NOTE 1 – DESCRIPTION OF PLAN

The following description of the Mendo Group Savings and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan document and adoption agreement, as amended, for a more complete description of plan provisions.

General – The Plan is a multiple employer 401(k) salary deferral and profit sharing plan. The Plan covers all employees of Mendocino Forest Products Company, LLC; Mendocino Redwood Company, LLC; Humboldt Redwood Company; and Allweather Wood, LLC, who have satisfied the eligibility requirements. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Mendocino Forest Products, LLC (the Company), is the plan sponsor and serves as the plan administrator.

Eligibility – Employees, other than union employees, nonresident aliens, and leased employees, are eligible to participate in the Plan upon reaching age 18. Participants must be employed as of the last day of the Plan year to be eligible to receive any employer paid profit sharing contributions.

Contributions

Participant contributions – Each year, participants may contribute between 1-100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and profit sharing contributions – The Company may elect to make discretionary matching and profit sharing contributions to the Plan. The Company matches contributions not exceeding 50% of an employees' deferral up to 1.5% of adjusted gross wages. Profit sharing discretionary contributions are calculated as 2% of the employees' eligible compensation.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting – Participants are vested immediately in their contributions and employer matching contributions, plus actual earnings thereon. Profit sharing contributions are vested based on years of service, as defined, in 25% increments, with initial vesting after the second year of service and full vesting after five years.

Notes receivable from participants – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be paid within a reasonable period of time not to exceed ten years. Under the terms of the plan agreement, plan loans will bear a reasonable rate of interest determined by the plan administrator. Principal and interest is paid ratably through payroll deductions. As of December 31, 2015, the rates of interest on outstanding loans ranged from 4.25% - 4.50% with various maturities through December 2020.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Early retirement is allowed for participants reaching age 55 and completing 5 years of service. A participant's vested account balance will be distributed in a lump sum or in a variety of optional installment methods, as further described in the plan agreement.

Forfeitures – Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan, must be used in the Plan year in which the forfeiture occurs, and may be used to pay plan administrative expenses, with any remaining amount used to reduce future Company contributions. During the year ended December 31, 2015, $88 was used to pay plan administrative expenses and $31,599 was used to reduce employer profit sharing contributions. As of December 31, 2015 and 2014, amounts forfeited totaled $2,530 and $1,659.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Change in Accounting Principle

ASU 2015-12- In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Contribution Pension Plans (Topic 962) II. Plan Investment Disclosures. The amendments remove the requirement to:

- Disclose individual investments held which exceed 5% of net assets available for benefits.
- Disclose net appreciation in fair value of investments by type of investment held.
- Disaggregate investments reported in the fair value hierarchy table by class of investment. They may be presented by general type only.
- Disclose investment strategy for investments for which fair value is measured using the NAV practical expedient, if they are Form 5500 Direct Filing Entities.

ASU 2015-12 has been adopted for the December 31, 2015, plan year end, however, the retrospective approach requires that the above items, applicable to the prior year, be presented in accordance with ASU 2015-12 as well.

Investment valuation – The investments are reported at fair value. The Plan's custodians, Principal, certifies the contract value of the guaranteed interest account and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan document.

Payment of benefits – Benefits to participants are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events – Subsequent events are events or transactions that occur after the plan year-end, but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at year-end. The Plan has evaluated subsequent events through September 14, 2016, which is the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The asset or liability's fair value measurement level within the hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies (Mutual funds) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts – Units held in pooled separate accounts (PSAs) are valued using the net asset value practical expedient (NAV practical expedient) of the PSA as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding.

The following table provides additional information for investments in certain entities that calculate net asset value per share (or its equivalent):

	Fair Value 12/31/15	Fair Value 12/31/14	Redemption Frequency	Redemption Notice Period	Redemption Restrictions
Principal Pooled Separate Accounts	$ 2,365,900	$ 1,898,588	Daily	N/A	N/A

Non-fully benefit responsive investment contract– Certain investments in the Principal Insurance Company General Guaranteed Interest Account (GIA) are non-fully benefit responsive contracts and are reported at fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract.

When participants choose to allocate a portion of their retirement savings to the GIA during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by Principal's claims-paying ability. The GIA provides a guaranteed interest rate for a specific period of time ranging from 0.35% to 1.30%, and maturing through December 31, 2018. All rates credited during the 12-month "deposit-year" are averaged into a single composite rate.

Principal is contractually obligated to repay the principal and a minimum interest rate that is guaranteed to the Plan.

In determining the reasonableness of the valuation methodology for the Plan's guaranteed interest account, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The Investment Committee has chosen to list the value of assets invested in the Guaranteed Interest Account at plan year end, less any potential losses that could occur if the investment contract were to be terminated on that date, without allowing monies to remain in the investment through the duration of the maturity periods.

The valuation methods used by the Plan to determine the contract value and fair value are adopted from the valuation methodology used by Principal Life Insurance Company. Principal Life Insurance Company guaranteed interest accounts are reported at contract value which is the aggregation of contributions, plus interest, less withdrawals, if any. The methodology for calculating the interest crediting rate is defined in the contract under the term "Composite Guaranteed Rate." Fair Value is considered contract value adjusted to take into account the current rates of interest available in the market place ("Market Value Adjustment"). This is defined in the contract and is detailed in combination of the current interest rates based on remaining investment term at the reporting date as well as the "Interest Rate on Account."

Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses the fair value hierarchy of the Plan's assets by level as of December 31, 2015 and 2014:

	Fair Value Measurement at December 31, 2015			
	Level 1	Level 2	Level 3	Total

Principal Life Insurance	$ 1,149,385	Discounted cash flow	Interest rates	0.35% - 1.30%
			Maturity date	12/31/15 - 12/31/18
			Reference rate	U.S. Treasury rate plus 0.50%

NOTE 4 – TAX STATUS

The plan document is a prototype non-standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 5 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTE 6 – INFORMATION CERTIFIED BY THE CUSTODIANS

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodians of the Plan have certified to the completeness and accuracy of:

- investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014;
- net depreciation in fair value of participant-directed investments, dividends, interest, and interest income on notes receivable from participants reflected in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2015; and
- investments reflected on the Supplemental Schedule of Assets (Held at End of Year).

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by the custodians of the Plan. Therefore, transactions between the Plan and the custodians qualify as party-in-interest transactions.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
