Note 1: Description of the Plan

The following description of the Elgin Equipment Group, LLC Master Savings and Profit Sharing Plan (Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

General

Elgin Equipment Group, LLC (Company), formerly known as Elgin National Industries, Inc., implemented the Plan as of January 1, 1989. The Plan is a combined defined contribution 401(k) savings and profit sharing plan covering all eligible non-union employees of the Company, its divisions and subsidiaries which adopted the Plan, who have 90 days of service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as subsequently amended.

Contributions

Each year, participants may contribute up to 90% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Company may make discretionary profit sharing contributions to the Plan. This contribution is allocated to participant accounts as of the last day of each plan year. The amount of the non-elective contribution, if any, is determined each plan year and announced to all participants. For the year ended December 31, 2015, the Company contributed \$238,533.

The Company may make additional matching contributions each month for all participants who elect to make salary deferral contributions to the Plan. The amount of the matching contribution, if any, will be determined each plan year and announced to all participants. The Company did not make any additional matching contributions for the year ended December 31, 2015.

Investment Options

Participants may direct all their contributions into a variety of investment funds. Participants may change their investment options and transfer among funds at any time.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and plan earnings, including appreciation or depreciation of the fair value of investments, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately fully vested in participant and rollover contributions plus the actual earnings thereon. The portion of the participants' accounts attributable to the Company's safe harbor non-elective, matching and profit sharing contributions becomes vested based on years of service. A participant is 100% vested after two years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates between 4.25% and 4.50% at December 31, 2015, which is commensurate with local prevailing rates as determined by the plan administrator. The term of the loan may not exceed 5 years or 25 years if the loan proceeds will be used to acquire the principal residence of the participant. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive a single, lump-sum payment equal to the value of his or her vested account balance, installments over a specified period of time or a direct rollover distribution. Participants also may withdraw pre-tax elective deferral or rollover contributions in the event of hardship due to an immediate and heavy financial need, as defined by the Internal Revenue Service.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company. Loan administration fees are charged directly to the participant's account and are included in administrative expenses.

Forfeitures

As of December 31, 2015 and 2014, there were unused forfeitures of \$4,031 and \$66,547, respectively. These amounts are first used to reinstate participant accounts (due to re-employment,

subject to certain limitations) and are then used to reduce future employer contributions. For the year ended December 31, 2015, \$87,202 of forfeitures were used to reduce employer contributions.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Changes in Accounting Principle

In 2015, the Plan changed its accounting policy on plan accounting disclosures and presentation for fair value of investments using the net asset value per share by adopting the provisions of ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. In accordance with this guidance, investments measured at net asset value per share as a practical expedient are not categorized within the fair value hierarchy. The change was applied retrospectively to all periods presented.

In 2015, the Plan changed its method of accounting for fully benefit-responsive investment contracts by adopting the provisions of ASU 2015-12, *Plan Accounting (Topics 962 and 965): Part I: Fully Benefit-Responsive Investment Contracts (FBRICs)*. The accounting provided for in ASU 2015-12 allows plans to measure, present and disclose fully benefit-responsive investment contracts at contract value. The guidance also clarifies that indirect investments in FBRICs should not be reflected as FBRICs and, therefore, should be reported at fair value. Concurrent with the Plan's adoption of ASU 2015-12, the statements of net assets available for benefits for all periods presented no longer reflect the common or collective trust fund as a FBRIC and as such, the investment is now measured at fair value without an adjustment to contract value. This change was applied retrospectively to all periods presented.

In 2015, the Plan changed its accounting policy on plan accounting disclosures by adopting the provisions of ASU 2015-12, *Plan Accounting (Topics 960, 962 and 965): Part II: Plan Investment Disclosures*. The accounting policy change provided for in ASU 2015-12 changes the

Master Savings and Profit Sharing Plan
Notes to Financial Statements

Plan's disclosure requirements to eliminate and/or modify certain investment-related disclosures. This change was applied retrospectively for all periods presented.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. The Plan's investments in mutual funds are valued at quoted market prices of shares held by the Plan at year end. The common or collective trust funds are valued at net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by each fund less its liability. Interest bearing cash is valued at deposit account balances at year end.

Purchases and sales of securities are reflected on a trade-date basis. The realized gains or losses on the sale of securities are based on average cost. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayment of principal and interest are received through payroll deductions. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Revenue Sharing

The Plan recognizes income from revenue sharing agreements when received. Amounts received are utilized to pay qualified plan expenses. Revenue sharing activity for the year ended December 31, 2015, is detailed as follows:

Transamerica Retirement Solutions (Transamerica) provides certain administrative services to the Plan. Transamerica receives revenue from mutual funds and collective trust fund service providers for services provided to the funds. This revenue is utilized to offset certain qualified plan expenses. If the amount received by Transamerica from revenue sharing exceeds the amount owed under the agreement, Transamerica remits the excess to the Plans trust on a quarterly basis. Such amounts may be applied to pay plan administrative expenses or allocated to the accounts of the participants. During 2015, there were no excess amounts. The Plan or Company may make payments to Transamerica for administrative expenses not covered by revenue sharing.

Note 3: Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*. Accordingly, State Street Bank and Trust Company, the trustee of the Plan, has certified the completeness and accuracy of the reports or documentation prepared by Transamerica Retirement Solutions Corporation. State Street Bank and Trust Company has also certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014.
- Dividend income and net depreciation in fair value of investments, and interest from participant notes receivable, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015.
- The information included in the supplemental schedule of assets (held at end of year) as of December 31, 2015.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Fair Value of Plan Assets and Liabilities

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.
- Level 2** Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active and other inputs that are observable or can be corroborated by observable market data.
- Level 3** Significant unobservable inputs that reflect a plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Elgin Equipment Group, LLC
Master Savings and Profit Sharing Plan
Notes to Financial Statements
December 31, 2015 and 2014

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level or any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Interest Bearing Cash

Valued at deposit account balances, payable on demand.

Mutual Funds

Valued at quoted prices from nationally recognized securities exchanges (Level 1).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

		Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The Plan assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the years ended December 31, 2015 and 2014, there were no such transfers.

The following table presents the categories, fair value, unfunded commitments, redemption frequency and redemption notice period for the plan investments, the fair value of which are estimated using the NAV per share as of December 31, 2015 and 2014:

Note 5: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 6: Income Tax Status

The Plan adopted a prototype defined contribution plan and trust sponsored by Transamerica Retirement Solutions Corporation (Transamerica). The Internal Revenue Service (IRS) has determined and informed Transamerica in a letter dated March 31, 2014, that the Plan is qualified and tax exempt under the appropriate sections of the Internal Revenue Code (IRC). The Plan has been amended since Transamerica received the opinion letter. The plan administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

Elgin Equipment Group, LLC
Master Savings and Profit Sharing Plan
Notes to Financial Statements
December 31, 2015 and 2014

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become fully vested in their respective account balances.

Note 8: Party-in-Interest Transactions and Related Party Transactions

Certain plan investments and notes receivable from participants are managed by State Street Bank and Trust Company, the trustee, or Transamerica Retirement Solutions Corporation (formerly Diversified Retirement Corporation) and, therefore, these transactions qualify as party-in-interest.

Certain administrative fees have been paid through a revenue sharing agreement with Transamerica Retirement Solutions rather than direct payments (see Note 2). Fees paid by the Plan for investment management services are included as a reduction of the return earned on each fund. These transactions qualify as related party transactions.

Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services.

Note 9: Late Deposits

During the plan year ended December 31, 2014, the Plan engaged in prohibited transactions related to late deposits of employee contributions totaling \$3,024. Corrective action was taken by the Company and lost earnings were remitted to the Plan during 2015.
