Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Navajo Manufacturing Company, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1994 and most recently amended and restated effective June 1, 2012. The Plan is available to employees of Navajo Manufacturing Company, Inc. (the "Company") who are age 21 years or older upon date of hire with entry into the Plan on the first day of the following quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of the Company administers the Plan. State Street Bank and Trust Company serves as trustee, T. Rowe Price manages Plan assets, and Boston Financial maintains the Plan records. T. Rowe Price offers Plan participants a variety of investment options through various mutual funds and a money market fund. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Participants may make before-tax contributions up to 50% of their annual compensation, subject to limitations by the IRS, which are adjusted annually by the Secretary of the Treasury for inflation ($18,000 for the year ended December 31, 2015). Employee contributions to the Plan are made through regular payroll deductions. An additional catch-up contribution is allowed for employees age 50 and over of up to $6,000 for 2015. The Plan also permits rollover contributions from other qualified retirement plans. The Company may contribute to the Plan a discretionary matching contribution based on a percentage of the participant's compensation subject to certain limitations. In addition, the Company may contribute a discretionary profit sharing contribution based on each participant's compensation. There were no discretionary matching or profit sharing contributions to the Plan for 2015.

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's contribution, if any, Plan earnings and losses, and Plan expenses and forfeitures. The Plan allows participants to direct the trustee as to the investment of their individual account balances. Allocations of Plan earnings and losses are based upon daily account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, rollovers, and allocated earnings or losses thereon.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting (continued)

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65 or, if later, the sixth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or if the Plan is terminated. A year of service is defined as completing more than 500 hours of service within the Plan year.

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balances. The term of the loan may not exceed five years, except when used for the purchase of a primary residence. The loans are secured by the balances in the participants' accounts and bear interest at rates that range from 3.25% to 4.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator at loan origination, and mature at various dates between February 2016 and December 2019. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at an amortized cost plus accrued interest.

Payment of Benefits

Upon termination of service, death, disability, in-service distribution at age 59½, or attaining normal retirement age, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or installment payments. Participants may also roll over the balance to an IRA or another retirement plan or leave the assets in the Plan if the balance is greater than $1,000. Benefits are made in the form of a lump-sum payment if less than $1,000. Benefits are recorded as distributions to participants when paid.

The Plan allows participants to receive hardship withdrawals to satisfy certain immediate and heavy financial needs. Hardship withdrawals may only be made from fully vested accounts and are subject to a $1,000 minimum. Participant contributions will be suspended for a minimum period of six months after the receipt of a hardship withdrawal.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

Forfeitures arising from termination of employment prior to full vesting are used to offset subsequent Plan expenses or reduce future employer contributions. There were no forfeited account balances for the Plan years ended December 31, 2015 or 2014.

Valuation of Investments and Income Recognition

The assets of the Plan are reported at fair value as reported by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Administrative Expenses

The Company has elected to pay for certain administrative and accounting expenses of the Plan. All other expenses are paid from Plan assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties (continued)

At December 31, 2015 and 2014, three investments accounted for 48% and 46% of total investments, respectively. During the year ended December 31, 2015, four investments accounted for 16% of investment income.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments apply to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application is permitted. Entities should apply the amendments in this update retrospectively to all periods presented. This ASU is determined to have no impact on the Plan as of December 31, 2015.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive investment contracts. Part II eliminates the current GAAP requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements (continued)

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks; under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end. The Plan elected to early adopt all three parts of this standard update for the year ended December 31, 2015 and adjusted the financial statement disclosures for all periods presented. The adoption of these new accounting pronouncements did not have a material impact on the Plan's financial statements.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with GAAP.

Note 2 - Assets Certified

State Street Bank and Trust Company has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant notes receivable at amortized cost as of December 31, 2015 and 2014 and the income earned thereon for the year ended December 31, 2015, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets that are carried at fair value, and whose valuation is performed on a recurring basis, as of December 31, 2015 and 2014.

December 31, 2015

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,606,301	$ -	$ -	$ 2,606,301
Money market fund	80,239	-	-	80,239
Total	$ 2,686,540	$ -	$ -	$ 2,686,540

December 31, 2014

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,412,896	$ -	$ -	$ 2,412,896
Money market fund	47,645	-	-	47,645
Total	$ 2,460,541	$ -	$ -	$ 2,460,541

The fair value of the mutual funds and the money market fund was determined based upon observable prices in active markets.

There were no changes to the valuation techniques used during the period.

Note 4 - Income Taxes

The Plan has not obtained a Plan-specific advisory letter as it operates with the trustee's opinion letter dated March 31, 2008, which was issued on the basic prototype plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.

Note 6 - Party-in-Interest and Related Party Transactions

Certain Plan investments are mutual funds and a money market fund managed by T. Rowe Price. State Street Bank and Trust Company is the asset trustee, as defined by the Plan. Therefore, transactions with these entities qualify as transactions with parties-in-interest. In addition, participant notes receivable qualify as party-in-interest transactions. These transactions are exempt from prohibited transaction rules.

Note 7 - Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. Effective June 30, 2016, State Street Bank and Trust Company resigned as directed trustee of the Plan and Reliance Trust Company became the successor trustee.
