(1) Description of the Plan

The following description of PSCU Incorporated Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all employees of PSCU Incorporated and Subsidiary (the "Company") who have completed the service requirement of one calendar month or 30 days of continuous service. The Plan was established effective November 29, 1988, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan has adopted certain provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA).

(b) Contributions

Participants in the Plan may contribute up to 100% of their annual pretax compensation, as defined, not to exceed the maximum annual contribution limit allowed by the Internal Revenue Code (the Code). For the years ended December 31, 2015 and 2014, the Company matched 100% of the first 3% of a participant's compensation that was contributed and 50% of the next 3% of a participant's compensation. The Plan's elected match qualifies the plan as a safe harbor plan.

Contributions are limited to the amount allowable as a deduction for federal income tax purposes under the applicable provisions of the Code. The Plan has a group annuity contract with Voya Retirement Insurance and Annuity Company, formerly ING Life Insurance and Annuity Company, (Voya, the trustee) under which contributions to the Plan are allocated to specific funds, as instructed by the participants. Upon enrollment in the Plan, participants may direct employer and employee contributions in percentage increments to any of the investment options and may change their investment options at any time.

The Plan accepts rollovers and direct transfers from other tax-qualified plans.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, the employer's matching contributions, rollover contributions from other qualified retirement plans and allocations of the Plan's earnings. Allocation of earnings is based upon the participant's account balance, as defined.

(1) Description of the Plan - Continued

(d) Vesting

Participants are immediately 100% vested in their elective contributions and the employer matching contributions plus actual earnings thereon.

(e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms may not exceed five years unless for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions. Loans to participants are made from their vested account balances as directed by participants, in accordance with the Plan document. A participant may not have more than one outstanding loan balance at any time. Loans to participants bear interest at rates ranging from 3.25% to 8.75%.

(f) Benefit Payments

Upon a participant's retirement, death, total and permanent disability, or termination of employment, the vested balance in the participant's account is distributed to the participant or the designated beneficiary. The Plan provides for benefit distributions by lump-sum payment or partial withdrawals.

(g) Administrative Expenses

All of the administrative expenses of the Plan may be paid by the Company or the Plan. During 2015, the Company paid substantially all of the administrative expenses of the Plan.

(h) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates that affect amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

(c) Investments Valuation and Income Recognition

Shares of registered investment companies are valued at the net asset value of the shares held by the Plan at year-end.

Investments in the guaranteed interest account, the Voya Fixed Account (VFA), are held in a general account managed by Voya, which supports insurance and annuity obligations of Voya. No portion of the general account is attributable to a particular plan nor do plans have any undivided ownership interest in the general account assets. The VFA is credited with declared rates of interest and are subject to a minimum rate under the contract with Voya, which is 1.0%. The VFA is reported at contract value which represents the fair value to the Plan as contract value is the basis for participant initiated transactions.

Withdrawals from the VFA to pay participant benefits are made at contract value. Certain events may limit the ability of the plan to transact at contract value at which time a surrender charge is applicable and market value adjustment or withdrawals are made in installment payments only over a period of time as elected by the contract holder. The Company does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend rate.

(d) Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities based upon participant requests. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

(2) Summary of Significant Accounting Policies - Continued

(e) New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value per share as a practical expedient provided by FASB Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* (ASC 820). Disclosures about investments in certain entities that calculate net asset value per share are limited under this ASU to investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. The guidance requires retrospective application and is effective for public entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Plan's management is currently evaluating the impact of ASU 2015-07 and does not expect the adoption of this ASU to have a material impact on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of this ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risk. Further the disclosure of information about fair value measurements shall be provided by general type of plan investment. Part III of this ASU allows a plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The guidance is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted. The guidance on fully benefit-responsive investment contracts and plan investment disclosures must be applied retrospectively. The guidance on measurement date practical expedient must be applied prospectively. Plan management has elected to early adopt Parts I and II. Adoption of this standard resulted in the reclassification of $(444,223) from adjustment from fair value to contract value for fully benefit responsive investment contract to guaranteed interest account on the statement of net assets available for benefits as of December 31, 2014. The statement of changes in net assets available for benefits of the Plan was not affected by the adoption of the new guidance. Part III is not applicable to this Plan.

(3) Information Certified by Voya Retirement Insurance and Annuity Company (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Voya, the trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Total investments at fair value, as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014;

- Total investment income and net depreciation in fair value of investments and related investment activity as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015;

- The Schedule of Assets (Held at End of Year), as of December 31, 2015, as shown in the supplemental schedule, excluding participant loans.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

(4) Fair Value Measurements

The Plan applies the provisions of ASC 820 in measuring fair value. ASC 820 established a three tier fair value hierarchy which prioritized the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly;

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Following is a description of the valuation methodologies used for investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered Investment Companies

Registered investment companies are valued at quoted market prices in an exchange and active markets, which represent the net asset values of shares held by the Plan at year end and are classified as Level 1 inputs.

(4) Fair Value Measurements - Continued

Guaranteed Interest Account

This investment is reported at contract value, which represents the plan's fair value. The contact value of the guaranteed interest account is calculated based on the daily credited rate and any market value adjustments, contract surrender charges or other applicable fees.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values.

The following tables set forth information regarding the Plan's financial assets that are measured at fair value in accordance with ASC 820:

		Fair Value Measurements at Reporting Date Using		
Description	December 31, 2015	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

	$ 75,402,452	61,941,140	13,461,312	-

(5) Party-in-Interest

Certain Plan investments are shares of mutual funds and a fixed account managed by Voya. Voya is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan paid Voya approximately $11,000 in expenses during the year ended December 31, 2015.

(6) Income Tax Status

The Plan has adopted the Voya prototype plan which received its latest opinion letter dated September 1, 2014 from the Internal Revenue Service stating that the Plan is qualified under Section 401(a) of the Code, and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Subsequent Events

In preparing these financial statements, Plan management has evaluated events and transactions for potential recognition and disclosure through September 29, 2016, the date the financial statements were available to be issued.

(1) Description of the Plan

The following description of PSCU Incorporated Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all employees of PSCU Incorporated and Subsidiary (the "Company") who have completed the service requirement of one calendar month or 30 days of continuous service. The Plan was established effective November 29, 1988, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan has adopted certain provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA).

(b) Contributions

Participants in the Plan may contribute up to 100% of their annual pretax compensation, as defined, not to exceed the maximum annual contribution limit allowed by the Internal Revenue Code (the Code). For the years ended December 31, 2015 and 2014, the Company matched 100% of the first 3% of a participant's compensation that was contributed and 50% of the next 3% of a participant's compensation. The Plan's elected match qualifies the plan as a safe harbor plan.

Contributions are limited to the amount allowable as a deduction for federal income tax purposes under the applicable provisions of the Code. The Plan has a group annuity contract with Voya Retirement Insurance and Annuity Company, formerly ING Life Insurance and Annuity Company, (Voya, the trustee) under which contributions to the Plan are allocated to specific funds, as instructed by the participants. Upon enrollment in the Plan, participants may direct employer and employee contributions in percentage increments to any of the investment options and may change their investment options at any time.

The Plan accepts rollovers and direct transfers from other tax-qualified plans.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, the employer's matching contributions, rollover contributions from other qualified retirement plans and allocations of the Plan's earnings. Allocation of earnings is based upon the participant's account balance, as defined.

(1) Description of the Plan - Continued

(d) Vesting

Participants are immediately 100% vested in their elective contributions and the employer matching contributions plus actual earnings thereon.

(e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms may not exceed five years unless for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions. Loans to participants are made from their vested account balances as directed by participants, in accordance with the Plan document. A participant may not have more than one outstanding loan balance at any time. Loans to participants bear interest at rates ranging from 3.25% to 8.75%.

(f) Benefit Payments

Upon a participant's retirement, death, total and permanent disability, or termination of employment, the vested balance in the participant's account is distributed to the participant or the designated beneficiary. The Plan provides for benefit distributions by lump-sum payment or partial withdrawals.

(g) Administrative Expenses

All of the administrative expenses of the Plan may be paid by the Company or the Plan. During 2015, the Company paid substantially all of the administrative expenses of the Plan.

(h) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates that affect amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

(c) Investments Valuation and Income Recognition

Shares of registered investment companies are valued at the net asset value of the shares held by the Plan at year-end.

Investments in the guaranteed interest account, the Voya Fixed Account (VFA), are held in a general account managed by Voya, which supports insurance and annuity obligations of Voya. No portion of the general account is attributable to a particular plan nor do plans have any undivided ownership interest in the general account assets. The VFA is credited with declared rates of interest and are subject to a minimum rate under the contract with Voya, which is 1.0%. The VFA is reported at contract value which represents the fair value to the Plan as contract value is the basis for participant initiated transactions.

Withdrawals from the VFA to pay participant benefits are made at contract value. Certain events may limit the ability of the plan to transact at contract value at which time a surrender charge is applicable and market value adjustment or withdrawals are made in installment payments only over a period of time as elected by the contract holder. The Company does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend rate.

(d) Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities based upon participant requests. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

(e) New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value per share as a practical expedient provided by FASB Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* (ASC 820). Disclosures about investments in certain entities that calculate net asset value per share are limited under this ASU to investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. The guidance requires retrospective application and is effective for public entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Plan's management is currently evaluating the impact of ASU 2015-07 and does not expect the adoption of this ASU to have a material impact on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of this ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risk. Further the disclosure of information about fair value measurements shall be provided by general type of plan investment. Part III of this ASU allows a plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The guidance is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted. The guidance on fully benefit-responsive investment contracts and plan investment disclosures must be applied retrospectively. The guidance on measurement date practical expedient must be applied prospectively. Plan management has elected to early adopt Parts I and II. Adoption of this standard resulted in the reclassification of $(444,223) from adjustment from fair value to contract value for fully benefit responsive investment contract to guaranteed interest account on the statement of net assets available for benefits as of December 31, 2014. The statement of changes in net assets available for benefits of the Plan was not affected by the adoption of the new guidance. Part III is not applicable to this Plan.

(3) Information Certified by Voya Retirement Insurance and Annuity Company (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Voya, the trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Total investments at fair value, as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014;

- Total investment income and net depreciation in fair value of investments and related investment activity as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015;

- The Schedule of Assets (Held at End of Year), as of December 31, 2015, as shown in the supplemental schedule, excluding participant loans.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

(4) Fair Value Measurements

The Plan applies the provisions of ASC 820 in measuring fair value. ASC 820 established a three tier fair value hierarchy which prioritized the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly;

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Following is a description of the valuation methodologies used for investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered Investment Companies

Registered investment companies are valued at quoted market prices in an exchange and active markets, which represent the net asset values of shares held by the Plan at year end and are classified as Level 1 inputs.

(4) Fair Value Measurements - Continued

Guaranteed Interest Account

This investment is reported at contract value, which represents the plan's fair value. The contact value of the guaranteed interest account is calculated based on the daily credited rate and any market value adjustments, contract surrender charges or other applicable fees.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values.

The following tables set forth information regarding the Plan's financial assets that are measured at fair value in accordance with ASC 820:

		Fair Value Measurements at Reporting Date Using

(5) Party-in-Interest

Certain Plan investments are shares of mutual funds and a fixed account managed by Voya. Voya is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan paid Voya approximately $11,000 in expenses during the year ended December 31, 2015.

(6) Income Tax Status

The Plan has adopted the Voya prototype plan which received its latest opinion letter dated September 1, 2014 from the Internal Revenue Service stating that the Plan is qualified under Section 401(a) of the Code, and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Subsequent Events

In preparing these financial statements, Plan management has evaluated events and transactions for potential recognition and disclosure through September 29, 2016, the date the financial statements were available to be issued.
