RETIREMENT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014**

NOTE A – DESCRIPTION OF PLAN

The Alarm Security Group, LLC 401(k) Retirement Savings Plan (the "Plan") is a defined contribution plan established on February 1, 2003 by Alarm Security Group (the "Company"), based on the prototype Non-standard Profit Sharing Plan of Principal Life Insurance Company. In July 2015, the Company was purchased by Protection One Alarm Monitoring, Inc.

On February 1, 2016, Plan assets totaling \$5,985,618 were transferred from Principal Trust Company, the Plan's Trustee during 2015 to Vanguard, the Plan's new Trustee under the new Plan sponsor.

The Plan is subject to the provisions of the Employees Retirement Income Security Act of 1974 ("ERISA"), as amended.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Eligibility

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed 1,000 hours of service within one year. Employees are eligible to join the Plan at the beginning of each quarter. Eligible employees are automatically enrolled into the Plan to defer 1% of pay until they formally decline enrollment online.

Contributions

Participants may contribute a minimum of 1% and a maximum of 100% of their annual pre-tax or after-tax (Roth) compensation, as defined in the Plan, not to exceed the maximum allowable amounts under the Internal Revenue Code. Participants who are at least age 50 can make additional contributions as defined under the Internal Revenue Code.

During 2015 and 2014, there were no employer contributions to the plan.

Rollover Contributions

The Plan accepts rollover contributions from retirement funds held by participants outside of this Plan, subject to Plan provisions.

NOTE A – DESCRIPTION OF PLAN, (continued)

Investment Options

The Plan provides for participant-directed investment programs whereby the Plan determines which investment options are available and the participants may choose among the available options. Participants may have their accounts invested in any or a combination of pooled separate accounts. Participants may change their investment options at any time by re-allocating contributions among different investment alternatives. Participants may also transfer contributions into and out of investments provided under the Plan, subject to possible restrictions.

Participant Accounts

Each participant's account is self-directed and is increased by the participant's contributions (including elective deferrals, catch up contributions, after-tax contributions and/or rollover contributions), the Company's contributions, share of any investment earnings, and increases in the value of investments. Participant accounts are reduced by any withdrawals or distributions, investment losses, decreases in values of investments, and share of fees and expenses, as applicable. Allocations are based on participant earnings or account balances, as defined by the Plan provisions. The amount to which a participant is entitled to is the benefit that can be provided from the participant's vested account.

Administrative Expenses

Administrative costs, except for certain investment fees and loans fees that are paid out of the related participant accounts, are paid by the Company and have not been included in the accompanying financial statements.

Payment of Benefits

Benefits may be paid from participant accounts at the retirement age of 65, or upon death, disability or termination of employment or upon Plan termination. The taxable portion of a withdrawal is subject to federal and state income taxes and an additional tax if the participant has not reached retirement age, unless the amount is rolled over into another eligible plan or an Individual Retirement Account.

Eligible participants may request an in-service hardship distribution of elective deferrals and vested matching contributions, subject to the Plan's provisions.

NOTE A – DESCRIPTION OF PLAN, (continued)

Notes Receivable From Participants

The Plan allows active participants to borrow from their vested account balances. The minimum loan is \$1,000. Participant loans are limited to the lesser of 50% of their vested account balance or \$50,000 less the highest outstanding loan balance in the prior twelve-month period. Participants may be granted three loans during any one year period, and are permitted to have only one outstanding loan at any time and the loan must be repaid within a five-year period, unless the loan is for the acquisition of a primary residence. Loans are secured by the balance in the participant's account, and bear interest at a rate commensurate with local prevailing rates. The interest rate shall remain fixed throughout the duration of the loan. Principal and interest payments are made through payroll deductions.

Vesting

Participants are immediately vested in their contributions plus actual earnings on elective deferral contributions. All contributions are 100% vested upon attaining normal retirement age, death or disability. Employer contributions not already fully vested when made (i.e. Safe Harbor matching) are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested Interest</u>
1	0%
2	25%
3	50%
4	75%
5 or more	100%

Forfeited Accounts

Forfeitures attributable to matching contributions not required to pay administrative expenses will be applied to reduce Company contributions in the current or next succeeding Plan year.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and in the disclosures of contingent assets and liabilities. Accordingly, actual results could differ from these estimates.

Investment Valuation and Income Recognition

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: *Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three part standard simplifies employee benefit plan reporting with respect to fully-benefit responsive investment contracts and plan investment disclosures, and provides for a measurement – date practical expedient. Parts I and II are effective for fiscal years beginning after December 31, 2015 and should be applied retrospectively, with early adoption permitted. Part III is effective for fiscal years beginning after December 31, 2015 and should be applied prospectively, with early application permitted.

Management has elected early implementation of Parts I and II of the standard. Previously reported financial information has been restated to present that information on a comparative basis. Part III is not applicable to this Plan.

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received upon sale of an asset or paid on transfer of a liability in an orderly transaction between market participants at the measurement date. An insurance company pooled separate account is when several plans participate in a separate account plan held by the insurance company. The separate account plan's assets are held by the insurance company but are not commingled with the insurance company's general assets. Each plan's share of a pooled separate account is determined on a participation-unit basis. The fair value of participation units in the pooled separate accounts, as estimated by Principal Trust Company is based on quoted redemption value on the last business day of the year. Purchases and sales of investments are recorded on a trade date basis. Interest and dividend income is recorded when earned. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Investment Valuation and Income Recognition – continued

The Principal Fixed Income Guaranteed Option is a benefit-responsive group annuity contract issued by Principal Life Insurance Company (“Principal Life”) with a fixed rate of interest. The Principal Fixed Income Guaranteed Option contract guarantees principal and provides a stated crediting rate backed by Principal Life. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets as would be found in a Stable Value fund. As a result, the average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract.

The Principal Fixed Income Guaranteed Option contract is reported at contract value, which approximates fair value. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. A rate of interest contractually guaranteed by Principal Life is credited to participant account balances. As of December 31, 2015 and 2014, the net crediting rate was 2% and 1.85%, respectively.

Notes Receivable From Participants

Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Contributions

Employee contributions are recorded in the period that the Company makes payroll deductions from the participant’s earnings. Employer contributions, if any, are made the next plan year after the contribution has been calculated.

Payment of Benefits

Benefit payments to participants are recorded when paid.

The Plan Administrator is not aware of any course of action or series of events that have occurred that might affect the Plan's tax exempt status, and therefore, believes that the Plan and the related trust are tax-exempt. The Company believes the Plan is no longer subject to income tax examinations for years prior to 2012.

NOTE F – PRIORITIES UPON PLAN TERMINATION

NOTE G – RISKS AND UNCERTAINTIES

The Plan provides for investments in various investment securities that are exposed to various risks such as interest rate, credit risks, and overall market volatility. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

NOTE H – FAIR VALUE MEASUREMENTS

Fair value, as defined in the fair value measurement accounting guidance, is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, or exit price.

The guidance on fair value measurement accounting requires that the Organization make assumptions market participants would use in pricing an asset or liability based on the best information available. The Organization considers factors that were not previously measured when determining the fair value of financial instruments. These factors include nonperformance risk (the risk that the obligation will not be fulfilled) and credit risk, of the reporting entity (for liabilities) and of the counterparty (for assets). The fair value measurement guidance prohibits inclusion of transaction costs and any adjustments for blockage factors in determining the instruments' fair value. The principal or most advantageous market should be considered from the perspective of the reporting entity.

Fair value, where available, is based on observable quoted market prices. Where observable prices or inputs are not available, several valuation models and techniques are applied. These models and techniques attempt to maximize the use of observable inputs and minimize the use of unobservable inputs. The process involves varying levels of management judgement, the degree of which is dependent on the price transparency of the instruments or market and the instruments' complexity. Fair values of these investment funds are based on net asset value and provided by the Plan's investment managers.

To increase consistency and enhance disclosure of the fair value of financial instruments, the fair value measurement accounting guidance established a fair value of inputs to the valuation in technique, into a three-level fair value hierarchy. The three levels of the fair value hierarchy are described as follows:

<i>Level 1</i>	Observable inputs such as quoted market prices in active markets. Active markets are those in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

NOTE H – FAIR VALUE MEASUREMENTS - continued

Level 2 Inputs other than quoted process in active markets that are either directly or indirectly observable. These include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, or model based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data.

Level 3 These are investments where values are based on prices or valuation techniques that require inputs that are both observable and significant to the overall fair value measurement. These inputs reflect certain assumptions by management about the assumptions market participants would use in pricing the investments. These investments include non-readily marketable securities that do not have an active market.

The Plan's investments in mutual funds are based on observable market quotations. When observable price quotations are not available, fair value is determined based on the present value of the stream of cash flows it is expected to generate. The fair value of pooled separate accounts is determined by fair value of participation units estimated by Principal Life Insurance Company based on the underlying assets which are generally invested in marketable securities.

The following presents the Plan's fair value hierarchy for assets measured at fair value on a recurring basis as of December 31, 2015 and 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 2,385,200	\$ -	\$ -	\$ 2,385,200
Pooled separate accounts	-	2,467,006	-	2,467,006
Total Investments	<u>\$ 2,385,200</u>	<u>\$ 2,467,006</u>	<u>\$ -</u>	<u>\$ 4,852,206</u>
