CR&R INCORPORATED PROFIT SHARING AND EMPLOYEE SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015

1. DESCRIPTION OF PLAN

The following description of the CR&R Incorporated Profit Sharing and Employee Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document, as well as any plan amendments, for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering all full-time employees of CR&R Incorporated, CR Transfer, Inc., Solag Incorporated, Haulaway Storage Containers, Inc., R.B. Containers, Inc. and South Yuma County Landfill, Inc. (collectively, the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees who have attained at least 21 years of age are eligible to commence deferrals on January 1st, April 1st, July 1st, or October 1st following the completion of 6 months of service.

Administration

The Plan is administered by the Company.

Contributions

Participants may elect to contribute up to 100% of eligible pre-tax and post-tax compensation, not to exceed the limits of the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary profit sharing contributions and/or employer matching contributions. For the year ended December 31, 2015, the Company matched 50% of the participant's deferral, up to the first 4% of compensation. For the year ended December 31, 2015, the Company made no discretionary profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's discretionary contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant's eligible compensation, participant contributions, investment elections and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN – (Continued)

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions, plus actual earnings thereon, is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used first to pay Plan expenses and second to reduce future Company contributions. During 2015, employer contributions were reduced by $2,712 and administrative expenses of $6,582 were paid from forfeited non-vested accounts. There were no unapplied forfeitures as of December 31, 2015 or 2014.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or partial payments in amounts requested by the participant from time to time. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding $1,000 may be immediately distributed in a lump-sum payment. All vested account balances exceeding $1,000, but not exceeding $5,000, may be rolled into an Individual Retirement Account. With the plan administrator's approval, participants may withdraw all or part of their fully vested contributions in the event of financial hardship.

1. DESCRIPTION OF PLAN – (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and generally bear interest at a rate commensurate with the rates that a bank or other professional lender would charge for making a loan in a similar circumstance. Principal and interest is paid ratably through payroll deductions. Participants can only have one loan outstanding at a time.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Basis of Accounting and New Accounting Pronouncements

The financial statements of the Plan are prepared under the accrual method of accounting.

In May 2015 and July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Updates ASU 2015-07 and ASU 2015-12, respectively, which include guidance related to plan investment disclosures and fully benefit-responsive investment contracts. This guidance revises the presentation for fully benefit-responsive investment contracts and disclosures related to these contracts as well as other disclosures related to plan investments. This guidance is effective for plan years beginning after December 15, 2016 (ASU 2015-07) and December 15, 2015 (ASU 2015-12), with early application permitted. The Plan has elected to early adopt the provisions of these ASUs, including the retroactive application of their provisions.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value in accordance with the provisions of accounting guidance issued by the FASB on fair value measurements (see Note 3).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Fees and Administrative Expenses

Plan expenses are generally paid by the Plan, unless paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Certain transactional fees are charged directly to the participant's account and are included in administrative expenses.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. Delinquent participant loans are reclassified as distributions based on the terms of the plan agreement.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditor's report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The FASB provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

3. FAIR VALUE MEASUREMENTS – (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for investments measured at fair value. There have been no changes in the methodology used at December 31, 2015 and 2014.

Registered investment companies: These investments are public investment vehicles valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS – (Continued)

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Description	Total	Level 1	Level 2	Level 3
December 31, 2015				
Registered investment companies	$ 13,767,914	$ 13,767,914	$ -	$ -
Total investments at fair value	$ 13,767,914	$ 13,767,914	$ -	$ -
December 31, 2014				
Registered investment companies	$ 13,065,237	$ 13,065,237	$ -	$ -
Total investments at fair value	$ 13,065,237	$ 13,065,237	$ -	$ -

In regards to the classification of investment options offered by the Plan, there were no reclassifications in or out of levels 1, 2 or 3 during the year ended December 31, 2015.

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

As of December 31, 2015, the Plan held assets in a benefit-responsive investment contract with Principal Life Insurance Company (Principal). This contract meets the fully benefit responsive investment contract criteria and therefore is reported at contract value. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY – (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under Employee Retirement Security Act of 1974. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Plan's ability to receive amounts due in accordance with this contract is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be altered by future economic and regulatory developments.

In addition, certain events allow the contract issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreements without the consent of the contract issuer.

5. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule of assets (held at end of year), as of December 31, 2015 and 2014, and for the year ended December 31, 2015.

	2015	2014
Registered investment companies	$ 13,767,914	$ 13,065,237
Investment contract	7,802,136	6,925,003
Notes receivable from participants	1,777,770	1,476,148
Net appreciation in fair value of investments	37,132	n/a
Interest and dividend income	162,144	n/a
Interest income on notes receivable from participants	64,150	n/a

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are shares of mutual funds managed by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the trustee and record-keepers of the Plan. The Plan paid $34,672 in contract administration fees to Principal Trust and Principal Life Insurance Company during 2015. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. Additionally, the Company paid certain administrative expenses of the Plan. These transactions qualify as party in interest transactions for which a statutory exemption exists.

In connection with a fee sharing arrangement with the trustee of the Plan, during 2015 the Plan received $42,637 in fee reimbursements of which $41,538 was used to pay Plan expenses. The Plan has credits of $4,807 available to offset future Plan expenses as of December 31, 2015.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. TAX STATUS

The Company adopted a non-standardized form of a prototype plan sponsored by Principal Life Insurance Company which received a favorable opinion letter from the Internal Revenue Service (IRS), on March 31, 2014, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. TAX STATUS – (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
