Notes to Financial Statements

1. DESCRIPTION OF THE PLAN

The following description of the Ideal Clamp Products 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan’s provisions.

General

The Plan, which was established May 1, 1979, and was most recently amended and restated effective January 1, 2015, is a defined contribution plan available for qualifying employees of Ideal Clamp Products Inc. (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Trustee and Administration of the Plan

The trustee of the Plan is Charles Schwab Bank (“Trustee”). The recordkeeper of the Plan is TRI-AD Actuaries, Inc. (“Recordkeeper”). The administrator of the Plan is the Company. The Plan’s Investment Committee determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Eligibility

Employees are eligible to participate in the Plan after completing thirty consecutive days of employment, with the exception of temporary employees who are eligible to participate in the Plan after completing a period of service (12 consecutive months of service with at least 1,000 hours).

Union employees whose employment is governed by a collective bargaining agreement, leased employees, non-resident aliens, employees who participate in the Company’s work co-op or internship programs, and temporary employees who fail to complete a period of service are not eligible to participate in the Plan.

Contributions

Participants may contribute on a pre-tax or after-tax Roth basis up to 100% of their annual eligible compensation, subject to certain Internal Revenue Code (“IRC”) limitations (\$18,000 for 2015). Participants who have attained or will attain the age of 50 by the last day of the plan year may elect to make catch-up contributions, as defined by the Plan, subject to IRC limitations (\$6,000 for 2015). An eligible employee will be automatically enrolled in the Plan at a 3% pre-tax contribution. Participants may waive the automatic enrollment. Participants may also increase or decrease their deferral percentages on the first day of any pay period.

The Company makes a safe harbor basic matching contribution of 100% of the first 3% of employee contributions, plus 50% of the next 2% of employee contributions. Catch-up contributions are matched.

Ideal Clamp Products 401(k) Plan

Notes to Financial Statements

The Company may also make an annual discretionary profit sharing contribution. Participants are eligible to receive a discretionary profit sharing contribution if they have completed a year of service (12 months of service with at least 1,000 hours), and are employed by the Company on the last day of the plan year. These discretionary contributions will be allocated in the ratio that a participant's annual total compensation bears to the compensation paid to all eligible participants for the plan year. No annual discretionary contributions were made for the plan year ended December 31, 2015.

Rollover contributions transferred from other qualified retirement plans or Individual Retirement Accounts ("IRA") are accepted as permitted by the Plan Document.

Participants Accounts and Investment Options

Each participant's account is credited with (1) the participant's pre-tax, after-tax Roth, catch-up, and rollover contributions; (2) the Company's discretionary profit sharing and safe harbor basic matching contributions; and (3) an allocation of plan earnings or losses thereon. Each participant's account is charged with withdrawals and expenses. Earnings or losses from investment funds are allocated to each participant's account in the proportion that the balance of each participant's account bears to the total balance of all participants in each fund. Participants may direct the investment of their account balances into various investment options offered by the Plan, and may change their investment elections at any time.

The Plan offers various registered investment companies and a stable value collective investment trust as investment options for participants. The benefit to which participants are entitled is the vested portion of their accounts. If a participant does not affirmatively elect an investment allocation, a Target Date Fund appropriate for the participant's age will be selected for them.

Vesting and Forfeitures

Participants are immediately 100% vested in their pre-tax, after-tax Roth, catch-up, rollover and employer safe harbor basic matching contributions. Participants are 100% vested in the discretionary profit sharing contribution upon completion of three years of service.

A participant's vesting percentage in discretionary contributions shall be 100% if the participant dies while employed, becomes disabled, or reaches normal retirement age (age 65).

In the event the Plan has forfeited balances, forfeitures may be applied to reduce future employer contributions or pay plan administrative expenses. The forfeitures account had a zero balance at December 31, 2015 and 2014. During the year ended December 31, 2015, there were no forfeitures used to reduce employer contributions or applied to administrative expenses.

Ideal Clamp Products 401(k) Plan

Notes to Financial Statements

Payment of Benefits

A participant's vested interest in the Plan is payable upon termination of employment for any reason or upon death. Upon termination of service, the participant may (1) elect to receive the distribution in a lump sum, (2) roll over their account balance to another qualified plan or IRA, or (3) leave the account in the Plan up to age 70½, at which time one of the above distribution options must be selected if the participant is no longer employed.

If a participant dies before benefits have begun, the vested portion of the account is paid to the beneficiary in a lump sum.

Terminated participants, whose account balance is less than \$1,000, will receive a lump-sum cash distribution, if the participant does not elect another form of distribution, or if the balance is over \$1,000 but no more than \$5,000 it will be rolled into an IRA in the name of the participant. Terminated participants may elect to withdraw any portion of their accounts at any time after they terminate, provided the minimum amount requested is at least \$1,000; or the total account balance if at that time is less than \$5,000.

Actively employed participants can begin withdrawing their employer safe harbor basic matching contribution account along with their pre-tax, after-tax Roth and rollover balances without penalty at age 59½. In-service hardship distributions are allowed if certain criteria are met. A beneficiary may elect to rollover any portion of a distribution that would constitute an eligible rollover distribution if it were made by a participant, surviving spouse or alternate payee.

Notes Receivable from Participants

A participant may borrow a minimum of \$1,000 up to 50% of his or her non-forfeitable balance not to exceed \$50,000. The borrowing is secured by the balance in the participant's account and bears an interest rate based on the rates available for similar borrowings from commercial institutions and is fixed for the term of the note. Interest rates on outstanding borrowings at December 31, 2015 range from 4.25% to 5.25%. The borrowing is repaid ratably through payroll deductions over a period of four and one half years or less. Only one borrowing may be outstanding at a time, and a participant may not originate more than one new borrowing in a twelve month period.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. Should the Plan be terminated, the assets of the Plan would be distributed to the participants based on their individual account balances as determined under the provisions of the Plan. To the extent not already vested, participants would be fully vested upon termination of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued ASU 2015-07 which provides new guidance under Topic 820, *Fair Value Measurements, Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. The update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") per share as a practical expedient. The update also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share as a practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. This update is effective for all public entities for fiscal years beginning after December 15, 2015. Management has elected to early adopt ASU 2015-07 for the 2015 plan year, with retrospective application, as required, and has therefore removed investments for which fair value is measured using NAV as a practical expedient from the fair value hierarchy table.

In July 2015, the FASB issued Accounting Standards Update ("ASU") 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I clarifies the definition of a fully benefit-responsive investment contract and how to account for such investments. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Management has elected to adopt Part I and II early, with retrospective application, as required.

Ideal Clamp Products 401(k) Plan

Notes to Financial Statements

Adoption of the new accounting pronouncements was not material to the Plan's financial statements.

Investment Valuation

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and Trustee. See Note 4, *Fair Value Measurements and Disclosures*, for discussion of fair value measurements.

Income Recognition

Interest income is recorded as earned on the accrual basis. Dividend income and capital gains distributions are recorded on the ex-dividend date. Investment transactions are recorded on the trade-date basis. Interest and dividend income includes interest on the common collective trust fund and dividends on holdings in registered investment companies. Net appreciation (depreciation) in the fair value of investments represents the realized and unrealized gains and losses on the investments.

Payment of Benefits

Benefit payments to participants are recorded when paid. As of December 31, 2015 and 2014 there were no benefit payments authorized and approved for payment but not paid as of year-end.

Contributions

Participant contributions and related employer contributions are recognized in the period during which the Company makes payroll deductions from the participant's compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Any accrued but unpaid interest was de minimus. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses

The Plan may pay for eligible Plan expenses as provided by the Plan Document. Fees, primarily loan origination, distribution fees, and asset based fees, are charged directly to the participant's account and are included in administrative expenses. Administrative expenses of \$50,426 were paid by the Plan for the year ended December 31, 2015. All other expenses of the Plan incurred during 2015 were paid by the Company and are excluded from these financial statements.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified the following information included in the accompanying financial statements and supplemental schedule as complete and accurate:

- Cash, investments and participant notes receivable as reported in the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014.
- Investment income (loss) and interest earned on notes receivable from participants as reported on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015.
- Investment information included in the Notes to Financial Statements.
- All investment information included in the Supplemental Schedule - Form 5500, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) – As of December 31, 2015.

The Plan's independent auditors did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental Schedule of Assets (Held at End of Year) – as of December 31, 2015.

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES

FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets for identical assets and liabilities. Level 2 inputs are inputs for quoted prices for similar assets or liabilities in active markets; inputs for quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Ideal Clamp Products 401(k) Plan

Notes to Financial Statements

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the valuation methodology used at December 31, 2015 and 2014:

Registered investment companies (mutual funds): The shares of mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. Mutual funds held by the Plan are deemed to be actively traded.

Stable Value Collective Investment Trust: The Union Bond and Trust Company Morley Stable Value Fund (the “Fund”) is a stable value fund that is valued at the net asset value of the Fund. The NAV is used as a practical expedient to estimate fair value based on the fair value of the underlying investments held by the fund less any liabilities. This practical expedient would not be used if it is determined to be probable that the Fund will sell the investment for an amount different from the reported NAV. Participants can ordinarily direct the withdrawal or transfer of all or a portion of their investment without penalty. Withdrawals for other than normal benefit payments and participant directed transfers may require up to twelve months advanced notice. If the Fund experiences periods of insufficient liquidity, the Fund may defer honoring any payment requests until liquidity is sufficient.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s investments measured at fair value on a recurring basis:

<i>As of December 31, 2015</i>	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 17,663,521	\$ -	\$ -	\$ 17,663,521

Investments measured at net asset value (a)	-	-	-	4,731,121
Total investments at fair value	\$ 17,663,521	\$ -	\$ -	\$ 22,394,642

Ideal Clamp Products 401(k) Plan

Notes to Financial Statements

<i>As of December 31, 2014</i>	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 17,424,942	\$ -	\$ -	\$ 17,424,942
Total assets in the fair value hierarchy	17,424,942	-	-	17,424,942
Investments measured at net asset value (a)	-	-	-	4,499,143
Total investments at fair value	\$ 17,424,942	\$ -	\$ -	\$ 21,924,085

- (a) In accordance with Subtopic 820-10, certain investments that were measured at NAV value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial statements within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2015, there were no transfers in or out of Levels 1, 2, or 3.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

<i>Investment Type</i>	<i>Fair Value – December 31, 2015</i>	<i>Fair Value – December 31, 2014</i>	<i>Unfunded Commitments</i>	<i>Redemption Frequency</i>	<i>Redemption Notice Period</i>

Ideal Clamp Products 401(k) Plan

Notes to Financial Statements

5. INCOME TAX STATUS

The Company adopted a Volume Submitter plan document sponsored by Sunguard Business Systems LLC. The Internal Revenue Service ("IRS") has determined and informed SunGard Business Systems LLC, by a letter dated March 31, 2014, that the Volume Submitter Profit Sharing Plan with CODA qualifies under Code Section 401. The Plan has since been amended; however, the plan administrator and Company management believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The plan administrator and Company management believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date, therefore no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Plan has a service agreement with the Recordkeeper which shall continue indefinitely, unless cancelled by either party with prior written notice. Payments to the Recordkeeper by the Plan consisted of administrative fees totaling \$50,426 for the plan year ended December 31, 2015. Also, the Trustee receives indirect fees charged within the investment accounts. In addition, participants could borrow from their accounts (notes receivable from participants). The above transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. CONCENTRATIONS, RISKS AND UNCERTAINTIES

The Plan provides for various investments in registered investment companies and a collective investment trust. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risk. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in economic conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Ideal Clamp Products 401(k) Plan

Notes to Financial Statements

As of December 31, 2015 and 2014 there were two investments held which accounted for individually more than 10% of net assets available for Plan benefits. See the supplemental Schedule of Assets (Held at End of Year) for listing of investments held at December 31, 2015.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the accompanying financial statements to Form 5500 as of December 31, 2014:

<i>As of December 31,</i>	<i>2014</i>
Net assets available for benefits per the accompanying financial statements	\$ 22,549,294
Add: Adjustment from contract value to fair value related to collective investment trusts	42,206
Net assets available for benefits per Form 5500 (unaudited)	\$ 22,591,500

The following is a reconciliation of the Plan's net increase in net assets available for benefits per the accompanying financial statements for the year ended December 31, 2015 to Form 5500:

<i>Year Ended December 31,</i>	<i>2015</i>
Net increase in net assets available for benefits per the accompanying financial statements	\$ 517,027
Less: 2014 Adjustment from fair value to contract value related to collective investment trusts	(42,206)
Total investment income per the Form 5500 (unaudited)	\$ 474,821

9. SUBSEQUENT EVENTS

The Plan Administrator has evaluated subsequent events through September 28, 2016 which is the date the financial statements were available to be issued. No events or transactions discovered during this evaluation require recognition or disclosure in the financial statements.
