401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note A - Description of Plan:

The following description of the Half Price Books 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Half Price Books, Records, Magazines, Incorporated ("Company") who have six months of service and have attained the age of eighteen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to 75% of annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The employer safe harbor matching contribution is equal to 100% of each participant's contribution to the extent that the participant's contribution does not exceed 5% of the compensation, as determined each Plan year. Participants direct the investment of the employer safe harbor matching contribution into various investment options offered by the Plan.

Each year the employer discretionary contribution, if any, is an amount determined and authorized by the Company's board of directors. Participants direct the investment of their allocated Company contribution into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses not paid by the Company, if any. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and in the employer safe harbor matching contributions, plus actual earnings thereon.

Notes receivable from participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The interest rate on the loans is the prime rate plus 1%. The loans provide for periodic repayment over a reasonable period of time.

Payment of benefits

On termination of service, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in their account.

Forfeited accounts

At December 31, 2015 and 2014, forfeited nonvested accounts approximated $43,000 and $44,000, respectively. These accounts may be used to reduce future employer contributions and Plan administrative expenses. During calendar year 2015 and 2014, employer contributions were reduced by approximately $31,000 and $111,000, respectively, from forfeited nonvested accounts.

NOTES TO FINANCIAL STATEMENTS

Note B - Summary of significant accounting policies:

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2015 and 2014, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment valuation and income recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Although not obligated to, the Company pays substantially all administrative expenses of the Plan, excluding in-service withdrawal, distribution and loan fees, and charges to accounts of terminated participants.

NOTES TO FINANCIAL STATEMENTS

Note B - Summary of significant accounting policies (continued):

Change in accounting principle

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts ("FBRICs"), (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirement to measure and disclose the fair value of fully benefit-responsive contracts. Under the ASU, contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Part III is not applicable to the plan. The ASU is effective for fiscal years beginning after December 15, 2015, with the early adoption permitted, to be applied retrospectively. Management has elected to early adopt the ASU for the 2015 financial statements and apply it retrospectively to the 2014 financial statements.

As part of adopting the new ASU, the common/collective trust balance previously presented by the Plan at contract value is now presented by the Plan at fair value. This change has no effect on the total net assets available for benefits as previously reported on the 2014 statement of net assets available for benefits.

Date of management's review

Subsequent events were evaluated through September 20, 2016, the date the financial statements were available to be issued.

HALF PRICE BOOKS
401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note D - Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). Level 2 measurements include quoted prices for similar assets in active or inactive markets, inputs other than quoted prices that are observable for the asset, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the quoted market price available on an active market.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

		Fair value measurement at reporting date using:		
	Fair value	Quoted prices in active markets for identical assets (level 1)	Significant other observable inputs (level 2)	Significant unobservable inputs (level 3)
December 31, 2015				
Mutual funds	$ 51,060,205	$ 51,060,205	$ -	$ -
Total investments at fair value	$ 51,060,205	$ 51,060,205	$ -	$ -
December 31, 2014				
Total investments at fair value	$ 50,825,267	$ 50,825,267	$ -	$ -
	$ 50,825,267	$ 50,825,267	$ -	$ -

For the years ended December 31, 2015 and 2014, there were no significant transfers between levels 1 and 2 and no transfers into or out of level 3.

HALF PRICE BOOKS
401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note E - Related party transactions:

Plan investments are managed by CSTC. CSTC is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments. Fees paid by the Plan to Milliman, Inc. for record keeper services amounted to $53,091 and $52,359 for the years ended December 31, 2015 and 2014, respectively. Milliman, Inc. is the Plan's record keeper, as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note F - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note G - Tax status:

The Internal Revenue Service has determined and informed the Company by a letter dated February 27, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Note H - Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
