 10 - Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. Except for the matters discussed in Note 1, there were no other material subsequent events that require recognition or disclosure in the financial statements.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
