1. DESCRIPTION OF THE PLAN:

The following description of the NB&T Financial Group, Inc.(the Company or Employer) Employee Stock Ownership Plan (the "Plan") provides only general information.

General

Prior to its termination, the Plan was a defined contribution plan established January 1, 1985 and covered employees of the NB&T Financial Group, Inc.(the "Company") who are age twenty-one or older and have completed one year of service. Employees of The National Bank and Trust Company (the Bank), a wholly-owned subsidiary of the Company, also participated in the Plan. The Plan was designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC) and is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan had purchased Company common shares (shares or stock) and held the stock in a trust established under the Plan. All stock had been allocated to eligible employees' accounts in accordance with applicable regulations.

The Company was acquired by Peoples Bancorp, Inc. (Peoples) during the 1st quarter of 2015. By vote of Peoples' Board of Directors on February 18, 2015, the Plan was terminated. In March 2015, all Company stock in the Plan was converted to Peoples stock at a rate of 0.9319 shares of Peoples stock for every 1.0000 shares of Company stock. Additionally, $7.75 in cash per share of Company stock, totaling $1,659,686, was received by the Plan under the terms of the acquisition agreement. All Plan assets were distributed by December 1, 2015 in accordance with the provisions of ERISA.

The trust department of the Bank was the trustee of the Plan until the acquisition, at which time Peoples became trustee.

Contributions

The Company could make contributions to the Plan in cash or in Company shares which, when aggregated with the Plan's dividends and interest earnings, equaled the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Due to the loan being paid off in 2010, contributions were no longer being made to the Plan by the Company.

Participant accounts

A separate individual account was established for each participant in the Plan. Each participant's account was credited as of the last day of each plan year with an allocation of the Company's contribution, investment earnings and forfeitures of terminated participants' nonvested accounts. Only those participants who were eligible employees of the Company or its subsidiaries as of the last day of the plan year received an allocation.

Vesting
Upon completion of three years of service, a participant was 100% vested. According to the Plan provisions, a year was defined as 1,000 hours of service. Participants terminating due to normal retirement, death or disability were also 100% vested.

At the time of Plan termination, participants became 100% vested in their accounts, to the extent they were not already vested.

Benefits
Upon a participant's retirement, death, or other termination of employment with the Company, the participant's account was distributed in one lump sum in the form of shares plus cash for any fractional shares. If a participant elected, they could authorize the Plan to sell their shares and receive a cash distribution.

At December 31, 2014, Plan assets included $2,887,279 allocated to accounts of terminated or retired participants who had not yet been paid.

At the time of Plan termination, participants were required to distribute their account balance in the form of a lump sum payment of cash or distribution of shares to the participant or a direct rollover to an IRA or qualified retirement plan.

Diversification
Participants nearing retirement age had the opportunity to transfer a portion of the value of their investment into investments which were more diversified. Employees after having participated in the Plan for at least 10 years and having reached age 55, had the option of transferring up to 25% of the value of eligible shares from their account to the Company's 401(k) Plan. Employees could also transfer another 25% of their account upon reaching age 61.

Forfeited accounts
Forfeitures are allocated to eligible participants' accounts based on relative compensation. There were no forfeitures of non-vested accounts held by the Plan at December 1, 2015 or December 1, 2014. The dollar value of forfeitures allocated to eligible participants' accounts totaled $5 during 2015. No forfeitures were allocated to eligible participants' accounts during 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of presentation
The financial statements – liquidation of the Plan are prepared on the accrual basis of accounting and on the liquidation basis of accounting.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
The Plan's investments were stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis on a specific item basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments represented realized gains and losses on investments sold during the year and unrealized gains and losses on investments held at the end of the year, if any.

Payment of benefits
Benefits were recorded when paid.

Administrative expenses
Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. During 2015 and 2014 all Plan expenses were absorbed by the Company.

Subsequent events
The plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. INVESTMENTS:

The Plan's investments at December 31, 2014 consisted of the following which exceeded 5 percent of the Plan's net assets:

NB&T Financial Group, Inc. stock:	
Shares	298,780
Fair value	$ 9,531,082
Cost	$ 2,089,188

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

NB&T Financial Group, Inc. and Peoples Bancorp, Inc. common stock: Valued at the daily closing prices as reported on the NASDAQ Stock Exchange.

Money market fund: Valued at cost, which approximated fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014.

	Investments at fair value as of December 31, 2014			
	Fair Value	Level 1	Level 2	Level 3
NB&T Financial Group, Inc. common stock	$ 9,531,082	9,531,082	-	-
Money market funds	5,852	5,852	-	-
Total	$ 9,536,934	9,536,934	-	-

5. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEES:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the plan's independent auditors not to perform any auditing procedures with respect to the investment information and related investment income included on the statements of net assets available for benefits – in liquidation, statements of changes in net assets available for benefits – in liquidation, and the supplemental schedule of reportable transactions, certified by National Bank and Trust Company and Peoples Bank Trust Department, the trustees of the Plan during 2014 and 2015, as complete and accurate, except for comparing such information certified by the trustees to information included in the Plan's financial statements – in liquidation and supplemental schedule.

6. ADMINISTRATION OF PLAN ASSETS:

The trustees of the Plan held the Plan's assets, which consisted principally of the Company's and Peoples' common shares. Company assets were held and managed by the Trustees, which invested cash received and dividend income, and made distributions to participants. Officers or employees of the Company, Peoples or its subsidiaries performed certain administrative functions. No such officer or employee received compensation from the Plan.

7. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments were shares of the Company's common stock. During 2015 the Plan did not purchase any shares of Company stock or Peoples stock and sold 33,122 shares for $771,437. During 2014 the Plan purchased 8,756 shares of Company stock for $191,036 and sold 14,316 shares of Company stock for $432,343.

8. INCOME TAX STATUS:

The IRS determined and informed the Company by a letter dated August 14, 2013, that the Plan was qualified and the trust established under the Plan was tax-exempt, under the applicable sections of the IRC. Once qualified the Plan was required to operate in conformity with the IRC to maintain its qualification. Management believes the Plan was designed and operated in compliance with the applicable provisions of the IRC. Furthermore, the IRS determined and informed the Company by a letter dated May 11, 2015 that the termination of the Plan did not adversely affect the Plan's qualification for federal tax purposes.
