Notes to Financial Statements
December 31, 2015 and 2014

Note 1: Description of the Plan

The following description of Trinity Consultants, Inc. Capital Accumulation Plan and Trust (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Trinity Consultants, Inc. (Company) for the benefit of eligible employees of the Company. All employees of the Company who have completed one month of service are eligible to participate on the first day of the subsequent month. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Fidelity Management Trust Company (Fidelity) is the trustee of the Plan.

Contributions

Eligible employees can contribute up to 80% of their eligible compensation as defined by the Plan and have the ability to designate their contributions as either a standard 401(k) or Roth 401(k) contribution. Employee rollover contributions are also permitted. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Company may contribute a discretionary matching contribution to active participants employed by the Company as of the last day of the plan year. For the years ended December 31, 2015 and 2014, the Company elected to match 50% of employee contributions on the first 6% of each active participant's compensation. Contributions are subject to certain limitations.

Participant Investment Account Options

Each participant has the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

The plan document also includes an automatic deferral feature, whereby a participant is treated as electing to defer 3% of eligible compensation unless the participant made an affirmative election otherwise. Investments are directed to Fidelity Retirement Money Market Portfolio unless redirected by the employee. The automatic deferral feature also provides for a 1% annual increase in the percentage deferred and is ultimately capped at 6%. Newly hired employees have 30 days to elect out of automatic enrollment.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, plan earnings/losses and any related administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. Company matching contributions and earnings shall be vested in accordance with the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	33%
3	40%
4	66%
5	80%
6	100%

The nonvested balance is forfeited upon termination of service.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant (or participant's beneficiary in the case of death) may elect to receive either a lump-sum distribution in the amount equal to the value of the participant's vested interest in their account or annual installments over varying periods. For termination of service for other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution or rollover vested contributions, without penalty, to a qualified individual retirement account (IRA) or other qualified plan. Additionally, employees may withdraw vested contributions if the employee incurs a financial hardship as defined by the plan document. Hardship distributions are subject to a 10% penalty tax if received before age 59½. At December 31, 2015 and 2014, Plan assets included approximately $281,000 and $281,000, respectively, allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan but have not yet been distributed.

Notes Receivable from Participants

The plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled approximately $40,400 and $7,300, respectively. These accounts will be used to reduce future employer contributions. Employer contributions were reduced by approximately $33,100 and $77,000 from forfeited nonvested accounts for the years ended December 31, 2015 and 2014, respectively.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Quoted market prices, if available, are used to value investments. Mutual funds, the money market fund and brokerage link option are valued at the net asset value (NAV) of shares held by the plan at year-end. The Plan's interest in the common collective trust is valued at fair value at the NAV per shares utilizing the practical expedient.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

Note 3: Certification of Plan Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014.
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014.
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2015.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2015 and 2014:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2015				
Mutual funds	$ 48,272,423	$ 48,272,423	$ -	$ -
Money market fund	1,878,241	1,878,241	-	-
Brokerage link option	644,098	644,098	-	-
Total assets in fair value hierarchy	50,794,762	$ 50,794,762	$ -	$ -
Investments measured at net asset value (A)	201,009			
Investments at fair value	$ 50,995,771			
December 31, 2014				
Mutual funds	$ 40,314,533	$ 40,314,533	$ -	$ -
Money market fund	1,150,075	1,150,075	-	-
Brokerage link option	474,346	474,346	-	-
Total assets in fair value hierarchy	41,938,954	$ 41,938,954	$ -	$ -
Investments measured at net asset value (A)	38,686			
Investments at fair value	$ 41,977,640			

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in valuation techniques during the years ended December 31, 2015 and 2014. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Note 5: Party-in-Interest and Related Party Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provided services to the Plan, an employer whose employees are covered by the Plan, and employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the Plan trustee. The Company provides certain administrative services at no cost to the Plan.

Certain plan investments are shares of mutual funds managed by Fidelity, the trustee as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 7: Change in Accounting Principle

In 2015, the Plan changed its accounting policy on plan accounting disclosures by adopting the provisions of ASU 2015-12, *Plan Accounting (Topics 960, 962 and 965): Part II: Plan Investment Disclosures*. The accounting policy change provided for in ASU 2015-12 changes the Plan's disclosure requirements to eliminate and/or modify certain investment-related disclosures. This change was applied retrospectively for all periods presented. The guidance also clarifies that indirect investments in fully benefit-responsive investment contracts (FBRICs) should not be reflected as FBRICs and, therefore, should be reported at fair value. Concurrent with the Plan's implantation of ASU 2015-125, the statement of net assets available for benefits for all periods presented no longer reflect the common collective trust as a FBRIC and, as such, the investment is now measured at fair value without and adjustment to contact value.

In 2015, the Plan changed its method of accounting for investments valued at net asset value per share (NAV) by adopting provisions of ASU 2015-07, *Fair Value Measurement: Disclosures for Investment in Certain Entities that Calculate Net Assets Value per Share*. The accounting policy change provided for in ASU 2015-07 eliminates the requirement that investments valued using the NAV practical expedient be categorized within the fair value hierarchy. However, these investments are included in the description and total fair value columns of the table so the basic financial statements and the table reconcile. This change was applied retrospectively.

Note 8: Tax Status

The Plan operates under a standardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust document sponsored by Fidelity Management and Research Company. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under section 401 of the Internal Revenue Code and that the related trust was tax-exempt as of the financial statement date.

Note 9: Transfer of Plan Assets or Rollover Contributions

During 2014, the Company acquired two companies and approved an amendment to allow the employees of these companies to participate in the Plan effective September 27, 2014. All participants in the companies vested in that Plan including their years of service and were provided the option to have their account balance rolled into the Plan, receive a lump-sum distribution or be paid through an annuity contract. An aggregate of $794,128 was rolled into the Plan during the year ended December 31, 2014, and is included as a transfer on the statements of changes in net assets available for benefits.

Note 10: Risks and Uncertainties

The Plan provides for various investments options in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amount reported in the accompanying statements of net assets available for benefits and statements of changes in net assets available for benefits.

Note 11: Subsequent Events

Subsequent events have been evaluated through September 26, 2016, which is the date the financial statements were available to be issued.
