FASTAFF 401(K) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Fastaff 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on November 1, 1999. The Plan was restated effective October 1, 2013. The Plan is available to employees who are at least 21 years of age. Eligible employees may enter the Plan on the first day of the month coincident with or following the date 90 days after their date of hire. The Plan excludes employees subject to a collective bargaining agreement and non-resident alien employees from participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of U.S. Nursing Corporation (the "Company") administers the Plan. Colorado State Bank and Trust serves as trustee and custodian, manages Plan assets, and maintains the Plan's records. The Plan offers participants a variety of investment options through money market accounts and mutual funds.

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Contributions

Participants may make before-tax contributions up to 100% of their annual eligible compensation, not to exceed $18,000 in 2015 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Additional catch-up contributions are available to any participant who is age 50 or older and has made the maximum contributions for the year. Roth elective deferrals are not allowed. Employee contributions to the Plan are made through regular payroll deductions. Participants may change their elective deferral contributions at any time during the year.

The Company may contribute a discretionary matching contribution to the Plan on an annual basis. Participants are eligible to receive the discretionary matching contribution on the first day of the month following the date one year after their date of hire.

During the year ended December 31, 2015, the Company elected to contribute a discretionary matching contribution equal to 2/3 of the first 6% of employee deferral contributions up to 4% of eligible compensation for the 2015 Plan year payable in 2016, which equaled $356,022. As described in Note 8, these contributions were reduced by refunds of discretionary matching excess contributions of $85,025. As described below, discretionary matching contributions were further reduced by the use of forfeitures of $115,482. Collectively, net employer contributions were $155,515 for the year ended December 31, 2015.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution, rollover contributions, an allocation of the Company's discretionary matching contribution, administrative fees, Plan earnings or losses, and forfeitures (if any). Each participant self-directs the investments of his or her account balance. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions and allocated earnings or losses thereon. Prior to January 1, 2010, all safe harbor matching contributions made to the Plan were 100% vested. Any employer discretionary matching contributions made on or after January 1, 2010 (including forfeitures) and the earnings or losses thereon vest as follows:

Years of Service	Vested Interest
Less than 1 year	0%
1 year	25%
2 years	50%
3 years or more	100%

A participant's account becomes 100% vested upon attaining the normal retirement age of 65, upon termination of employment due to death or disability, or if the Plan is terminated.

Participant Loans

Participants are not allowed to borrow from their accounts.

Payments of Benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested account balance, roll it over to another qualified retirement plan, or leave the vested interest in the Plan. Participants may also elect to receive their distribution in installments administered by the trustee.

A separated participant is subject to a mandatory distribution in the form of a lump-sum payment if the vested account balance is less than $1,000. In the event of a distribution where the participant's balance is greater than $1,000 and less than $5,000 and the participant has not elected a distribution, the vested balance will be paid as a rollover distribution to an individual retirement account established in the name of the participant by the Plan administrator. Participants may not make withdrawals from their accounts prior to age 59½, except in the event of disability, death, or termination of employment. Distributions are reflected in the financial statements when paid.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of distribution a participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account and will be used to offset employer discretionary matching contributions or pay Plan expenses. During the year ended December 31, 2015, $115,482 and $11,333 in forfeitures were used to offset 2015 employer contributions payable in 2016 and Plan expenses, respectively. Unallocated forfeitures at December 31, 2015 and 2014 were $16,275 and $0, respectively.

Valuation of Investments and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between the fair value at the beginning of the year (or date of purchase if purchased during the year) and the fair value at the end of the year (or selling price if sold during the year). Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some of the investments held by the Plan are invested in securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties (continued)

At December 31, 2015 and 2014, the Gabelli U.S. Treasury Money Market AAA Fund accounted for approximately 10% and 13% of total investments at fair value, respectively. At December 31, 2015, the Vanguard Mid Cap Index Fund Admiral Shares accounted for approximately 12% of total investments at fair value. At December 31 2014, the Vanguard Mid Cap Index Signal Fund accounted for approximately 13% of total investments at fair value.

Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part I - Fully Benefit-Responsive Investment Contracts, Part II - Plan Investment Disclosures, and Part III - Measurement Date Practical Expedient.* The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive investment contracts.

Part II eliminates the current GAAP requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using net asset value per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end.

The Plan elected to early adopt all three parts of this standard update (as applicable) for the year ended December 31, 2015 and adjusted the financial statement disclosures for all periods presented. The adoption of these new accounting pronouncements did not have a material impact on the Plan's financial statements.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance.

Effective January 1, 2016, the Plan was amended and restated as a safe harbor plan. This amendment removed the annual discretionary employer match provision and replaced it with a non-discriminatory match on a per pay period basis. Except as discussed in Note 8, there were no other material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Investments

Colorado State Bank and Trust has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2015 and 2014 and the income earned or losses incurred thereon for the year ended December 31, 2015, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

GAAP requires disclosures about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 3 - Fair Value Accounting (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value measured on a recurring basis as of December 31, 2015 and 2014.

Investments at fair value as of December 31, 2015 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 7,005,245	$ -	$ -	$ 7,005,245
Money market accounts	937,313	-	-	937,313
Total	$ 7,942,558	$ -	$ -	$ 7,942,558

Investments at fair value as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,772,647	$ -	$ -	$ 6,772,647
Money market accounts	986,447	-	-	986,447
Total	$ 7,759,094	$ -	$ -	$ 7,759,094

The valuation techniques used to measure fair value of the mutual funds and money market accounts are based upon quoted market prices for the underlying investments at the last reported sales price.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no changes to the valuation techniques used during the period.

Note 4 - Income Taxes

On March 31, 2008, the IRS issued an opinion letter indicating that the prototype plan document adopted by the Plan, as then designed, qualified under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan has since been amended; however, the Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 4 - Income Taxes (continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the costs of certain outside services for the Plan. Certain fees may be charged directly to participant accounts.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

There were no party-in-interest transactions with Colorado State Bank and Trust as of December 31, 2015 and 2014 or for the year ended December 31, 2015.

Note 8 - Excess Contributions Payable

Contributions received from participants and the employer for 2015 are net of corrective distribution payments. Participant and employer payments totaling $110,488 and $85,025, respectively, were made in March 2016 to active participants to return excess deferral contributions as required to satisfy the relevant non-discrimination provisions of the Plan. These amounts are also included in the Plan's statements of net assets available for benefits as excess contributions payable at December 31, 2015. There were participant excess contributions payable of $70,682 as of December 31, 2014.
