The Plan Administrator controls and manages the operation and administration of the Plan. Capital Bank and Trust Company serves as the Trustee of the Plan.

a. General - The Plan, which was adopted on January 1, 1995 and restated July 1, 2013, is a defined contribution plan, covering employees of Rallye Motors, LLC and its affiliates. All employees of the Company who are age twenty or older and have three months of service are eligible to participate in the Plan as of the first day of the plan year quarter following their meeting eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Certain employees of the Company administrate the Plan.

b. Employee contributions - Each year, participants may voluntarily contribute, by salary reduction, from 2% up to 40% of pretax annual compensation, as defined by the Plan, to the maximum amount allowable under the Internal Revenue Code.

c. Employer contributions - The Company may contribute additional amounts to the Plan at its discretion, which are allocated based upon participant earnings or account balances, as defined. No such additional contributions were made during the years ending December 31, 2015 and 2014.

d. Participant accounts - Each participant account is credited with the participant’s contributions, any rollover contributions and an allocation of the Company’s matching and discretionary contribution, if any. In addition, each participant account is credited (charged) with its proportionate share of each fund’s investment earnings and other income (losses). Allocations, other than participants’ contributions, are based on participant compensation, as defined by the Plan agreement.

e. Vesting - Participants are immediately vested in their contributions plus actual earnings less losses thereon. Any employer optional contributions plus actual earnings less losses thereon vest after the first two years of service at the rate of 20% for each year of service up to the sixth year. Forfeitures of employer contributions may be used to reduce the amount of contributions to the Plan by the Company.

f. Investment options - The Plan provides for contributions to be invested in any of twenty mutual funds and one stable value fund as directed by the participants.

1. Description of the Plan (continued)

g. Notes receivable from participants - The Plan allows participants to borrow against their vested account balance at a reasonable rate of interest with a repayment period not to exceed five years. Such notes are limited to the lesser of $50,000 or 50% of their account balance. Principal and interest is paid ratably through payroll deductions. Repayment of the entire balance is permitted at any time. Interest rates range from 4.25% to 10.00%. Outstanding notes at December 31, 2015 and 2014 were $678,455 and $709,053 respectively.

h. Distribution of benefits - A participant is entitled to receive a distribution of his or her vested interest in the Plan upon termination of employment, retirement, in the event he/she becomes disabled or in the event of financial hardship as defined by the Plan. The beneficiary or beneficiaries of a participant are entitled to receive a lump sum distribution of the participant's interest in the Plan upon the death of such participant.

i. Forfeited accounts- At December 31, 2015 and 2014 forfeited accounts totaled $10,140 and $9,407, respectively. These accounts may be used to reduce any future employer contributions.

2. Summary of significant accounting policies

a. Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

b. Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

c. Investment valuation and income recognition - The Plan's investments in all the investment options, except the Reliance Trust Company MetLife Group Annuity Contract No. 25157 which is a stable value fund (the Contract) issued by MetLife, Inc. (MetLife), are stated at fair value based on the quoted market prices of the underlying securities within each fund as of December 31, 2015 and 2014. The Contract is a guaranteed investment contract. The Statements of Net Assets Available for Plan Benefits presents the Contract at fair value in accordance with ASC 962, *Plan Accounting-Defined Contribution Pension Plans*. Since the Contract is fully benefit-responsive, a line item is presented in the Statement of Net Assets Available for Plan Benefits reporting an adjustment from

2. Summary of significant accounting policies (continued)

fair value to contract value. The fair value of the Contract is determined by MetLife based on quoted market prices of the underlying investments owned by MetLife.

Sales and purchases of securities are recorded on a trade date basis. Interest income is accrued when earned. Dividends are posted to the participant's account on the day that the dividend is payable. Accrued dividends are allocated to each participant's account on the last day of the month and are based on a daily allocation rate. The Plan presents, in the Statements of Changes in Net Assets Available for Plan Benefits, investment income which includes the net appreciation (depreciation) in fair value of its investments, which consist of the realized gains or losses, unrealized appreciation (depreciation) on investments and interest and dividend income.

d. Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expense and are charged to the borrower's participant account. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

e. Payment of benefits - Benefits are recorded when paid.

f. Risks and uncertainties - The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate changes, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that, such changes could materially affect the amounts reported in the Statements of Net Assets Available for Plan Benefits.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the Plan, which could impact the value of the investments after the date of these financial statements.

g. Administrative expenses - All costs other than investment advisory fees and loan service fees are paid by the Company.

3. Information certified by Trustee

The information related to investments and notes receivable from participants (other than the Contract) disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net (depreciation) appreciation in fair value of investments, and dividends and interest for the years ended December 31, 2015 and 2014, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Capital Bank and Trust Company (the Trustee). The contract value of the Contract was certified by the Trustee, the fair value of the Contract and the related adjustment from fair value to contract value for the fully benefit-responsive investment contract were not certified by the Trustee.

4. Fair value measurements

The Plan reports investments in accordance with ASC 820, *Fair Value Measurements* that establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

(continued)

4. Fair value measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 or 2014.

Mutual Funds: Valued at quoted market values.

Stable Value Fund: The fair value of the Contract is based on quoted market prices of the underlying investments owned by MetLife and the fair value of a MetLife guarantee presented as a wrapper that represents less than 1% of the value of the Contract (see note 2 c).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at fair value as of December 31, 2015

Level 3 gains and losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2015**:**

	Stable Value Fund
Balance at beginning of year	$ 3,283,331
Realized gains and interest	65,626
Unrealized (losses) relating to instruments still held at the reporting date	(98,965)
Purchases, sales, issuances and settlements, (net)	(366,263)
Balance at end of year	$ 2,883,729
The amount of total gains (losses) for the period included in net assets attributable to the change in unrealized gains or (losses) relating to assets still held at the reporting date.	$ (98,965)

Unrealized gains/(losses) from the Contract are not included in the Statement of Changes in Net Assets Available for Plan Benefits as the Contract is recorded at contract value for purposes of net assets available for plan benefits.

The fair value of the Contract is determined using Level 2 inputs. The fair value of the investments is the Contract's pro-rata share of the fair value of the securities in the underlying separate accounts

(continued)

4. Fair value measurements (continued)

in which the Contract participates. The fair value of the Contract wrapper, which is a securities purchase agreement that provides a minimum guaranteed rate of return, is classified as Level 3. The fair value of the wrapper is determined by the discounted revenue method, being 20 basis points of the guaranteed value over five years discounted by the LIBOR swap curve. The inputs used for valuing the Contract assets are not necessarily an indication of the risk associated with these investments.

5. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts. Each participant in the employ of the Company at the date of termination shall be entitled to a pro-rata share of any unallocated funds in the Trustee's possession under the Plan.

6. Federal income taxes

The Internal Revenue Service (IRS) has determined and informed the Plan by letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related Trust is exempt from income tax.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The IRS has examined the Plan's tax returns for the years ended December 31, 2010 through December 31, 2012 and has accepted the returns as filed, however the Company was required to make a non-elective contribution of $15,766 to the Plan in 2014. The Plan Administrator believes it is no longer subject to income tax for years prior to 2013.

7. Investments

The Plan's investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2015 and 2014 are as follows:

	2015	2014

During the years ended December 31, 2015 and 2014, the Plan’s investments including gains and (losses) on investments bought and sold, as well as held during the year (depreciated) appreciated in value as follows:

	2015	2014

Stable Value Fund	(98,965)	65,841
Total	$ (1,816,538)	$ 125,359

8. Related-party transactions and party in interest transactions

Certain Plan investments are managed by Capital Bank and Trust Company, the Trustee for the Plan, and therefore these transactions qualify as party in interest transactions.

9. Subsequent events

Management has evaluated the impact of all subsequent events on the Plan through September 26, 2016, the date the financial statements are available to be issued. Management has determined that there are no material subsequent events that would require disclosure in or adjustments to the Plan’s financial statements.
