CENTRIA 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the CENTRIA 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a contributory defined contribution plan covering all salaried and certain hourly employees of CENTRIA (the "Company") and its subsidiaries as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2013, the Plan was amended and restated in its entirety to incorporate amendments necessary to maintain the Plan's qualified status under the Internal Revenue Service Code of 1986, as amended, and regulations as further discussed in Note 7 to these financial statements.

On January 15, 2015, the Company was acquired by NCI Building Systems, Inc. The Plan continues to operate as it did prior to the acquisition of CENTRIA and there have been no changes to the Plan or Plan document.

Contributions - Participants may contribute the lesser of the annual limitation ($18,000 and $17,500 for 2015 and 2014, respectively) or 100% of their pre-tax compensation as defined in the Plan document in accordance with the provisions of EGTRRA. Effective January 1, 2008, all eligible employees, as outlined in the Plan document, who were hired in 2008 or were not participating in the Plan prior to January 1, 2008 will be automatically enrolled in the Plan. The automatic elective deferral contribution is 3% of pay and increases by 1% each year thereafter up to a maximum of 6%. Those employees that were participating in the Plan prior to January 1, 2008 will retain their current contribution percentage.

The Company matches the participants' contributions to a maximum of 100% of up to 1% of elective deferral as well as 50% of elective deferral over 1% but not over 6% of the employees' eligible compensation. Elective and match contributions are 100% vested and nonforfeitable at inception.

Qualified nonelective contributions may have been made prior to January 1, 2008. No new qualified nonelective contributions will be made after such date. Qualified nonelective contributions are 100% vested and are distributable only in accordance with the distribution provisions (other than hardships) applicable to elective deferral contributions.

The Plan provides for additional elective deferrals for eligible participants subject to certain limitations. Eligible participants are those participants who will attain at least age 50 before the close of the Plan year and would otherwise be eligible to make elective deferrals under the Plan. The maximum additional elective deferral for 2015 and 2014 is limited to $6,000 and $5,500, respectively.

The annual addition (which include employee and employer contributions) that may be contributed or allocated to a participant's account under the Plan for any limitation year shall not exceed the lesser of $53,000 and $52,000 for 2015 and 2014, respectively, as adjusted for increases in the cost of living under Code Section 412(d), or 100% of the participant's compensation within the meaning of Code Section 412(c)(3), for the limitation year.

Participant Accounts - Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions and (b) plan earnings and losses. Earnings and losses are allocated to the participant's account at the end of each day, based on the participant's account balance at the beginning of that day.

Vesting - A participant will always have a vested and nonforfeitable right to the funds they have contributed to the Plan as well as all matching contributions.

A participant's interest in the employer's contribution becomes 100% vested and distributable upon retirement, permanent disability or death. Upon termination of employment, unvested benefits will be used to reduce future employer contributions, expenses incurred in the operation of the Plan and to restore a participant's account after a break in service. A participant will have a vested right to discretionary contributions according to the following vesting schedule:

Period of Service	Percent Vested
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Investment Options - Participants may invest their voluntary contributions, rollover contributions and the Company's contributions, plus actual earnings thereon into any of the twenty-three investment options maintained by Principal Trust Company (the "Trustee") as listed in Note 3. The participant may change their investment election for new contributions and existing balances daily.

Payment of Benefits - The normal retirement age for Plan participants is 65, at which point the accumulated value of a participant's vested account becomes payable without penalty. Participants may opt to keep their funds in the Plan after this date, but must begin withdrawing their funds once they reach the age of 70½. Also, participants may elect to have distributions paid to them on their early retirement date, which is the later of (a) the date a participant stops working for the Company or (b) the date a participant reaches the age of 55 and has five years of vested service.

Additionally, a participant's vested account balance will be distributable upon the occurrence of any one of the following events: (a) death or disability, (b) plan termination or (c) any other termination of employment. Upon termination of employment, if the participant's account balance is $1,000 or less, a participant will automatically receive a lump-sum payment, less applicable withholding taxes. If the participant's account balance is greater than $1,000 and is less than $5,000, the Plan Administrator will pay the distribution directly to the participant into a direct rollover to an individual retirement plan designated by the Plan Administrator. If the participant's account balance is greater than $5,000, the participant may elect to either (a) receive an immediate lump-sum amount equal to the value of their account or (b) leave the account balance in the Plan until such time as the participant decides to withdraw the account balance. The Plan Administrator will pay distributions into a direct rollover to an individual retirement plan designated by the Plan Administrator for mandatory distributions greater than $1,000 that the participant does not elect to have the distribution paid directly to an eligible retirement

plan specified by the participant in a direct rollover or to receive the distribution in accordance with the Plan document.

Notes Receivable from Participants - The Plan document allows participants to take loans, subject to certain restrictions, against their vested account balance at the request of the participant.

A participant may not borrow less than $1,000. The total of such loans from the Plan to a participant will not exceed the lesser of the following amounts:

(a) $50,000 or

(b) an amount equal to 50% of any participant's current vested interest in their account.

The period of payment for any loan will be arrived at by mutual agreement between the Plan Administrator and the participant, but in no event will its term exceed five years. Each loan will bear interest at a reasonable rate determined annually by the Plan Administrator. Effective for plan loans after December 31, 2001, plan provisions prohibiting loans to any shareholder-employee or owner-employee cease to apply according to plan amendment dated December 21, 2001.

Plan Administrative Expenses - Expenses incurred by the Plan Administrator, custodian and trustees for their services and costs in administering the Plan are paid directly by the Company, except for certain fees related primarily to participant loan administration which are paid directly by the participant.

Forfeited Accounts - Forfeitures are used to reduce future employer contributions, expenses incurred in the operation of the Plan and to restore a participant's account after a break in service, in accordance with the Plan's provisions. At December 31, 2015 and 2014, forfeited non-vested accounts totaled $21 and $51,845, respectively. Forfeitures were used to reduce employer contributions by $104,296 and $12,755 for years ended December 31, 2015 and 2014, respectively.

Reclassification - Certain 2014 financial statement line items have been reclassified to conform to the 2015 presentation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions and deductions in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investments - Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investment contracts

are measured at contract value. Contract value is the amount that participants would receive if they were to initiate permitted transactions under terms of the Plan.

Net Appreciation (Depreciation) in Fair Value of Investments - The Plan presents, in the statements of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments, which consist of the realized gains and losses from sales of investments and unrealized appreciation (depreciation) of investments. The net change in unrealized appreciation (depreciation) in the fair value of investments is determined by the change in fair value from the beginning of the year or from date of the purchase, to the end of the year.

New Accounting Pronouncements - During 2015 and 2014, various new Accounting Standards Updates (ASUs) were issued by the Financial Accounting Standards Board (FASB). The plan administrator of the Plan has determined, based on their review, that the following new accounting pronouncement that was issued is applicable to the Plan. As new accounting pronouncements are released, management will assess if they are applicable and, if they are applicable, their effect will be included in the notes to the financial statements.

In May 2015, the FASB issued ASU 2015-07, "Fair Value Measurement - Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share", which removed the requirement to categorize within the fair value hierarchy all investments measured at fair value using the net asset value per share. It also removes the requirement to make certain disclosures for all investments that are measured at fair value using the net asset value per share. ASU 2015-07 is effective for public entities for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. For all other entities, ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. Early application is permitted and the ASU should be applied retrospectively to all periods presented. Management has early adopted and retrospectively applied this guidance to the current and prior period financial statements and notes thereto.

In July 2015, the FASB issued ASU 2015-12, "Plan Accounting: Defined Benefit Pension Plans, Defined Contribution Pension Plans, and Health and Welfare Benefit Plans" which implemented the following changes.

1. Fully benefit-responsive investment contracts should be measured, presented, and disclosed at contract value, instead of fair value. This change should be applied retrospectively.

2. The requirement to disclose (a) individual investments that represent 5% or more of net assets available for benefits, (b) the net appreciation or depreciation for investments by general type, and (c) investment information disaggregated based on nature, characteristics, and risks has been eliminated. These changes should be applied retrospectively.

3. Plans that have a fiscal year-end that does not coincide with a month-end are permitted to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end. Plans that apply the practical expedient should disclose the accounting policy election, the alternative measurement date and the amount of any contribution, distribution, and/or significant event that

occurs between the alternative measurement date and the plan's fiscal year-end. This change should be applied prospectively.

The ASU is effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Only the nature and reason for the change in accounting principle is required to be disclosed in the annual period of adoption. Management has early adopted and retrospectively applied this guidance to the financial statements and notes thereto.

3. INVESTMENTS (UNAUDITED) AND NOTES RECEIVABLE FROM PARTICIPANTS (UNAUDITED)

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $273,908 and $3,850,479 during the years ended December 31, 2015 and 2014, respectively.

The Plan's independent auditors did not perform auditing procedures with respect to investments which were certified by the Custodian at December 31, 2015 and 2014, except for comparing such information to the related information included in the financial statements and the supplemental schedule.

4. FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

The Plan invests in a variety of pooled separate accounts. Pooled separate accounts are stated at net asset value (NAV) and the fair value of the separate accounts is not publicly quoted market inputs. The fair value of pooled separate accounts is based on the underlying value of each account's investment portfolio. Investments held by these pooled separate accounts include domestic stocks, international stocks, mutual funds, collective trust funds, and other separate accounts. Pooled separate accounts can be redeemed on a daily basis. Unfunded commitments typically are found in private equity funds and therefore are not applicable to pooled separate accounts.

The Plan's mutual fund is valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the United States Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The common collective trusts are valued at the NAV of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the common collective trust fund, the issuer does not have a redemption notice period requirement in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTES TO FINANCIAL STATEMENTS

The Plan's investments at fair value, within the fair value hierarchy, are as follows as of December 31, 2015 and 2014:

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2015 and 2014:

Investments at December 31, 2015	Fair Value	Unfunded Commitments	Redemption Frequency (If currently eligible)	Redemption Notice Period

5. GUARANTEED INTEREST ACCOUNT

In 2014, the Plan invested in a guaranteed interest account managed by Principal Life Insurance Company ("the Insurance Company"). The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate on the account established by the issuer is 4.30%.

This contract is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the Insurance Company, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the Plan's ability to transact at contract value with the Insurance Company. Such events include, but are not limited to, the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974, or (e) reallocation of investments by the trustee, or plan sponsor directed and terminating the fund as an investment option of the plan. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. The account matured on December 31, 2014 which was stated termination date on the account.

Average yields:

Based on actual earnings	4.30%
Based on interest rate credited to participants	4.30%

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

7. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 12, 2014, that the Plan is designed in accordance with applicable sections in the Internal Revenue Code (IRC). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator believes as of December 31, 2015, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the Custodian as defined by the Plan document. Transactions with the Custodian qualify as party-in-interest transactions. Any fees for investment management services are included in net appreciation (depreciation) in fair value of the investments. Direct fees paid by the Plan for custodian and recordkeeping services were approximately $23,036 and $21,616 for the years ended December 31, 2015 and 2014, respectively.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event that the Plan is terminated, the accounts of all participants will become fully vested and non-forfeitable, and assets will be allocated to each participant based on their respective account balances after payment of all final liquidation or termination expenses, pursuant to the directions of the Plan Administrator.

During their evaluation, no subsequent events were identified except for the item disclosed below.
