Notes to Financial Statements

Note 1. Plan Description

The following description of Miami Valley Steel Service, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering the employees of Miami Valley Steel Service, Inc. (the Company). Employees who have completed 250 hours of service within three consecutive months and are age 18 or older are eligible to participate. The age and service requirements for salary deferrals were waived for any eligible employee employed on August 1, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participant contributions to the Plan are made by employees within limitations stipulated in Section 401(k) of the Internal Revenue Code and provides for higher contribution limits for employees who are age 50 or older. Employees may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Effective January 1, 2015, the Company matches 100% of the first 1% of eligible compensation that a participant contributes to the Plan and 50% of the next 5% of eligible compensation contributed by the participant. Additionally, the Company may decide to make a discretionary non-elective contribution to eligible participants. No discretionary non-elective contributions were made by the Company for the year ended December 31, 2015.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on each participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting: Participants are immediately 100 percent vested in their voluntary contributions. Vesting in the Company's matching contributions and discretionary non-elective contributions plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested in the Company's matching contributions after 2 years of credited service and 100 percent vested in the Company's discretionary non-elective contributions after 5 years of credited service. Participants employed with the Company on August 1, 2012 are fully vested in all employer discretionary contributions.

Forfeitures: If a participant is not fully vested on their termination date, the non-vested amount of the account is forfeited. Forfeitures are used to reinstate previously forfeited account balances of participants, reduce future Company contributions, or to pay administrative expenses of the Plan. At December 31, 2015 and 2014, forfeited account balances totaled \$552 and \$672, respectively. Forfeited amounts of \$674 were used to reduce Company contributions during 2015.

Notes receivable from participants: Participants may borrow from their accounts the lesser of \$50,000 or 50 percent of their vested account balance. The minimum amount for any single loan is \$1,000. Loan terms range from 1-5 years, except if the funds are for certain home-related loans. The loans are collateralized by the balance in the participant's account and bear a reasonable rate of interest. Principal and interest is repaid through payroll deductions. Interest rates were 3.25% as of December 31, 2015 and ranged from 3.25% to 4.25% as of December 31, 2014.

Payment of benefits: Upon termination of employment, the participant or, in the case of death, the beneficiary, can elect to receive a lump sum cash distribution or a direct rollover distribution. Account balances less than \$1,000 are paid in a single lump sum upon termination.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Investment valuation and income recognition: Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses in investments bought and sold as well as held during the year. Capital gain distributions are included in interest and dividend income.

Contributions: Participant contributions are recognized when withheld. Company matching contributions are recognized concurrently with participant contributions. Company discretionary non-elective contributions are recognized annually, as applicable.

Notes receivable from participants: Notes receivable from participants are recorded at their unpaid principal balances plus any accrued interest. Notes receivable from participants are written off when deemed uncollectible.

Benefit payments: Benefits are recorded when paid.

Administrative expenses: Various administrative costs are paid by the Company.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Recently issued accounting pronouncements: In May 2015, the FASB issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update for the 2015 plan year and it was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this Update. The impact of adopting this Update is reflected in Note 4.

Note 2. Summary of Significant Accounting Policies (Continued)

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by Part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Parts I, II, and III of this Update for the 2015 plan year and the amendments in Part II were retrospectively applied to December 31, 2014. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. The impact of adopting Part II of these amendments is reflected in the financial statements. The adoption of Parts I and III had no impact to the December 31, 2015 or 2014 financial statements.

Subsequent events: The Plan has evaluated subsequent events through September 27, 2016, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Plan's Trustee

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2015 and 2014 and for the year ended December 31, 2015 was prepared or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that the information provided to the Plan administrator by the trustee related to these plan assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 and the supplemental schedule related to the Plan's assets.

Notes to Financial Statements

Note 3. Information Certified and Provided by the Plan's Trustee (Continued)

PNC Bank, NA also certified to the completeness and accuracy of \$430,829 of net depreciation in fair value of investments, \$228,527 of interest and dividends related to investments and \$17,173 of interest income from notes receivable from participants for the year ended December 31, 2015.

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014:

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trust fund: Valued based on the net asset value (NAV) of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

Assets measured at fair value on a recurring basis: The following table summarizes assets measured at fair value on a recurring basis as of December 31, 2015 and 2014, segregated by level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

	2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 7,361,800	\$ -	\$ -	\$ 7,361,800
Investments measured at NAV	-	-	-	324,989
Total investments, at fair value	\$ 7,361,800	\$ -	\$ -	\$ 7,686,789

	2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 7,291,592	\$ -	\$ -	\$ 7,291,592
Investments measured at NAV	-	-	-	272,437
Total investments, at fair value	\$ 7,291,592	\$ -	\$ -	\$ 7,564,029

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of transfer relative to total assets available for benefits. For the years ended December 31, 2015 and 2014, there were no significant transfers in or out of Levels 1, 2 or 3.

The table below discloses the fair value and redemption frequency for those assets whose fair value is estimated using the NAV per unit as of December 31, 2015 and 2014.

	2015 Fair Value	2014 Fair Value	2015 Unfunded Commitment	2014 Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust fund	\$ 324,989	\$ 272,437	None	None	Immediate	None

Note 5. Income Tax Status

The Plan adopted a standardized form of a prototype plan sponsored by PNC Bank, NA. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2012.

Note 6. Plan Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Notes to Financial Statements

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8. Party-in-Interest Transactions

Certain plan assets are in investment funds managed by PNC Bank, NA. PNC Bank, NA is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Strategic Financial Group, LLC serves as advisors to the Plan in which the advisor fees also qualify as party-in-interest transactions. Fees paid by the Plan for investment management and advisory services totaled \$37,117 for the year ended December 31, 2015.

Note 9. Restatement of Previously Issued Financial Statements

The Plan has restated its 2014 financial statements to properly record employer contributions receivable and net assets available for benefits. The effects of the restatement on the statement of net assets available for benefits as of December 31, 2014 are as follows:

	As Previously Reported	As Restated	Decrease
Employer contributions receivable	244,862	10,540	(234,322)
Net assets available for benefits	8,298,519	8,064,197	(234,322)

All impacted amounts described in the notes to financial statements have been restated.
