1. **General.** The Plan is a defined contribution pension plan, covering all employees who have one year of service, defined as 1,000 hours of service in a 12 month period and are age eighteen or older. The plan is subject to the provisions of ERISA.
2. **Contributions.** In the year ended December 31, 2015, participants may contribute up to \$18,000. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The company contributes 100% of the participants' elective deferrals up to 4% of total compensation. Contributions are subject to certain limitations.
3. **Participant Accounts.** Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions, (b) plan earnings (losses), and (c) forfeited amounts of former participants. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. **Vesting.** Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service.

>= 3 years	100%

401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

A. Description of Plan (cont'd)

5. **Notes Receivable From Participants.** The plan allows for no loans to participants from their fund accounts.
6. **Payment of Benefits.** On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over at least a ten year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.
7. **Forfeited Accounts.** At December 31, 2015 and 2014 there were no forfeited nonvested accounts. Accounts are pooled and not treated individually. Any forfeited nonvested accounts will be used to reduce future employer contributions.

B. Summary of Significant Accounting Policies

1. **Date of Management's Review.** Subsequent events were evaluated through July 28, 2016 which is the date the financial statements were available to be issued.
2. **Use of Estimates.** The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.
3. **Basis of Accounting.** The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value.

TELENETWORK PARTNERS, LTD.
401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

B. Summary of Significant Accounting Policies (cont'd)

4. **Investment Valuation & Income Recognition.** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

5. **Payment of Benefits.** Benefit payments to participants are recorded when paid.
6. **Expenses.** All operating expenses of the plan are paid by the Company and are therefore excluded from these financial statements.

C. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC 820), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

TELENETWORK PARTNERS, LTD.
401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

C. Fair Value Measurements (cont'd.)

Level 2 (cont'd)	If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
------------------	--

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There were no level 2 or level 3 inputs available to this plan.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used as December 31, 2015 and 2014.

Securities (Mutual Funds)

Valued at the closing price reported on the New York Stock Exchange.

The preceding methods may provide a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2015 and 2014.

C. Fair Value Measurements (cont'd)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of transfer relative to total net assets available for benefit. For the years ended December 31, 2015 and 2014, there were no significant transfers in or out of Levels 1, 2, or 3.

D. Related Party Transactions

During 2015 and 2014, the plan sponsor provided administration and covered some expenses of the plan. Expenses in 2015 and 2014 paid by the sponsor for the plan totaled \$9,500 and \$9,500, respectively.

Certain plan investments are shares of mutual funds managed by MG Trust Company, LLC. MG Trust is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for investment management services amounted to \$32,644 and \$36,077 for the years ended December 31, 2015 and December 31, 2014, respectively.

All of these party-in-interest or related party transactions are exempt from the prohibited transaction rules of ERISA.

E. Plan Termination

Although it has expressed no intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

F. Information Prepared and Certified by Trustee

The following information included in the accompanying financial statement and supplemental schedules was obtained from data that has been prepared and certified as to complete and accurate by the trustee. All are participant directed.

G. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter that the plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator and the plan's tax counsel believe the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administration believes the Plan is no longer subject to income tax examinations for years prior to 2012.

H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that such changes in the values of investment securities will occur in the near term and those changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.
