API GROUP, INC. EMPLOYEE STOCK OWNERSHIP PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

Note 1 DESCRIPTION OF PLAN

The following brief description of the APi Group, Inc. (the Company and Plan Sponsor) Employee Stock Ownership Plan & Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

GENERAL

The Plan is a defined-contribution plan covering all full-time employees of the Company who have completed one year of service and are age 21 or older or are members of the Company's management trainee program and are not subject to a collective bargaining agreement. The Plan is an employee stock ownership plan (ESOP) and trust and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Certain members of management of the Company are trustees of the Plan. The Plan is administered by the trustees.

The Plan allows for the repurchase of shares of Company common stock with the proceeds of a loan, if necessary.

ELIGIBILITY

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

CONTRIBUTIONS

Each year the Company may make discretionary contributions, at the option of the Company's Board of Directors, subject to IRS regulations. The Company elected to make a discretionary contribution to the Plan of approximately \$8,683,000 for the year ended December 31, 2015.

DIVIDENDS

The Company is taxed as a Subchapter S corporation under sections of the federal and state income tax laws which provide that, in lieu of corporate income taxes, the stockholders separately account for the Company's items of income, deductions, losses and credits. In accordance with this election, the Company declared dividends of approximately \$17,993,000 for the year ended December 31, 2015, to the Plan, which is shown as dividends on the statement of changes in net assets available for benefits.

PAYMENT OF BENEFITS

On separation from service, a participant may elect to receive either a lump-sum amount equal to his or her account, or annual or more frequent installments as may be conveniently determined, subject to the authority of an administrative committee to set limitations on the number of years over which distributions may be paid. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are paid in the form of a single payment or installment payments of cash. Benefits payments to participants are recorded upon distribution.

API GROUP, INC. EMPLOYEE STOCK OWNERSHIP PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

ADMINISTRATIVE EXPENSE

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company.

VOTING RIGHTS

In limited circumstances, each participant is entitled to exercise voting right attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time that such rights are to be exercised. The Trustees are not permitted to vote any allocated shares for which instructions have not been given by a participant. The Trustees are required, however, to vote any unallocated shares on behalf of the collective best interest of the Plan participants and beneficiaries.

PARTICIPANT ACCOUNTS

The plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

VESTING

If a participant's employment with the Company ends for any reason other than retirement, disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. A participant's account becomes fully vested after six years of service with the Company under a graded vesting schedule. Management trainee accounts become fully vested after two years of service with the Company.

PUT OPTION

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

DIVERSIFICATION

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account. In the sixth year, the percentage changes to 50%.

FORFEITURES

Forfeitures are first used to restore any amounts previously forfeited, then second, to pay non-settlor administrative expenses of the Plan, and lastly allocated to participants. Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2015 and 2014 totaled \$0 and 4,195 shares and \$93,607 and 789 shares, respectively. Forfeitures of terminated nonvested account balances used to pay Plan expenses during 2015 and 2014 totaled \$92,157 and 1,050 shares and \$0 and no shares, respectively.

Note 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared on the accrual basis of accounting.

USE OF ESTIMATES

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

RECENT ACCOUNTING PRONOUNCEMENTS

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Plan management is currently evaluating ASU 2015-07.

NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)*. Part I of ASU 2015-12 eliminated the requirements that employee benefit plans measure the fair value of fully benefit-responsive investment contracts and provide the related fair value disclosures, rather these contracts will be measured and disclosed only at contract value. Part II will require plans to disaggregate their investments measured using fair value only by general type, either on the financial statements or in the notes. Part II also eliminated the requirement to disclose the net appreciation/depreciation in fair value of investments by general type and the requirements to disclose individual investments that represent 5% or more of net assets available for benefits. Part III provides a practical expedient to permit plans to measure its investments and investment related accounts as of a month-end date closest to its fiscal year for a plan with a fiscal year end that does not coincide with the end of a calendar month. The amendments in ASU 2015-12 are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. Plan management evaluated ASU 2015-12 and have early adopted this standard update.

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 23, 2016, the date the financial statements were available to be issued.

Note 3 INVESTMENTS

The Plan's investment in the common stock of APi Group, Inc. as of December 31 is as follows:

	<u>2015</u>	<u>2014</u>
	<u>Allocated</u>	<u>Allocated</u>
Api Group, Inc. common stock:		
Number of shares	3,935,693	3,935,693
Cost	\$38,563,950	\$38,563,950
Fair value	\$277,938,652	\$271,759,614

Note 4 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets,
- Quoted prices for identical or similar assets or liabilities in inactive markets,
- Inputs other than quoted prices that are observable for the asset or liability,

NOTES TO FINANCIAL STATEMENTS

- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

APi Group, Inc. common stock: The Sponsor's common stock is valued at fair value based upon an independent appraisal. The appraisal was based on a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow, net income and market comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

Mutual funds: Mutual funds are valued at quoted prices in an active market.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which management, along with the ESOP trustees, reviews in detail, discusses, and approves.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6 RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and in common/collective trusts held by Wells Fargo Bank, N.A. These transactions qualify as party-in-interest transactions. The Plan has a number of service providers. Such parties are parties-in-interest under ERISA. Certain fees incurred by the Plan for investment management services are included in net appreciation in fair value of mutual funds and common/collective trusts, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments of \$166,155 to Plan service providers which were not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

Note 7 RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reports in the statements of net assets available for benefits.

Note 8 PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Plan management directs the Trustees to pay all liabilities and expenses of the ESOP. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Note 9 TAX STATUS

The Plan has received a determination letter from the IRS dated April 4, 2013, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.
