AMERICAN ASSOCIATION FOR CANCER RESEARCH 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

(1) DESCRIPTION OF PLAN

The following description of the American Association for Cancer Research 403(b) Plan ("**Plan**") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 403(b) plan covering all employees of American Association for Cancer Research (the "**Organization**"). In accordance with universal availability standards, all permissible employees who have attained 18 years of age may defer a portion of their pay as a pre-tax deferral into the Plan immediately upon hire. Eligibility for employer contributions begins after two years of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("**ERISA**").

Contributions

Participants may contribute up to 100% of their pre-tax annual compensation, as defined in the plan or the maximum amount allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants who have 15 years of service are eligible to make special code section 403(b) catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Organization makes a contribution on behalf of each employee with two years of service and an elective deferral rate of at least 2.5% an amount equal to 8% of the employee's eligible compensation.

Participants direct the investment of their contributions and the Organization contribution into various investment options offered by the Plan including mutual funds, a guaranteed investment contract and variable and fixed annuity contracts.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Organization's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Participants are also immediately vested in the Organization's contributions plus actual earnings thereon.

Notes Receivable from Participants

The Standard

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at 3.25 percent, which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

AMERICAN ASSOCIATION FOR CANCER RESEARCH 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

TIAA-CREF

Plan loans are issued directly from the funds owned by TIAA and loan proceeds are not removed from a participant's account balance. However, a portion of a participant's TIAA account balance is reserved, or held in collateral, to cover the outstanding loan amount for the period of time the loan is outstanding. For active loans, investments equal to 110% of the outstanding loan amount are reflected in the statements of net assets available for benefits and serve as collateral for the loan. Investments underlying defaulted loan balances are reflected in the statements of net assets available for benefits until a distribution event occurs.

At December 31, 2015 and 2014, participants had outstanding plan loan balances due to TIAA of \$162,732 and \$164,984, respectively. Additionally, included in the insurance contracts as of December 31, 2015 and 2014 are defaulted loans of \$29,944 and \$28,836, respectively.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or termination of employment from the Organization, benefits are paid to participants in accordance with options offered under the Plan, including monthly payment, lump sum distribution, installment payments, or other form of periodic annuity payment.

In the event participants die prior to commencement of retirement benefit payments, the full value of their account accumulation is then payable to the beneficiary or beneficiaries named by the participant in a single sum or under any one of the payment options.

In accordance with contract terms, participants may roll over their accounts into another qualified retirement plan.

Administrative Expenses

Administrative expenses related to investment management are allocated among various funds and are included in the net appreciation in fair value of investments. Other administrative expenses, such as recordkeeping, custodian and professional fees, are paid by either the Plan through allocation to the participants or by the plan sponsor.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Changes

In 2015, the Plan changed its method of accounting and reporting to comply with the provisions of the defined contribution plan accounting standard issued by the Financial Accounting Standards Board. Previously reported financial information pertaining to 2014 has been restated to present that information on a comparable basis.

In connection with the new accounting standard:

1. Fully benefit-responsive investment contracts are measured, presented and disclosed at contract value rather than fair value.
 2. The requirements to disclose the average yield and the methodology used to calculate the interest crediting rate for fully benefit-responsive investment contracts has been eliminated.
 3. The requirements to disclose individual investments that represent 5% or more of net assets; net appreciation (depreciation) of investments by general type; and the nature, characteristics and risk of Plan assets have been eliminated.
-

AMERICAN ASSOCIATION FOR CANCER RESEARCH 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Valuation of Investments and Income Recognition

Investments are stated at fair value except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The mutual funds consist of TIAA-CREF funds, CREF accounts and other non-proprietary mutual funds, and are generally valued using market quotations or prices obtained from independent pricing services.

The TIAA-CREF Access, CREF accounts, and the TIAA Real Estate Account are used to fund variable annuity contracts. The TIAA-CREF Access and CREF accounts invest principally in equity securities, fixed-income instruments, other mutual funds, and short-term investments in accordance with each portfolio's investment objectives. The TIAA Real Estate Account is a pooled separate account/insurance company separate account of TIAA investing mainly in real estate and real estate-related investments. Its value is principally derived from the market value of the underlying real estate holdings or other real estate related investments. Real estate holdings are valued principally using external appraisals. The TIAA Real Estate Account sometimes holds securities as well. These are generally valued using independent pricing sources.

The TIAA Traditional Annuity Account and the Prudential Guaranteed Income Account are other investments of the Plan, which are further described at Note 4.

Each participant designates the percentage of his or her participant account that is allocated to each investment fund. Each participant's interest in each investment fund is adjusted as of each valuation date, to reflect his or her proportionate share of the total net fair market value of such investment fund.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expense as incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

AMERICAN ASSOCIATION FOR CANCER RESEARCH 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through September 15, 2016, the date the financial statements were available to be issued.

(3) FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

This hierarchy consists of three broad levels:

Level 1 – Inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority.

Level 2 – Inputs consist of observable inputs other than quoted prices for identical assets.

Level 3 – Inputs are unobservable and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available.

There have been no changes in the valuation methodologies used at December 31, 2015 and 2014. The following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2015 and 2014:

Mutual Funds – The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

Pooled Separate Account – Value at the net asset value (NAV) of shares held by the Plan at year-end as determined by the issuer. The NAV is being used as a practical expedient to estimate fair value, which is considered by plan management to be the best approximation of fair value. The unit value of the fund is calculated daily and available to plan administrators and client investors on TIAA-CREF's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in this account.

Non-Benefit Responsive Insurance Contracts – Valued at contract value, which approximates fair value. The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financing instruments could result in a different fair value measurement at the reporting date.

AMERICAN ASSOCIATION FOR CANCER RESEARCH 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

<u>December 31, 2015</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

	<u>\$14,965,634</u>	<u>\$ -</u>	<u>\$3,404,059</u>	<u>\$18,814,537</u>

(a) Investments that are measured at fair value using the net asset per share practical expedient have not been classified in the fair value hierarchy. These investments have been included in this table to permit reconciliation to the amounts presented in the statements of net assets available for benefits.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2015:

	<u>Insurance Contracts</u>
Balance, beginning of year	\$3,404,059
Realized gains	74,933
Unrealized gains relating to instruments still held at the reporting date	41,017
Purchases	310,462
Sales	<u>(625,090)</u>
Balance, end of year	<u>\$3,205,381</u>

(4) CONTRACTS WITH INSURANCE COMPANY

The Standard

The Guaranteed Income Fund is a group annuity contract issued by Prudential Retirement Insurance and Annuity Company ("**PRIAC**") and is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of PRIAC and not on the value of the securities within the insurer's general account. The credit rating of the issuer at December 31, 2015 was considered investment grade and there are no reserves against contract value for credit risk of the contract issuer or otherwise. Only an event causing liquidity constraints at PRIAC could limit the ability of the Plan to transact at contract value paid within 90 days or in rare circumstances, contract value paid over time. There are not any events that allow the issuer to terminate the contract and which require the Plan sponsor to settle at an amount different than contract value paid either within 90 days or over time. The Plan considers this contract to be benefit responsive and is valued at contract value in accordance with accounting standards.

AMERICAN ASSOCIATION FOR CANCER RESEARCH 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

The Guaranteed Income Fund does not operate like a mutual fund, variable annuity product or conventional fixed rate individual annuity product. Under the group annuity contract that supports this product, participants may ordinarily direct a permitted withdrawal or transfer of all or a portion of their account balance at contract value, within reasonable timeframes. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Interest is credited on contract balances using the "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of these contributions. Interest crediting rates are reviewed on a semi-annual basis for resetting by the trustee. When establishing interest crediting rates for this product, the trustee considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the general account. These rates are established without the use of a specific formula. The minimum crediting rate under the contract issued by PRIAC is based on an average yield of five-year Treasury securities over a period of time specified in the contract, less 1.25%, but not less than 1.00% nor greater than 3.00%.

TIAA-CREF

The TIAA Traditional Annuity is a guarantee fixed annuity contract available as an investment option to plan participants. Each contract is fully unconditionally guaranteed by TIAA. The TIAA Traditional Annuity is offered through a variety of contract types, however, the only types available under this plan are the Retirement Annuities ("**RA**"), Supplemental Retirement Annuities ("**SRA**"), and Group Supplemental Retirement Annuities ("**GRSA**"). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's board of trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate.

Liquidity restrictions apply to the TIAA Traditional Annuity under certain types of annuity contracts, one of which is the RA contract. The RA contracts are therefore included in the nonbenefit-responsive annuities on the statements of net assets available for benefits. The RA contract does not allow lump-sum cash withdrawals and transfers must be spread over 10 annual installments. All other withdrawals and transfers from RA contracts must be spread over 10 annual installments (5 annual installments for withdrawal after termination of employment).

The SRA and GRSA TIAA Traditional Annuity contracts have no liquidity restrictions and are shown as benefit responsive on the statements of net assets available for benefits. The SRA and GRSA contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

(5) CERTIFIED INFORMATION

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company and TIAA-CREF, the trustees of the Plan, have certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014 and the related investment activity included in the statement of changes in net assets available for benefits for the year ended December 31, 2015, and the supplemental schedule of assets (held at end of year) as of December 31, 2015.

(6) TAX STATUS

The Plan is intended to comply with the applicable requirements of Section 403(b) of the Internal Revenue Code ("**IRC**"). A tax determination letter program is not yet available for 403(b) employee benefit plans through the Internal Revenue Service ("**IRS**"). The plan administrator believes that the Plan is currently designed and operated in accordance with the applicable requirements of the IRC. The IRS, the primary oversight body of the Plan, generally has the ability to examine income tax returns for up to three prior years.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) PLAN TERMINATION

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(8) RELATED PARTY TRANSACTIONS

Certain plan investments are either managed by or issued by The Standard, TIAA-CREF or an affiliate. The Standard and TIAA-CREF are the trustees as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to The Standard were \$97,513. Fees paid by the Plan to TIAA-CREF were \$52,858 and were deducted from investment earnings for the year ended December 31, 2015.

(9) RISKS AND UNCERTAINTIES

The Plan invests in various types of investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
