NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

DESCRIPTION OF PLAN

The following description of the Lyons Consulting Group, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan, established January 1, 2004, was created to provide retirement benefits for eligible employees, as defined, of Lyons Consulting Group, LLC (the "Company"). Employees must be 21 years of age or older and are eligible to participate upon completion of one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is a defined contribution plan, pursuant to Section 401(k) of the Internal Revenue Code, and provides for the following contributions, which are to be maintained in separate accounts for each participant:

- (a) Salary Deferral Contributions – A participant may elect, on a pretax basis, an after-tax basis, or a combination of the two and contribute to the Plan each year amounts not to exceed the lesser of 100 percent of compensation, as defined, or \$18,000 and \$17,500 (\$24,000 and \$23,000 for participants over the age of 50) for 2015 and 2014, respectively, adjusted annually for cost of living increases.
- (b) Employer Matching Contributions – to be made at the discretion of the Company to contribute a set matching percentage or a dollar amount that is allocated proportionate to the amount of the participant's deferrals, not to exceed 5% of the participant's eligible compensation.
- (c) Profit Sharing Contribution – to be made at the discretion of the Company as a percentage of compensation or a dollar amount per participant. There was no profit sharing contribution for the year ended December 31, 2015.
- (d) Rollover and Transfer Contributions - to be made by the employee from amounts distributed or transferred from other qualified plans.

Participants' direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options daily.

Each participant's account is credited with (a) the participant's elective contribution and (b) an allocation of the Plan's investment earnings and appreciation in the value of its investments. Account balances are decreased for (a) distributions or withdrawals, (b) an allocation of the Plan's investment losses and value depreciation, and (c) plan administrative fees and expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payments of benefits are made to participants or their beneficiaries upon death, retirement, disability or, at the option of the employee, termination of employment. Benefits are payable in a lump sum or by other methods as described in the Plan agreement. The Plan also permits hardship withdrawals from a participant's deferral contribution account and in-service withdrawals at the age of 59-1/2 from all vested accounts.

Participants are immediately vested in their Salary Deferral Contributions and Rollover and Transfer Contributions accounts plus actual earnings thereon. Vesting of Employer Matching Contributions and Profit Sharing Contributions accounts for each participant is based on years of service, beginning with 20% after two years, increasing 20% per year until vested after six years of service.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

DESCRIPTION OF PLAN (CONTINUED)

Forfeitures of the non-vested portion of participants' accounts resulting from termination of employment before full vesting, may be used to offset plan expenses or may be used to supplement the employer matching contributions. In 2015, \$12,748 of forfeited non-vested accounts was used to reduce plan expenses. At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$10,104 and \$2,602, respectively.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared under the accrual method of accounting.

Use of Estimates: The preparation of financial statements requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company.

Purchases and sales of investments are recorded on the trade date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncement: During 2015, the plan adopted Accounting Standards Update ("ASU") 2015-12 *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Welfare Benefit Plans (Topic 965) – (1) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*.

The amendments in the update are effective for fiscal years beginning after December 15, 2015 with early adoption permitted. Parts I and II are applicable to this plan and the plan has elected to early adopt these provisions. Part I requires the fully benefit-responsive investment contract be recorded at contract value without presentation of fair value or the difference between fair value and contract value and reduces the related disclosures. Part II modified the investment disclosures under ASC 820 and 962. These standards are required to be applied retrospectively to December 31, 2014. There is no impact to the Plan's net assets or changes in net assets.

Payment of Benefits: Benefits are recorded when paid.

Expenses: Plan-related expenses or fees that are not paid by the Company are paid by the Plan. All other administrative expenses or fees that are not paid by the Company are allocated among the Plan's participants.

Subsequent Events: The Plan has evaluated subsequent events through August 30, 2016, the date the financial statements were available to be issued.

FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Guaranteed Annuity Contracts: Fixed annuity contracts are reported at contract value, which approximates fair value.

Units of Common/Collective Fund and Shares of Pooled Separate Accounts: Stated at estimated fair value which represents the net asset value of units held by the Plan at year-end as determined by Principal. Principal computes the fair value of the fund based upon quoted market prices of the underlying securities held by the fund.

Shares of Registered Investment Companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
