The Plan is a contributory defined contribution plan covering substantially all employees of Independent Printing Company, Inc. (the Company) who are age 18 or older. Employees can participate in the 401(k) portion of the Plan after 1 month of service. To be eligible for Company contributions, participants must complete 12 months of service with one thousand or more hours in the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In August of 2015, the Company purchased PrimaGraphics, a printer of traditional business forms, integrated cards and labels. In connection with the acquisition, the PrimaGraphics 401(k) plan merged into the Plan on December 30, 2015.

B. Contributions

Each year, participants may contribute up to 85% of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company contributes 50% of the first 2% of base compensation that a participant contributes to the Plan. During 2015, the Company contributed $90,779. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. During 2015, the company did not make a discretionary contribution to the plan. Contributions are subject to certain IRS limitations.

C. Participant accounts

Each participant's account is credited with the participant's contributions and an allocation of the Company's contribution and plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

One segregated account existed as of December 31, 2015 and 2014.

D. Vesting

Participants are immediately vested in their rollover and voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Note 1 - Plan description, continued

E. Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms generally range from one to five years or up to fifteen years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at the market rate as determined at the time of the loan by the plan administrator. Principal and interest is paid ratably through payroll deductions.

F. Payment of benefits

On termination of service, a participant may elect to receive either a lump sum amount equal to the value of his or her account or monthly, quarterly or annual installments over the life expectancy of the participant and his or her beneficiary.

G. Administration

Independent Printing Company, Inc. is the administrator of the Plan and has appointed Associated Trust Company, N.A. (Associated) as trustee and custodian. The trustee is responsible for investing and safekeeping all assets of the Plan. Costs of administering the plan are paid by the Plan or the Company.

Note 2 - Significant accounting policies

A. Accounting method

The Plan's financial statements are prepared on the accrual basis of accounting.

B. Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend dates. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

C. Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Significant accounting policies, continued

D. Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant to be in default, the participant loan balance is reduced and a benefit payment is recorded.

E. Payment of benefits

Benefits are recorded when paid.

F. Change in accounting principles

In May 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy and certain related disclosures. This ASU requires presentation of the carrying amount of investments measured at the NAV practical expedient as a reconciling item between the total amount of investments categorized within the fair value hierarchy and total investments measured at fair value on the face of the financial statements. The guidance requires retrospective application and is effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard and the amendment was retrospectively applied.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of the month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively and Part III prospectively. Management elected to early adopt Part II of this new standard and the amendments were retrospectively applied. Parts I and III are not applicable to the Plan.

Note 2 - Significant accounting policies, continued

G. Subsequent events

The Company has evaluated events and transactions for potential recognition or disclosure in the financial statements through September 12, 2016 the date on which the financial statements were available to be issued.

Note 3 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 - Fair value measurements, continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair market value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Participant-directed brokerage accounts: Invested in common stocks which are valued at the closing price reported on the active market on which the individual securities are traded as well as a money market fund which is valued at $1 NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with the other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total

Total assets at fair value	$ 18,678,531	$ -	$ -	$ 19,480,005

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	Fair Value at December 31, 2015	2014	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common collective trust funds:					
Money market fund	$ 814,971	$ 668,611	N/A	Daily	Daily
Bond	61,550	132,863	N/A	Daily	One Day, Unless NAV Falls Below $1

Note 5 - Tax status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Note 6 - Information provided by trustee

Associated Trust Company, N.A. the trustee, has reported and certified as to the completeness and accuracy of the investment information for purposes of preparing the financial statements and supplemental schedule related, thereto. This information includes investments and notes receivable from participants held at December 31, 2015 and 2014 and net depreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants for the year ended December 31, 2015.

In accordance with the procedures stated in 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the trustee. The plan administrator, therefore, has instructed the independent public accountants to exclude the information certified by the trustee from the scope of their audits.

Note 7 - Reconciliation to Form 5500

Differences between these financial statements and information combined in Schedule H, items I and II of Form 5500 were identified and are due to different classifications among various detail accounts. In total, these balances are in agreement.

Note 8 - Related party transactions

Certain Plan investments are shares of common trust funds managed by Associated. Associated is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to the trustee for investment management and trust services amounted to $67,598 for the year ended December 31, 2015.

Certain employees and officers of the Plan sponsor, who are also participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
