1. DESCRIPTION OF THE PLAN:

The following description of the Graeter's Manufacturing Co. 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 1991, is a defined contribution plan covering employees of the Graeter's Manufacturing Company (the "Company") who have three months of service, as defined, and are age twenty-one or older. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to the maximum amount allowed by law of pretax annual compensation, as defined in the Plan. The Plan provides for the automatic enrollment of eligible participants at a deferral rate of 2% of eligible compensation, unless the participant affirmatively elects otherwise. The Plan also provides for an automatic 1% annual increase in the deferral rate (up to the maximum deferral of 4%) for all participants who have been automatically enrolled in the Plan, unless the participant affirmatively elects otherwise. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-eight registered investment companies and one common collective trust as investment options for participants. The Company contributes 50 percent of the first 4 percent of base compensation that a participant contributes to the Plan. The matching company contribution is invested identical to the participants' contribution in the various investment options. Additional profit sharing amounts may be contributed at the discretion of the Board of Directors of the Company. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contribution, and allocations of the Company's matching contribution, and allocation of the Company's discretionary profit sharing contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are 100% vested in elective deferrals and rollover contributions. Vesting in the Company's matching and discretionary profit sharing contribution portion of their account is based on years of continuous service. Participants are 100% vested after six years of credited service or upon attainment of retirement age.

Notes receivable from participants

Participant notes receivable are permitted under certain circumstances and are subject to limitations. Participants may borrow from their funds up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at 3.25% which is commensurate with commercial loan rates available to the Company. Principal and interest are paid ratably through payroll deductions.

Administrative expenses

Certain expenses incurred in the administration of the Plan are paid by the Employer.

Payment of benefits

Upon a participant's retirement, death, total and permanent disability, or other termination of employment with the Company or termination of the Plan, the participant's account is distributed in one lump sum.

In-service distributions are permissible from the Plan for participants that have obtained the age of 59 1/2. Participants electing in-service distributions may elect to receive all or a portion of their vested benefits in a lump sum payment.

In conditions of "financial hardship", a participant may apply to the plan administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the Internal Revenue Code.

Forfeited accounts

Participant account forfeitures are available to offset employer contributions. At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$2 and \$664, respectively. During 2015, \$8,173 of forfeitures were used to offset the employer matching contribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting

The Plan's transactions are reported on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The Statement of Net Assets Available for Benefits presents the fair value of investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of registered investment companies are valued at quoted market prices, which represents the net asset value of shares held by the Plan at year end. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Dividends and interest received by the Plan are reinvested into the respective funds.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contribution payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 excess contributions to the applicable participants prior to March 15, 2016.

Payment of benefit

Benefit payments are recorded when paid. Certain deemed distributions of participant loans are included in benefits paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Change in accounting policy

Recently issued accounting pronouncements – The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning December 15, 2015, with early adoption permitted. The Plan has elected to early adopt Part II of ASU 2015-12, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Reclassifications

Certain amounts in the 2014 financial statements have been reclassified to conform to the 2015 presentation.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The Plan has evaluated subsequent events through September 6, 2016, the date that the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies: Valued at the daily closing prices as reported by the fund. The funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014.

Investments at fair value as of December 31, 2015

There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

4. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

The Plan invests in shares of registered investment companies and common collective trust funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest.

Several employees of the Company provide administrative services to the Plan. These services include Plan oversight and day-to-day plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

5. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. At such time, participants would become fully vested in their accounts. Any unallocated assets of the Plan should be allocated to participant accounts and distributed in such a manner as the Company may determine.

6. TAX STATUS:

The Plan's operating document is derived from a volume submitter plan provided by the Plan's administrator, Fidelity Management Trust Company. In a letter dated March 31, 2008, the Internal Revenue Service has issued a favorable opinion of the volume submitter plan. While the Plan has since been amended, management believes that the Plan is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

7. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

8. INFORMATION CERTIFIED BY TRUSTEE:

All plan investments held at December 31, 2015 and 2014 were certified by the trustee, Fidelity Management Trust Company, as complete and accurate. All of the interest and dividends on the accompanying statement of changes in net assets available for benefits as of December 31, 2015, were certified as complete and accurate by the trustee, as was \$304,428 of the net depreciation in fair value of investments.

9. RECONCILIATION:

The following is a reconciliation of net assets available for plan benefits and changes in the net assets available for benefits per the financial statements at December 31, 2015 and 2014 to Form 5500:
