GFG Agriproducts, LLC 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of GFG Agriproducts, LLC 401(k) Plan (the Plan) which was created and began operating January 1, 2014 provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General and eligibility: The Plan is a defined contribution plan covering all employees of GFG Agriproducts, LLC and subsidiaries (the Company) who are considered to be full-time and are not covered under the terms of a collective bargaining agreement. Participants may enter the Plan on the first day of the month following employment with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the applicable current Internal Revenue Code provisions.

Contributions and investment options: Employees who are eligible to participate in the Plan can make elective deferral contributions up to 85 percent of compensation up to the annual limit set by the Internal Revenue Service. The Company makes nonelective matching contributions each pay period based on a percentage of a participant's deferral. The Company may make matching contributions and Nonelective contributions.

Participants direct the investment of their contributions and any employer contributions into various investments offered by the Plan. The Plan currently offers common collective trust funds and mutual funds as investment options for participants. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's discretionary matching contribution and an allocation of (a) the Company's nonelective contributions, (b) Plan earnings and (c) administrative expenses. Allocations are based upon participant's compensation or account balances, as defined by the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting: Participants are 100 percent vested in their elective deferral contributions and employer's non-elective contributions, plus actual earnings thereon. The Company's discretionary matching contribution begin vesting after two years of service and vest at 20 percent for each successive year until 100 percent vested after six years of service.

Payment of benefits: Upon retirement, death, approved hardship, reaching age 59 1/2, an ad-hoc distribution or termination of employment, participants or their beneficiaries may elect to receive a lump-sum payment or installments. If the participant's vested benefit in the plan does not exceed \$5,000, the benefit will be distributed in a single lump sum as soon as administratively feasible following the event that entitles the participant to a distribution.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance as of the last valuation date. The notes receivable are secured by the value of the vested balance in the participant's account. Notes receivable terms range from one to five years, or longer for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions. Notes receivable outstanding at December 31, 2014, mature through January 2015 and bear interest at 5.25 percent.

Forfeitures: Forfeitures are used to pay for Plan expenses and reduce Company contributions. There were no forfeitures available as of December 31, 2014. During the year ended December 31, 2014, there were no forfeitures from nonvested account balances.

GFG Agriproducts, LLC 401(k) Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies

The Plan's significant accounting policies are as follows:

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments sold as well as held during the year. Management and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefit payments are recorded when paid.

Accounting estimates and assumptions: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: The Plan Administrator has evaluated subsequent events through September 26, 2016, which is the date the financial statements were available to be issued.

Note 3. Administrative Expenses

Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Plan.

Notes to Financial Statements

Note 4. Information Certified and Provided by State Street Bank & Trust Company

The following is a summary of the Plan's asset information as of and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule that was prepared or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certification from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following assets:

Assets at fair value:

Mutual funds	\$ 670,231
Common collective trust funds	229,283
Notes receivable from participants	95
	<u>\$ 899,609</u>

For the year ended December 31, 2014, State Street Bank & Trust Company also certified to the completeness and accuracy of \$24,359 of interest and dividends, \$588 net appreciation of investments (including investments bought, sold and held during the year) and \$8 of interest income on notes receivable from participants.

Note 5. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants and requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The level to which an asset or liability is classified is based upon the lowest level of input that is significant to the fair value measurements. The fair value hierarchy is as follows:

- Level 1:** Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- Level 2:** Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.
- Level 3:** Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

Mutual funds: Mutual funds are reported at fair value based on the quoted market price of the fund and are classified within Level 1 of the valuation hierarchy.

GFG Agriproducts, LLC 401(k) Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

Common collective trusts: Common collective trust funds are composed of investment contracts that are valued at the net asset value of units of the common collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur immediately. If the plan initiates a full redemption of the collective trust, no notice to the issuer is required.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as of December 31, 2014:

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trust fund	\$ 229,283	\$ -	Immediate	None

The common collective trust fund contract allows it to achieve a total rate of return to match the return of the index it was set up to mirror and allow for its principal value to remain stable regardless of the volatility of the financial markets. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets.

Financial assets measured at fair value on a recurring basis as of December 31, 2014, are as follows:

Description	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	\$ 670,231	\$ 670,231	\$ -	\$ -
Total assets in the fair value hierarchy	670,231	\$ 670,231	\$ -	\$ -
Investments measured at net asset value*	229,283			
Total investments, at fair value	<u>\$ 899,514</u>			

*In accordance with ASC 820-10, certain investments that were measured at net asset value per share have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their entire account.

GFG Agriproducts, LLC 401(k) Plan

Notes to Financial Statements

Note 7. Tax Status

The Plan has adopted a nonstandardized form of a prototype plan sponsored by ADP Retirement Services. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototypes plan's qualified status. The prototype opinion letter has been relied on by this Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the Code.

The Plan applies applicable guidance on accounting for uncertainty in income taxes. Management evaluated the Plan's tax position and concluded that the Plan had maintained its tax exempt status and has taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 8. Related-Party Transactions

Certain Plan investments are shares of the common collective trust fund managed by State Street Bank & Trust Company, the trustee as defined by the Plan. These transactions qualify as party-in-interest transactions.

Note 9. Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014, to the Form 5500:
