We were engaged to audit the accompanying financial statements of the Ryder System, Inc. Retirement Plan (the Plan), which comprise the statement of net assets available for benefits and of accumulated plan benefits as of December 31, 2015, and the related statement of changes in net assets available for benefits and of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these 2015 financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Bank of New York, the trustee of the Plan, except for comparing such information with the related information included in the 2015 financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from Bank of New York/BNY Mellon, N.A., the trustee, as of and for the year ended December 31, 2015 that the information provided to the plan administrator by Bank of New York/BNY Mellon, N.A., the trustee, is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2015 financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Other Matter - 2014 Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated October 13, 2015, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

General Note

The plan was amended as of January 1, 2008 to reflect the freezing of the January 1, 2008 accrued benefits for all non-grandfathered participants. Only union eligible participants will be permitted to enter the plan after January 1, 2008.

Plan provisions outlined in this report pertain to participants in the RAOI Pension Plan at the time of its merger into the RSI Retirement Plan on July 1, 1997. Former RAOI Pension Plan participants have a frozen plan benefit as of September 30, 1997 (date of sale to Allied) and are covered by the benefit provisions of the RAOI Pension Plan at the time of the merger.

SCHEDULE SB ATTACHMENTS

Employees covered by collectively bargained pension plans, employees of non-participating affiliates, leased employees, non-resident aliens, consultants, certain employees covered by another retirement plan and independent contractors or employees who elect to receive higher pay in lieu of employee benefits are excluded.

Non-union employees who have not satisfied the above participation requirements on or before January 1, 2008 are excluded from the plan.

This group was permitted to make a one-time election to remain in the retirement plan and receive continued accruals or opt out and earn benefits under an alternate plan.

SCHEDULE SB ATTACHMENTS

Normal Retirement Benefit

Normal Retirement Age: 65

Benefit Formula:

Annual benefit is the greater of \$1,800 and the sum of 1, 2, and 3, where:

1. is the sum of the participant's annual benefit accruals from date of participation through December 31, 1980, and
2. is the sum of the participant's annual benefit accruals from January 1, 1981 until December 31, 1988, where an annual benefit accrual is:
 - i. for employees becoming participants after January 1, 1977, 1% of the first \$10,800 of Compensation plus 2% of the portion of Compensation which exceeds \$10,800, or
 - ii. for employees who became participants on or before January 1, 1977, the greater of (i) above or 0.75% of the first \$4,800 of Compensation plus 1.50% of the portion of Compensation which exceeds \$4,800, and
3. is the sum of the participant's annual benefit accruals from January 1, 1989 through December 31, 2007, unless the participant is a Grandfathered Participant. Grandfathered Participants will receive annual benefit accruals until termination of employment. An annual benefit accrual is 1.45% of the first \$15,600 of Compensation plus 1.85% of the portion of Compensation which exceeds \$15,600.

Ad hoc benefit improvements have been made for active employees and retired pensioners, most recently as of January 1, 1991, January 1, 1995 and January 1, 2000.

Under the terms of the benefit improvement effective January 1, 2000, the minimum benefit accrual for active employee participants as of January 1, 1999 who became participants on or prior to January 1, 1994 and who had at least 5 Pension Accrual Years as of December 31, 1998 was determined by the formula $(a + b) \times c$, where:

- a. is 1.3% of 5-year average Compensation as of December 31, 1998 up to \$33,000
- b. is 1.7% of 5-year average Compensation as of December 31, 1998 in excess of \$33,000, and
- c. is Pension Accrual Years through December 31, 1998.

Effective January 1, 2000 most retired pensioners received a pension escalator adjustment of 1.5% per year of retirement, to a maximum of 6%. Pensioners who retired after January 1, 1995 were eligible for a formula adjustment if it resulted in a higher benefit than the pension escalator adjustment.

Effective January 1, 1997, a Voluntary Retirement Program was implemented that provided enhanced benefits (3 additional years of accruals and 3 years of age) for eligible plan participants (age 52 and 7 years of Continuous Service) who elected the program. The program also provided a supplemental monthly benefit of \$500 payable until age 62.

- For disabled participants: Mortality in accordance with Revenue Ruling 96-7.

Retirement

The rates at which participants are assumed to retire by age are shown below:

Age	Rate of Retirement

¹ These ultimate rates are for grandfathered participants with 5 or more years of participation service. If participation service is less than 5 years, then 8.0% is added to the applicable ultimate rates shown above.

For example, a grandfathered participant who is age 55 with 4 years of participation service in a particular year would have a termination rate of 14.0% (6.0% + 8.0%).

² These ultimate rates are for non-grandfathered participants with 5 or more years of participation service. If participation service is less than 5 years, then the following rates are added to the applicable ultimate rates shown above:

Participation Service	Additional Rate
Less than 2 years	15.0%
At least 2 years but less than 3 years	8.0%
At least 3 years but less than 5 years	5.0%

For example, a participant who is age 30 with 2 years of participation service in a particular year would have a termination rate of 18.0% (10.0% + 8.0%).

SCHEDULE SB ATTACHMENTS

Form of Payment

For valuation purposes, participants are assumed to elect the normal form for single participants, which is a monthly life annuity.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 60% of eligible participants are assumed to be married. Husbands are assumed to be three years older than wives.

Employees

It was assumed that there will be no new or rehired employees.

Valuation Compensation

For participants not eligible for a management bonus or a commission, compensation assumed on the valuation date is the greater of (1) the prior year's pension eligible pay increased by one-half year's assumed compensation increase and (2) the current rate of pay.

For participants eligible for a management bonus, compensation assumed on the valuation date is the current rate of pay plus target bonus for the year multiplied by the fraction of the prior year's total pay that was not paid as deferred compensation.

For commissioned participants, compensation assumed on the valuation date is the greater of (1) the current rate of pay and (2) the average of the two most recent years of pension eligible pay increased by one-half year's assumed compensation increase.

Participant Data

Employee data and inactive participant data, as of the valuation date, were supplied electronically by Fidelity.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2015 is used to determine the maximum deductible contribution for the tax year ending December 31, 2015.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 6.50% for 2014 and 6.80% for 2013 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2014 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	The benefits applicable to participants involved in the Aviall spin-off who were not vested as of the spin-off date (12/7/1993) are considered immaterial.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of increase in:	
▪ Compensation	Ryder System, Inc. selected a compensation increase assumption of 3.00%. This was updated at December 31, 2013 from 4.00%. The 3.00% assumption is based on the results of a 3-year experience study, performed in 2013, for the period January 1, 2010 through January 1, 2013.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates vary by age with select and ultimate rates based on participation service and grandfathered status. The rates are slightly lower for grandfathered participants at ages 45+ (ultimate rate of 6%) as compared to non-grandfathered participants (ultimate rate of 8.5%). Select rates are added to the ultimate rate for participants with less than 5 years of participation service. The select rate for grandfathered participants is 8%. The select rate for non-grandfathered participants is 3-tiered and dependent on exact participation service less than 5 years. These rates are based on a 4-year experience study, for the period January 1, 2006 through January, 1 2010, complete in August 2010, with annual consideration of whether any conditions have changed that would be expect to produce different results in the future.
Disability	The rates at which participants are assumed to become disabled are based on the 1985 Wyatt Class I Rates. There is not sufficient disability incidence experience to perform a study at this time. Annual consideration is given of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates vary by age from age 55 through age 75. The assumed age of benefit commencement for terminated vested participants eligible for early retirement is age 60. These assumptions are based on a 4-year experience study, for the period January 1, 2006 through January, 1 2010, completed in August 2010, with annual consideration of whether any conditions have changed that would be expect to produce different results in the future.
Marriage	For purposes of valuing the pre-retirement surviving spouse's benefit, 60% of eligible participants are assumed to be married. Husbands are assumed to be three years older than wives. The marriage % was reviewed in June 2010. Our analysis showed 66% married. Annual consideration is given of whether any conditions have changed that would be expected to produce different results in the future.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

1. Description of Plan

The following description of the Ryder System, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document and amendments for a more complete description of the Plan.

General

The Plan is a defined-benefit pension plan which provides employees of Ryder System, Inc. (the "Company") and participating subsidiaries with retirement benefits based generally upon service rendered and earnings.

Effective December 31, 2007, the Plan was frozen for participants who did not meet certain grandfathering criteria. As a result, these employees ceased accruing further benefits under the Plan after December 31, 2007. All retirement benefits earned as of December 31, 2007 are fully preserved and will be paid in accordance with the Plan and legal requirements. Eligibility criteria for grandfathered employees are based on a minimum of 65 points (the sum of the participants' age and years of service as of December 31, 2007). In addition, participants that have at least 20 years of credited service as of December 31, 2007 will also be grandfathered regardless of their age. Employees hired after January 1, 2007 are not eligible to participate in the Plan. Prior to January 1, 2007, all eligible employees were automatically members of the Plan if they had completed one year of credited service (1,000 hour minimum level of service) and were at least twenty-one years old.

The Ryder System, Inc. Retirement Committee administers the Plan. The Plan's trustee is Bank of New York Mellon, N.A. (the "Trustee"). The Plan's recordkeeper is Fidelity Investments Institutional Operations Company.

Benefits

Upon normal retirement at age 65, a participant, or in certain cases the participant's beneficiary, is entitled to monthly benefit payments. Each year's benefit is equal to the aggregate of annual accruals which for any particular year are based upon a percentage of the member's earnings for that year subject to certain limitations. The Plan provides provisions for early retirement, delayed retirement, termination, disability, and death benefits. Participants become fully vested upon completing five years of credited service.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's interest in the Ryder System, Inc. Master Trust (the "Master Trust") is stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of how the underlying investments held in the Master Trust are valued. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Contribution Receivable

Contributions to the Plan are determined by the Plan's actuary and recorded on an annual basis when due, as needed.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

During 2014, the Company approved an amendment to offer eligible terminated vested participants the one-time option to receive a lump-sum pension payment. Lump sum payments made in 2015 and 2014 related to the amendment were \$3.8 million and \$223.4 million, respectively, and were funded from existing pension plan assets. The discount rate and actuarial assumptions used to calculate the lump-sum payments were determined according to federal regulations.

Administrative Expenses

Plan administrative expenses, consisting primarily of actuarial fees, Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) premiums and third-party administration fees, are paid from plan assets. See Note 9, "Related Party Transactions," for information on certain administrative costs reimbursed to the Company by the Plan.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments and lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of deceased participants, and (c) active participants or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, were as follows:

	<u>2015</u>	<u>2014</u>
Investment return	5.85%	5.95%
Average retirement age	61	61
Mortality – healthy lives	RP-2014 employee and annuitant mortality tables with MP-2014 backed out to 2006, increased by 3% and projected forward from 2006 using Generational projection Scale AA for healthy participants.	RP-2014 employee and annuitant mortality tables with MP-2014 backed out to 2006, increased by 3% and projected forward from 2006 using Generational projection Scale AA for healthy participants.

Employee turnover rate	Based on the Company's experience.	Based on the Company's experience.

The change in the weighted average discount rate for 2015 and inclusion of actuarial increase for actives change increased the accumulated plan benefits by approximately \$14.5 million and \$22.6 million, respectively. The actuarial increase reflects the actuarial increase from age 65 through 75 (or current age at 1/1/2016, if older). The change impacts both active plan participants currently beyond age 65 and those assumed to retire after age 65 based on the current retirement age assumptions.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

Risk and Uncertainties

The Plan's invested assets ultimately consist of equities, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the interest in the Master Trust and the amounts reported in the statements of net assets available for plan benefits and the statements of changes in net assets available for plan benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations

and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Recent Accounting Pronouncements

On July 31, 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) - (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient - A Consensus of the FASB Emerging Issues Task Force." ASU No. 2015-12 designates contract value as the only required measure for fully benefit-responsive investment contracts; simplifies and makes more effective the investment disclosure requirements under Accounting Standards Codification ("ASC") topic 820 for fair value, and topics 960, 962 and 965 for employee benefit plans; and provides a similar measurement date practical expedient for employee benefit plans. The standard became effective for the Plan January 1, 2016. Early adoption permitted. The standard will not have a material impact on the Plan's statements of net assets available for plan benefits or statements of changes in net assets available for plan benefits.

On May 1, 2015, the FASB issued ASU 2015-07, Fair Value Measurements (Topic 820) - Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which removes the requirements to categorize within the fair value hierarchy and to make certain disclosures for investments eligible to be measured at fair value using the net asset value per share practical expedient. The standard became effective for the Plan January 1, 2016, with early adoption permitted. Since this new guidance only amends the disclosure requirements, it will not have a material impact on the Plan's statements of net assets available for plan benefits or statements of changes in net assets available for plan benefits.

Subsequent Events

The Plan evaluated subsequent events through September 30, 2016, the date the financial statements were available to be issued.

3. Funding Policy

The Company has agreed to make contributions to the Plan sufficient to provide the Plan with assets with which to pay benefits to Plan participants. The Company has met the minimum funding requirements under the Pension Protection Act of 2006 ("PPA"). Contributions are determined using the traditional unit credit cost method, which is in accordance with PPA rules and regulations.

4. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, if any, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would have been payable under the Plan provisions in effect at any time during the five years preceding the termination.
- c. Other vested benefits insured by the PBGC up to the applicable limitation (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2015 and 2014, the PBGC statutory ceiling is \$5,011 and \$4,943 per month, respectively. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than in a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

5. Information Certified by the Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been audited by the independent public accountants. Each participating retirement plan has an undivided interest in the Master Trust.

The Plan's investments are in a Master Trust, which was established for the investment of assets of the Plan and other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on average yearly balances in the proportion to the Plan's relative value within the Master Trust. At December 31, 2015 and 2014, the Plan's interest in the net assets of the Master Trust was approximately 99.96% and 99.97%, respectively.

7. Fair Value Measurements

The Plan defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Accounting guidance establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of the fair value hierarchy are as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. An active market for the asset or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted market prices in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Unobservable inputs for the asset or liability. These inputs reflect the Plan's own assumption about the assumptions a market participant would use in pricing the asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2015 and 2014:

Common Collective Trust: These include index common collective trusts that track U.S. and foreign indices. The common collective trusts were valued at the unit prices established by the funds' sponsors based on the fair value of the assets underlying the funds. Since the units of the funds are not actively traded, the fair value measurements have been classified within Level 2 of the fair value hierarchy.

Ryder System, Inc.
Retirement Plan
Notes to Financial Statements
December 31, 2015 and 2014

Equity securities: These investments include common and preferred stocks. Fair values for the common and preferred stocks are based on quoted prices in active markets and are therefore classified within Level 1 of the fair value hierarchy.

Corporate bonds: These investments include investment grade bonds of U.S. and foreign issuers from diverse industries and other fixed income investments (primarily mortgage-backed securities). These investments were valued using third-party pricing services. These sources determine prices utilizing market income models which factor in, where applicable, transactions of similar assets in active markets, transactions of identical assets in infrequent markets, interest rates, bond or credit default swap spreads and volatility. Since these investments are not actively traded, the fair value measurements have been classified within Level 2 of the fair value hierarchy.

Private equity and hedge funds: These investments represent limited partnership interests in private equity and hedge funds. The partnership interests are valued by the general partners based on the underlying assets in each fund. The limited partnership interests are valued using unobservable inputs and are therefore classified within Level 3 of the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table sets forth a summary of changes in the fair value of the Master Trust's Level 3 assets for the year ended December 31, 2015 and 2014.

8. Federal Income Tax Status

The Plan has obtained a favorable tax determination letter, dated June 24, 2013, from the Internal Revenue Service. Since this date there have been amendments to the Plan, but the Plan sponsor believes that the Plan continues to qualify and operate in accordance with applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by

the plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.
