Employees of The National Bank and Trust Company (the Bank), a wholly-owned subsidiary of the Company, also participated in the Plan. The Plan was subject to the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986 (the Code), as amended.

The Company was acquired by Peoples Bancorp, Inc. (Peoples) during the 1st quarter of 2015. By vote of Peoples' Board of Directors on February 18, 2015, the Plan was terminated. All Plan assets were distributed by December 23, 2015 in accordance with the provisions of ERISA.

The trust department of the Bank was the trustee of the Plan until the acquisition, at which time Peoples became trustee.

Contributions

Participants could contribute traditional pre-tax contributions or after tax Roth contributions up to the maximum amount allowed by law. The Plan provided for the automatic enrollment of eligible employees at a deferral rate of 6% of eligible compensation (on a pre-tax basis), unless the participant affirmatively elected otherwise. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. The Company made safe harbor matching contributions equal to 100 percent of the first 3 percent of eligible compensation and 50 percent of the next 2 percent of eligible compensation that a participant contributed to the Plan. Additional employer matching or profit sharing amounts could be contributed at the discretion of the Board of Directors of the Company. Contributions were subject to certain IRS limitations. Participants directed the investment of contributions into various investment options offered by the Plan.

Participant accounts

Each participant's account was credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings and losses. Participant accounts may have been charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting
All participants were immediately vested in elective deferrals, rollover contributions, and profit sharing contributions, as adjusted for actual earnings and losses thereon. Vesting in the Company's safe harbor matching and employer matching contribution portion of employees' accounts was based on years of vesting service, as defined. Participants were 100% vested after two years of service for safe harbor matching contributions and after three years of service for employer matching contributions.

At the time of Plan termination, participants became 100% vested in their accounts, to the extent they were not already vested.

Notes receivable from participants
Participants were able to borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans were secured by the balance in the participant's account. The loan interest rate, determined quarterly, was set at the prime rate, as defined. Principal and interest were paid ratably through biweekly payroll deductions.

At the time of Plan termination, participants who became employees of Peoples could elect to rollover their outstanding loan balance to Peoples' qualified plan.

Benefits
Upon a participant's retirement, death, total and permanent disability, or other termination of employment with the Company, the participant's vested account was able to be distributed as a lump sum payment or partial withdrawals. Additionally, prior to termination from employment, a participant was able to withdraw all or a portion of his or her vested account balance upon reaching age 65 or incurring a financial hardship (if certain requirements were satisfied). In the event of a participant's death, a participant's vested account balance remaining in the Plan would have been paid to the participant's beneficiary.

At the time of Plan termination, participants were required to distribute their account balance in the form of a lump sum payment to the participant or a direct rollover to Peoples' qualified plan or another IRA or qualified retirement plan.

Forfeited accounts
No forfeited nonvested accounts remained in the Plan at December 23, 2015. At December 31, 2014, forfeited nonvested accounts totaled $488. During 2015, the Company used $2,401 of forfeitures to pay administrative expenses. No forfeitures were used to pay administrative expenses in 2014. No forfeitures were used to reduce employer contributions during 2015. During 2014, employer contributions were reduced by $4,500 from forfeitures.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of presentation
The financial statements – liquidation of the Plan are prepared on the accrual basis of accounting and on the liquidation basis of accounting.

The Plan administrator prepares the Form 5500 on the contract value basis, and as such, there is no reconciliation between the financial statements – in liquidation and Form 5500.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invested in investment contracts through a common collective trust. Contract value for this common collective trust fund was based on the net asset value (NAV) of the fund as reported by the trustee. As required by professional standards, the statements of net assets available for benefits – in liquidation present the fair value of the investment in the common collective trust fund as well as the adjustment of the investment in the common collective trust fund from fair value to contract value relating to the investment contract. The statements of changes in net assets available for benefits – in liquidation are prepared on a contract value basis.

Upon termination of the Plan, participants were able to withdraw their investment in the common collective trust fund at contract value.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments were reported at fair value. Fair value is the price that would have been received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Dividends and interest received by the Plan were reinvested into the respective funds. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants were measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses was recorded as of December 31, 2014. If a participant ceased to make loan repayments and the plan administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded.

Payment of benefits
Benefit payments were recorded when paid. Certain deemed distributions of participant loans were included in benefits paid.

Administrative expenses
Certain expenses of maintaining the Plan were paid directly by the Company and have been excluded from these financial statements – in liquidation. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in net appreciation in fair value of investments.

Subsequent events
The plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEES:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the plan's independent auditors not to perform any auditing procedures with respect to the investment information and related investment income included on the statements of net assets available for benefits – liquidation and the statements of changes in net assets available for benefits – in liquidation, certified by National Bank and Trust Company and Peoples Bank Trust Department, the trustees of the Plan during 2014 and 2015, as complete and accurate, except for comparing such information certified by the trustees to information included in the Plan's financial statements – in liquidation.

4. INVESTMENTS:

The following presents investments that represented 5 percent or more of the Plan's net assets available for benefits as of December 31, 2014:

MetLife Stable Value Fund	$ 1,545,558
Fidelity Advances New Insights	851,625
MFS Value Fund	884,281
Pimco GNMA Fund	644,760
Janus Enterprise Fund	747,198
John Hancock Mid Cap Value Fund	630,516
Metropolitan West Fund	785,958

The Plan's investments in registered investment companies (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $284,147 for 2015 upon liquidation, and $386,587 for 2014.

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies: Valued at the daily closing prices as reported by the fund. The funds held by the Plan were registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan were deemed to be actively traded.

Common collective trust: Common collective trusts do not have a readily determinable fair value. The Plan has elected to report the investment based on the net asset value per share that is certified and reported by the investment manager.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014.

	Investments at fair value as of December 31, 2014			
	Fair Value	Level 1	Level 2	Level 3

6. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

National Bank and Trust Company was the trustee of the Plan from January 1, 2014 through March 6, 2015. Fees paid to the Bank for trustee services were $80 and $5,174 for 2015 and 2014, respectively. Peoples Bank Trust Department was the trustee of the Plan from March 7, 2015 through December 23, 2015. Fees paid to Peoples for trustee services were $445 for 2015.

During 2013, the Department of Labor conducted an audit of the plan and determined that fees paid by the Plan to National Bank and Trust Company violated certain provisions of ERISA and deemed that the payment of such fees constituted a prohibited transaction. As a result, the Plan Sponsor agreed to reimburse the Plan $39,204 of fees paid during 2010 through 2014 as well as contribute $3,330 in lost earnings to the Plan. The required correction was completed during 2014.

7. INCOME TAX STATUS:

The Company had adopted a prototype plan which had received an opinion letter from the Internal Revenue Service (IRS), stating that the prototype plan document, as then designed, was in compliance with the applicable requirements of the Code. The Plan itself had not received a determination letter from the IRS. Although the Plan and the prototype plan document had been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believed that the Plan was designed and being operated in accordance with the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements – in liquidation.
