1. DESCRIPTION OF PLAN

The following brief description of the Reliable Churchill Local 570 401(k) Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information.

General

The Plan was established on September 29, 2014 for eligible employees, as defined in the Plan, of Reliable Churchill LLLP (Reliable or Plan Sponsor).

Participation

Every employee who is a member of the Local 570 Union, has attained the age of 21, and has 12 months of service shall be eligible to participate in the Plan.

Employees who are eligible to participate in the Plan are also eligible to participate in the Catch Up Contribution feature of the Plan if they attain the age of 50 before or during the Plan year and have contributed the maximum amount of deferral contributions permitted for the Plan year.

Contributions

Each year, participants may contribute up to 16% of their pre-tax annual compensation, as defined in the Plan. Reliable is required to make a matching contribution on behalf of each eligible participant in the Plan. For each week an eligible employee has contributed a minimum of $5 to the Plan, an hourly contribution of $0.15 will be made for each hour worked by such an employee or paid as time off, up to a maximum of 40 hours.

Participants' Accounts

An individual account is established for each participant and provides benefits that are based on (a) amounts the participant and the Plan contributed to a participant's account, (b) investment earnings (losses), and (c) any forfeiture allocated to the account, less any administrative expenses charged to the Plan. Investment income is allocated to each participant's account based on a pro-rata share of the individual's investment allocation. Terminated participants, who are not fully vested, forfeit the non-vested portion of the Plan’s contributions made to their account and any investment earnings on those contributions.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the remainder of their accounts is based on years of service.

Years of Service	Vesting Percentage
Less than Three Years	0%
Three Years or Greater	100%

Forfeited Accounts

There were no forfeited non-vested accounts as of December 31, 2015 and 2014. These amounts can be used to pay administrative expenses of the Plan. Any remaining forfeitures can be used to reduce employer contributions. For the year ended December 31, 2015, employer contributions were reduced by approximately $16.

Investment Options

Plan assets are invested in various mutual funds and a money market fund as designated by participants.

Notes Receivable from Participants

Loans to participants are made at the sole discretion of the Plan Sponsor. As provided by the Plan document, loans are available to all participants at a reasonable interest rate, with periodic repayment through payroll deductions over a reasonable period of time. Loans must be at least $1,000 and are limited to the lesser of $50,000 or one-half of the participant's vested account balance.

Administrative Expenses

Certain Plan expenses are paid by Reliable. In addition, Reliable provides services to the Plan at no cost.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Standards Codification

All references in the financial statements to the Codification refer to the Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles (GAAP) issued by the Financial Accounting Standards Board (FASB). The Codification is the single source of authoritative GAAP in the United States.

In July 2015, the FASB issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefits Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the

requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan assets. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through August 22, 2016, the date the financial statements were available to be issued.

Risk and Uncertainties

The Plan provides for investments in various investment securities, which are exposed to various risks, such as interest rate, credit and overall volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Valuation of Investments

Investments are stated at fair value. See Note 5 for a discussion of fair value measurements.

Notes Receivable from Participants

Notes receivable from participants are carried at their unpaid principal balance plus accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

3. PLAN TERMINATION

Although it has not expressed any intent to do so, Reliable can terminate the Plan at any time. Upon termination of the Plan, all interests of the participants not previously vested would become vested and nonforfeitable, and the net assets available for benefits would be distributed to participants based upon their individual share of total net assets available for benefits.

4. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan's investments were held by the Trustee, Fidelity Management Trust Company, at December 31, 2015 and 2014. Financial information related to Plan investments is included in the accompanying financial statements based on information provided by the Trustee. That information, which has not been audited by independent auditors, is summarized below:

	2015	2014
Money Market and Mutual Funds	$ 124,416	$ 24,840

During 2015, certified investment income (loss) consisted of the following:

Interest and Dividends	$ 5,316
Net Depreciation in Fair Value of Investments	(7,506)

5. VALUATION OF INVESTMENTS

The Fair Value Measurements and Disclosures Topic of the Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy which prioritizes the inputs to valuation techniques used to

measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Below is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2015.

Money Market and Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. NAV is a quoted price in an active market. These assets are classified as Level 1 within the fair value hierarchy.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore,

while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. TAX STATUS

The Plan has adopted a prototype plan which obtained a determination letter dated March 31, 2014, in which the Internal Revenue Service stated the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The prototype plan has been amended since receiving the determination letter; however, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate uncertain tax positions for recognition in the financial statements. The Plan Administrator has concluded that there were no uncertain tax positions taken as of December 31, 2015.

7. RELATED PARTY TRANSACTIONS

Certain Plan investments were managed by the Trustee of the Plan. The Plan pays investment management and recordkeeping fees to parties-in-interest. The Plan paid $175 to parties-in-interest for the year ended December 31, 2015. These transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA. In addition, administrative fees were paid indirectly through revenue sharing and are included in the change in fair value of investments.
