Notes to Financial Statements

Note 1: Description of Plan

The following description of the KnowledgePoint360 Group 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan, sponsored by KnowledgePoint360 Group, LLC (the "Company"), is a defined contribution plan covering substantially all employees of the Company upon attaining age 21. Employees who are union employees, nonresident aliens, and leased employees are not eligible to participate in the Plan. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Effective April 1, 2015, the Plan was amended and restated to bring the Plan in compliance with the Pension Protection Act of 2006 ("PPA") and other legislative and regulatory changes, specifically the 6-year pre-approved plan restatement for volume submitter plans.

On July 10, 2015, a portion of the Plan was spun off into the Physicians World 401(k) Plan. As a result, plan assets of \$2,894,234 were transferred out of the Plan.

Contributions

The Plan allows each participant to contribute up to 90% of the participant's annual compensation to the Plan. Participants are able to make either pre-tax or Roth contributions to the Plan, however, a participant's total deferrals in any taxable year may not exceed a dollar limit which is set by law. The Plan includes a matching contribution, which is currently equal to 100% of each participant's salary deferrals (not to exceed 4% of compensation). A discretionary profit sharing contribution determined by the employer can be made; the Company did not elect to make any profit sharing contribution for 2015.

Participant Accounts

Each participant's account is credited with the participant's contributions, discretionary Company matching contributions, and allocations of the Company's profit sharing contribution and plan earnings (losses). Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and any rollover contributions plus actual earnings thereon. Vesting in Company contributions plus actual earnings thereon is based on years of credited service. A participant is 100% vested, under a graduated vesting schedule, after four years of credited service or upon Normal Retirement Age, as defined. Upon the death or disability before the participant's retirement age or termination date, the participant will be 100% vested.

KnowledgePoint360 Group 401(k) Plan

Notes to Financial Statements

Note 1: Description of Plan (Continued)

Notes Receivable From Participants

Participants may borrow a total of the lesser of 50% of their vested account balance (\$500 minimum) or \$50,000. A maximum of one outstanding note is permitted at one time per participant. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator, which is 4.25% at December 31, 2015. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Participants' benefits under the Plan are payable to participants, their beneficiaries, or their estates upon the termination of employment, normal retirement (the attainment of age 65), early retirement (the attainment of age 60 and completion of at least 20 years of service), death, disability, hardship, or upon the attainment of age 59-1/2. Benefits are payable in the form of lump sum distributions. Participant and spousal consent is required for all distributions over \$5,000.

Forfeitures

At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$34,104 and \$81,368, respectively. These accounts may be used to reduce future Company contributions or to pay administrative expenses of the Plan in accordance with the plan document. Also, during the year ended December 31, 2015, Company contributions were reduced by \$104,930 from forfeited nonvested accounts, and \$26,718 of forfeitures were used to pay administrative expenses.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Note 2: Summary of Significant Accounting Policies (Continued)

Change in Accounting Policy

To reduce the complexity of plan investment accounting and disclosures, plan management has elected to apply the early adoption provisions of the Financial Accounting Standard Board (FASB) Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – Consensuses of the Emerging Issues Task Force* (“ASU 2015-12”). As required by these provisions, plan management has retroactively restated the December 31, 2014 presentation of certain investments on the Statements of Net Assets Available for Benefits to reflect fair value, eliminating the \$21,773 reduction previously presented to reflect these investments at contract value, and the related fully benefit-responsive footnote disclosures. Early adoption of ASU 2015-12 also allows for the retroactive simplification of investment note disclosures. Part III is not applicable to the Plan.

The Plan has also elected to early adopt FASB ASU 2015-07, which removes the requirement to categorize within the fair value hierarchy all investments measured using a net asset per share practical expedient and eliminates certain investment disclosures. The presentation of the fair value of certain 2014 investments has been removed from the hierarchy levels in the table presented in Note 3 in order to conform to the presentation used for 2015. The fair value amounts presented in the tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts (FBRICs). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. FBRICs are reported at contract value, which is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant notes receivable are recorded as benefit payments on the basis of the terms of the plan document.

Note 2: Summary of Significant Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are allocated proportionately to plan participants based on their respective account balances and are included in net appreciation/depreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through September 15, 2016, which is the date the financial statements were available to be issued.

On January 1, 2016, the Plan name changed to Ashfield Healthcare Communications, KnowledgePoint 360 Group Retirement Plan. Also, on September 6, 2016, the Company approved the merger of this Plan with the WaterMeadow Medical USA 401(k) Profit Sharing Plan to be effective on November 1, 2016. As a result, all investments of the WaterMeadow Medical USA 401(k) Profit Sharing Plan will be transferred into this Plan.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.

KnowledgePoint360 Group 401(k) Plan

Notes to Financial Statements

Note 3: Fair Value Measurements (Continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust funds: Valued at the net asset value (NAV) of units of a bank common trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate full redemption of the common trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in a orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	Assets at Fair Value as of December 31, 2015

Note 4: Fully Benefit-Responsive Investment Contracts (FBRICs)

During the period January 1, 2015 to April 2, 2015 and at December 31, 2014, the Plan invested in a FBRIC with New York Life Trust Company in the form of a guaranteed investment contract (GIC) that invested in traditional investment contracts. New York Life maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. New York Life was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan. The GIC was carried at contract value. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer, but could not be less than 2.75%.

Certain events limited the Plan's ability to transact at contract value with New York Life including plan termination and other events as specified in the GIC. The plan administrator did not believe that any events which would limit the Plan's ability to transact at contract value with participants or the issuer were probable of occurring. The GIC did not permit New York Life to terminate the agreement prior to the scheduled maturity date.

Note 5: Information Prepared and Certified by the Trustees

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net depreciation in fair value of investments, interest and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by New York Life Trust Company, as of December 31, 2014 and for the period January 1, 2015 to April 2, 2015, and Reliance Trust Company, for the period April 3, 2015 to December 31, 2015, (the Trustees of the Plan).

Note 6: Related-Party Transactions and Party-in-Interest Transactions

Certain plan investments are managed by New York Life Trust Company and Reliance Trust Company. New York Life Trust Company and Reliance Trust Company are the Trustees, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Direct fees incurred and paid by the Plan for investment management services and administrative expenses were \$30,544 for the year ended December 31, 2015.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

KnowledgePoint360 Group 401(k) Plan

Notes to Financial Statements

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Company contributions.

Note 8: Tax Status

The Company adopted a nonstandard prototype document with an IRS notification letter which states the prototype plan document is in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 9: Risks and Uncertainties and Concentrations of Investments

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

At December 31, 2015 and 2014, two investment securities represented 32% of the plan net assets.
