Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Administrator of the Retirement Plan for
Great Dane Limited Partnership

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan for Great Dane Limited Partnership (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of January 1, 2015 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2015 and 2014 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental schedules of Assets (Held at End of Year) as of December 31, 2015 and Reportable Transactions for the Year Ended December 31, 2015 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Retirement Plan for Great Dane Limited Partnership

Notes to Financial Statements

December 31, 2015 and 2014

1. Description of Plan

The following description provides general information on the provisions of the Retirement Plan for Great Dane Limited Partnership (the "Plan") sponsored by Great Dane Limited Partnership (the "Company" and "Plan Administrator"). Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted effective January 1, 1986 (the Great Dane Limited Partnership Bargaining Unit Pension Plan (the "Bargaining Unit Plan") was adopted effective January 1, 1978), and was amended and restated on December 28, 2001, effective January 1, 2001, to comply with the GUST amendments. The Plan and the Bargaining Unit Plan were amended on December 28, 2005 to reflect the merger of the Bargaining Unit Plan into the Plan and to make certain other changes. The Plan was most recently amended and restated effective January 1, 2010.

The Plan is a noncontributory, defined benefit plan currently covering substantially all nonunion employees of the Company as well as certain bargaining unit employees of the Company and provides for retirement and death benefits. Effective January 1, 2012, employees of Johnson Truck Bodies, LLC ("JTB") joined the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Northern Trust Company is the trustee of the Plan.

Participation

Generally, employees are eligible to participate after attaining age 21 and completing 12 consecutive months of service.

Funding Policy

The Company makes annual contributions based on the funding recommendations of the Plan's actuary to meet the minimum funding requirements under ERISA. The Plan is in compliance with applicable ERISA funding requirements for 2015 and 2014.

Vesting

Participants become fully vested upon completion of three years of service. Vesting service is credited to a participant for any calendar month in which a participant is credited with one hour of service.

Retirement Benefit Options

Each participant, with the exception of certain prior Plan and former Bargaining Unit Plan participants, having three years of vesting service is entitled to monthly pension benefits beginning at normal retirement age (65) calculated as the greater of (a) or (b) for service prior to January 1, 1998, plus (c) for service after December 31, 1997 and prior to January 15, 2012, plus either (d) for salaried employees or (e) for hourly employees, for service after January 15, 2012:

- a. 2% of the participant's average monthly compensation, times years of benefit service (up to 30 years), minus 2-3/16% of monthly primary Social Security benefits, times years of benefit service (up to 30 years).
- b. \$10.50 times years of benefit service (up to 30 years).

Retirement Plan for Great Dane Limited Partnership

Notes to Financial Statements

December 31, 2015 and 2014

- c. A monthly amount equal to the actuarial equivalent of a single sum payable at a participant's normal retirement date of 10% of the participant's average annual compensation multiplied by the participant's years of benefit service after December 31, 1997 and before January 15, 2012.
- d. For a salaried participant, 0.75% of annual compensation for each year of Plan participation on or after January 15, 2012 divided by twelve.
- e. For an hourly paid participant, \$25.00 multiplied by participant's years of benefit service earned on or after January 15, 2012.

In no event will a participant's monthly retirement benefit be less than \$10.50 multiplied by the years of benefit service up to a maximum of thirty years.

Former Bargaining Unit Plan participants are entitled to normal monthly retirement benefits calculated by multiplying an increasing dollar amount based on participation date by the credited years of service. Credited service may not exceed 30 years when calculating normal retirement benefits. Former Bargaining Unit Plan participants vest upon completing three or more years of credited service and normal retirement age is 65. A former Bargaining Unit Plan participant whose employment is terminated on or after August 1, 2005 and prior to attaining age 55 shall be entitled to a vested retirement benefit commencing at his normal retirement age or as early as age 55, as calculated in accordance with the Plan.

Payment of Benefits

The Plan allows for early retirement, starting at age 55 (age 62 for former Bargaining Unit Plan participants), provided the participant has at least 10 years of vesting service, with reduced benefits as defined by the Plan. The Plan's normal form of benefit for a single participant is a Straight Life Annuity, and for a married participant a 50% Joint and Survivor Annuity, which provides a lifetime benefit payable to the participant and, upon death, 50% of such benefit payable to the participant's surviving spouse.

Each participant, with the exception of former Bargaining Unit Plan participants, may also elect one of the following options:

Contingent Annuity - This option is similar to the Joint and Survivor Annuity described above. However, the individual named as the contingent annuitant can be an individual other than the participant's spouse. The benefits payable to the contingent annuitant can be 100%, 75% or 50% of the benefits earned by the participant, depending upon the election made by the participant.

Lump Sum - Participants may elect a lump-sum distribution of benefits accrued prior to January 15, 2012, to be paid immediately, transferred to an Individual Retirement Account ("IRA") or transferred to another employer's qualified plan. This option is only available if a participant works until retirement age. The remainders of benefits, if any, are available only in the forms outlined above.

Selection of one of these options by a married participant is contingent upon spousal consent.

Retirement Plan for Great Dane Limited Partnership

Notes to Financial Statements

December 31, 2015 and 2014

If a participant terminates their employment with the Company before completing the required years of vesting service, they do not receive Plan benefits. Participants who terminate with vested accumulated Plan benefits that are less than \$5,000 receive their accumulated benefits as a lump-sum distribution.

Administrative Expenses and Investment Management Fees

Expenses of administration, that are permitted under ERISA regulations, such as legal, accounting, actuary, investment management fees, recordkeeping and trustee fees, are paid from the assets of the Plan.

Plan Termination

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time, subject to the provisions of ERISA. In the event the Plan terminates, the assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits for all participants or beneficiaries whose retirement benefits have been or could have been payable three years prior to termination of the Plan.
- b. Benefits guaranteed by and up to the insurance limitations of the Pension Benefit Guaranty Corporation ("PBGC").
- c. Benefits that are vested but not guaranteed by the termination insurance provisions of ERISA.

If the Plan terminates, a portion of the benefits under the Plan is insured by the PBGC (a U.S. Government agency). Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, and may also depend on the level of benefits guaranteed by the PBGC.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Subsequent Events

Events or transactions occurring after the period end through September 19, 2016, the date that the financial statements were available to be issued, have been evaluated in the preparation of the financial statements.

Retirement Plan for Great Dane Limited Partnership

Notes to Financial Statements

December 31, 2015 and 2014

Valuation of Investments and Income Recognition

Investments are valued at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value of Investments

Net realized and unrealized appreciation (depreciation), which includes gains and losses on investments bought and sold, as well as held during the year, is recorded in the accompanying Statements of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May, 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Codification ("ASC") Update, 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which removes the requirement to include investments measured using the net asset value ("NAV") practical expedient in the fair value hierarchy. The retrospective application of this guidance is effective for annual periods beginning in 2017. Plan management does not believe the adoption of this guidance will have a material effect on the Plan's financial statements.

In July, 2015, FASB issued ASC Update, 2015-12, *(Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*, which requires: 1.) fully benefit-responsive investment contracts be measured only at contract value, 2.) disaggregation of plan assets only by general type of investment and 3.) measurement of plan assets on the closest month-end date to the plan's fiscal year-end. The application of this guidance is effective for annual periods after December 15, 2015, with early adoption permitted. Plan management early adopted this guidance.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits payable under all circumstances (i.e., retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary, Mercer, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Retirement Plan for Great Dane Limited Partnership

Notes to Financial Statements

December 31, 2015 and 2014

Significant actuarial assumptions used in the valuations as of January 1, 2015 and 2014, are as follows:

	2015	2014
Discount rate per ASC 960	7.50% per annum	8.25% per annum
Mortality	Mercer Modified RP 2014 employee/retiree tables and Mercer Modified MP 2014 projection scale with white and blue adjustments for salaried and hourly employees, respectively.	Mercer Modified RP 2014 employee/retiree tables and Mercer Modified MP 2014 projection scale with white and blue adjustments for salaried and hourly employees, respectively.
Retirement age	Age 55-70, or if older, age on valuation date.	Age 55-70, or if older, age on valuation date.

Changes in the retirement and turnover rates, changes in lump sum conversion rates and changes in the interest rate resulted in a \$9,307,865 increase in the actuarial present value of accumulated Plan benefits.

The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

4. Investments

The Plan's investments are managed by the Company's investment managers together with The Northern Trust Company, in its role as trustee of the Plan.

The following table presents investments in common and collective trusts for which fair value is measured using the NAV per share practical expedient.

December 31, 2015		Fair Value	Redemption Frequency	Redemption Notice Period
Northern Trust STIF	(a)	\$ 11,168,993	Daily	None
Silchester	(b)	44,849,986	30 days	30 days

5. Fair Value

The Plan follows guidance defined in ASC, *Fair Value Measurement (Topic 820)*, which provides a framework for measuring fair value under GAAP. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Quoted market prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments are valued at fair value using the following methodologies:

- **Common stocks:** valued at the closing price of individual shares at year-end as traded in an active market.
- **Common and collective trusts:** valued at the year-end NAV of the underlying investments comprising the common and collective trusts. The Plan holds investments in the Northern Trust STIF and Silchester. The Northern Trust STIF investment reflects high-grade money market instruments with short maturities. The Silchester investment reflects equity securities traded on international exchanges in developed markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's investment assets measured at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Common stocks	\$ 136,214,245	\$ -	\$ -	\$ 136,214,245
Common and collective trusts	-	56,018,979	-	56,018,979
Total assets at fair value	<u>\$ 136,214,245</u>	<u>\$ 56,018,979</u>	<u>\$ -</u>	<u>\$ 192,233,224</u>

Retirement Plan for Great Dane Limited Partnership

Notes to Financial Statements

December 31, 2015 and 2014

For comparative purposes, the following table presents the Plan's investment assets measured at fair value as of December 31, 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common stocks	\$ 151,780,068	\$ -	\$ -	\$ 151,780,068
Common and collective trusts	-	55,938,220	-	55,938,220
Total assets at fair value	<u>\$ 151,780,068</u>	<u>\$ 55,938,220</u>	<u>\$ -</u>	<u>\$ 207,718,288</u>

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions may require the transfer of financial instruments from one fair value hierarchy to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan does not hold any investments requiring Level 3 measurements and there have not been any transfers of assets between the levels from 2014 to 2015.

6. Information Certified by Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the financial statements and supplemental schedules is complete and accurate:

- Investments, at fair value (except for third party information related to Silchester), amounts due from broker for securities sold and investment income receivable as shown in the Statements of Net Assets Available for Benefits.
- Net appreciation (depreciation) in fair value of investments, interest income and dividend income (except for third party information related to Silchester), and investment management fees, as shown in the Statements of Changes in Net Assets Available for Benefits.
- Schedule I, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015 (except for third party information related to Silchester).
- Schedule II, Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2015.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

7. Income Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated December 29, 2011, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Since that date, the Plan has been amended; however the Company and the Plan's tax counsel believe that the Plan is designed and continues to be operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. There are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements as of December 31, 2015 and 2014. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2012.

8. Risks and Uncertainties

The determination of contributions to the Plan and the actuarial present value of accumulated plan benefits are based on certain assumptions pertaining to interest rates, inflation rates and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan also invests in securities that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

9. Related-Party Transactions

Certain Plan investments are managed by The Northern Trust Company. The Northern Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions.

Schedule SB, Part V — Summary of Plan Provisions

Plan Provisions

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Most recent plan amendments included:** The plan was restated effective January 1, 2010, and executed December 30, 2010. The plan has been amended effective January 15, 2012.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* Current active participants over normal retirement age are valued using their accrued benefit. Late retirement actuarial increases are deemed to be insignificant for the purposes of this valuation.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued using their accrued benefit. Late retirement actuarial increases are deemed to be insignificant for the purposes of this valuation.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** No scheduled benefit increases exist under the plan.
- **Shutdown benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions**Summary of Major Plan Provisions**

Effective date and plan year	Original plan: January 1, 1986 Restated plan: January 1, 2010 Last amended: January 15, 2012 Plan year: The calendar year
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None

Definitions

• Participation	Employees are eligible on the January 1st or July 1st coincident with or next following the anniversary of their employment commencement date following completion of one year of eligibility service and attainment of age 21. Current plan participants continue to participate effective January 1, 1998. Former participants of the Pines Trailer Target Benefit Plan and Trust become participants on January 1, 1998. Former participants of the Great Dane Limited Partnership Bargaining Unit Plan became participants on January 1, 2006. Employees of the Johnson Truck Bodies are eligible to become participants beginning on January 15, 2012.
• Employee Contributions	Contributions are neither permitted nor required.
• Vesting service	Service prior to January 1, 1998 is determined under the terms of the prior plans. On or after January 1, 1998, and prior to January 15, 2012, vesting service is determined as years and completed months of employment with the Company. On or after January 15, 2012, vesting service is determined as years and months in which one has worked for more than one hour of credited service with the Company.
• Benefit service	Service prior to January 1, 1998 is determined under the terms of the prior plans. On or after January 1, 1998, and prior to January 15, 2012, benefit service is determined as years and completed months of employment with the Company. On or after January 15, 2012, benefit service is determined as years and months in which one has worked for more than one hour of credited service with the Company.

Schedule SB, Part V — Summary of Plan Provisions

• Compensation	Total earnings from the Employer, as reported on Form W-2 including the amount of any authorized reductions pursuant to a salary reduction agreement under Section 401(k) or Section 125 of the Code, but excluding certain non-income related items such as moving expenses and fringe benefits.
• Average Monthly Compensation	Compensation received during the highest five consecutive completed calendar years within the last 10 calendar years of service prior to January 15, 2012. If a participant has less than five calendar years of service, the average monthly compensation received in all full consecutive completed calendar years of service prior to January 15, 2012.
• Prior Plan Accrued benefit	The accrued benefit as of December 31, 1985, payable at age 65 for which an annuity has been purchased from Travelers.
• Normal Retirement Date	The first of the month coincident with or next following age 65.

Schedule SB, Part V — Summary of Plan Provisions

Normal retirement	
• Eligibility	Age 65.
• Benefit	<p>Past Service Benefit</p> <p>Frozen Accrued Benefit as of December 31, 1997 earned under the provisions of the prior Great Dane plan, payable as an annuity or converted to a lump sum.</p> <p>10% of Average Monthly Compensation for each year of service earned after January 1, 1988 through January 15, 2012, payable as a lump sum or converted to an annuity.</p> <p>Future Service Benefit</p> <p>Hourly: \$25 per completed month of Benefit Service earned after January 15, 2012, payable as an annuity.</p> <p>Salaried: 0.75% of Compensation earned after January 15, 2012, payable as an annuity</p>
Early retirement	
• Eligibility	Attainment of age 55 and 10 years of Vesting Service.
• Benefit	The Future Service Component is reduced according to the actuarial equivalence definition in effect after January 15, 2012. The Past Service Benefits described above are reduced as follows: The Past Service Component earned after December 31, 1997 and prior to January 15, 2012 is reduced 5% for each year retirement precedes age 65. The Past Service Component earned prior to December 31, 1997 is reduced according to the prior early retirement reduction factors (6% from 60-65 and 3% from 55-60).
Termination benefits	
• Eligibility	3 years of Vesting Service.
• Benefit	An amount equal to 100% of the Accrued Benefit as of date of termination payable as an annuity only. The benefit payment date is deferred to the Normal Retirement Date. Participants with 10 years of Vesting Service at severance of employment may elect a reduced annuity commencing as early as age 55. The Past Service Component earned prior to January 15, 2012 and the Future Service Component are reduced for early retirement based on actuarial equivalent factors in effect at the time accruals were earned.

Schedule SB, Part V — Summary of Plan Provisions

Deferred retirement benefits	
• Eligibility	Retirement after Normal Retirement Date.
• Benefit	Normal Retirement Benefit based on service and pay at late retirement date.
Pre-retirement death benefits	
• Eligibility	3 years of Vesting Service.
• Benefit	<p>If death occurs while the participant is an active employee, the beneficiary receives 50% of the participant's Past Service Components reduced for the 50% joint and survivor form, but not reduced for early retirement, payable beginning on the participant's earliest retirement date. Future Service Components earned after January 15, 2012 are reduced for the 50% joint and survivor form and for early retirement.</p> <p>If death occurs while the participant is no longer employed, 50% of the participant's accrued benefit, reduced for the 50% joint and survivor form, payable at the participant's normal retirement date or reduced according to the applicable early retirement factors if benefits begin prior to the participant's normal retirement date.</p>
Disability benefits	
• Eligibility	3 years of Vesting Service
• Benefit	An amount equal to 100% of the sum of the Past and Future Service Benefits as of the date of disability payable as an annuity only. The benefit payment date is deferred to the Normal Retirement Date. Participants with 10 years of Vesting Service at severance of employment may elect a reduced annuity commencing as early as age 55. The Past Service Component earned prior to January 15, 2012 and the Future Service Component are reduced for early retirement based on actuarial equivalent factors in effect at the time accruals were earned.
Form of benefits	
• Automatic form for unmarried participants	Life annuity.
• Automatic form for married participants	A reduced, Qualified 50% Joint and Survivor Annuity.

Schedule SB, Part V — Summary of Plan Provisions

• Optional forms	For benefits earned prior to January 15, 2012: Actuarially equivalent Qualified Joint and 50%, 75% or 100% Survivor Annuity. Lump-sum payments are available at early and normal retirement only.
	Benefits earned after January 15, 2012 are available as actuarially equivalent Life, Qualified Joint and 50%, 75% or 100% Survivor Annuity form only.
• Actuarial Equivalence for Optional form conversion factors and Early Retirement	Valuation assumptions for benefits accrued prior to January 15, 2012 6% interest and RP2000 mortality projected to 2015 (healthy, 50% male / 50% female, no collar adjustment) for benefits accrued after January 15, 2012
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2015, the limit is \$265,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2015, the limit is \$210,000.

Plan Provision Changes Since Prior Valuation

- Maximum benefit amounts under IRS rules were updated from 2014 to 2015.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Assumptions**

To prepare an actuarial valuation, assumptions are used in a forward looking financial and demographic model to present a single scenario from a wide range of possibilities. The future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material because actuarial estimates can be very sensitive to the assumptions made and, in some cases, to the interaction between the assumptions.

Different assumptions or scenarios within the range of possibilities may also be reasonable and results based on alternative assumptions would be different. As a result of the uncertainty inherent in a forward looking projection over a very long period of time, no one projection is uniquely "correct" and many alternative projections of the future could also be regarded as reasonable. Two different actuaries could, quite reasonably, arrive at different results based on the same data and different views of the future. A "sensitivity analysis" shows the degree to which results would be different if alternative assumptions are used for the actuarial estimates. At CC Industries, Inc.'s request, Mercer is available to perform such a sensitivity analysis.

Assumptions may also be changed from one valuation to the next because of changes in mandated requirements, plan experience, changes in expectations about the future and other factors. A change in assumptions is not an indication that prior assumptions were unreasonable when made.

417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and unisex generational mortality.

Rationale for Economic Assumptions

- Salary increases – The salary scale assumption is based on an experience study covering the period January 1, 2009 to January 1, 2014, adjusted to reflect management's expectations for wage changes in the future.
- Assumed plan-paid expenses for the upcoming year are based on prior year experience, adjusted (if material for the purpose) for expected changes in the upcoming year.
- Discount rate – The discount rate is prescribed by the plan sponsor through an election from allowable alternatives under IRS regulations. In addition, the interest rates used to value 417(e) lump sums for funding purposes are prescribed in IRS regulations to equal the funding discount rates.

Valuation Pay

Valuation pay for 2015 is equal to [(a) – (b) + (c) – (d) + (e)] multiplied by the funding salary scale: (a) 2014 actual pension compensation, annualized for layoffs during 2014; (b) actual bonus during 2014; (c) an assumed bonus equal to an individual's target bonus percent multiplied by their base compensation for 2014; (d) 2014 actual commissions; and (e) average of commissions for the prior 3 years.

Rationale for Demographic Assumptions

- Mortality – Prescribed assumption and based on plan sponsor's PPA election.
- Withdrawal – The withdrawal rates are based on an experience study undertaken in 2014 and adjusted to reflect management's expectations of withdrawal rates in the future.
- Retirement age – The retirement rates are based on an experience study undertaken in 2014 and adjusted to reflect management's expectations of retirement rates in the future.
- Benefit commencement age – The benefit commencement age is based on an experience study undertaken in 2010. An experience study in 2014 found that benefit commencement age experience was in line with expectations so the commencement age was not changed.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods

An actuarial valuation is only a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict the plan's future financial condition or its ability to pay benefits in the future and does not provide any guarantee of future financial soundness of the plan. Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, the period of time over which benefits are paid, plan expenses and the amount earned on any assets invested to pay benefits. These amounts and other variables are uncertain and unknowable at the valuation date.

Because modeling all aspects of a situation is not possible or practical, we may use summary information, estimates, or simplifications of estimates to facilitate the modeling of future events in an efficient and cost-effective manner. We may also exclude factors or data that, if used, in our judgment, would not have significantly affected our results. Use of such simplifying techniques does not, in our judgment, affect the reasonableness of valuation results for the plan.

Valuations do not affect the ultimate cost of the plan, only the timing of when benefit costs are recognized. Cost recognition occurs over time. If the costs recognized over a period of years are lower or higher than necessary, for whatever reason, normal and expected practice is to adjust future cost levels to recognize the entire cost of the plan over time.

Actuarial Methods for Funding

Asset Methods

The asset valuation method is the fair market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides benefits that are not a function of a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the ratio of the participant's service at the beginning of the plan year to their service at each decrement age and is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum Deductible Contribution Method

Calculation of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of future benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount".
