1. Description of the Plan

The following description of the Malwarebytes Corporation Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, a defined contribution savings plan sponsored by Malwarebytes Corporation (the "Company"), pursuant to Section 401(a) and related provisions of the Internal Revenue Code ("IRC"), was established on January 1, 2014. The Plan is designed to provide participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of disability, death, termination of employment, or financial hardship.

The Plan covers any employees who have attained age eighteen, except those employees governed by a collective bargaining agreement and leased employees, whom are prohibited from participating. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments.

Plan administration

The Company is the administrator of the Plan and, as such, carries out the duties imposed by ERISA. The Company has delegated certain responsibilities for the operation and administration of the Plan. Recordkeeping and trustee services were provided by Automatic Data Processing, Inc. ("ADP") and State Street Bank and Trust Company ("State Street"), respectively. The Company has contracted with an investment broker to provide investment advisory services to the Plan. Significant administrative expenses of the Plan, including recordkeeping, investment advisory and audit fees, were paid directly by the Company for the year ended December 31, 2015. Investment fees, which may vary according to individual funds selected, and certain other administrative processing fees are paid out of the assets of the Plan. Participants should refer to the prospectus of the individual investment funds for further details on individual investment fees.

Contributions

Participants may elect to contribute through payroll deductions amounts up to 90% of their annual compensation, as defined in the Plan, on a tax-deferred and/or after-tax basis, up to a maximum amount allowed by the IRC. Maximum allowed deferral amounts were $18,000 for calendar year 2015. Participants over the age of 50 may also contribute an additional $6,000 in catch up contributions to the Plan for 2015.

1. Description of the Plan (continued)

Contributions (continued)

The Plan includes an automatic salary deferral feature. Under the terms of the Plan, if participants do not make a contrary election or opt out, the Company will automatically withhold 3% of eligible compensation each pay period and contribute that amount to the Plan. Participants may also elect to roll over contributions from other qualified employer-sponsored retirement plans.

The Company provides a matching contribution equal to 100% of the first 3% of the participant's contribution. The Company may also make a discretionary non-elective contribution to the Plan. The Company made employer matching contributions to the Plan of $594,184 for the year ended December 31, 2015. The Company did not make a discretionary non-elective contribution to the Plan for the year ended December 31, 2015.

Participant accounts

Individual accounts are maintained for each participant. Each participant's account is credited with the participant's contributions (including rollovers), and an allocation of (a) the Company contributions, if any, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective and rollover contributions plus earnings thereon. Vesting in the Company's contributions plus earnings thereon is based on a four-year graded vesting schedule under which the participants become fully vested after four years of credited service, as defined.

Notes receivable from participants

Under the terms of the Plan, participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The $50,000 maximum loan amount is reduced by the highest outstanding loan balance during the previous twelve months. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 2.0%; interest rates on notes receivable from participants are 5.25% at December 31, 2015. The repayment of principal plus interest is generally required by the Plan to be made through payroll deductions within a term of no more than five years or up to thirty years if the loan is used for the purchase of a principal residence. The notes receivable from participants mature at various dates through December 2020.

1. Description of the Plan (continued)

Payment of benefits

Distributions and withdrawals are payable upon retirement, termination, financial hardship, disability, or death. If a participant's account balance is equal to or less than $1,000, the balance is distributed immediately in a lump-sum cash payment. Balances between $1,000 and $5,000 must be rolled over to an individual retirement plan designated by the administrator if the participant has not requested a distribution. If the account balance is over $5,000, the participant can consent to either a distribution paid in the form of a lump-sum cash payment, a direct rollover into another qualified plan, installments over a period not longer than life expectancy, or postpone payment to a later date and remain in the Plan as described in the plan document.

Forfeitures

At both December 31, 2015 and 2014, forfeited non-vested accounts totaled $20. Forfeitures can be used to pay plan expenses or reduce employer contributions. Forfeitures of $3,583 were used to reduce employer contributions during 2015.

2. Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

2. Summary of Significant Accounting Policies (continued)

Investment valuation and income recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of benefits

Benefit payments are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through September 22, 2016, the date the financial statements were available to be issued. No subsequent events have occurred that would have a material impact on the presentation of the Plan's financial statements.

3. Information Prepared and Certified by Trustee

In accordance with Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, State Street has certified information regarding the cost and fair value of all investment and notes receivable from participant assets held at December 31, 2015 and 2014, and investment and notes receivable from participant transactions entered into during the year ended December 31, 2015, which was used in the preparation of the accompanying financial statements and supplemental schedule.

4. Fair Value Measurements

The Plan defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

The three levels of fair value hierarchy are as follows:

- Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2015 and 2014.

Money Market funds: Valued at cost which approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

The following tables present the major categories of assets measured at fair value on a recurring basis as of December 21, 2015 and 2014:

Fair Value Measurements Using Input Type	December 31, 2015 Level 1	Level 2	Level 3	Total
Money market funds	$ 90,631	$ -	$ -	$ 90,631
Mutual funds	2,844,593	-	-	2,844,593
Total investments measured at fair value	$2,935,224	$ -	$ -	$2,935,224

Fair Value Measurements Using Input Type	December 31, 2014 Level 1	Level 2	Level 3	Total
Money market funds	$ 60,576	$ -	$ -	$ 60,576
Mutual funds	932,532	-	-	932,532
Total investments measured at fair value	$ 993,108	$ -	$ -	$ 993,108

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all non-vested account balances would become fully vested.

6. Income Tax Status

The Plan has adopted the ADP Prototype 401(k) and Profit Sharing Plan. The Internal Revenue Service informed ADP by a letter dated July 8, 2014, that the prototype plan is designed in accordance with applicable sections of the IRC, and any employer adopting this form of the volume submitter plan will be considered to have a plan qualified under the applicable sections of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. Income Tax Status (continued)

GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon an examination by the Internal Revenue Service. No uncertain positions have been identified that would require the recognition of a tax liability (or asset) or disclosure in the financial statements as of December 31, 2015 and 2014. The Plan is subject to routine audits by applicable taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Commitments and Contingencies

The Company noted certain operational defects with regard to the operation of the Plan related to the years ended December 31, 2015 and 2014. The Company corrected the defects by making a Qualified Nonelective Contribution ("QNEC") of $13,757 including lost earnings during 2015. The Company believes that the defects were properly remedied and will not adversely affect the Plan's qualified status or have a material impact on the Plan's net assets available for benefits.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2015 and 2014 to the Form 5500:

	2015	2014
