A.J. ROSE MANUFACTURING CO.
401(k) PLAN FOR UNION EMPLOYEES
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the A.J. Rose Manufacturing Co. 401(k) Plan for Union Employees (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

General

The Plan is a defined contribution plan covering all bargaining unit employees of A.J. Rose Manufacturing Co. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Covered employees become eligible to make pretax contributions to the Plan and receive Company contributions, as further discussed below, after the completion of three consecutive months of employment.

Participant Accounts and Contributions

Eligible employees may elect to contribute up to the maximum amount allowed, which will not cause the Plan to violate any of its provisions or any limits imposed by the Internal Revenue Code (IRC), as defined in the Plan. Participants, upon attaining eligibility status, are automatically enrolled at a 3% deferral rate unless they elect not to participate or to participate at a different deferral percentage.

The Company contributions consist of discretionary non-elective and matching contributions, except as described below. For the years ended December 31, 2015 and 2014, the Company made non-elective contributions of 3% of eligible compensation and a matching contribution equal to 2% of the participant's eligible compensation.

Pursuant to their collective bargaining agreement, certain participants do not receive the Company contributions discussed above. Those participants receive a defined contribution amount, based upon their hire date, for eligible hours worked.

Rollover Contributions

Distributions from another qualified plan may be transferred into the Plan.

Investment Options

Each participant directs the manner in which their account balances are to be allocated among the investment options available under the Plan.

Vesting

Participants are immediately vested in all contributions to their accounts and related earnings.

Notes Receivable from Participants
The Plan allows for participants to borrow from their account a maximum of 50% of their vested account balance up to $50,000. Loans outstanding are charged interest at a reasonable rate determined at the loan issue date. Maturities on these loans do not exceed five years unless the funds are used to acquire a participant's principal residence. The interest rate on the loans outstanding at December 31, 2015 was 4.25%.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefit Payments
Upon service or disability retirement, death, termination or financial hardship, the participant or beneficiary may elect to receive a distribution. In addition, participants who have attained age 59½ may elect to withdraw from their accounts while still employed by the Company. Distributions are paid from the net assets available for benefits and are made in lump-sum amounts or through periodic payments as specified by the participant, subject to the provisions of the Plan.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements are prepared on the accrual basis of accounting.

Investments
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The net investment gain (loss) on the statements of changes in net assets available for benefits reflects the gains and losses on investments bought and sold, as well as held during the year, and represents the net appreciation (depreciation) of investments.

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in investments in the collective trust fund that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient not being categorized in the fair value hierarchy.

In July 2015, the Financing Accounting Standards Board issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Part III is not applicable to this Plan.

Plan Expenses
The Plan pays substantially all of the administrative expenses of the Plan.

Use of Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The trustee has certified to the completeness and accuracy of the amounts reported as investments, notes receivable from participants, net investment gain (loss) and interest, dividends and other on the Plan's financial statements and the accompanying supplemental Schedule of Assets (Held at End of Year).

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Common Collective Trust: Valued at the net asset value, exclusive of the adjustment to contract value. The use of net asset value as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments or significant restrictions on redemptions.

Pooled Separate Accounts: Valued at net unit value as determined by the trustee. The value is based on a pro rata share of the market value of the underlying funds in the separate account.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Level 1	Level 2	Level 3	Total
December 31, 2015				
Mutual Funds	$ 833,240	$ -	$ -	$ 833,240
Measured at net asset value				10,101,090
				$ 10,934,330
December 31, 2014				
Mutual Funds	$ 6,915,964	$ -	$ -	$ 6,915,964
Measured at net asset value				4,044,166
				$ 10,960,130

5. PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are units of funds managed by the trustee, and therefore, these transactions qualify as party-in-interest transactions.

The Plan also participated in a revenue-sharing arrangement whereby the Plan received funds to pay certain administrative fees. Funds received totaled approximately $16,000 for each of the years ended December 31, 2015 and 2014. As of December 31, 2015, approximately $2,000 in funds received had not yet been utilized to pay fees.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

In accordance with ASU 2015-12, the Plan's interest in a collective trust relating to a fully benefit-responsive investment contract is to be shown at fair value on the accompanying financial statements. Therefore, there is no longer a need for an adjustment from fair value to contract value. The effects of the change will be recorded on the Form 5500 in the current year.

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500:

	2015	2014
Net assets available for benefits per the financial statements	$ 11,527,031	$ 11,560,850
Plus adjustment to contract value	-	57,573
Net assets available for benefits per 5500	$ 11,527,031	$ 11,618,423

The following is a reconciliation of investment loss per the financial statements to the Form 5500:

	2015
Total investment loss per the financial statements	$ (49,864)
Change in adjustment to contract value	(57,573)
Total investment loss per 5500	$ (107,437)

7. FEDERAL INCOME TAXES

On March 31, 2014, the Internal Revenue Service (IRS) stated that the volume submitter 401(k) profit sharing plan adopted by the Plan, as designed, was in compliance with the applicable requirements of the IRC. The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

8. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through September 26, 2016, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
