The Welcome Nursing Home 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following description of The Welcome Nursing Home 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of The Welcome Nursing Home (the Organization) who have one year of service during which they completed at least 1,000 hours of service, and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

In accordance with the Plan document, participants may elect to contribute from 1% up to 88% of their pre-tax annual compensation to the Plan subject to limitations in the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Organization's matching contribution equals 50% of the first 4% of base compensation that a participant contributes to the Plan. Total Organization matching contributions amounted to \$22,872 and \$20,944 in 2015 and 2014, respectively. Additional amounts may be contributed at the option of the Organization's Board of Directors and are subject to certain profit sharing formulas. For the years ended December 31, 2015 and 2014, such contributions amounted to \$0 and \$20,000, respectively.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Organization's contributions and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Organization's matching and discretionary contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes receivable from participants

Participants may borrow from their vested account balance a minimum of \$500 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at a rate which is commensurate with local prevailing rates at the time the loan is made. Principal and interest are paid ratably through monthly payroll deductions.

The Welcome Nursing Home 401(k) Plan

Notes to Financial Statements

Payment of benefits

Upon death, disability, retirement or termination of service a participant may elect to receive a lump sum amount equal to the vested value of his or her account.

Forfeitures

Forfeitures of Organization matching and discretionary contributions are used to reduce future employer contributions during the Plan year. Forfeitures of \$702 and \$1,283 were used to reduce employer contributions during 2015 and 2014, respectively.

Plan termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Plan expenses

Substantially all Plan expenses are absorbed by the Organization.

2. Summary of significant accounting policies

Basis of accounting

The accompanying financial statements and supplemental schedule have been prepared on the accrual basis of accounting.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded when paid.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

The Welcome Nursing Home 401(k) Plan

Notes to Financial Statements

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan has adopted this update for the 2015 Plan year, and it was applied to the 2014 Plan year.

In July 2015, the FASB issued ASU No. 2015-12, (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – consensus of the Emerging Issues Task Force. The amendments in this update (1) requires a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplifies and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provides benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II shall be applied retrospectively to all periods presented, while the amendments in Part III shall be applied prospectively. The Plan has adopted Parts I and II of this update for the 2015 Plan year. Part III is not applicable to this Plan.

Events occurring after reporting date

The Plan's management has evaluated events and transactions that occurred between December 31, 2015 and September 19, 2016 which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

The Welcome Nursing Home 401(k) Plan

Notes to Financial Statements

3. Investments

Investment information disclosed in the accompanying financial statements, including investments held at December 31, 2015 and 2014, net (depreciation) appreciation in fair value of investments, and interest and dividends for the years then ended, were obtained or derived from the information supplied to the Plan administrator and certified as complete and accurate by State Street Bank & Trust Company, the trustee, at December 31, 2015 and 2014.

4. Income tax status

The Plan obtained its latest determination letter on August 18, 2004, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

6. Parties-in-interest

The Organization, the participants, and the trustee have all been identified as parties-in-interest. Therefore, participant loans qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. Fair value measurements

The ASC Topic on Fair Value Measurements and Disclosure defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with U.S. GAAP. Fair Value Measurements and Disclosure does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit

The Welcome Nursing Home 401(k) Plan

Notes to Financial Statements

fair value measurements. Fair Value Measurements and Disclosure establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair Value Measurements and Disclosures establishes a framework for measuring fair value that provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Shares of registered investment companies: Valued at the net asset value of shares held by the Plan at year-end.

Common/collective trust - Stable value fund: The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund. The fund invests in a variety of investment contracts such as guaranteed investment contracts issued by insurance companies and other financial institutions and other investment products with similar characteristics. Participant transactions (purchases and sales) may occur daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
