YEARS ENDED DECEMBER 31, 2015 AND 2014

1. Description of Plan

The following description of the Rose City Printing & Packaging 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution plan covering all permanent employees of Rose City Printing & Packaging (the "Company") who have three months of service and are age 21 or older. Temporary employees who have one year of service and are age 21 or older are also eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan's administrative committee is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's board of trustees.

During January 2015, the Company was acquired by Graphic Packaging International, Inc. ("GPI"). Effective December 31, 2015, all assets of the Plan were transferred to GPI Savings Plan (the "GPI Plan"), which is a qualified plan and exempt from income taxes under sections 401(a), 401(k) and 501(a), of the Internal Revenue Code ("IRC"). At that time, employees of the Company who were enrolled in the Plan were automatically enrolled into the GPI Plan; all funds related to these participants were transferred.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may contribute after-tax ROTH elective deferrals to the Plan, as allowed by the IRC. Participants may also contribute amounts representing distributions from other qualified plans, as defined in the Plan agreement. Participant salary deferral contributions are made voluntarily, subject to certain limits set by the IRC. Participants direct the investment of their contributions and any employer contributions into various investment options offered by the Plan. The Company may make discretionary matching contributions and discretionary profit sharing contributions. For the years ended December 31, 2015 and 2014, the Company contributed 50% of participants' contributions up to a maximum of \$2,000. No profit sharing contributions were made for the years ended December 31, 2015 or 2014.

Participant accounts

Each participant's account is credited with the participant's contribution and the Company's contribution, as well as allocations of Plan earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

YEARS ENDED DECEMBER 31, 2015 AND 2014

1. Description of Plan (continued)

Notes receivable from participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. The loans are secured by the vested balances in the participants' accounts and bear interest at 4.25%, which is commensurate with local prevailing rates as determined periodically by the Plan administrator. Principal and interest is paid ratably through regular payroll deductions.

Payment of benefits

Benefits equal to the vested value of participants' accounts are payable upon retirement, termination, permanent disability or death. Partial or full withdrawal of participants' account balances is also available under certain circumstances as described in the Plan agreement. Dependent on the circumstances, participants may be able to elect lump sum or installment payments.

Forfeited accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled approximately \$-0- and \$6,000. Forfeitures may be used to pay Plan administrative expenses or may be used to reduce future employer contributions. In 2014, employer contributions were reduced by \$6,107 from forfeited nonvested accounts.

2. Summary of significant accounting policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant loans are recorded as distributions based on the terms of the Plan agreement.

YEARS ENDED DECEMBER 31, 2015 AND 2014

2. Summary of significant accounting policies (continued)

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowable by the Internal Revenue Service ("IRS") are recorded as a reduction to participant contributions. The amount totaled \$18,545 and was distributed from the GPI Plan assets to the applicable participants prior to March 15, 2016.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Reclassifications

Certain 2014 balances have been reclassified in order to conform to the 2015 presentation.

Subsequent events

The Plan has evaluated subsequent events through September 16, 2016, which is the date these financial statements were available to be issued. Events, if any, are disclosed within the notes to these financial statements.

3. Certified Plan assets

The financial information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, net appreciation (depreciation) in fair value of investments, and interest for the years ended December 31, 2015 and 2014, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by John Hancock Life Insurance Company (U.S.A.) ("John Hancock"), in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	2015	2014
Lifestyle Balanced	\$	1,224,364
Growth Index Fund		310,205
Lifestyle Growth		977,143
Lifestyle Moderate		271,995

During 2015 and 2014, the Plan's pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by (\$34,694) and \$266,748.

YEARS ENDED DECEMBER 31, 2015 AND 2014

4. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2015 and 2014:

Pooled separate accounts: Valued at net asset value ("NAV") of units held based on the values of the underlying securities. The NAV, as provided by John Hancock, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying securities held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. At December 31, 2015 and 2014, there were no unfunded commitments, and underlying holdings could be liquidated or redeemed daily.

Guaranteed interest account: Guaranteed interest accounts are valued at fair value by John Hancock by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 5). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. For the years ended December 31, 2015 and 2014, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

5. Guaranteed interest account

Contributions to the John Hancock USA Guaranteed Interest Account are held in a general account of John Hancock. The account guarantees the return of principal plus compounded interest earned over a three-year term, less any applicable fees, provided all contributions remain in the account until the end of the guaranteed period. The methodology for calculating the interest rate is based on current market conditions and the interest crediting rate is reset annually. Participants may direct the withdrawal or transfer of all or a portion of their investments at any time during the guaranteed period at contract value. However, under certain circumstances, the Plan's ability to transact at contract value may be limited; therefore, the contract is not considered fully benefit-responsive.

As of December 31, 2014, the fair value of the guaranteed investment contract held by the Plan approximated contract value.

The average yield and crediting interest rate was approximately 0.33% and 0.24% in 2015 and 2014.

6. Party-in-interest transactions

Certain Plan investments are units of pooled separate accounts managed by John Hancock. These transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing rather than a direct payment. Fees paid by the Plan for the investment management services that were not paid through revenue sharing amounted to \$700 for the years ended December 31, 2015 and 2014. The Plan Sponsor pays directly any other fees related to the Plan's operations.

7. Plan termination

The Plan merged into the GPI Plan effective December 31, 2015 and the GPI Plan is the surviving plan. GPI has the right to terminate the GPI Plan at any time subject to the provisions of ERISA. In the event of plan termination, the participants would become 100% vested in their employer contributions, if any.

8. Tax status

The Plan operates under a volume submitter plan. The volume submitter plan is designed to be qualified and exempt from income taxes under Sections 401(a), 401(k) and 501(a) of the IRC. The volume submitter plan obtained its latest opinion letter on July 7, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain tax position that, more likely than not, would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is generally no longer subject to income tax examinations for years prior to 2012.

9. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 to Form 5500:

	2014
Net assets available for benefits per the financial statements	\$ 5,477,484
Forfeited contributions retained in the Plan	6,107
Net assets available for benefits per Form 5500	\$ 5,483,591

The following is a reconciliation of change in net assets per the financial statements for the years ended December 31, 2014 to Form 5500:

	2014
