JUPITER I, L.L.C. 401(K) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Jupiter I, L.L.C. 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established March 1, 1989 and restated on January 1, 2014. The Plan is available to employees age 21 or older who have completed one month of service. Once eligible, employees may enter the Plan in the following payroll period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Jupiter I, L.L.C. (the "Company") administers the Plan. Principal Life Insurance Company ("Principal") serves as custodian, manages the Plan's investments, and maintains the Plan's records. The Plan offers participants a variety of investment options. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Participants may make before-tax contributions up to 100% of their annual compensation, which are subject to annual limitations by the IRS. Additional catch-up contributions are available to any participant who is age 50 or older and has made the maximum contribution for the year. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions.

Employees are eligible to contribute on an after-tax basis, through regular payroll deductions, a percentage subject to an annual limit of the lesser of 100% of eligible compensation or the annual IRS limitations in a calendar year as Roth 401(k) contributions. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

The Company makes wage rate contributions equal to the fringe benefit amount determined in accordance with the prevailing rate schedule for each employee reduced by contributions made to other plans that count towards satisfying the fringe rate stated in the prevailing wage schedule.

The Company makes an employer matching contribution of 50% of employee deferrals on the first 3% of a participant's eligible compensation for each payroll period.

The Plan has a discretionary employer matching contribution provision. Participants who were active during the Plan year are eligible to receive the discretionary employer contribution, if such contribution is made. No discretionary contributions were made for the year ended December 31, 2015.

JUPITER I, L.L.C. 401(K) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution; rollover contributions; the Company's contributions; and an allocation of Plan earnings or losses thereon, administrative expenses, and forfeitures. Allocations are based upon Plan earnings or losses, Plan expenses after losses and before forfeitures, and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions and allocated earnings or losses thereon.

Any employer matching and discretionary employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

<u>Years of Service</u>	<u>Vested Interest</u>
Less than 1	0%
1 or more	100%

A participant's account becomes 100% vested upon death, permanent disability, attaining normal retirement age (65), or if the Plan is terminated.

Participant Loans

Participants may borrow from their accounts a minimum of \$500 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances and may have only one loan outstanding at a time. The loans are secured by the participants' vested accounts and bear interest at the prevailing interest rate at the date of loan origination. Principal and interest are paid ratably through regular payroll deductions over a period not to exceed five years. Loans used to acquire real estate that serves as the participant's primary residence may be paid over a term consistent with commercial home loan practices. Interest rates on loans outstanding at December 31, 2015 were 5.25% to 5.50% per annum, and maturity dates ranged from January 2016 through November 2020. Participant loans are recorded in the financial statements at amortized cost plus accrued interest.

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Payments of Benefits

Upon death, disability, attaining normal retirement age, or termination of service, a participant may elect to receive a lump-sum payment in the amount equal to the participant's vested account balance within a reasonable period of time after termination of employment. Vested account balances less than \$1,000 will be automatically distributed upon termination. For terminated participants with vested balances greater than \$1,000 but less than \$5,000, if an election to distribute benefits is not made within 60 days following their termination date, their vested balance will be rolled into an individual retirement account with Principal. Participants may not make withdrawals from their accounts prior to retirement at age 65 without incurring penalties, except in the event of disability, death, or termination of employment, subject to certain restrictions. Participants may also make certain voluntary in-service withdrawals after age 59½ as well as certain withdrawals for amounts not to exceed the balance in their elective deferral contributions account, subject to certain penalties, to satisfy one of the immediate and heavy financial needs as described in the Plan document. Benefits are recorded to participants when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion of the participant's account shall be forfeited but may be restored if the participant is rehired prior to incurring five consecutive one-year breaks in service and elects to repay the previously distributed amount. Forfeitures shall be applied first to pay Plan expenses and second to reduce future employer matching contributions. During the year ended December 31, 2015, \$10,037 of forfeitures were used to offset employer matching contributions. The balance in the forfeiture account at December 31, 2015 and 2014 was \$155 and \$0, respectively.

Valuation of Investments and Income Recognition

The Plan's investments in mutual funds, pooled separate accounts, and the unallocated insurance contract are recorded at fair value as reported by the custodian. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 3).

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased during the year) and selling price (or year-end fair value). Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

JUPITER I, L.L.C. 401(K) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments in mutual funds, pooled separate accounts, and an unallocated insurance contract. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies.

During the year ended December 31, 2015, four investments accounted for 96% of investment income. At December 31, 2015 and 2014, three and two investments accounted for 31% and 26% of total investments at fair value, respectively.

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting.

JUPITER I, L.L.C. 401(K) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. The amendment applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 15, 2015. Entities should apply the amendment in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practical expedient, upon adoption of ASU No. 2015-07, the fair value of these Plan assets will be removed from the fair value hierarchy in all periods presented in the Plan's financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part I - Fully Benefit-Responsive Investment Contracts, Part II - Plan Investment Disclosures, and Part III - Measurement Date Practical Expedient*. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive contracts. Part II eliminates the current GAAP requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

JUPITER I, L.L.C. 401(K) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements (continued)

Currently under FASB Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and, under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendment in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end. The Plan elected to early adopt Parts I and II of this standard update for the year ended December 31, 2015 and adjusted the financial statement disclosures for all periods presented.

The adoption of these new accounting pronouncements did not have a material impact on the Plan's financial statements.

Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Assets Certified by Principal

Principal has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant loans at amortized cost as of December 31, 2015 and 2014, and the related income earned for the year ended December 31, 2015, as reflected in the accompanying financial statements and supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by Principal as of December 31, 2015 and 2014, and for the year ended December 31, 2015, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

JUPITER I, L.L.C. 401(K) PLAN

Notes to Financial Statements

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following table reflects the investments of the Plan that are measured and carried at fair value on a recurring basis as of December 31, 2015:

Note 3 - Fair Value Accounting (continued)

The valuation technique used to measure fair value of the mutual funds is based upon quoted market prices.

The valuation technique used to measure the fair value of the pooled separate accounts is based upon the publicly quoted pricing input, which is used in determining the NAV of the pooled separate accounts. The value of each pooled separate account is determined at the close of each business day based on fair value of the underlying assets, which can consist of a single mutual fund or multiple securities. The value of the account is expressed in units or NAV ("unit value"), which is a practical expedient for the fair value of the investment. The unit value is the dollar value of one unit and is determined at the close of each business day by dividing the fair value of the entire account by the total number of units in the account. Contributions to the account increase the number of units. Withdrawals from the account decrease the number of units. The increase or decrease in number of units is determined by dividing the amount of the contribution or withdrawal by the unit value for the day the transaction is made. The value of the participant's account on any day is determined by multiplying the number of units held by the unit value at the close of the business day.

The valuation technique used to measure fair value of the unallocated insurance contract is determined by Principal based on the amounts participants would receive if they were to withdraw or transfer funds prior to their maturity, market rates and current crediting rates, and contractual agreements with Principal. The fair value of the unallocated insurance contract represents contract value, adjusted to reflect current market interest rates only, to the extent such market rates exceed crediting interest rates. Principal maintains the contributions in a general account that is credited with earnings and charged for withdrawals and administrative expenses.

There were no changes to the valuation techniques used during the period.

Notes to Financial Statements

Note 4 - Income Taxes

On July 8, 2015, the IRS issued the Plan a favorable determination letter indicating that the plan document adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is designed and is being operated in accordance with the applicable rules and regulations and is, therefore, exempt from federal income taxes under the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiaries.

Note 7 - Party-in-Interest and Related Party Transactions

Certain Plan investments are pooled separate accounts and an unallocated insurance contract managed by Principal. Principal is the custodian, as defined by the Plan. In addition, the Plan provides for participant loans. These transactions qualify as party-in-interest and are exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

The following is a reconciliation of the net decrease in net assets available for benefits per the financial statements for the year ended December 31, 2015 to Form 5500:

Net decrease per the financial statements	\$ (119,918)
Less corrective distributions payable at December 31, 2014	<u>(3,043)</u>
Total net decrease per the Form 5500	<u><u>\$ (122,961)</u></u>
