Independent Auditor's Report

To the Administrator of
Tyson Foods, Inc. Retirement Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Tyson Foods, Inc. Retirement Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and December 31, 2014 and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Charles Schwab Trust Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of December 31, 2015 and December 31, 2014 and for the years then ended, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental Schedule H, Line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2015 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Retirement Savings Plan
Notes to Financial Statements
December 31, 2015 and 2014

Note 1: Description of the Plan

The following brief description of the Tyson Foods, Inc. Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan which was adopted effective October 1, 1987, to provide a means for eligible employees to defer a portion of their compensation and to encourage savings to provide additional financial security for the future.

Contributions

Prior to October 2, 2013, all eligible employees of Tyson Foods, Inc. (the Sponsor) and its subsidiaries that have adopted the Plan, other than leased employees, could elect to participate on the first day of the month coinciding with or following completion of three months of service. Employees hired on October 2, 2013, and after became eligible to participate the first day of the month following the completion of fifty-nine days of employment, but not earlier than January 1, 2014. In order to participate, eligible employees must elect to have the Sponsor make salary deferral contributions on their behalf.

The Plan, as amended effective January 1, 1997, allows 100% Sponsor matching contributions on participant deferrals up to 3% of compensation, including annual bonuses and 50% for participant deferrals in excess of 3% but not more than 5% of compensation, including annual bonuses. The Plan provides matching contributions only to employees that have completed one year of service.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Sponsor's contribution and Plan earnings. Additionally, the Plan is responsible for all administrative expenses, including investment advisory, legal and consulting fees. Administrative expenses are allocated evenly across all participant accounts on a monthly basis, after allocating loan initiation fees collected during the period to the respective participants' accounts.

Most funds impose restrictions on the timing of certain trades, depending on the fund and length of time the shares were held. Certain mutual fund investments do not allow individual repurchases above \$5,000 if the repurchase is made within 30 days of the initial sale.

Vesting

Plan participants are fully vested at all times with regard to their salary deferral and employer matching contributions.

Notes Receivable from Participants

Participants may obtain loans from their individual accounts in amounts not to exceed the lesser of 50% of their vested account balance or \$50,000. Loans are secured by the balance in the participant's account and bear interest at a fixed rate based upon New York prime plus 1% at the time the loan is made. The maximum maturity of a loan is sixty (60) months. Principal and interest are paid ratably through weekly, bi-weekly, or monthly payroll deductions. Participants are charged a one-time fee of \$35 per loan.

Benefits

Participants who have attained age 59 ½ or become subject to an in-service disability may elect to withdraw part or all of their account balance. All other participants may elect to withdraw their salary deferral contributions to alleviate a financial hardship. Participants may withdraw after-tax or rollover contributions at any time.

Payment of a participant's benefits upon retirement, disability or death may be in a lump sum, in installments over a period of time or any combination at the participant's election. Participants terminating employment with vested account balances of \$1,000 or less are distributed in a lump sum. Participants may elect to defer distribution of their benefit if the vested account balance exceeds \$1,000 upon termination of employment. In order to elect installment payments, a participant's account balance must exceed \$5,000.

Plan Termination

Although the Sponsor has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of Employee Retirement Income Security Act (ERISA). In event of termination, participants will be entitled to their vested account balance.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Sponsor to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. See Note 4 for a description of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation or depreciation in fair value of investments consists of realized gains and losses and changes in unrealized gains and losses of these investments during the year. Unrealized gains and losses on investments are based on changes in the fair values of such investments.

Notes Receivable from Participants

Notes receivable from participants are valued at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Fund Revenue Sharing

Fund revenue sharing includes revenue credits, which result from revenue sharing from the Plan's investments exceeding the administrative revenue requirement negotiated with the record keepers.

Recent Accounting Standards

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update 2015-07- *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)* (ASU 2015-07). The FASB issued guidance is intended to address the diversity in practice related to how certain investments measured at net asset value (NAV) with future redemption dates are categorized. The guidance removes the requirement to categorize all investments within the fair value hierarchy for which fair values are measured using the NAV per share practical expedient. The guidance is effective for annual reporting periods beginning after December 15, 2016, with retrospective application to all periods presented. Early adoption is permitted. The Plan adopted this amendment during the year ended December 31, 2015. Accordingly, the standard was retrospectively applied resulting in certain investments that are measured at NAV not being categorized in the fair value hierarchy. The adoption of ASU 2015-07 did not have a material effect on the Plan's financial statements.

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (ASU 2015-12). The FASB issued guidance is intended to reduce the complexity of employee benefit plan accounting. Part I of ASU 2015-12 eliminates the requirements to measure fair value of fully benefit-responsive investment contracts and provide certain disclosures. Part II of ASU 2015-12 eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of ASU 2015-12 permits a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The guidance is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Plans can early adopt any of ASU 2015-12's three parts without early adopting the other parts. The Plan adopted Parts I and II during the year ended December 31, 2015. Accordingly, Part I is applied to the Plan's Stable Value Fund. Part II was retrospectively applied resulting in the disaggregation of investments by general type only, as well as the removal of certain investment disclosures that are no longer required under Part II. Part III is not applicable to the Plan. The adoption of Parts I and II of ASU 2015-12 did not have a material effect on the Plan's financial statements.

Note 4: Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy contains three levels as follows:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Other observable inputs available at the measurement date, other than quoted prices included in Level 1, either directly or indirectly, including:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by the observable market data by correlation or other means.

Level 3 - Unobservable inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

The fair value hierarchy requires the use of observable market data when available. In instances where the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input significant to the fair value measurement in its entirety.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds - Valued at quoted market prices for shares held by the Plan at year end.

Money market mutual funds - The Plan's investments consist of shares of money market portfolios which are valued at the NAV of shares held by the Plan at year end. The NAV represents the value at which the shares of the funds may be purchased or redeemed. The fair value of the investments within the funds is based on quoted prices in active markets and securities valued using observable inputs or quotations from inactive markets. Under ordinary market conditions, redemptions are permitted as of valuation dates and are executed at amortized cost.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5: Stable Value Fund

The Plan's Stable Value Fund (the Fund) holds a portfolio of synthetic guaranteed investment contracts (GICs) in order to manage market risks and to alter the return characteristics of underlying securities to match certain fixed income fund objectives. GICs generally change the investment characteristics of underlying securities to those of guaranteed investment contracts. The GICs provide that benefit-responsive distributions for underlying securities may be withdrawn at contract or face value. Benefit-responsive distributions are generally defined as a withdrawal on account of a participant's retirement, disability, or death, or participant-directed transfers in accordance with the terms of the Plan.

The primary purpose of the Fund is to provide preservation of principal, maintain a stable interest rate, and to provide daily liquidity at contract value for participant withdrawals and transfers in accordance with the provisions of the Plan. To accomplish the above objectives, the Fund invests primarily in a portfolio of GICs managed by the Fund Manager. Each of the GICs are comprised of common collective trusts, which seek to maximize the portfolio's total return relative to a specific bond index. BlackRock Intermediate Government/Credit Fund, Invesco Intermediate Government/Credit Fund, Jennison Intermediate Government/Credit Fund, and PIMCO Intermediate Government/Credit Fund seek to replicate the Barclay's Capital Intermediate Government Credit Bond Index. BlackRock Core Fixed Income Fund, GSAM Core Fixed Income Fund, Invesco Core Fixed Income Fund and PIMCO Core Fixed Income Fund strive to match the Barclay's Capital U.S. Aggregate Bond Index, while the Invesco Short-Term Bond Fund follows the Barclay's Capital U.S. Government 1-5 Year Index. As each of the common collective trusts are tied to intermediate bond indices, the nature and risk does not vary significantly between each GIC.

Because these contracts meet the fully benefit-responsive investment contract criteria, they are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported by the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. In a wrapper investment contract structure, the underlying investments are owned by the Fund and held in trust for Plan participants. The Fund purchases a wrapper contract from an issuer that amortizes the realized and unrealized gains and losses on the underlying fixed income investments, typically over the duration of the investments, through adjustments to the future interest crediting rate (which is the rate earned by participants in the Fund for the underlying investments). The issuer provides assurance that the adjustments to the interest crediting rate will not result in a future interest crediting rate that is less than zero.

Tyson Foods, Inc.
Retirement Savings Plan
Notes to Financial Statements
December 31, 2015 and 2014

The key factors that influence future interest crediting rates for a GIC include:

- The level of market interest rates;
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract;
- The investment returns generated by the fixed income investments covered by the wrapper contract; and
- The duration of the underlying investments backing the wrapper contract.

Interest crediting rates for GICs are typically reset on a monthly or quarterly basis. The crediting rate formula amortizes the Fund's realized and unrealized market value gains and losses over the duration of the contract's underlying investments. All GICs provide for a minimum interest crediting rate of zero percent. In the event that the interest crediting rate should fall below zero and the requirements of the wrapper contract are satisfied, the wrapper issuers will pay to the Plan the shortfall needed to maintain the interest crediting rate at zero. This helps to ensure that participants' principal and accrued interest will be protected.

In certain circumstances, the amount withdrawn from the GIC would be payable at fair value rather than at contract value, known as value events. Value events could include the termination of the Plan, a material adverse change to the provisions of the Plan, or a decision to withdraw from the contract in order to change to a different investment provider. The Sponsor does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

There were no circumstances noted where issuers may terminate at an amount other than contract value.

The following represents the contract value of the GICs held by the Plan at December 31, 2015 and 2014:

	2015	2014
Stable value synthetic GICs	\$ 482,172,028	\$ 480,562,579

At December 31, 2015, all investment contracts had open maturities.

Note 6: Income Tax Status

The Plan's latest tax determination letter dated January 2, 2014, from the Internal Revenue Service (IRS) states that the Plan, as designed, is in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Sponsor and the Plan's tax counsel believe that the Plan is presently designed and being operated in compliance with the current requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust was tax-exempt as of the financial statement date. The Plan applied for a new determination letter as of January 31, 2016, and the IRS has received the application. However, an updated determination letter has not been received as of July 27, 2016, the date the financial statements were available to be issued.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes it is no longer subject to income tax examinations for years prior to 2012.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Tyson Foods, Inc.
Retirement Savings Plan
Notes to Financial Statements
December 31, 2015 and 2014

Note 9: Party-In-Interest Transactions

The Sponsor pays certain expenses of administering the Plan and provides the Plan with office space, equipment and personnel necessary to administer the Plan.

Plan investments during 2015 and 2014 included shares of a money market mutual fund managed by Charles Schwab. Accordingly, transactions involving this fund are considered to be allowable transactions conducted with a party-in-interest under ERISA. As of December 31, 2015 and 2014, the Plan held \$22,616,512 and \$7,483,598, respectively in Charles Schwab's money market mutual fund. Certain assets of the Plan during 2015 and 2014 consisted of notes receivable from participants. Transactions involving these assets are considered to be party-in-interest transactions. Certain plan investments within the Stable Value Fund and certain mutual funds are maintained by Invesco, who also serves as the manager for the Stable Value Fund. During the years ended December 31, 2015 and 2014, the Plan paid Invesco \$396,994 and \$393,638, respectively in administrative expenses.

Note 10: Reconciliation of Financial Statements to Form 5500
