For the years ended December 31, 2015 and 2014

NOTE A - DESCRIPTION OF PLAN

The following description of The Odom Corporation Salary Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

1. General

The Plan is a qualified defined contribution savings plan covering substantially all employees of The Odom Corporation and Great Artisan Beverage, LLC (collectively, the “Company”). Employees of the Company are eligible to participate in the Plan sixty days from their Employment Commencement Date, as defined by the Plan documents. The Plan provides for contributions pursuant to Section 401(a) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Specific details of employer match contributions and vesting can be found in the following footnotes.

2. Contributions

Under the provisions of the Plan, participants may defer, on a pretax or after-tax basis, any percentage of their annual compensation, limited to amounts prescribed by Internal Revenue Service (“IRS”) regulations. Reimbursements or other expense allowances, fringe benefits, moving expenses, deferred compensation, and welfare benefits are excluded from compensation. Effective January 1, 2012, the Company matches 100% of the first 3% of participant contributions and 50% of the next 2% of participant contributions. The Company, at the option of its board of directors, may contribute additional amounts to be allocated to each participant’s account.

3. Investment Options

Participants are able to direct their investments (including Company matching contributions) between any or all of a series of investment fund options.

4. Participant Accounts

Participant accounts are credited with the participant’s contributions and allocations of the Company’s contributions and Plan earnings or losses. The allocation of the Company’s contributions is based on the participant’s contributions to the Plan. The allocation of Plan earnings or losses is based on the participant’s account balance in each respective investment fund into which they have directed contributions.

5. Vesting

All participant contributions, Company contributions, and earnings thereon are 100% vested at all times.

6. Payment of Benefits

Benefit distributions will be made in either a lump sum or periodic installments at the normal retirement age of 65 or upon termination of employment from the Company. Participants' contributions and Company contributions may be withdrawn earlier, subject to certain hardship withdrawal provisions of the Plan.

7. Notes Receivable from Participants

Plan participants may obtain fixed-rate loans, generally for periods not to exceed five years, against their account balances, provided that certain conditions are met and that approval is granted by the trustees. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If loans are for the purchase of a primary residence, repayment periods can extend up to fifteen years. Interest is paid by the borrower at prime rate plus 1%. Delinquent participant loans are classified as deemed distributions or Plan loan offsets based upon the terms of the Plan document. At December 31, 2015, interest rates on notes receivable from participants ranged from 4.25% to 8.75% per annum.

8. Forfeited Amounts

Forfeitures are first used to offset any administrative expenses and then to offset employer matching contributions. For the years ended December 31, 2015 and 2014, forfeitures were \$0 and \$0, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting. Benefits are recorded when paid.

2. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts in the statements of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

3. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note H for discussion of fair value measurement.

Purchases and sales of securities are reflected on a trade date basis.

Dividend and interest income is recorded as earned on the accrual basis and allocated to participants based upon the participant's proportionate share of assets in each investment fund. Dividends are recorded at the ex-dividend date.

The Plan presents, in the statements of changes in net assets available for benefits, the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation of those investments.

4. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. Delinquent loans are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2015 or 2014.

5. Risks and Uncertainties

The Plan provides for various investment securities that are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes therein.

6. Administrative Expenses

Audit fees are paid by the Company, which is then reimbursed by the Plan. All other fees are paid by the Plan. Any expenses directly relating to the purchase, sale or transfer of the Plan's investments are charged to the investment fund to which the expense relates. Loan fees are paid by loan participants.

7. Adoption of New Accounting Rules

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in Accounting Standards Codification 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in the removal of the Plan's investment for which fair value is measured using the NAV per share practical expedient from the fair value hierarchy. The amount of investments measured at NAV (or its equivalent) is disclosed so that total investments in the fair value hierarchy can be reconciled to total investments measured at fair value on the statement of net assets available for benefits.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Part I and Part II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively, with early application permitted.

Part III is not applicable to the Plan, but management has elected to adopt Part I and Part II early. Accordingly, the amendments were retrospectively applied, resulting in the Plan's stable value investment being reported only at contract value in the accompanying statements of net assets available for benefits and the removal of certain fair value disclosures related to this investment. The disclosures of individual investments that represent 5% or more of net assets available for benefits, the net appreciation or depreciation in fair value of investments by general type and the investment strategy for the Plan's investment measured at NAV have been removed, and the level of disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics and risks.

NOTE C - CERTIFIED INVESTMENT INFORMATION

The Plan administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Trust Company ("CSTC"), the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate:

- Investment assets and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014.
- Trust transactions, including investment income, securities transactions and interest income on notes receivable from participants, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014.
- Information included on Schedule H, Part IV, Line 4i, schedule of assets held for investment purposes as of December 31, 2015.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE D - TAX STATUS

The Plan received a favorable determination letter from the IRS, dated March 31, 2014, regarding the Plan's status as a tax-exempt entity. The Plan has been amended and restated since receiving the determination letter. However, in the opinion of the Plan administrator and the Plan's tax counsel, the Plan and its related trust are currently operating in compliance with the applicable requirements of the Internal Revenue Code, and therefore believe the Plan is qualified as tax-exempt.

During 2015, the Plan identified errors with 2015 employee and related employer contributions primarily surrounding participants who received manual checks during the year. The Company corrected this error in accordance with IRS Rev. Proc. 2008.50 by remitting additional employer matching contributions and lost earnings during 2016, to maintain the qualified status of the Plan. The full amount was immaterial to the financial statements as of December 31, 2015.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE E - PLAN TERMINATION

While the Company intends to continue the Plan, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, assets of the Plan will be used to provide benefits according to the priority described in the Plan.

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2015 and 2014, certain Plan investments are funds managed by an entity affiliated with Charles Schwab Trust Company, the custodian of the Plan. These transactions qualify as party-in-interest.

NOTE G - FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Investments classified within level 3 whose fair value measurements consider several inputs may include level 1 or level 2 inputs as components of the overall fair value measurement.

NOTE G - FAIR VALUE MEASUREMENTS - Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Mutual Funds: Valued daily at the net asset value ("NAV") of shares held by the Plan at year end.

Common Collective Trust: Valued at the NAV provided by the administrators of the fund. The NAV is used as the practical expedient to estimate fair value. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant-directed redemptions have no restrictions; however, a liquidation of the Plan's entire share in the fund may be delayed.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

Assets at Fair Value as of December 31, 2015
