The following description of the ABARTA, Inc. Deferred Compensation 401(k) Savings Plan for Non-Union Employees (the Plan) provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

General

The Plan is a participant-directed defined contribution plan covering substantially all full-time and certain part-time non-union employees of ABARTA, Inc. and its subsidiaries: The Cleveland Coca-Cola Bottling Company, Inc.; Coca-Cola Bottling Company of Buffalo, Inc.; Coca-Cola Bottling Company of the Lehigh Valley; Coatesville Coca-Cola Bottling Works, Inc. and ABARTA Oil & Gas Company, Inc. (the Company and Plan Sponsor). The Company is the plan administrator that controls and manages the operation and administration of the Plan. The plan investments and participant loans are held by Fidelity, the trustee.

A full-time employee who has reached the age of 21 becomes eligible to participate in the Plan immediately. A part-time employee who has reached the age of 21 and completed 1,000 hours of service becomes eligible to participate in the Plan immediately.

Effective February 2015, the Plan was amended to remove the age requirement of 21 as an eligibility requirement to participate in the Plan. The Plan was also amended to include automatic enrollment for all newly eligible employees. Under this policy, if an employee does not submit a waiver, the employee is automatically enrolled in the Plan at a 3% deferral rate. The deferral rate will be automatically increased by 1% each subsequent year with a maximum of 6%.

Effective September 1, 2016, the Plan was amended to include Kahiki Foods, Inc., a subsidiary of the Company and Plan Sponsor, as a participating employer of the Plan. The Kahiki Foods, Inc. 401(k) Plan was also merged into the Plan, which totaled \$1,845,915.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Entry dates are the first day of each month during the year.

Contributions

Participants may contribute up to 60% of their annual eligible compensation to the Plan, subject to certain Internal Revenue Code (IRC) limitations.

In any calendar year in which a participant is age 50 or older, an additional "catch-up contribution" (limited to \$6,000 in 2015) may be made. Participants may also contribute amounts representing distributions from other qualified plans.

The Company may make discretionary matching contributions, as determined by the Company's Board of Directors, to the Plan. There were no discretionary matching contributions during 2015.

Effective July 2015, the Plan was amended to provide certain participants a special one-time employer contribution and to be eligible for employer matching contributions. Eligible employees are those not part of a collective bargaining agreement, participants in the ABARTA, Inc. Pension Plan and hired on or after September 1, 2010 and before September 1, 2015.

Notes to the Financial Statements (Continued)

1. Plan Description (Continued)

Contributions (Continued)

The special one-time contribution ranges from 1% to 4% of compensation and is based on the participant's date of hire. Participants eligible for employer matching contributions will receive 50% of the first 6% of compensation contributed to the Plan. Contributions made to the Plan were approximately \$78,000 for the special one-time contribution and \$22,000 for the employer matching contributions in 2015.

Participant Accounts

The plan administrator maintains separate participant accounts for each participant. Each participant's account is credited with their voluntary and rollover contributions plus any Company discretionary matching contributions and with an allocation of plan earnings. Allocations of plan earnings are based on the participant's proportionate share of any investment earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants' contributions and Company discretionary matching contributions and earnings thereon are fully vested at all times.

Effective July 2015, the one-time contribution and employer matching contributions are subject to a three-year vesting schedule.

Benefits

Upon termination of service due to death, disability, retirement, or for other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment distributions in substantially equal amounts over a period of time. If a participant's account balance is less than or equal to \$1,000 at the time of termination, the employee will automatically receive a lump-sum payment.

Subject to limitations of the plan agreement, the plan participant may apply to the Plan for a hardship withdrawal. A hardship withdrawal may be granted to a plan participant for an event considered to be an immediate and heavy financial need of the participant, in accordance with the IRC.

At December 31, 2015 and 2014, there were no significant amounts allocated to accounts of individuals who have withdrawn from the Plan but have not been paid.

1. Plan Description (Continued)

Notes Receivable From Participants

Participants may borrow up to the lesser of 50% of their individual vested account balance or \$50,000, reduced by the participant's highest outstanding loan balance during the prior 12 months. The minimum amount a participant may borrow is \$1,000. A participant may not have more than two loans outstanding at any time. Loan repayment terms may not exceed 60 months unless the loan is granted for the purpose of acquiring the participant's principal residence. In such instances, repayment can be over a reasonable time period that may not exceed 120 months. The loans are collateralized by the vested interest in the participant's accounts and bear interest at a rate commensurate with local market rates for similar loans. The current loans bear interest at a rate of 4.25%.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are maintained on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation, Income Recognition and Risks

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at a measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers the assumptions that market participants would use when pricing the asset or liability.

The three levels of inputs that may be used to measure fair value are as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Notes to the Financial Statements (Continued)

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation, Income Recognition and Risks (Continued)

Level 3 - Inputs that are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds are public investment vehicles valued using the net asset value provided by the administrator of the fund on the last day of the Plan's year end using a quoted price in an active market and are classified within Level 1 of the fair value hierarchy.

The Plan's investment in the Managed Income Portfolio (the Fund) is a public investment vehicle that seeks to preserve capital and to provide income over time. Collective investment trusts are public investment vehicles valued using the Net Asset Value (NAV) provided by the trustee on the last day of the Plan's year end. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding. The Plan's participants may exchange units in the Fund on a daily basis with minimal restrictions. The Plan is required to provide one year redemption notice to liquidate its entire share in the Fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on securities sold or redeemed are determined on specific identification. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in the near term could materially affect the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative Expenses

Administrative expenses are paid by the Company or the Plan, as provided by the plan document.

Benefit Payments

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate NAV per Share (or Its Equivalent), (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the NAV practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate NAV per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the NAV practical expedient. For employee benefit plans, ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted.

In July 2015, the FASB issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)*, (ASU 2015-12): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. This three-part update simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and, accordingly, removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to the financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. Further, the amendments in this update eliminate the requirement to disclose the investment strategy for certain investments that are measured using NAV per share. These amendments are effective retrospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. This update also provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month end that is closest to the plan's fiscal year end, when the fiscal period does not coincide with a month end, while requiring certain additional disclosures. This portion of the update is effective prospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted.

Plan management reviewed both ASU 2015-07 and ASU 2015-12, and decided to early adopt both standards as they believe it will simplify plan accounting and its presentation in the financial statements. As such, the accounting and disclosures in these financial statements and notes follow ASU 2015-07 and ASU 2015-12.

Consideration of Subsequent Events

The Plan Sponsor evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through September 20, 2016, the day the financial statements were approved and authorized for issue.

3. Investments

The following tables set forth the fair value of the Plan's assets measured on a recurring basis, by level, as described in Note 2:

<i>As of December 31, 2015</i>	Level 1	Total
Mutual funds at fair value	\$ 23,102,998	\$ 23,102,998
Collective investment trust measured at NAV*	-	3,685,879

Investments at Fair Value	\$ 23,102,998	\$ 26,788,877
----------------------------------	----------------------	----------------------

<i>As of December 31, 2014</i>	Level 1	Total
Mutual funds at fair value	\$ 22,593,895	\$ 22,593,895
Collective investment trust measured at NAV*	-	3,186,130

Investments at Fair Value	\$ 22,593,895	\$ 25,780,025
----------------------------------	----------------------	----------------------

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit a reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for plan benefits.

4. Collective Investment Trust

The Plan has a common collective trust, which is valued at NAV (Note 3) and units of the fund can be purchased at the established unit value of \$1.00. There are no restrictions for the redemption of units for the purpose of paying benefit payments, participant loans, employee-directed investment election changes or paying trustee fees. Distributions from net investment income are declared daily and reinvested monthly. The beneficial interest in the net assets is represented by units. Issues and redemptions of units are recorded, upon receipt of the unitholder's instructions, based on the next determined NAV per unit normally each day.

ABARTA, Inc. Deferred Compensation 401(k) Savings Plan for Non-Union Employees

Notes to the Financial Statements (Continued)

4. Collective Investment Trust (Continued)

Fair value is derived based on the underlying investments held by the Fund. Debt securities, including restricted securities, are valued based on evaluated prices received from third-party pricing vendors or from brokers who make markets in such securities. Corporate bonds, foreign government and government agency obligations and U.S. government and government agency obligations are valued based on pricing vendors utilizing matrix pricing which considers yield or price of bonds of comparable quality, coupon, maturity and type as well as broker-supplied prices.

The fair value of asset backed securities, collateralized mortgage obligations, commercial mortgage securities and U.S. government agency mortgage securities are valued based on pricing vendors utilizing matrix pricing which considers prepayment speed assumptions, attributes of the collateral, yield or price of bonds of comparable quality, coupon, maturity and types as well as broker-supplied prices. Investments in open-end investment companies are valued at their closing NAV each business day. Short-term securities with remaining maturities of sixty days or less for which market quotations are not readily available are valued at amortized cost, which approximates value. Mutual funds are valued at the NAV provided using a quoted price in an active market.

5. Certification of Financial Information

Fidelity, the trustee of the Plan, has certified that the investment information related to investments and notes receivable from participants summarized in the statements of net assets available for plan benefits as of December 31, 2015 and 2014 and in the statement of changes in net assets available for plan benefits for the year ended December 31, 2015 is complete and accurate.

6. Related Parties and Exempt Parties-in-interest Transactions

Certain plan investments in mutual funds and the collective investment trust are managed by the trustee. Therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for custodian and recordkeeping services were not significant for the year ended December 31, 2015. These transactions are not, however, considered prohibited transactions under Section 408(b) of the ERISA regulations.

Certain administrative functions are performed by officers or employees of the Company at no cost to the Plan.

The Plan has notes receivable from participants subject to specific guidelines as defined in the plan document (Note 1).

These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory or administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

ABARTA, Inc. Deferred Compensation 401(k) Savings Plan for Non-Union Employees

Notes to the Financial Statements (Continued)

7. Tax Status

The Plan Sponsor has adopted a prototype plan of Fidelity. Fidelity obtained a letter dated March 31, 2014, in which the Internal Revenue Service stated its opinion that the form of the prototype plan of Fidelity is acceptable under Section 401 of the IRC for use by employers for the benefit of their employees. The Plan has since been amended. The plan administrator, the trustee and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Reconciliation of Financial Statements to Schedule H of Form 5500

ABARTA, Inc. Deferred Compensation 401(k) Savings Plan for Non-Union Employees

Notes to the Financial Statements

1. Plan Description

The following description of the ABARTA, Inc. Deferred Compensation 401(k) Savings Plan for Non-Union Employees (the Plan) provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

General

The Plan is a participant-directed defined contribution plan covering substantially all full-time and certain part-time non-union employees of ABARTA, Inc. and its subsidiaries: The Cleveland Coca-Cola Bottling Company, Inc.; Coca-Cola Bottling Company of Buffalo, Inc.; Coca-Cola Bottling Company of the Lehigh Valley; Coatesville Coca-Cola Bottling Works, Inc. and ABARTA Oil & Gas Company, Inc. (the Company and Plan Sponsor). The Company is the plan administrator that controls and manages the operation and administration of the Plan. The plan investments and participant loans are held by Fidelity, the trustee.

A full-time employee who has reached the age of 21 becomes eligible to participate in the Plan immediately. A part-time employee who has reached the age of 21 and completed 1,000 hours of service becomes eligible to participate in the Plan immediately.

Effective February 2015, the Plan was amended to remove the age requirement of 21 as an eligibility requirement to participate in the Plan. The Plan was also amended to include automatic enrollment for all newly eligible employees. Under this policy, if an employee does not submit a waiver, the employee is automatically enrolled in the Plan at a 3% deferral rate. The deferral rate will be automatically increased by 1% each subsequent year with a maximum of 6%.

Effective September 1, 2016, the Plan was amended to include Kahiki Foods, Inc., a subsidiary of the Company and Plan Sponsor, as a participating employer of the Plan. The Kahiki Foods, Inc. 401(k) Plan was also merged into the Plan, which totaled \$1,845,915.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Entry dates are the first day of each month during the year.

Contributions

Participants may contribute up to 60% of their annual eligible compensation to the Plan, subject to certain Internal Revenue Code (IRC) limitations.

In any calendar year in which a participant is age 50 or older, an additional "catch-up contribution" (limited to \$6,000 in 2015) may be made. Participants may also contribute amounts representing distributions from other qualified plans.

The Company may make discretionary matching contributions, as determined by the Company's Board of Directors, to the Plan. There were no discretionary matching contributions during 2015.

Effective July 2015, the Plan was amended to provide certain participants a special one-time employer contribution and to be eligible for employer matching contributions. Eligible employees are those not part of a collective bargaining agreement, participants in the ABARTA, Inc. Pension Plan and hired on or after September 1, 2010 and before September 1, 2015.

ABARTA, Inc. Deferred Compensation 401(k) Savings Plan for Non-Union Employees

Notes to the Financial Statements (Continued)

1. Plan Description (Continued)

Contributions (Continued)

The special one-time contribution ranges from 1% to 4% of compensation and is based on the participant's date of hire. Participants eligible for employer matching contributions will receive 50% of the first 6% of compensation contributed to the Plan. Contributions made to the Plan were approximately \$78,000 for the special one-time contribution and \$22,000 for the employer matching contributions in 2015.

Participant Accounts

The plan administrator maintains separate participant accounts for each participant. Each participant's account is credited with their voluntary and rollover contributions plus any Company discretionary matching contributions and with an allocation of plan earnings. Allocations of plan earnings are based on the participant's proportionate share of any investment earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants' contributions and Company discretionary matching contributions and earnings thereon are fully vested at all times.

Effective July 2015, the one-time contribution and employer matching contributions are subject to a three-year vesting schedule.

Benefits

Upon termination of service due to death, disability, retirement, or for other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment distributions in substantially equal amounts over a period of time. If a participant's account balance is less than or equal to \$1,000 at the time of termination, the employee will automatically receive a lump-sum payment.

Subject to limitations of the plan agreement, the plan participant may apply to the Plan for a hardship withdrawal. A hardship withdrawal may be granted to a plan participant for an event considered to be an immediate and heavy financial need of the participant, in accordance with the IRC.

At December 31, 2015 and 2014, there were no significant amounts allocated to accounts of individuals who have withdrawn from the Plan but have not been paid.

1. Plan Description (Continued)

Notes Receivable From Participants

Participants may borrow up to the lesser of 50% of their individual vested account balance or \$50,000, reduced by the participant's highest outstanding loan balance during the prior 12 months. The minimum amount a participant may borrow is \$1,000. A participant may not have more than two loans outstanding at any time. Loan repayment terms may not exceed 60 months unless the loan is granted for the purpose of acquiring the participant's principal residence. In such instances, repayment can be over a reasonable time period that may not exceed 120 months. The loans are collateralized by the vested interest in the participant's accounts and bear interest at a rate commensurate with local market rates for similar loans. The current loans bear interest at a rate of 4.25%.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are maintained on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation, Income Recognition and Risks

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at a measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers the assumptions that market participants would use when pricing the asset or liability.

The three levels of inputs that may be used to measure fair value are as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation, Income Recognition and Risks (Continued)

Level 3 - Inputs that are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds are public investment vehicles valued using the net asset value provided by the administrator of the fund on the last day of the Plan's year end using a quoted price in an active market and are classified within Level 1 of the fair value hierarchy.

The Plan's investment in the Managed Income Portfolio (the Fund) is a public investment vehicle that seeks to preserve capital and to provide income over time. Collective investment trusts are public investment vehicles valued using the Net Asset Value (NAV) provided by the trustee on the last day of the Plan's year end. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding. The Plan's participants may exchange units in the Fund on a daily basis with minimal restrictions. The Plan is required to provide one year redemption notice to liquidate its entire share in the Fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on securities sold or redeemed are determined on specific identification. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in the near term could materially affect the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate NAV per Share (or Its Equivalent), (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the NAV practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate NAV per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the NAV practical expedient. For employee benefit plans, ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted.

In July 2015, the FASB issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)*, (ASU 2015-12): (Part I) *Fully Benefit-Responsive Investment Contracts*, (Part II) *Plan Investment Disclosures*, (Part III) *Measurement Date Practical Expedient*. This three-part update simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and, accordingly, removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to the financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. Further, the amendments in this update eliminate the requirement to disclose the investment strategy for certain investments that are measured using NAV per share. These amendments are effective retrospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. This update also provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month end that is closest to the plan's fiscal year end, when the fiscal period does not coincide with a month end, while requiring certain additional disclosures. This portion of the update is effective prospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted.

Plan management reviewed both ASU 2015-07 and ASU 2015-12, and decided to early adopt both standards as they believe it will simplify plan accounting and its presentation in the financial statements. As such, the accounting and disclosures in these financial statements and notes follow ASU 2015-07 and ASU 2015-12.

Consideration of Subsequent Events

The Plan Sponsor evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through September 20, 2016, the day the financial statements were approved and authorized for issue.

3. Investments

The following tables set forth the fair value of the Plan's assets measured on a recurring basis, by level, as described in Note 2:

<i>As of December 31, 2015</i>	Level 1	Total
Mutual funds at fair value	\$ 23,102,998	\$ 23,102,998
Collective investment trust measured at NAV*	-	3,685,879

Investments at Fair Value	\$ 23,102,998	\$ 26,788,877
----------------------------------	----------------------	----------------------

<i>As of December 31, 2014</i>	Level 1	Total
Mutual funds at fair value	\$ 22,593,895	\$ 22,593,895
Collective investment trust measured at NAV*	-	3,186,130

Investments at Fair Value	\$ 22,593,895	\$ 25,780,025
----------------------------------	----------------------	----------------------

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit a reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for plan benefits.

4. Collective Investment Trust

The Plan has a common collective trust, which is valued at NAV (Note 3) and units of the fund can be purchased at the established unit value of \$1.00. There are no restrictions for the redemption of units for the purpose of paying benefit payments, participant loans, employee-directed investment election changes or paying trustee fees. Distributions from net investment income are declared daily and reinvested monthly. The beneficial interest in the net assets is represented by units. Issues and redemptions of units are recorded, upon receipt of the unitholder's instructions, based on the next determined NAV per unit normally each day.

Notes to the Financial Statements (Continued)

4. Collective Investment Trust (Continued)

Fair value is derived based on the underlying investments held by the Fund. Debt securities, including restricted securities, are valued based on evaluated prices received from third-party pricing vendors or from brokers who make markets in such securities. Corporate bonds, foreign government and government agency obligations and U.S. government and government agency obligations are valued based on pricing vendors utilizing matrix pricing which considers yield or price of bonds of comparable quality, coupon, maturity and type as well as broker-supplied prices.

The fair value of asset backed securities, collateralized mortgage obligations, commercial mortgage securities and U.S. government agency mortgage securities are valued based on pricing vendors utilizing matrix pricing which considers prepayment speed assumptions, attributes of the collateral, yield or price of bonds of comparable quality, coupon, maturity and types as well as broker-supplied prices. Investments in open-end investment companies are valued at their closing NAV each business day. Short-term securities with remaining maturities of sixty days or less for which market quotations are not readily available are valued at amortized cost, which approximates value. Mutual funds are valued at the NAV provided using a quoted price in an active market.

5. Certification of Financial Information

Fidelity, the trustee of the Plan, has certified that the investment information related to investments and notes receivable from participants summarized in the statements of net assets available for plan benefits as of December 31, 2015 and 2014 and in the statement of changes in net assets available for plan benefits for the year ended December 31, 2015 is complete and accurate.

6. Related Parties and Exempt Parties-in-interest Transactions

Certain plan investments in mutual funds and the collective investment trust are managed by the trustee. Therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for custodian and recordkeeping services were not significant for the year ended December 31, 2015. These transactions are not, however, considered prohibited transactions under Section 408(b) of the ERISA regulations.

Certain administrative functions are performed by officers or employees of the Company at no cost to the Plan.

The Plan has notes receivable from participants subject to specific guidelines as defined in the plan document (Note 1).

These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory or administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

7. Tax Status

The Plan Sponsor has adopted a prototype plan of Fidelity. Fidelity obtained a letter dated March 31, 2014, in which the Internal Revenue Service stated its opinion that the form of the prototype plan of Fidelity is acceptable under Section 401 of the IRC for use by employers for the benefit of their employees. The Plan has since been amended. The plan administrator, the trustee and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Reconciliation of Financial Statements to Schedule H of Form 5500
