Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Morey Corporation 401(k) Profit-Sharing Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2015 and 2014 and the related statement of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information summarized in Note 3, which was certified by Voya Retirement Insurance and Annuity Company (the Insurance Company), except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Insurance Company holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Insurance Company as of and for the years ended December 31, 2015 and 2014, that the information provided to the Plan Administrator by the Insurance Company is complete and accurate.

THE MOREY CORPORATION
401(k) PROFIT-SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of The Morey Corporation 401(k) Profit-Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General:

The Plan is a defined-contribution plan maintained on a calendar year basis.

Any employee of The Morey Corporation (the Company) who is a citizen or resident of the United States of America, has attained 18 years of age, has completed three months of service and works a minimum of 83 hours per month is eligible to participate. Eligible employees can enter the Plan quarterly, following the date eligibility requirements are met.

Effective July 1, 2014, the service requirement was changed to one month of service and a minimum of 83 hours to participate. Additionally, effective July 1, 2014, eligible employees can enter the Plan as of the first of the month, following the date eligibility requirements are met.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Contributions to the Plan may include employee deferral contributions, employee rollover contributions, employer matching contributions and employer discretionary profit-sharing contributions.

The employer discretionary contributions are allocated to each participant's account based upon permitted disparity (Social Security integration) rules. This provision allows additional contributions to be made for participants earning greater than the Social Security taxable wage base. Such additional contributions are designed to offset the lower contributions made to Social Security on behalf of affected employees. Contributions are limited to an amount equal to the maximum amount deductible by the Company for purposes of federal income taxes.

1. Description of the Plan (continued)

Contributions: (continued)

The employer matching contribution percentage for a Plan year is discretionary and is determined in December of the previous year. The Company contributes an amount equal to 100% of each eligible employee's deferrals up to 3% of compensation; an amount equal to 50% of each eligible employee's deferrals on the next 1% of compensation; and an amount equal to 25% of each eligible employee's deferrals on the next 2% of compensation contributed. Maximum employer matching contribution is 4% of each eligible employee's compensation.

Employee deferral contributions cannot be less than 2% or more than 93% of the participant's earnings for the year. For allocation purposes, a participant's earnings consist of total cash compensation including overtime pay and excluding bonuses and commissions in a Plan year. Deferral contributions by a participant cannot exceed $18,000 for 2015 and $17,500 for 2014. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Total contributions, after catch-up contributions, cannot exceed $24,000 for 2015 and $23,000 for 2014.

Total contributions per participant are limited under present Internal Revenue Code (the Code) sections to the lesser of $53,000 for 2015 and $52,000 for 2014 or 100% of compensation.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and may be charged with an allocation of administrative expenses. Allocations are based on the participant's earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants self-direct their contributions and their share of the Company's contribution among various investment options offered by the Plan.

Vesting:

Participants are always 100% vested in their employee deferral contributions, employee rollover contributions and earnings thereon. Participants are also fully vested if their employment with the Company terminates after age of 59-1/2 with five years of service while a participant or for reasons due to death or disability.

1. Description of the Plan (continued)

Vesting: (continued)

Participants vest in their employer matching contributions and their profit-sharing accounts (allocations of the employer discretionary contributions) and earnings thereon in accordance with the following table:

Completed years of service	Percentage of account balance vested
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Participant loans:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participants' accounts and bear interest at the Prime rate (3.50% and 3.25% as of December 31, 2015 and 2014, respectively) plus 1%. Principal and interest is paid ratably through payroll deductions.

Payment of benefits:

Benefit payments are generally paid in a lump-sum as soon as practicable after employment with the Company has ended. Participants who are not 5% owners may elect to defer commencement of distributions until the later of April 1st of the calendar year following the calendar year in which the participant attains the age of 70-1/2 or April 1st of the calendar year following the calendar year in which the participant retires. Participants who terminate employment with account balances greater than $5,000 may elect to leave their account balances in the Plan. Until such time as the funds are distributed, the participant is entitled to receive a pro-rata share of fund earnings. Benefits may also be paid directly to an eligible retirement plan as an eligible rollover distribution.

1. Description of the Plan (continued)

Forfeited accounts:

At December 31, 2015 and 2014, forfeited nonvested accounts totaled $24,272 and $64,455, respectively. These accounts will be used to pay administrative expenses and to reduce future employer contributions. The amounts used from forfeited nonvested accounts to pay administrative expenses were $7,820 and $8,171 for 2015 and 2014, respectively. Additionally, $99,489 and $-0- were used from forfeited nonvested accounts to reduce employer contributions for the years ended December 31, 2015 and 2014, respectively.

2. Summary of significant accounting policies

Significant accounting policies are described below and have been consistently applied.

Basis of accounting:

The accompanying financial statements are prepared on the accrual basis of accounting.

Early adoption of accounting standards:

During the year ended December 31, 2015, management has elected to early adopt FASB ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures and (III) Measurement Date Practical Expedients (a consensus of the FASB Emerging Issues Task Force).*

The ASU removes the requirement that the Plan report individual investments that exceed 5% of net assets available for benefits. In addition, disaggregation of net appreciation and depreciation by general type is no longer required, but only required to be presented in the aggregate. Also, investments are no longer required to be disclosed by nature, characteristic and risk, but only required to be disclosed by general type. Finally, disclosure of the investment strategy is no longer required for investments that are recorded at fair value using the Net Asset Value practical expedient as permitted by ASC 820-10 and that are in a fund that directly files Form 5500 with the U.S. Department of Labor. This ASU was required to be adopted retrospectively. There was no effect on net assets available for benefits and changes in net assets available for benefits.

2. Summary of significant accounting policies (continued)

Early adoption of accounting standards: (continued)

During the year ended December 31, 2015, management has elected to early adopt FASB ASU 2015-07, *Fair Value Measurement (Topic 820); Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. Investments measured at fair value using the net asset value per share practical expedient are no longer required to be categorized within the fair value hierarchy. This ASU was required to be adopted retrospectively. There was no effect on net assets available for benefits and changes in net assets available for benefits.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

Notes receivable from participants:

As described in Note 1, the Plan allows participants to borrow against their vested account balance and the loans are secured by the participants' account balances. Participant loans are valued at their unpaid principal balance plus any accrued but unpaid interest. The Plan is required to review the collectibility of the outstanding loan balances and record an allowance for loans considered to be uncollectible. As of December 31, 2015 and 2014, no allowance for uncollectible loans was necessary.

2. Summary of significant accounting policies (continued)

Administrative expenses:

All administrative costs, charges and expenses are paid by the Plan to the extent not paid by the Company.

Expense offset arrangements:

Fees incurred by the Plan for the investment management services and recordkeeping are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Accordingly, actual results could differ from those estimates.

3. Investments (information prepared and certified by the Insurance Company)

The following information included in these financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Voya Retirement Insurance and Annuity Company (the Insurance Company) as of December 31, 2015 and 2014.

December 31,	**2015**	2014
Investments at fair value:		
Pooled separate accounts	**$ 19,191,446**	$ 19,346,108
Insurance company general account	**5,415,416**	4,591,424
Total investments at fair value	**$ 24,606,862**	$ 23,937,532

The Insurance Company also certified to the completeness and accuracy of the interest and dividends and net appreciation in fair value of investments.

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Insurance Company of the Plan has certified to the completeness and accuracy of investments included in net assets available for benefits as of December 31, 2015 and 2014, the schedule of assets (held at end of year) as of December 31, 2015 and related investment activity reflected in the statement of changes in net assets available for benefits for the years ended December 31, 2015 and 2014.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4. Fair value measurements

Financial Accounting Standards Board Accounting Standards Codification 820 (FASB ASC 820) *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs that are unobservable inputs for the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair value measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts:	Valued at the net asset value (NAV) of shares held by the Plan at year-end.
Insurance company general account:	Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. The fair value amount is equal to contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes that the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

December 31, 2015	Level 2	Total
Insurance company general account	**$ 5,415,416**	**$ 5,415,416**
		5,415,416
Pooled separate accounts measured at NAV*		**19,191,446**
Total investments at fair value		**$ 24,606,862**

4. Fair value measurements (continued)

December 31, 2014	Level 2	Total
Insurance company general account	$ 4,591,424	$ 4,591,424
		4,591,424
Pooled separate accounts measured at NAV*		19,346,108
Total investments at fair value		$ 23,937,532

*In accordance with Subtopic 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

The Plan had $19,191,446 and $19,346,108 of investments in participation units held in pooled separate accounts through sub-accounts of the Insurance Company at December 31, 2015 and 2014, respectively. The net asset value is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The underlying securities in pooled separate accounts are listed on national securities exchanges and valued on the basis of year-end closing prices. The Plan has concluded that the net asset value as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the Insurance Company approximates fair value of the investments. The investments are redeemable at the adjusted net asset value under agreements with the Insurance Company.

It is possible that the redemption rights may be restricted or eliminated in the future. Due to the nature of the investments, changes in market conditions, liquidity requirements and the economic environment may significantly affect the net asset value of the pooled separate accounts and, consequently, the fair value of the Plan's investments.

4. Fair value measurements (continued)

The following table summarizes investments for which fair value is measured using the asset value per share practical expedient as of December 31, 2015 and 2014:

Investment	2015	2014	Unfunded commitment	Redemption frequency	Redemption notice period
Pooled separate accounts	$ **19,191,446**	$ 19,346,108	N/A	Daily	None

5. Party-in-interest transactions

Some of the Plan investments are shares of mutual funds managed by the Insurance Company and, therefore, these transactions qualify as party-in-interest transactions.

6. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in all of their account balances.

7. Tax status

The Internal Revenue Service has determined and informed the Company by a favorable determination letter dated July 19, 1995, that the Plan is designed in accordance with applicable sections of the Code. The Plan has been amended since then and an opinion letter dated March 31, 2014, has been received applicable to the EGTRRA plan restatement and amendments. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

8. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Subsequent events

Effective January 1, 2016, the employer matching contribution was suspended.

The Plan Administrator has reviewed and evaluated subsequent events from December 31, 2015, the financial statement date, through September 26, 2016, the date the financial statements were available to be issued. Except as noted above, no events have occurred in this period that would be required to be recognized and/or disclosed in these financial statements as required by generally accepted accounting principles.
