NOTE 1. DESCRIPTION OF THE PLAN

The following description of American Care, Inc. (the "Company" or "Sponsor") Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted by the Sponsor effective January 1, 2015 and is a defined contribution plan covering all full-time and part-time employees of the Company and its affiliated entities, who have completed at least one year of service and who are at least twenty-one years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan, up to the statutory maximum. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company makes matching contributions equal to 100% of the first 3% of compensation that a participant contributes to the Plan, plus 50% of of the next 2% of compensation that a participant contributes to the Plan. The Company may also make a discretionary contribution in an amount to be determined annually. The Company did not elect to make a discretionary profit sharing contribution for the year ended December 31, 2015. In order to share in the matching contribution or discretionary contribution, participants must be actively employed on the last day of the plan year and have provided at least 1,000 hours of service during the Plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Sponsor's contribution and earnings from participant directed investments, net of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution is based on years of continuous service. A participant is fully vested after six years of continuous service.

NOTE 1. DESCRIPTION OF THE PLAN (Continued)

Investment Options

Upon enrollment in the Plan, a participant may direct the investment of their contributions to various investment options offered by the Plan. The Plan allows participants to change their investment options daily.

Plan Administration

The Plan is administered by the Company. The Plan assets are maintained by its custodian, John Hancock Life Insurance Company U.S.A. (John Hancock). The recordkeeper of the Plan is The Pension Studio.

Payment of Benefits

On any termination of service, whether due to death, disability, retirement, or other termination of employment, a participant is entitled to the value of the participant's vested interest in his or her account (the "Vested Balance"). If the participant's Vested Balance is less than or equal to $5,000 at the date of termination of service, the participant receives either a single lump-sum payment or rollover into an IRA. If the participant's Vested Balance is greater than $5,000 at the date of termination of service, the participant may elect to receive a distribution of the vested account balance in a single lump-sum payment in cash.

Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their allocation of employer contributions.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Adoption of New Accounting Standards

The Plan has early adopted the amendments to accounting for defined contribution pension plans contained in Accounting Standards Updated 2015-12. Pursuant to retrospective application of the new guidance in 2015, the accompanying financial statements disaggregate the Plan's investment information only by general type, rather than by class (nature, characteristics and risks) and omit the previously required disclosure of individual investments that represent five percent or more net assets available for benefits as of the end of the year presented and the adjustment from fair value to contract value for investments in stable value funds or fully benefit-responsive investment contracts.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

All of the Plan's investments are stated at fair value. Units of pooled separate accounts are valued based on the market value of the underlying investments. The Plan also invests in investment contracts through a collective trust. The fair value of the Plan's interest in a collective trust is the contract value of the investments. Security transactions are recorded on a trade date basis, which is the date the order to buy or sell is executed.

Benefit Payments

Benefits are recorded when paid.

Plan Expenses

Certain administrative functions are performed by employees of the Company. No such employees receive compensation from the Plan. Certain administrative expenses, such as professional fees, are paid directly by the Company. Plan expenses are recorded when incurred.

Party-In-Interest Transactions

Plan investments are managed by John Hancock who is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Risk and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Concentrations

All of the Plan's assets are held by its custodian, John Hancock, located in Buffalo, New York.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The following information included in the accompanying financial statements and supplemental information was obtained from data that has been prepared by and certified as complete and accurate by the Plan's custodian, John Hancock.

	2015
Investments	$ 354,536
	$ 354,536

Investment losses (including gains and losses on investments bought and sold, as well as held during the Plan year) for the year ended December 31, 2015 amounted to $5,573.

NOTE 4. FAIR VALUE MEASUREMENTS

Generally accepted accounting principles require the Plan to report its investments at estimated fair value on a recurring basis. Fair value is measured by a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

A description of the valuation methodologies the Plan's uses for assets measured at fair value is included in Note 2.

The methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents information about the Plan's assets measured at fair value as of December 31, 2015:

ASSETS, at fair value as of December 31, 2015	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Pooled Separate Accounts	$ -	$ 354,536	$ -	$ 354,536

There were no transfers between the levels of the fair value hierarchy during the year ended December 31, 2015.

NOTE 5. STABLE VALUE FUND

The Plan invests in the John Hancock Stable Value Fund which is a collective investment trust fund sponsored by John Hancock. The fund's primary investment objectives are to preserve principal, maintain a competitive interest rate, and provide daily liquidity at contract value for plan-permitted, participant-directed withdrawals. The fund invests primarily in diversified fixed-income mutual funds and separately managed bond accounts run by investment subsidiaries of John Hancock, and in contract value stabilizing agreements offered by high-quality financial institutions. The stabilizing agreements are designed to offset price fluctuations associated with fixed-income investments by smoothing the effect of any gains or losses on the assets and to offer participants daily liquidity at contract value. Contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustment for withdrawals.

NOTE 5. STABLE VALUE FUND (Continued)

The fund's trust agreement provides that withdrawals for purposes other than normal benefit payments or plan permitted investment option transfers are subject to either up to a 12-month hold or a market value adjustment, as elected by the Plan Sponsor. These events may include, but are not limited to, the following: mergers, layoffs, plan termination, implementation of early retirement incentive programs or other events within the control of the Plan Sponsor resulting in a material and adverse financial impact on the issuer's obligations under the contract. In addition, a breach of material obligation under a stability agreement entered into by the stable value fund could cause John Hancock or the stability provider to terminate the contract. Most stabilizing agreements entered into by the stable value fund also may be terminated by the stability provider due to adverse changes in applicable laws, regulations or accounting treatment. Replacement stabilizing agreements may not be available and participants may experience losses if the market value of the separate account assets no longer covered by the stabilizing agreement is below contract value.

At December 31, 2015, the Plan Sponsor believes the occurrence of an event that would limit the ability of the stable value fund to transact at contract value with the participants in the fund is not probable.

NOTE 6. INCOME TAX STATUS

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although, the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan assesses its tax positions in accordance with *"Accounting for Uncertainties in Income Taxes"* as prescribed by the *Accounting Standards Codification*, which provides guidance for financial statement recognition and measurement of uncertain tax positions taken or expected to be taken in a tax return for open tax years (generally a period of three years from the later of each return's due date or the date filed) that remain subject to examination by the Plan's major tax jurisdictions.

The Plan assesses its tax positions and determines whether it has any material unrecognized liabilities for uncertain tax positions. The Plan records these liabilities to the extent it deems them more likely than not to be incurred. Interest and penalties related to uncertain tax positions, if any, would be classified as a component of income tax expense.

The Plan believes that it does not have any significant uncertain tax positions requiring recognition or measurement in the accompanying financial statements.

NOTE 7. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through September 20, 2016, which is the date the accompanying financial statements were available to be issued.
