(the "Company" or "Employer"), other than employees under a collective bargaining agreement and non-resident aliens, who have attained age twenty-one and have one year of service in which they have completed at least 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986 (the "Code"), as amended. The Board of Directors is responsible for Plan oversight, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Eligible employees may elect to contribute to the Plan, on a pre-tax basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Code) or, on a post-tax basis, Roth 401(k) contributions. The Company may make matching and profit sharing contributions at the discretion of the Company's Board of Directors. In 2015, the Company made a discretionary match to eligible participants equaling 10% of participant deferrals. Participants may also contribute amounts representing distributions from other qualified plans.

Participants direct the investment of their contributions, as well as those made by the Company, into various investment options offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contributions and Plan earnings and losses. Participant accounts may also be charged with an allocation of certain administrative expenses of the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions and rollover contributions, as adjusted for actual earnings and losses thereon.

Employees vest in Company matching and profit sharing contributions after five consecutive years of service as follows:

<u>Years of Service</u>	<u>Vesting</u>
1	20%
2	40%
3	60%
4	80%
5	100%

Notes receivable from participants

Active participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes receivable from participants are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions over a maximum period of five years unless the proceeds are used to purchase a residence.

Benefits

Participants may withdraw the vested portion of their account due to termination of employment, permanent disability, death, or upon normal retirement age (65). Additionally, prior to termination from employment, a participant may withdraw all or a portion of his or her vested account balance upon attaining age 59½ or incurring a financial hardship (if certain requirements are satisfied). Benefits shall generally be paid to participants in the form of a lump sum payment. Required minimum distributions are permitted to be paid in the form of partial withdrawals or installments. In the event of a participant's death, a participant's account balance remaining in the Plan will be paid to the participant's beneficiary.

Advance distribution for hardship

Participants may withdraw from their elective contribution accounts in any one plan year up to the lesser of 100% of the participant's account balance as of the last valuation date, or the amount necessary to satisfy the immediate and heavy financial need of the participant.

Forfeited accounts

At December 31, 2015 and 2014, forfeited nonvested accounts of terminated participants totaled \$1,371 and \$502, respectively. These accounts may be used to pay administrative expenses of the Plan, used to offset Company matching contributions, or be allocated to all participants eligible to receive profit sharing contributions. During 2015, forfeitures totaling \$1,280 were used to pay administrative expenses. The Company plans to use the forfeiture balance to pay administrative expenses or to offset Company matching contributions during 2016.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. As required by professional standards, the statements of net assets available for benefits present the fair value of the investment in the common/collective trust fund as well as the adjustment of the investment in the common/collective trust fund from fair value to contract value relating to the investment contract. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability. The Plan distributed the 2015 excess contributions to the applicable participants during 2016.

Payment of benefits

Benefit payments to participants are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments. Other recordkeeping and investment advisory fees are included in administrative expenses.

Accounting Change

Recently issued accounting pronouncements—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. The Plan has elected to early adopt Part II of ASU 2015-12, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Reclassification

Certain amounts in the 2014 financial statements have been reclassified to conform to the 2015 presentation.

Subsequent events

The Plan has evaluated subsequent events through September 27, 2016, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market fund and mutual funds: Valued at the daily closing price as reported by the fund. Money market and mutual funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The money market and mutual funds held by the Plan are deemed to be actively traded.

Managed fund: Valued at the NAV of units of the fund managed by an independent registered investment adviser (RIA). The NAV, as provided by the RIA, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund. This practical expedient is not used when it is determined to be probable that the fund will sell the investments for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. There are no unfunded commitments associated with this fund.

Common/collective trust fund: Valued at the NAV of units reported by the sponsoring trust company. The NAV, as provided by the custodian of the fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common/collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidated will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

<u>Investments at fair value as of December 31, 2015</u>

Fair Value of Investments in Entities that Use Net Asset Value Per Share as Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share practical expedient as of December 31, 2015 and 2014, respectively.

<u>December 31, 2015</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Notice Period</u>
McCluskey Dynamic Fund (Managed fund)*	\$ 2,339,394	n/a	Daily	n/a
Morley Stable Value 175**	\$ 2,203	n/a	Daily	n/a

<u>December 31, 2014</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Notice Period</u>
McCluskey Dynamic Fund (Managed fund)*	\$ 2,341,071	n/a	Daily	n/a
Morley Stable Value 175**	\$ 292,632	n/a	Daily	n/a

* The McCluskey Dynamic Fund (Managed Fund) consists of mutual funds and other investments in varying percentages. Plan participants invest in the portfolio and the amount is allocated among the constituent investments within the portfolio. The Managed Fund uses computer models to select investments based on in-depth analysis of the share price of the funds available to a given model. The models will determine which funds to invest in on a daily basis. The allocation of assets becomes dynamic by changing its allocation in response to changing market conditions.

** The Morley Stable Value Fund primarily consists of a diversified portfolio of stable value investment contracts issued by life insurance companies, banks and other financial institutions, the performance of which may be predicated on underlying fixed income investments. The principal value of these assets is designed to remain stable regardless of stock and bond market fluctuations.

4. INFORMATION CERTIFIED BY THE CUSTODIAN:

Plan management has elected the method of compliance permitted by 29 CFR2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, T.D. Ameritrade Trust Company, the custodian, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, and the supplemental schedule of assets (held at end of year) as of December 31, 2015; the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2015.

5. INCOME TAX STATUS:

The Plan has adopted a volume submitter plan which has received an opinion letter from the IRS dated March 31, 2014, stating that the volume submitter plan document, as then designed, was in compliance with the applicable requirements of the IRC. The Plan itself has not received a determination letter from the IRS. Although the Plan and the volume submitter plan document have been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believes that the Plan is currently designed and being operated in accordance with the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants would become 100% vested in their accounts, to the extent they are not already vested.

7. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

The McCluskey Dynamic fund is managed by Mr. Mark Schmerge who is a registered investment advisor and relative of the sole-shareholder of McCluskey Chevrolet, Inc. and therefore, transactions within the managed fund qualify as party-in-interest transactions. No fees were paid by the Plan to the investment advisor during 2015.

Certain Plan investments are managed by T.D. Ameritrade Trust Company, the custodian of the Plan; therefore, transactions in these investments qualify as party-in-interest transactions under ERISA. The Custodian also receives indirect fees from investments which are deducted from investment returns.

Several employees of the Company provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
